

Jing-Zhang Intelligence Vein: Centennial Jing-Zhang AI Innovation Belt

1. Project Overview

This proposal grounds in the centennial Jing-Zhang Railway heritage, driven by full-stack AI self-innovation, aiming at a human-centered vibrant city. Generated from provisional boundaries covering 43.6km² research area, 11.4km² design area, and 368.4ha key areas. All spatial judgments are concept suggestions.

2. Core Metrics

Metric	Value	Confidence
Site Area	11,412,825 m²	high
Building Footprint	79,427 m²	medium
Green Space	3,528,342 m²	medium
Green Ratio	0.309	medium
Public Space	29,467 m²	medium
Road Length	42,637 m	medium
FAR	pending	unknown
Total Floor Area (est.)	254,165 m²	low
Building Count	15	high
Key Area Count	3	high
Road Count	10	high
Green Space Count	6	high

3. Three Key Areas

Key Area	Area	Positioning
Zhongzhiyuan AI Acceleration	1,929,202 m²	AI full-stack self-innovation
Beijing AI Origin Community	1,043,237 m²	Near-campus innovation & incubation
Dazhongsi AI Industry Cluster	720,454 m²	Intelligent native industry

4. Land Use Structure

Code	Name	Area (m²)
0702	Community Residential	1,788,211
0802	AI R&D Innovation	2,904,708
1401	Heritage Park Green	2,489,748
05	Industry & Commercial	2,489,746
0801	Mixed & Transport Hub	1,740,419

5. Phasing Strategy

Phase	Area	Size (m²)
Phase 1	Dazhongsi (South)	2,250,519
Phase 2	Origin (Middle)	5,992,137
Phase 3	Zhongzhiyuan (North)	3,148,220

6. Agent Task Coverage

Task ID	Title	Proposal Section
agent.1	Overall Concept	Chapter 2
agent.2	AI Ecosystem	Chapter 3
agent.3	AI Scenarios	Chapter 4
agent.4	Public Space & Landmarks	Chapter 5
agent.5	Cultural Narrative	Chapter 6
agent.6	Activities & Operations	Chapter 7
