

DRAW THE ENCOUNTER

Dense talent does not guarantee meaningful connection. The city needs a public interface people can enter, refuse, stop, and exit.

ONE SPINE / THREE COMMONS / TWO WINGS / SIX SEAMS / TWELVE REVERSIBLE SCENARIOS

AI MATCHES TASKS, SPACES,
TIMES, AND AUTHORISED
RESOURCES

It never matches people, builds profiles, or decides eligibility.

SYSTEM

3 COMMONS

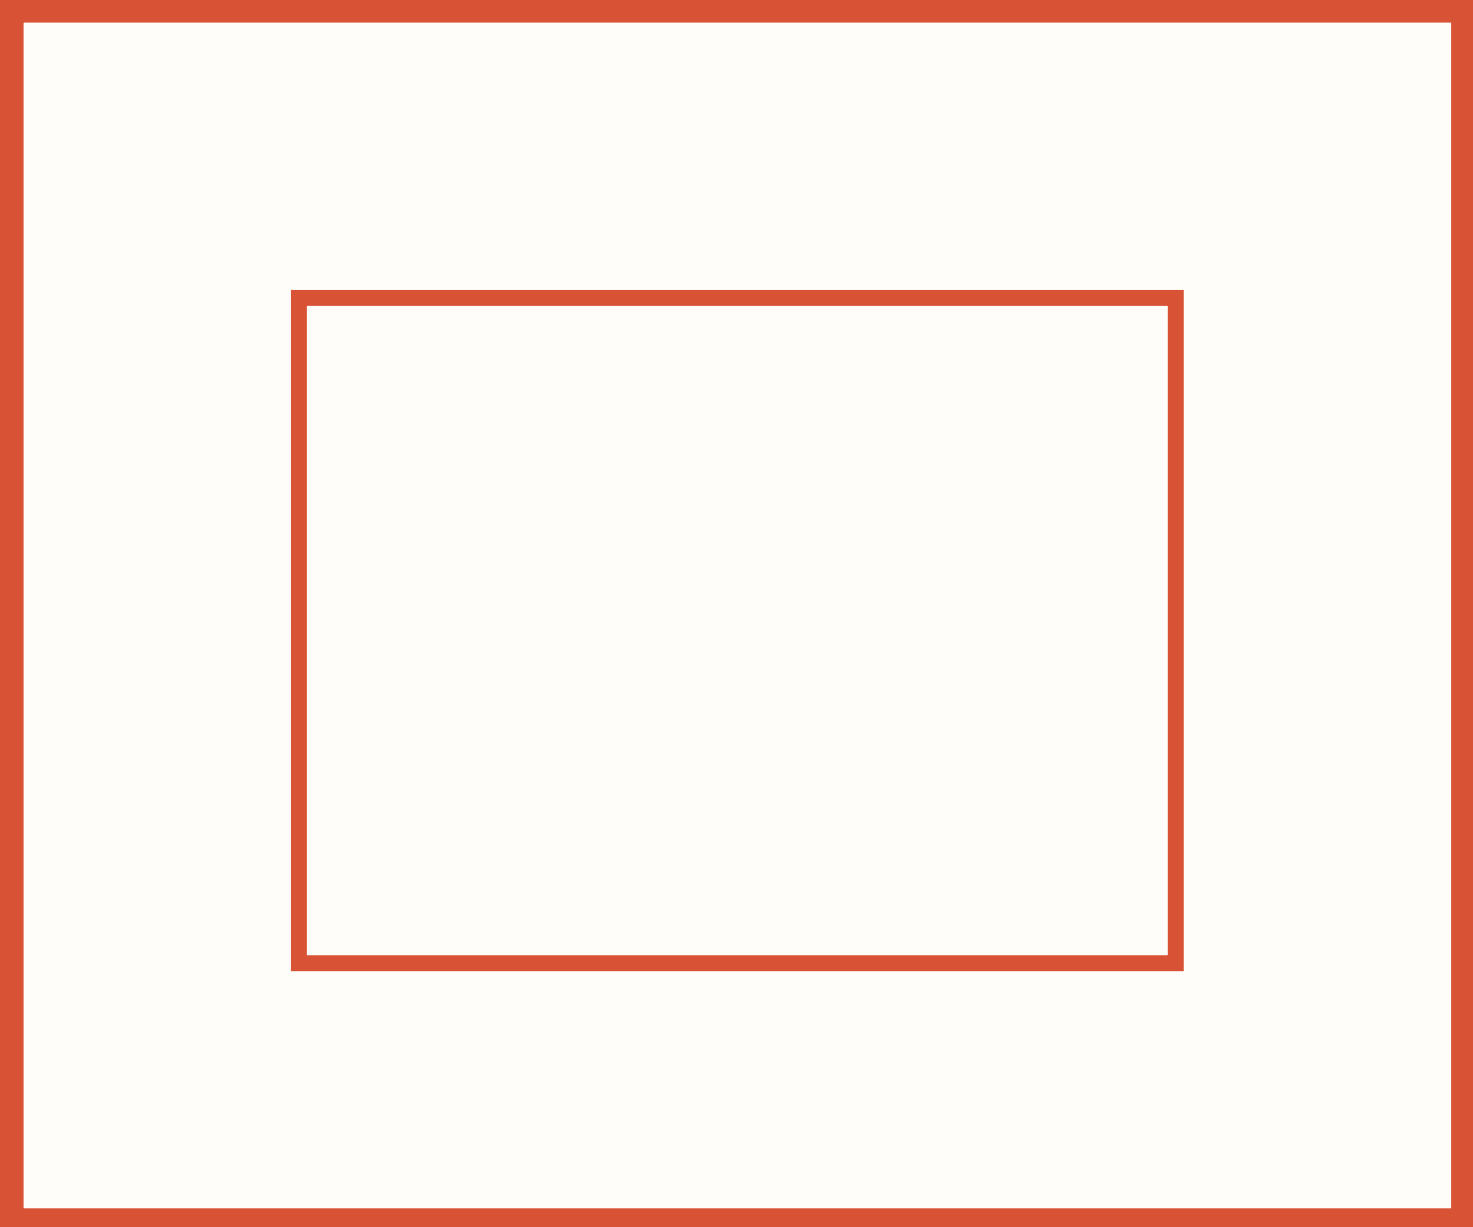

TEST

Opening Requires Three Independent Releases

Validate the venue protocol, then add reversible kit; discuss permanent works only after professional gates pass.

01

VENUE PROTOCOL

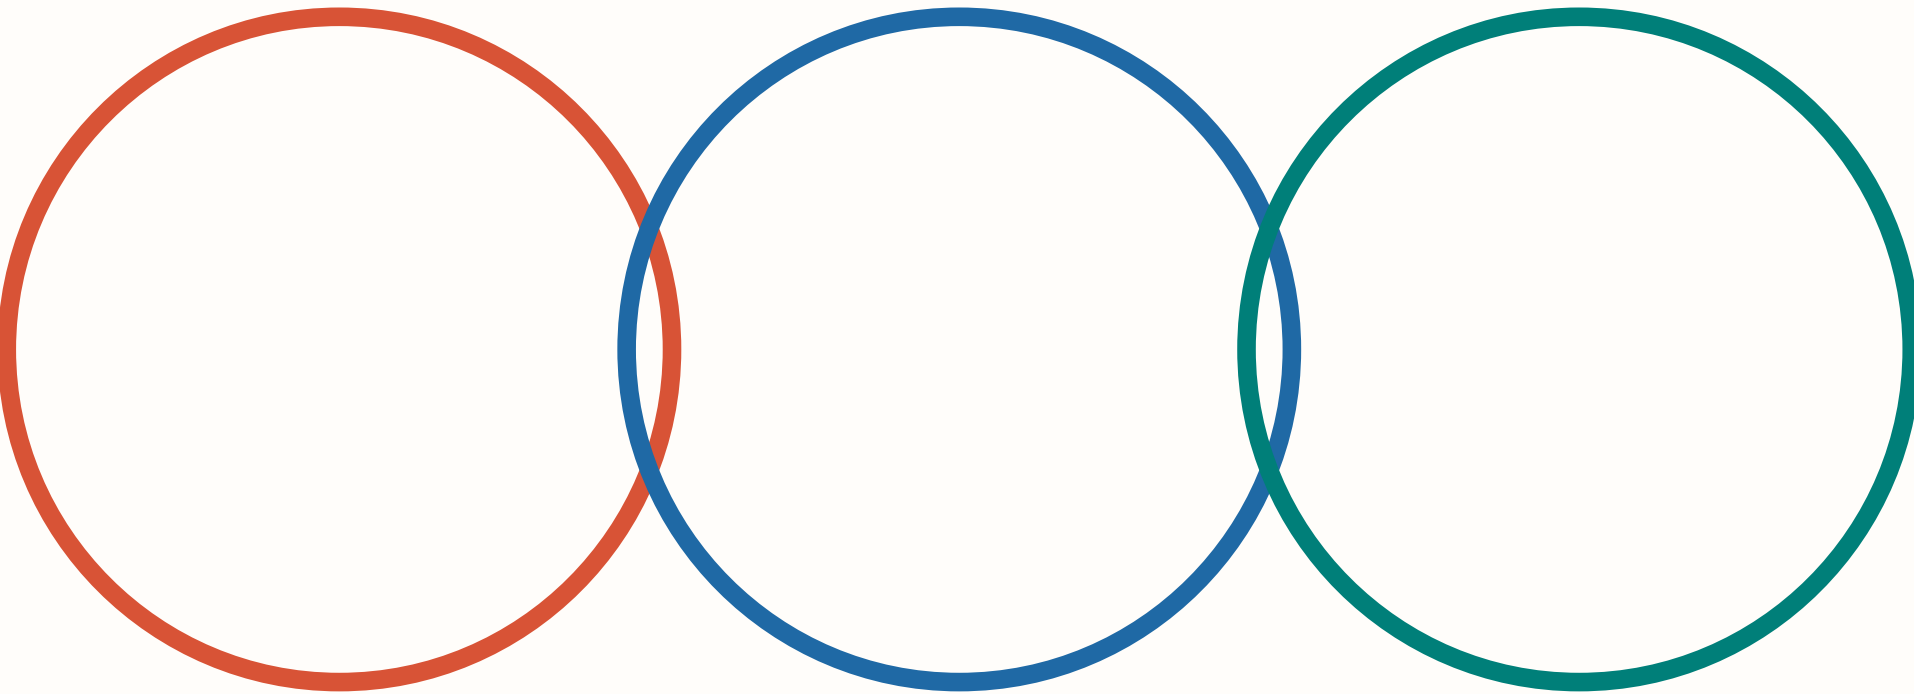

Verify operator, entry, exit, and opening hours.

NO OPERATOR OR EXIT: DO NOT OPEN

02

REVERSIBLE KIT

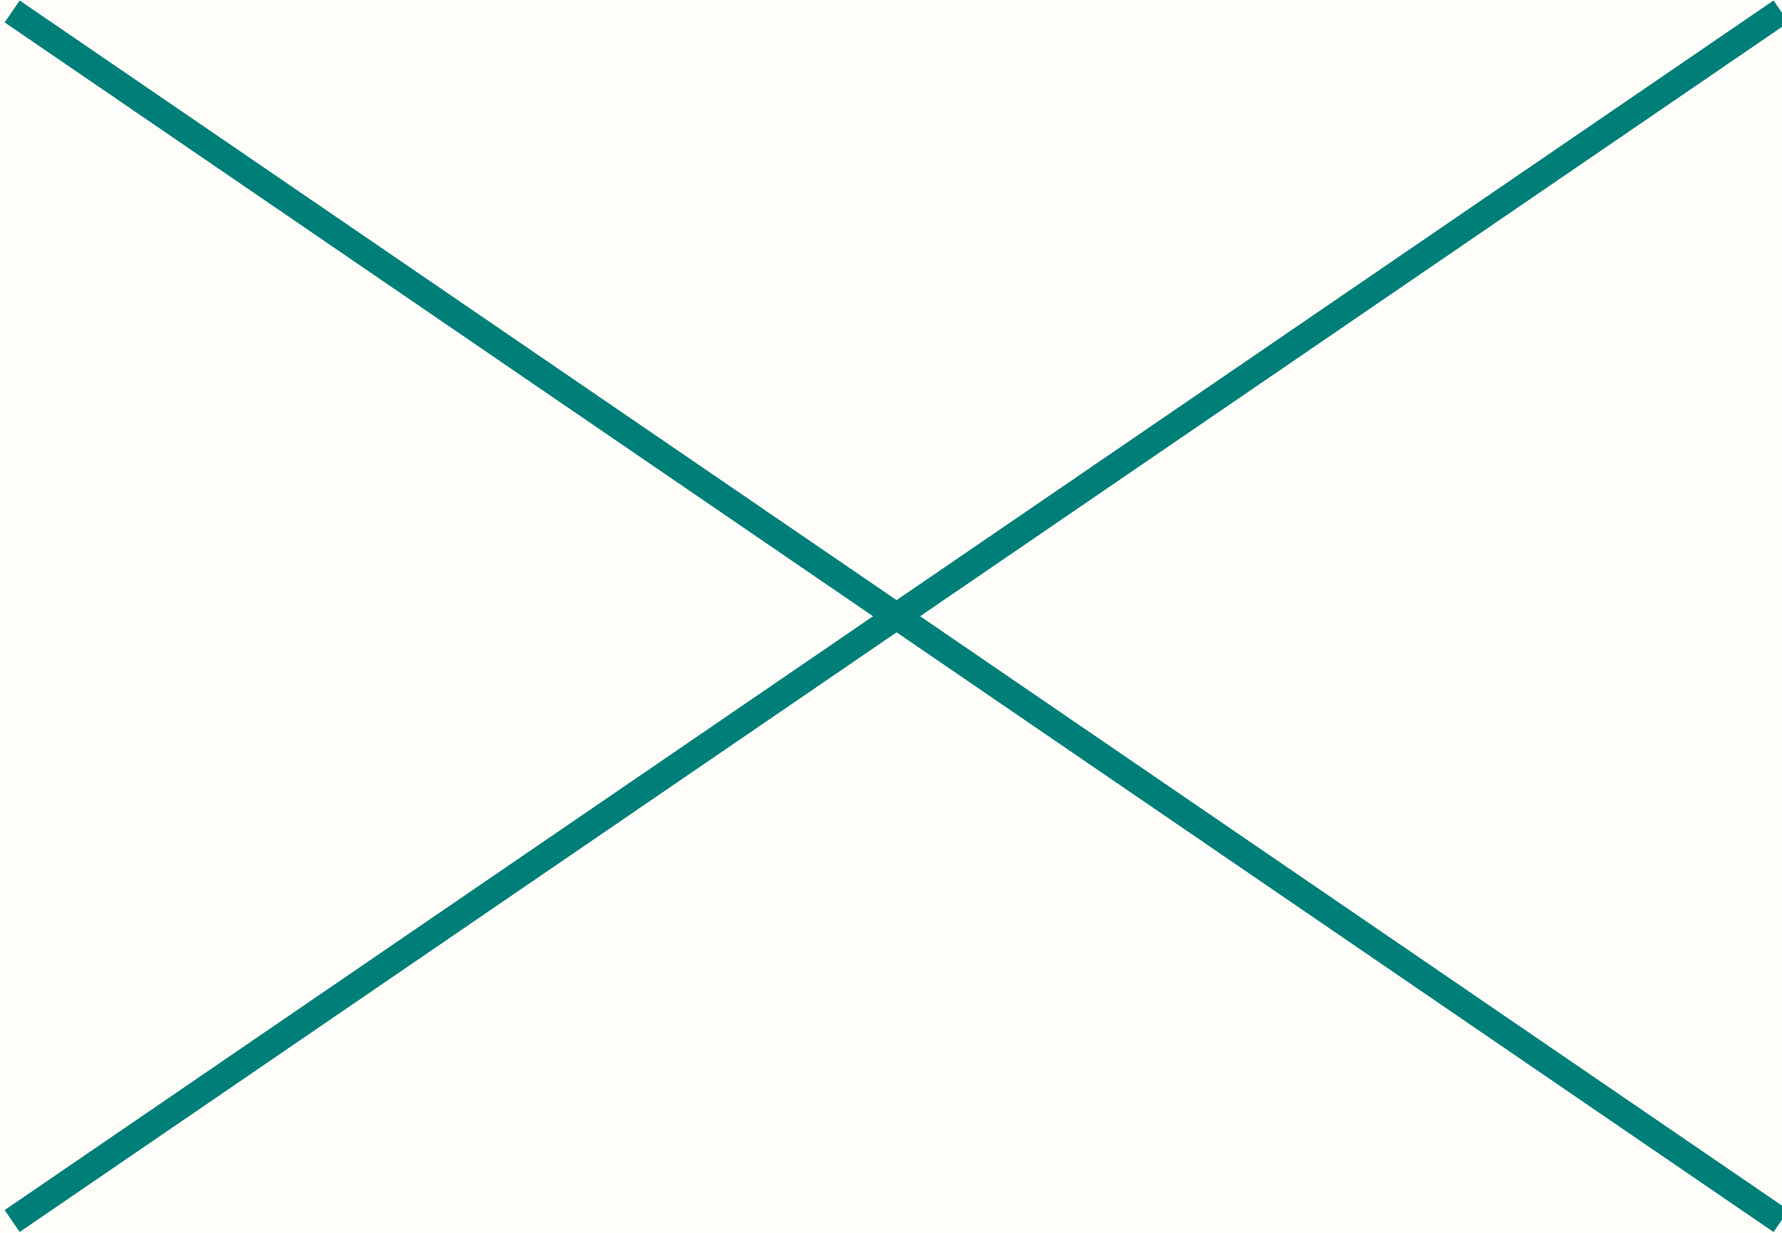

Use paper, signs, tables, and a physical stop.

REMOVE, RETURN, OR REVISE AFTER 90 DAYS

03

PROFESSIONAL WORKS

Sign off ownership, structure, fire, MEP, and access.

ANY FAILED GATE: NO PERMANENT WORKS

Protocol release does not equal engineering release. Every advance needs a new evidence set.

Nine Kilometres Is Not an Operating Promise

The public plan provides planned quantities. This proposal defines how to verify them, not how to claim them as operating facts.
