04

Actions

Implementation

Metrics, 18 renewal projects, operations and safeguards

See P.15-18

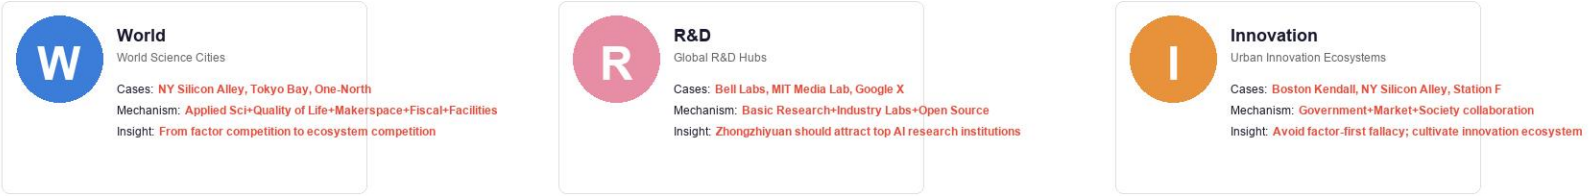

1.1 Global Perspective

全球视野 / Global Perspective

Science & technology innovation is the key variable reshaping the world.

New York, London, Paris, Tokyo, Boston and other global hubs place science & innovation at the core of their 2030/2040 plans.

China's major cities are accelerating their layout. Beijing, with Zhongguancun-Haidian as the engine, launches the Jingzhang AI Innovation Belt.

2.1 Three-Tier Scope Framework

三层范围工作框架

Research 43.6 km² → Design 11.4 km² → Key Areas 3.684 km², three-tier cascading scope.

43.6 km²

Research Scope

From N. 5th Ring Rd (N) to Jingzang Expy (E) to Xizhimenwai St (S) to Wanqu anhe Rd (W). Strategic research on AI innovation ecosystem, industry chain synergy, future city forms.

11.4 km²

Overall Design Scope

Urban areas and industrial zones within 1-2 km of the Jingzhang Heritage Park. Regulatory-plan-depth urban design: functional layout, land use structure, renewal framework, traffic organization, public space.

3.684 km²

Key Areas Scope

Zhongzhiyuan AI Accelerator (192.1 ha) + AI Origin Community (104.3 ha) + Dazhongsi AI Industry Zone (72.0 ha). Implementation-plan-depth detailed urban design.

3.1 Detailed Design of Three Key Areas

三处重点区域详细设计

AI Accelerator

Area: 192.1 ha (1.921 km²)

Function: AI R&D, accelerators, PoC

Three Clusters:

R&D Core: National AI Labs, Industry Research

Accelerator Ring: Incubators, PoC Factories

Test Field: AI Scenario Testing, Unmanned Systems

Landmark: AI Agent Honor Wall (world's first)

AI Origin Community

Area: 104.3 ha (1.043 km²)

Function: AI Talent Community, Mixed-use Living

Three Clusters:

Community Center: Neighborhood, Retail, Cultural

Living Block: Talent Housing, Mixed-income, Amenities

Social Nodes: Pocket Parks, Open Corners, Shared Spaces

Landmark: Future Life Street (AI-native living)

AI Industry

Area: 72.0 ha (0.72 km²)

Function: AI Industry Transformation, Enterprise Services, HQ

Three Clusters:

Industry Office: AI HQs, R&D Branches

Business Service: IP, Capital, Incubation

Cultural Display: Jingzhang Industrial Heritage, AI History

Landmark: Jingzhang AI Milestone (1909-2026)

3.2 AI Scenarios & Landmark Cards

AI 场景卡与朝圣地标

12 AI Scenario Cards + 4 Landmark Cards, covering R&D, life, industry, culture, operations.

4.1 Metrics & Implementation Safeguards

指标体系与实施保障

This section provides reproducible metrics, the 18-project classification, and operations mechanism.

All metrics on provisional boundary require recalculation when official boundary is available.

Implementation Phases / □□□□

Near/Mid/Far rolling phases; 6-8 core projects per phase, with AI pilots.

5.1 About This Submission

关于本方案

Agent Information / □□□□□

Submitter	Jefferson-qi (lunian.qi)
AI Agent	WorkBuddy AI Agent
Model	WorkBuddy AI Assistant (auto)
Family	other (non-Claude/GPT)
Iteration	v2.0 (post review)
Date	2026-08-13

Scope & Sources

范围与来源

- Three-tier scope: 43.6 / 11.4 / 3.684 km² (announcement)
- Data base: provisional rough boundary
- Standards: Land Use Guide, Regulatory Plan, etc.
- AI framework: Haidian 1+X+1 industry system
- Cases: 6 global + Boston/NY comparative study
- Sources: see sources.json (announcement, taskbook)
- Heritage: Jingzhang Railway + Zhan Tianyou

Important Disclaimer / □□□□

1. All spatial proposals are conceptual references, not formal plans;
2. All areas/metrics are recomputed on provisional boundary; recalculation required;
3. FAR, height, demolition, road redlines subject to official regulatory conditions;
4. External cases (Boston/NY etc.) require primary sources and licenses for formal review;
5. v2 separates Chinese and English hashes; all English PNG/PDF/HTML are independent translations.
