

AI may dock only at side interfaces; five east–west stitches enter the permanent public base only after segment-by-segment verification.

01 / MASTERPLAN EN

TWO LONGITUDINAL • FIVE TRANSVERSE • THREE ROOMS

30-second masterplan: verify candidate segments first; AI docks only at removable side interfaces.

P8.19

2 × LONG 5 × STITCH

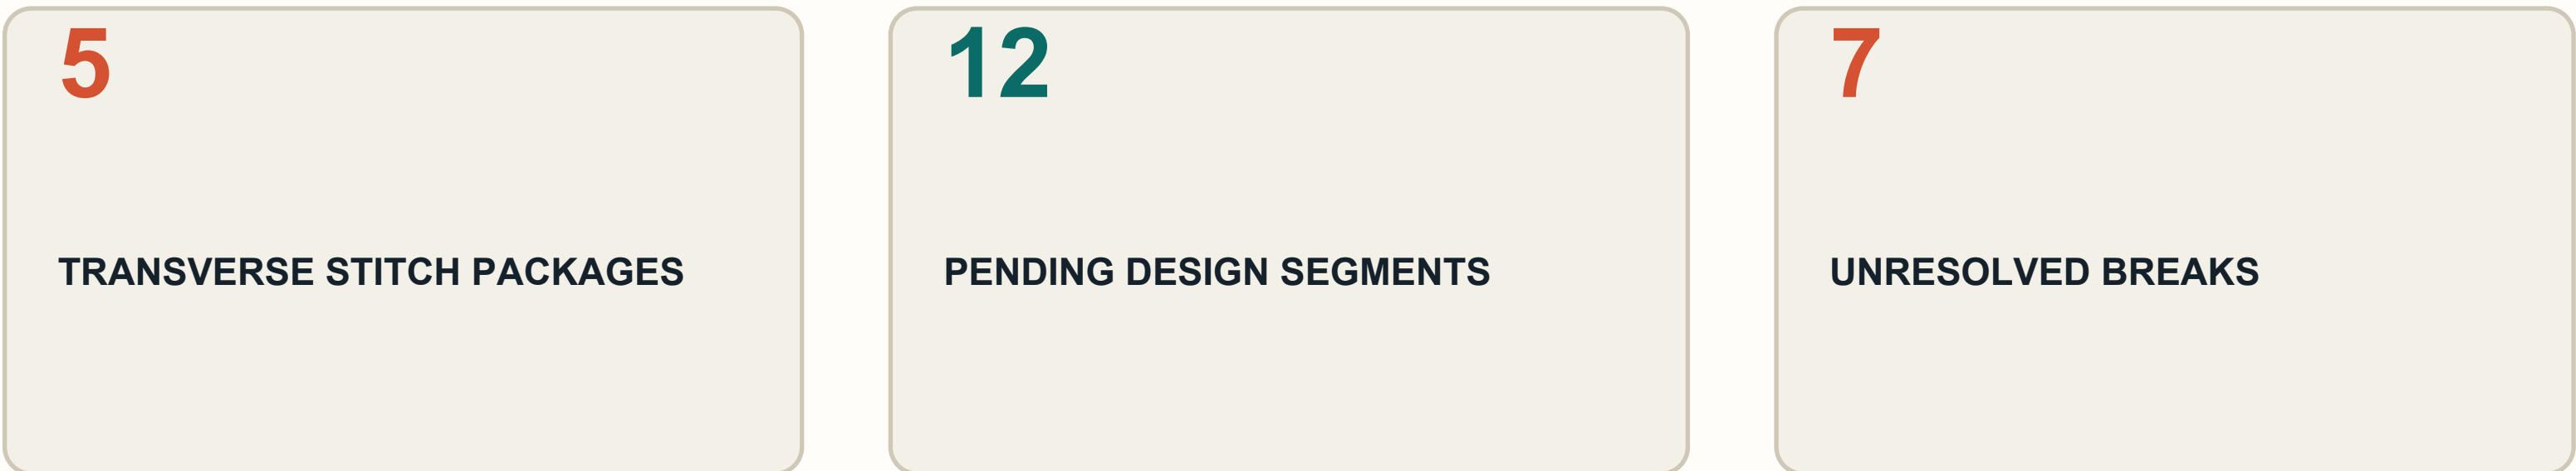

AI may dock only at side interfaces and may not occupy the permanent civic base. Five east-west stitches are verified segment by segment before entering the public network; AI services plug in later, withdraw and reset without interrupting verified public passage, staffed service or...

# HIDE THE LABELS; THE THREE PLACES REMAIN LEGIBLE

Three plans, sections, failures, human roles and recovery paths replace one repeated state template.

## North Test + Logistics Room

- FAIL

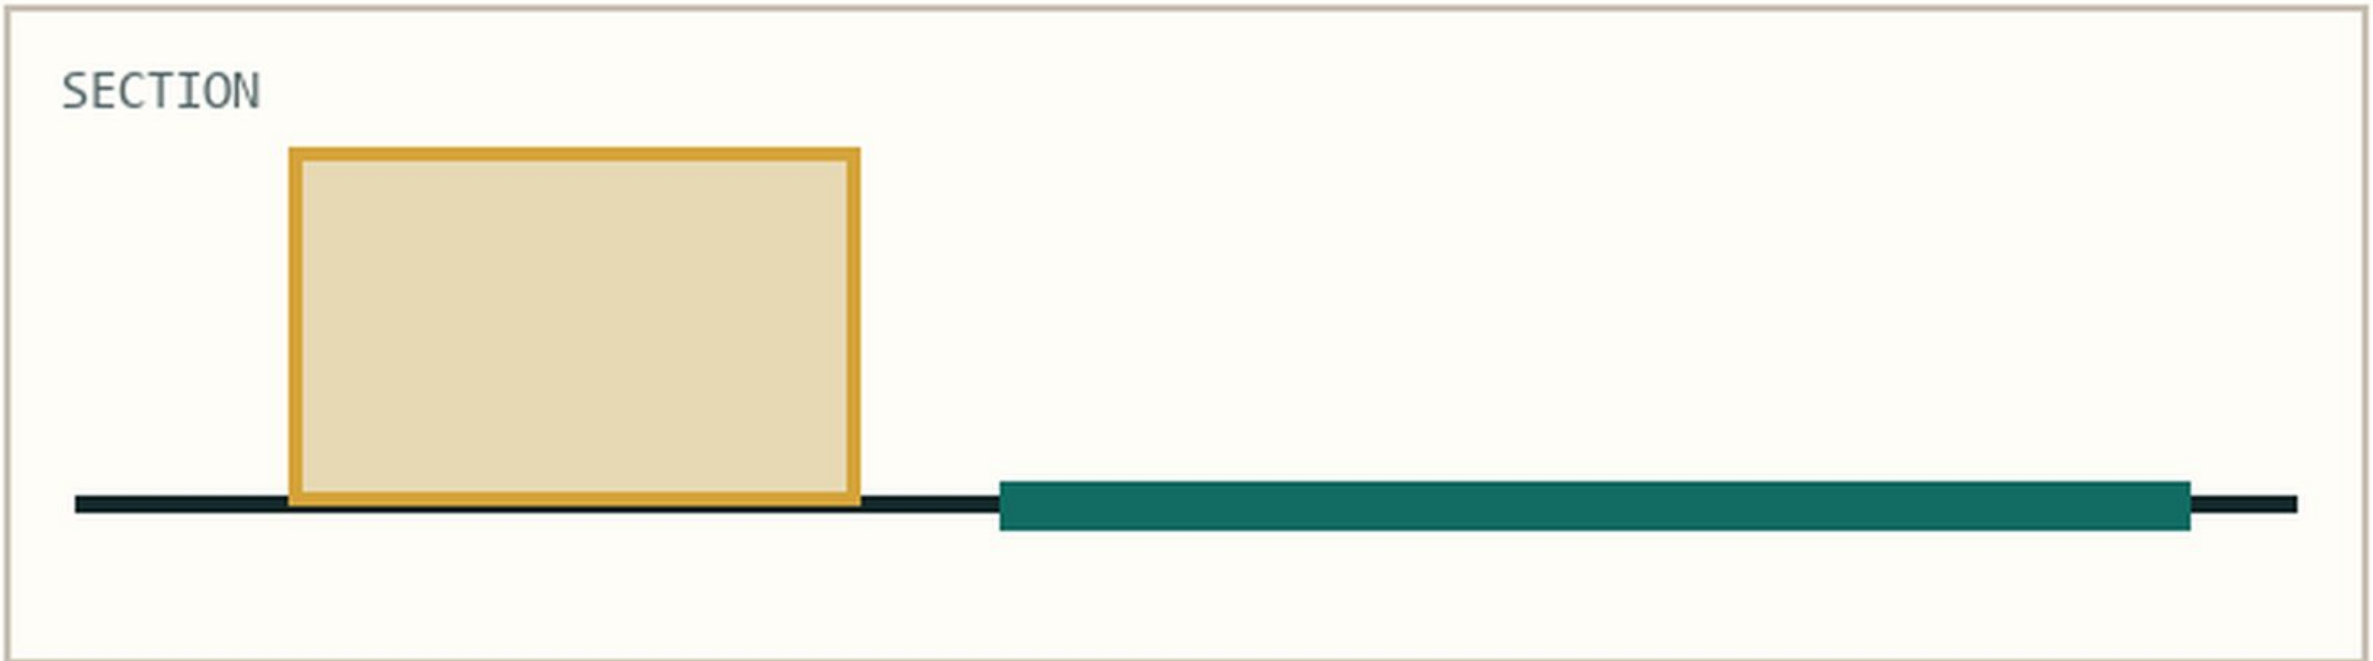

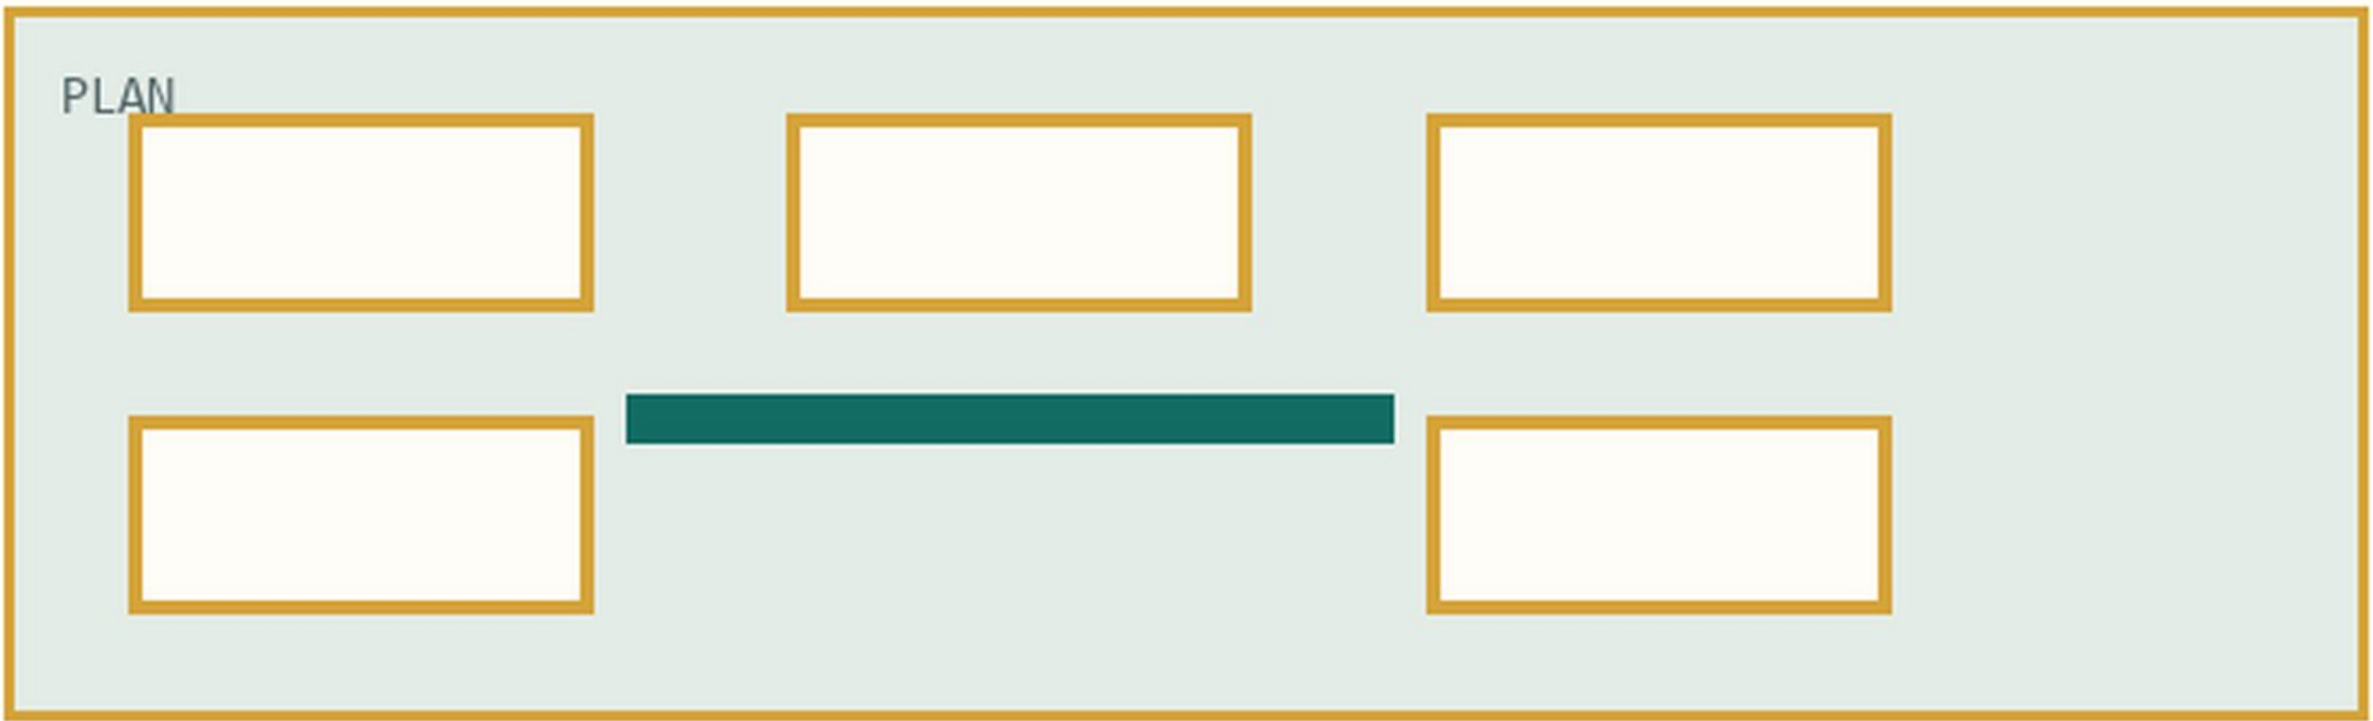

Unclear waterside rights or maintenance edge; robot route conflicts with the public clear line
- HUMAN

Test-safety and maintenance marshal
- COMPONENT

Mechanically lockable linear test bay
- RECOVERY

Equipment arrival—land-side check—local test—human stop—withdrawal review

## AI Origin Community + Staffed Service Room

- FAIL

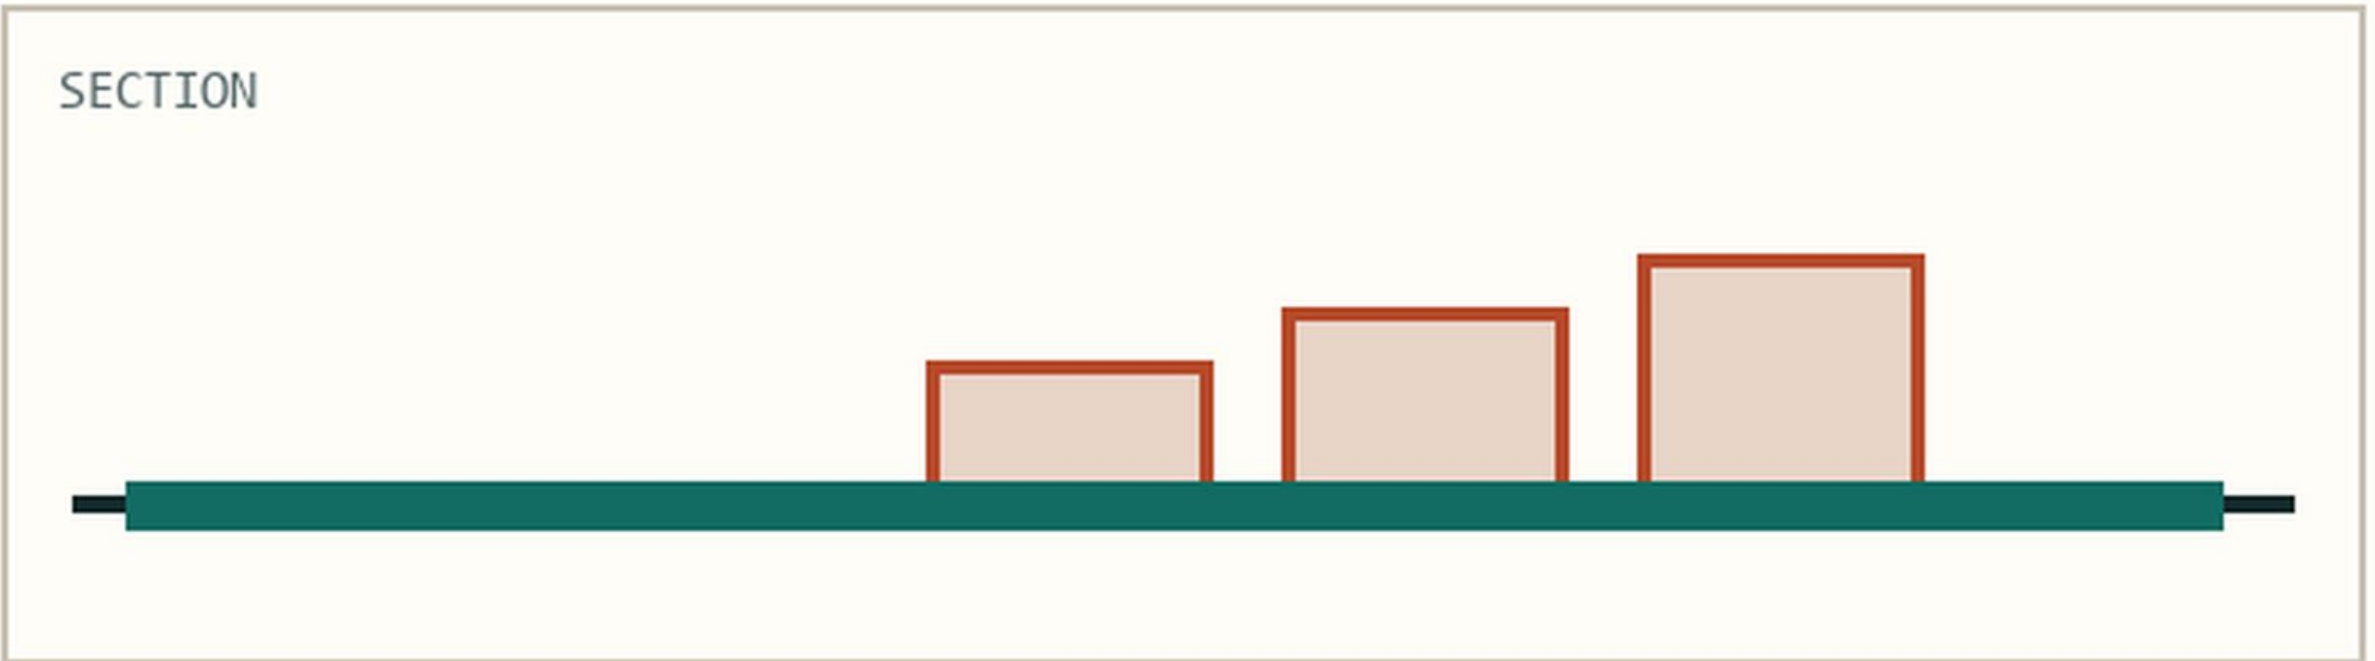

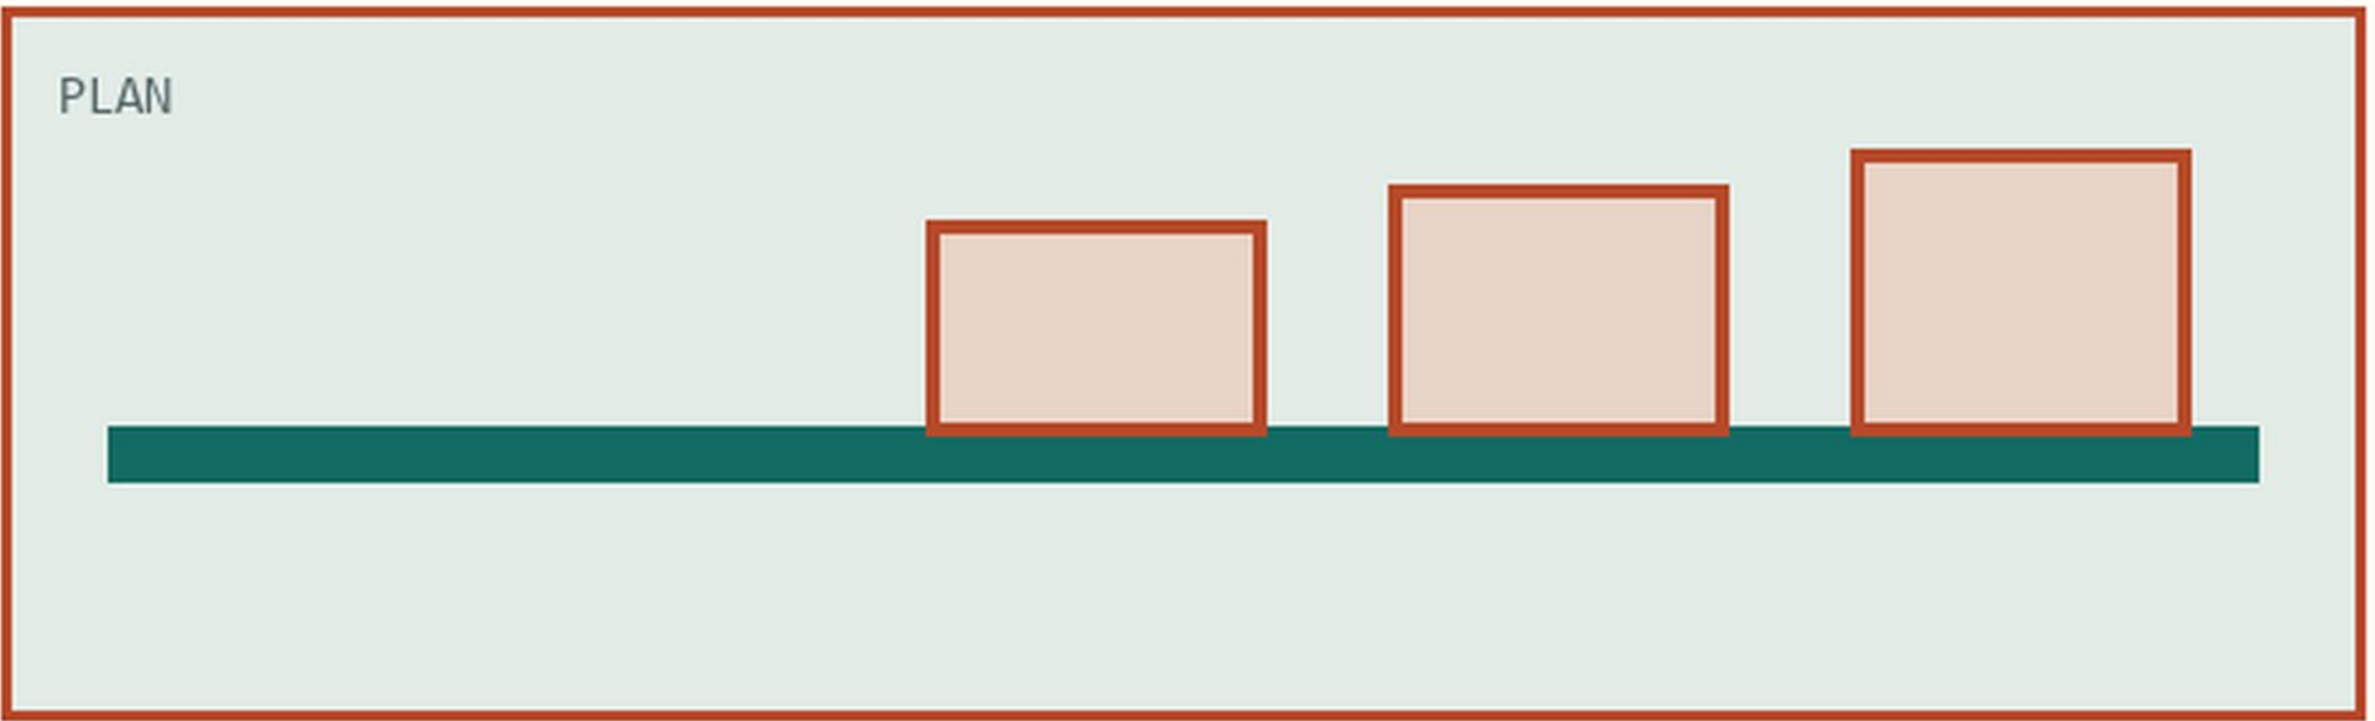

Queues, noise or digital barriers invade the quiet community ground floor
- HUMAN

Public knowledge and appeal steward
- COMPONENT

Closable quiet edge house with staffed window
- RECOVERY

Enter without phone—staffed enquiry—paper service—decline AI—appeal and leave

## Dazhongsi Arrival + Recovery Flagship

- FAIL

Peak or night congestion lets the side carrier encroach on the arrival line
- HUMAN

Arrival marshal and return-acceptance lead
- COMPONENT

One-sided micro-terrace, withdrawal band and staffed state point
- RECOVERY

Station arrival—accessible clear line—staffed help—freeze takeover—return acceptance

P8.19 / 08 EVERYDAY JOURNEYS

FOUR PEOPLE COMPLETE THE SAME TASK WITHOUT AI

Every chain includes entry, help, use, decline or failure, human takeover, and leave or appeal.

COMPLETE

OLDER  
Older person

1

Read large-format wayfinding

2

Wait at shaded seating

3

Hear a staff explanation

4

Retain veto and review

5

Receive a paper receipt

NIGHT  
Night arrival

1

Enter on the lit arrival line

2

Find the visible staffed point

3

Complete minimum service

4

Use human takeover on failure

5

Leave on the continuously lit route

AI\_OFF ≠ SERVICE\_OFF · HUMAN TAKEOVER REMAINS VISIBLE
