

DIGI • JZ • Digital Twin Operations System

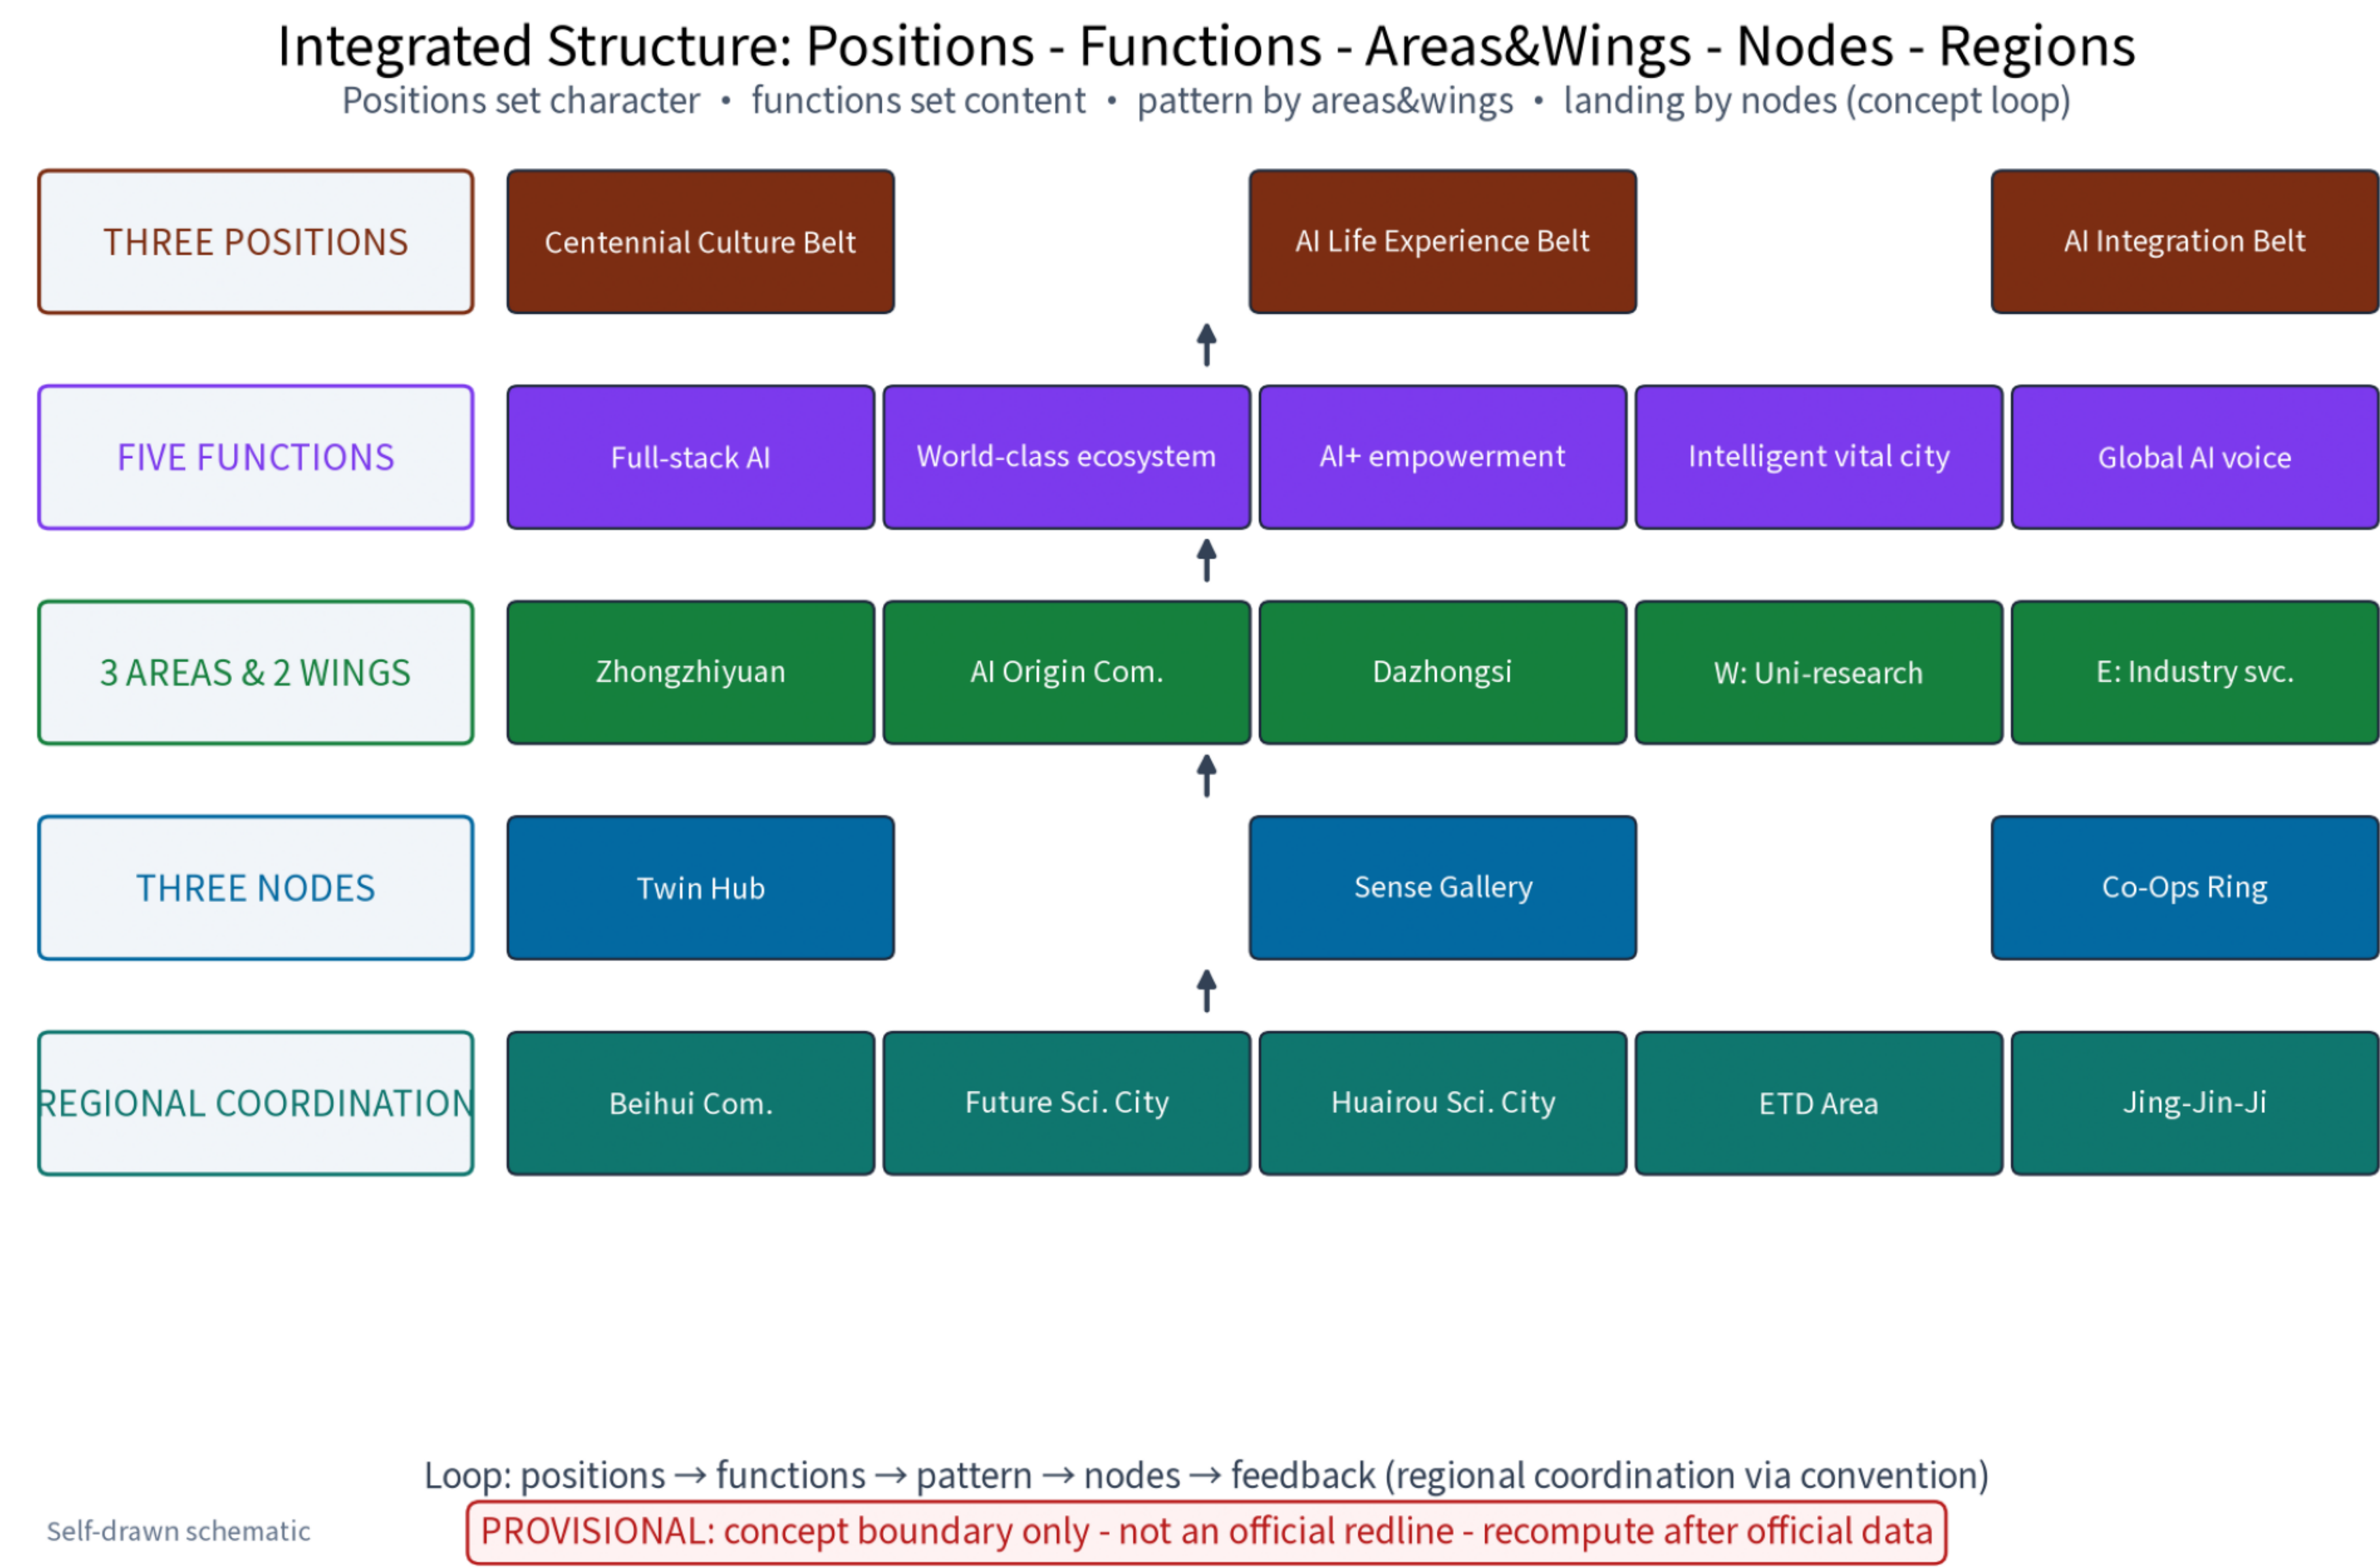

Centennial Jingzhang AI Innovation Belt • Concept Overview (A0-01)

Three scopes: coordinated approx. 43.6 km2 / overall design approx. 11.4 km2 / key areas approx. 368.4 ha (official wording); this package sits within the overall-design concept framework (provisional).

Overall design overview (left) and integrated structure (right)

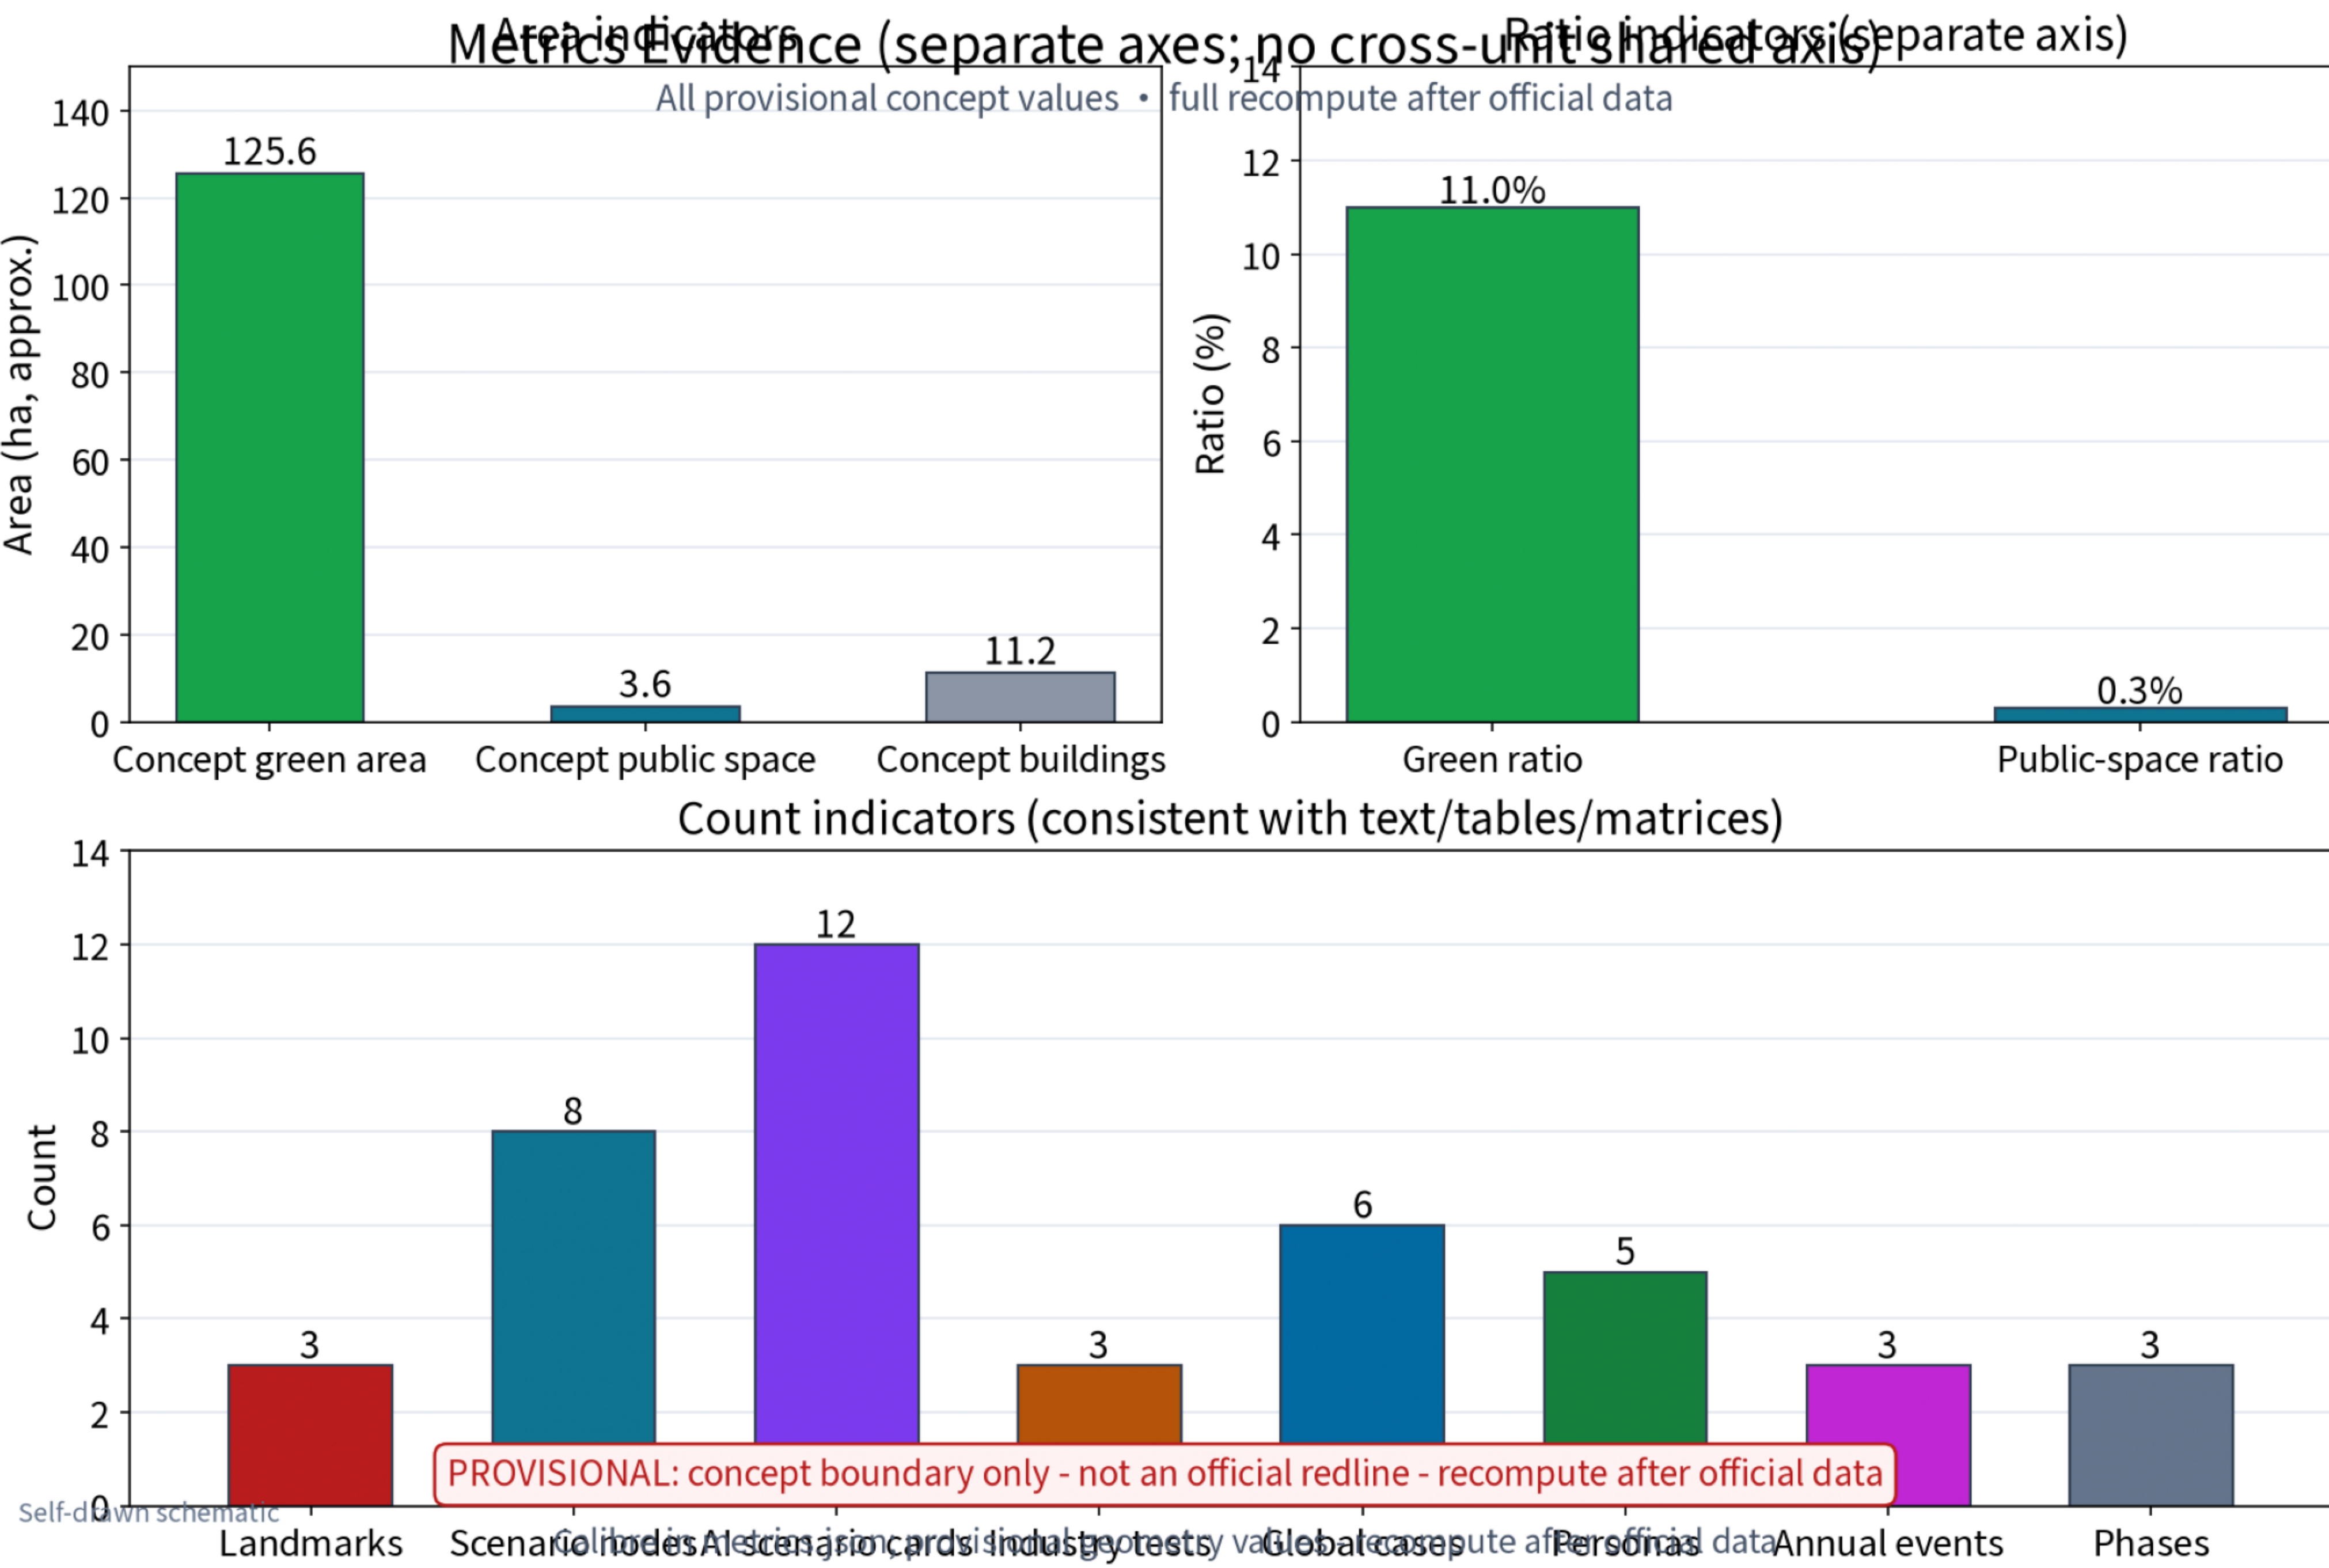

Positions-functions-areas&wings-nodes-regions (loop)

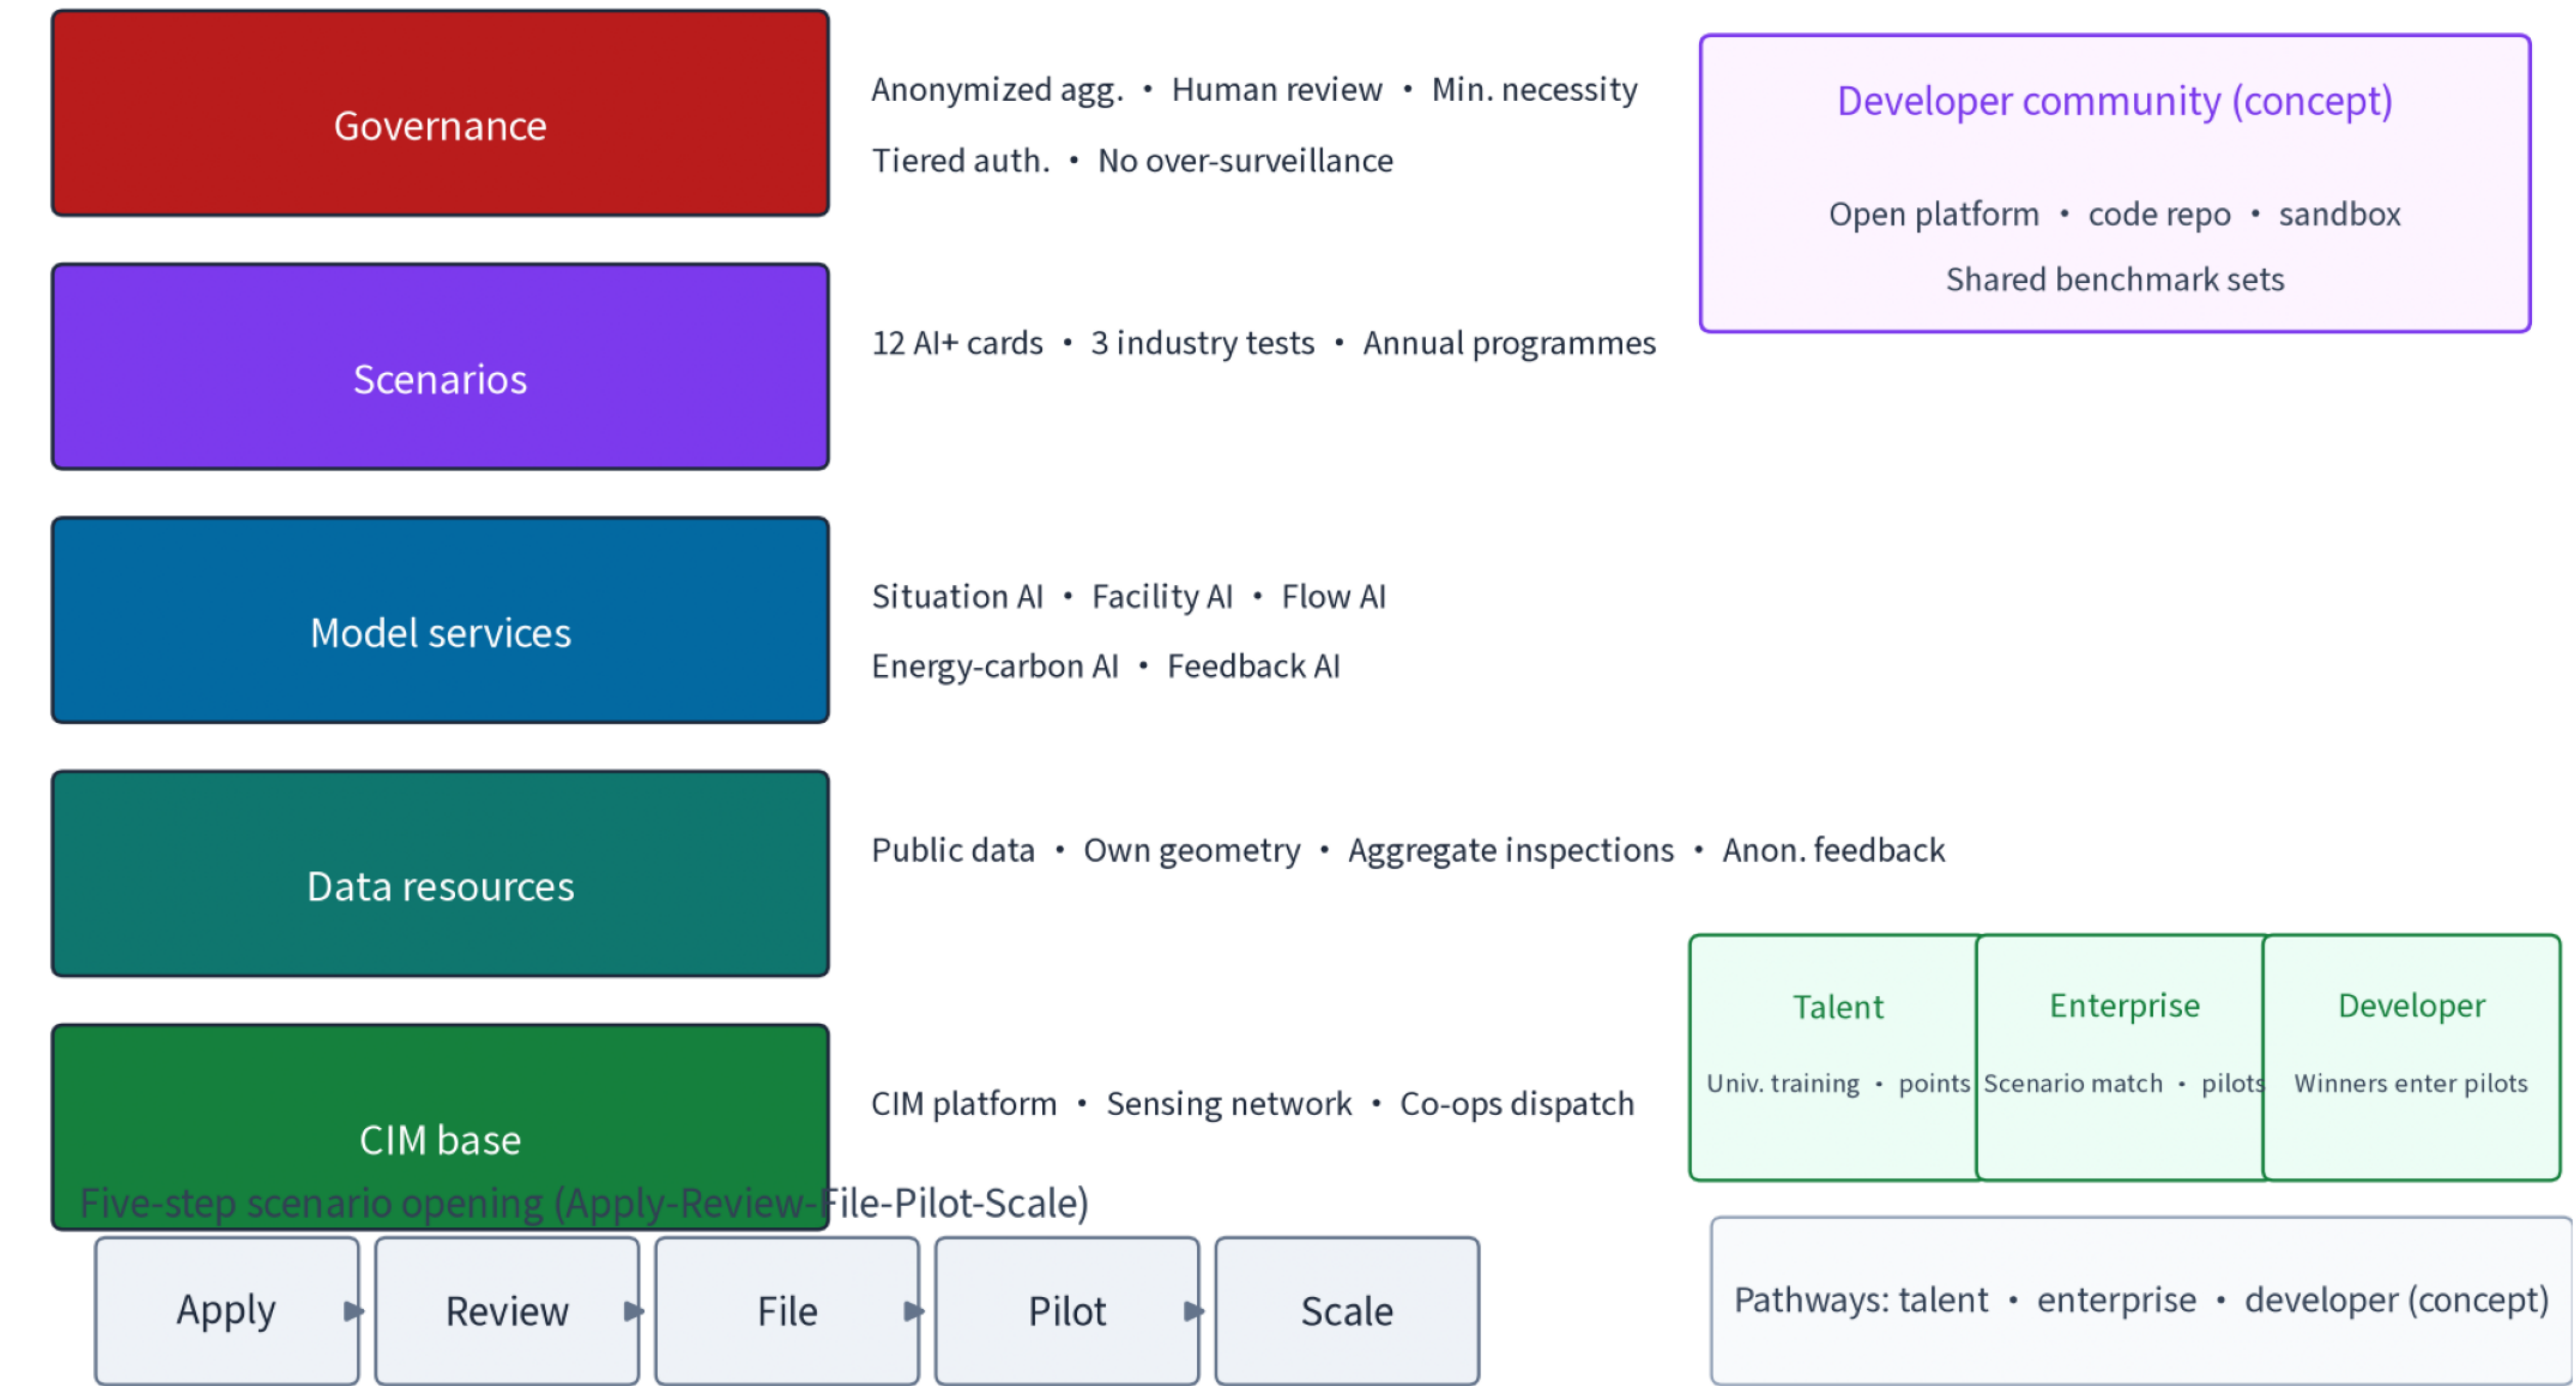

AI+ Scenarios • Indicators • Implementation Matrix (A0-02)

Twelve scenario cards • three industry tests • five personas • phasing and pilots (concept)

AI Innovation Ecosystem: Base - Data - Models - Scenarios - Governance

Developer community • five-step scenario opening • talent/enterprise/developer pathways (concept)

Self-drawn schematic

PROVISIONAL: concept boundary only - not an official redline - recompute after official data

Governance: anonymized aggregates only; key decisions human-reviewed; no over-surveillance.

Implementation matrix follows RACI with leads/collaborators covering data input, spatial

PROVISIONAL - concept boundary only, not an official redline; recompute when official data is published
