

SHANGDI SKYLINK LIVING CIRCLE - Overall Spatial Structure (A0 Board 1/2)

Concept proposal • not formal drawings • provisional boundary

Schematic: vertical stretching, NOT to scale; positions based on provisional geometry

图例说明与关键口径

site_area_sqm approx 11.41 km2 (provisional)
green_ratio≈0.329 • public_space_ratio≈0.007
landmark_count=3 • scenario_node_count=13 • building_unit_count=12 • phase_count=3
Clearance corridor 180-260 m (concept threshold, pending professional evaluation)
Shuttle: near-to-mid non-passenger + ground; long-term eVTOL research direction (four prerequisites)

★ 低空起降第一坪 • First Sky-Landing Pad
Delivery hub + take-off demo; three-tier delivery (Pilot A)

★ 十字枢纽低空观景台 • Cross-Hub Deck
Shuttle + emergency linkage; pole pads + ops screen (Pilot C)

★ 老站台记忆打卡点 • Memory Stop
Science gallery + flight-test field; reversible zero-excavation (Pilot B)

Three-Node Detailed Design and Public-Space Component System (A0 Board 2/2)

Public-space component library (8 items • modular/reversible)

Smart-pole pad unit • Delivery cabinet unit • Accessible waiting unit • Quiet cabin • Science gallery module • Simulator cabin • Ground marking & signage • Emergency linkage terminal

Jing-Zhang cultural resources & signage narrative (6 items)

Old platform • memory stop • Rails & sleepers • Station buildings & signals • Zigzag railway / Zhan Tianyou • Jing-Zhang chronicle • Line 13 under-viaduct

Honors display (5) and annual event brands (5)

年度荣誉榜 • 科普认证与志愿者积分 • 成果展示角 • 共创设计荣誉墙 • 社会责任公示牌 • Commuter Sky Day • Low-Altitude Tech Experience Week • Annual Open Day • Science Research Season • Monthly Anonymized Disclosure Day

Renewal projects 21 (hub4/facility8/public-space6/operation3) • RACI lead/coordinate matrix

Investment tiers low/medium/high (concept) • Lead/coordinate roles (concept) • Phasing pilot→network→normalization • 17 metrics • 23 compliance tasks • 5 standards • 15 depth items

Shuttle: near-to-mid non-passenger + ground coordination; long-term eVTOL research direction (four prerequisites). Clearance/isolation/wind thresholds are conceptual design assumptions pending professional evaluation.

临时概念边界、非官方红线、官方数据发布后复算 | PROVISIONAL boundary • not an official redline • recalculate after official data
