

SHANGDI SKYLINK LIVING CIRCLE (Shangdi SkyLink)

Three Nodes + Ten Scenarios low-altitude living circle (Concept • A3 Booklet)

New low-altitude meets the old railway • Three Nodes + Ten Scenarios • dual-use • reversible renewal (Concept, not formal drawings)

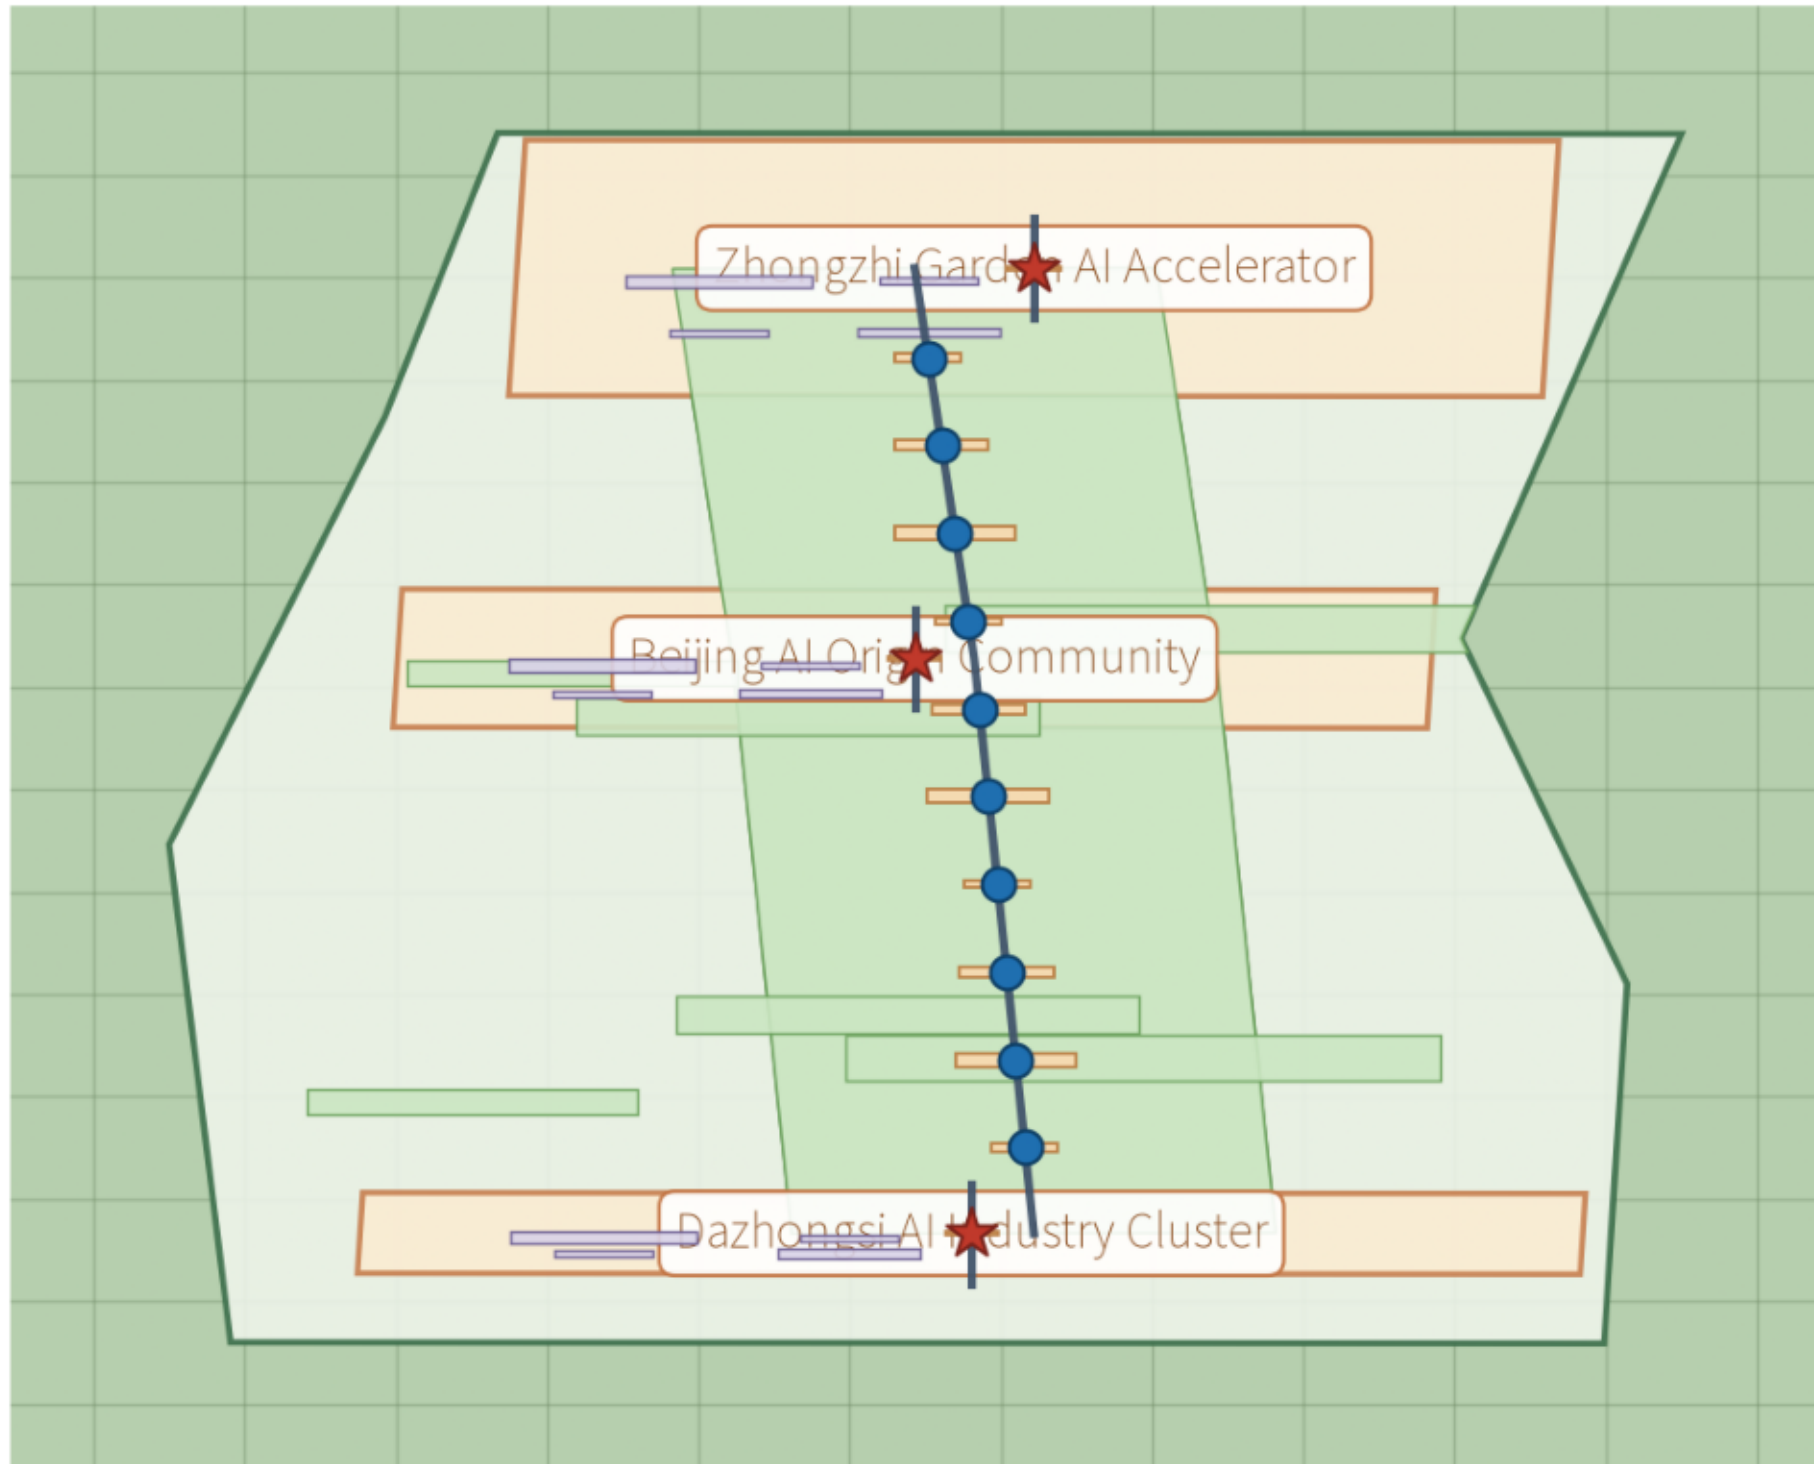

临时概念边界、非官方红线、官方数据发布后复算

PROVISIONAL boundary • not an official redline • recalculate after official data

SHANGDI SKYLINK LIVING CIRCLE: Low-Altitude Nodes in Everyday Workplace Public Space

Overall design overview (provisional geometry)

Schematic: vertical stretching, NOT to scale; positions based on provisional geometry

图例 • Legend

- Overall design overview (provisional geo)
 - Key areas (provisional)
 - Conceptual green space
 - Conceptual slow-traffic spine
 - Low-altitude landmark (conceptual point)
 - AI scenario node
- Concept envelope area (site boundary): approx. 1.5 km²
public_space_ratio $\approx$ 0.007
landmark_count = 3
scenario_node_count = 13
building_unit_count = 12
phase_count = 3

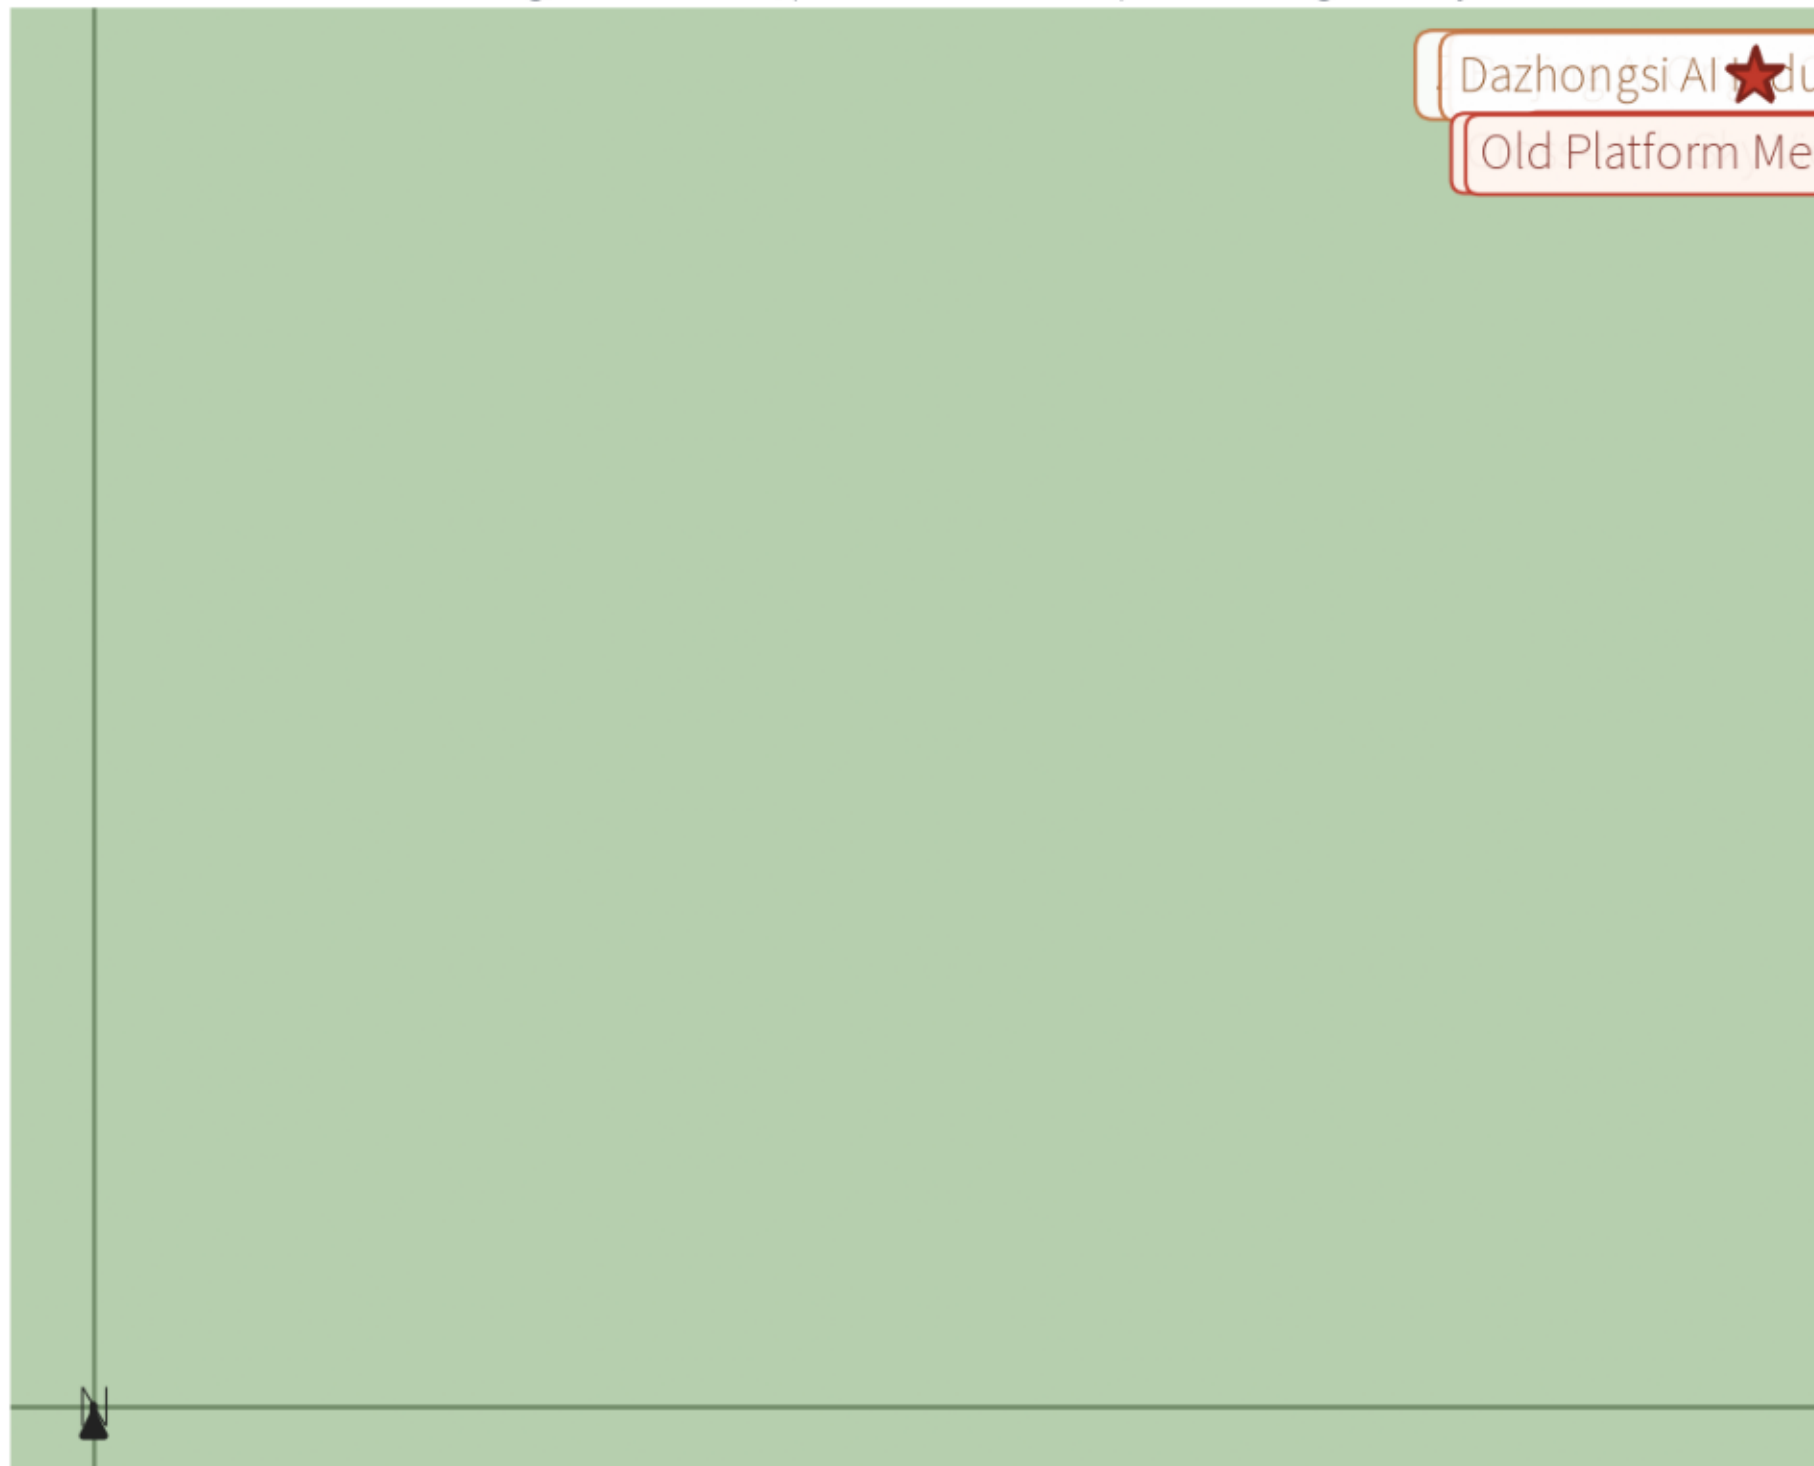

All values are provisional-geometry recomputations or conceptual assumptions; full recalculation after official data

临时概念边界、非官方红线、官方数据发布后复算
PROVISIONAL boundary • not an official redline • recalculate after official data

SHANGDI SKYLINK LIVING CIRCLE: Low-Altitude Nodes in Everyday Workplace Public Space

Key areas (provisional) • Zhongzhi Garden • AI Origin Community • Dazhongsi

Schematic: vertical stretching, NOT to scale; positions based on provisional geometry

Dazhongsi AI Industry Cluster

Old Platform Memory Stop

节点任务 • Node briefs

★ First Sky-Landing Pad
配送枢纽+起降示范 • delivery hub + take-off

★ Cross-Hub Sky Viewing Deck
通勤接驳+应急联动 • shuttle + emergency

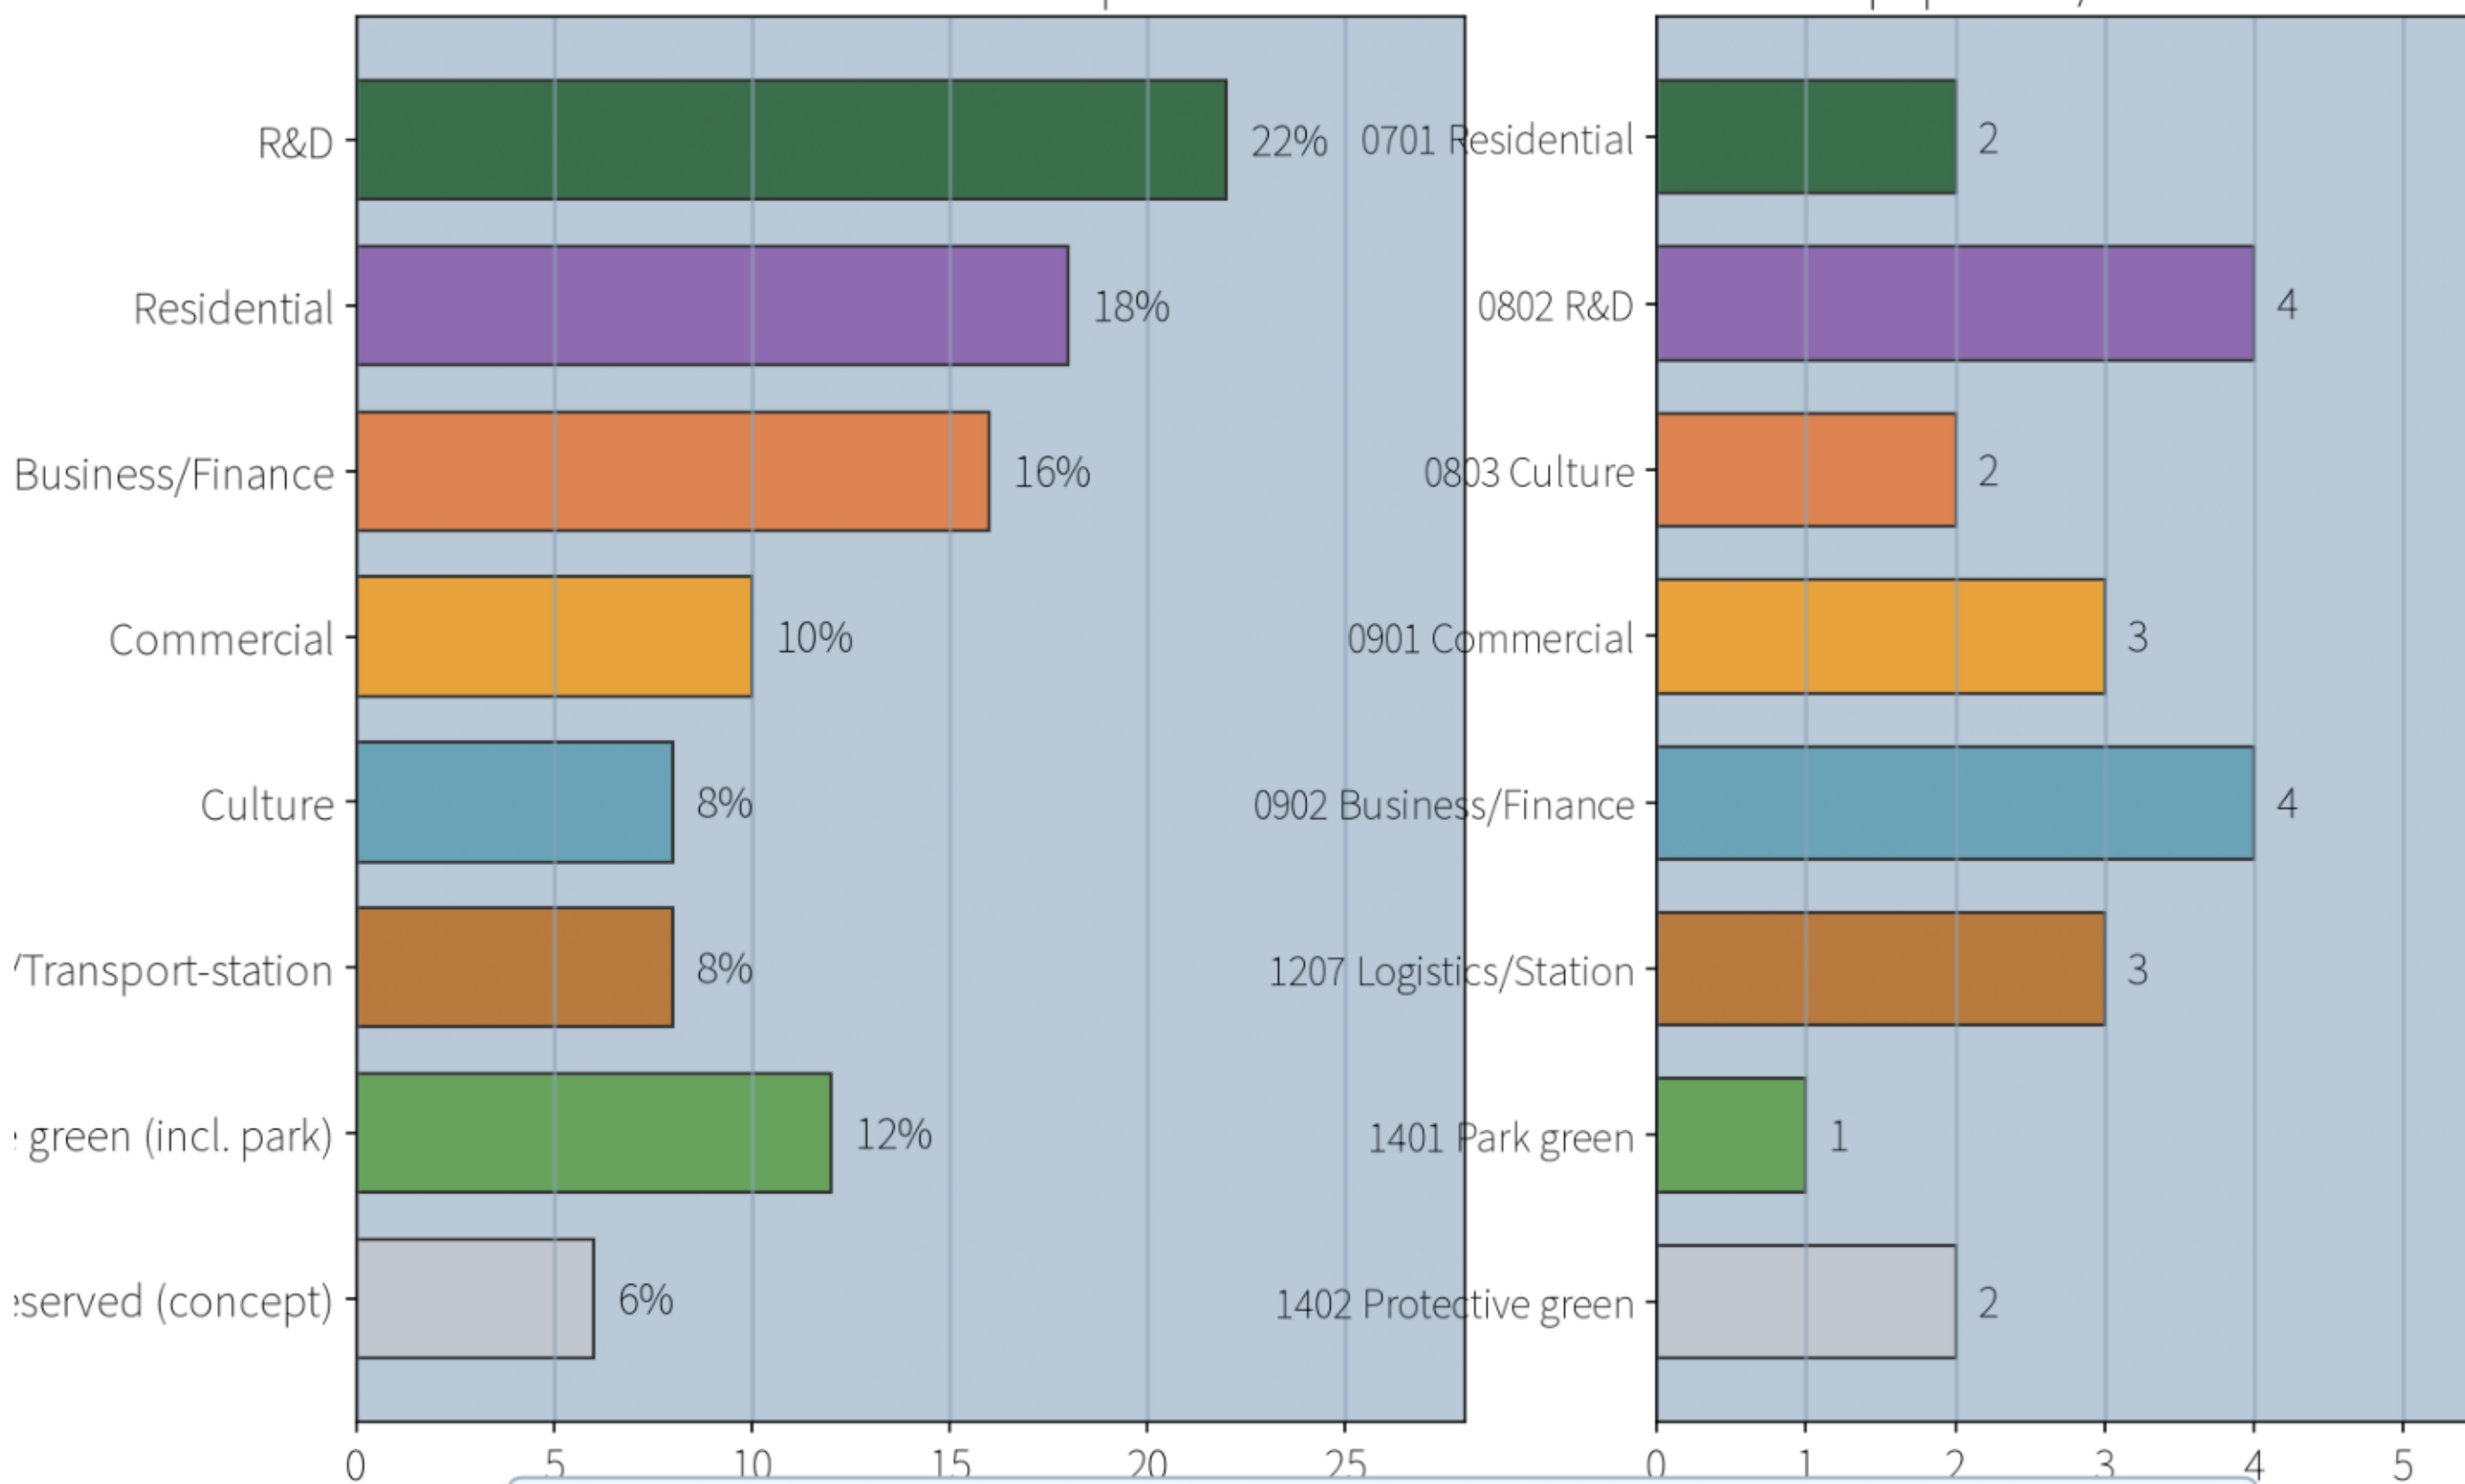

★ Old Platform Memory Stop
低空科普休闲 • science + leisure

All values are provisional-geometry recomputations or

PROVISIONAL boundary • not an official redline • recalculate after official data

or conceptual assumptions; full recalculation after official data

SHANGDI SKYLINK LIVING CIRCLE: Low-Altitude Nodes in Everyday Workplace Public Space

Blue-green and public-space analysis (provisional geometry)

Schematic: vertical stretching, NOT to scale; positions based on provisional geometry

一廊三节点 • One corridor, three nodes

green_ratio: approx 0.329

public_space_ratio: ≈ 0.007

road_network_length_m: ≈ 10154 m

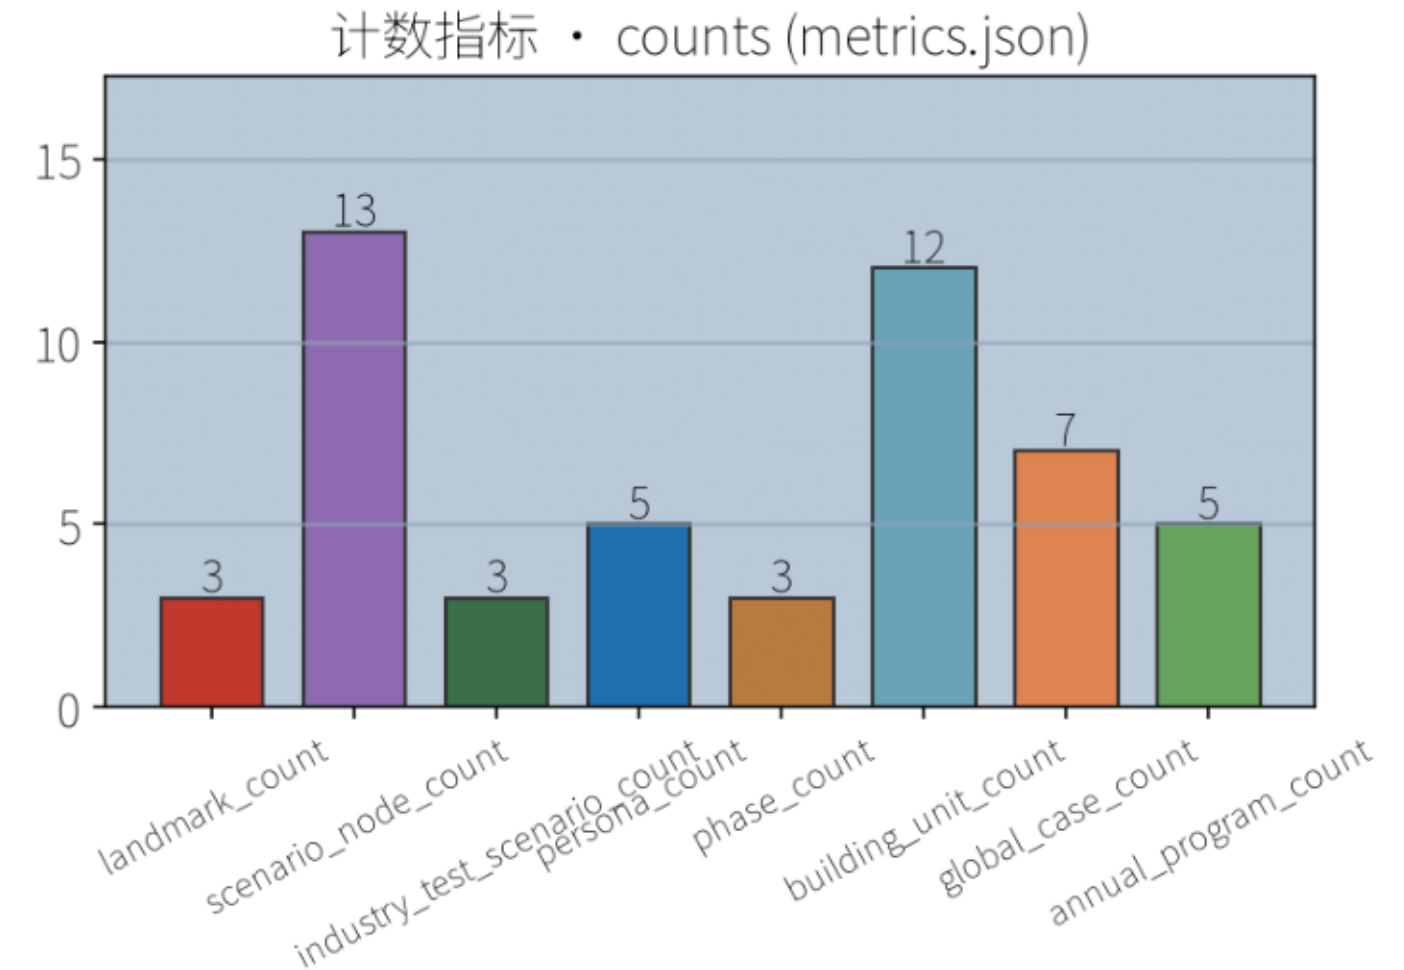

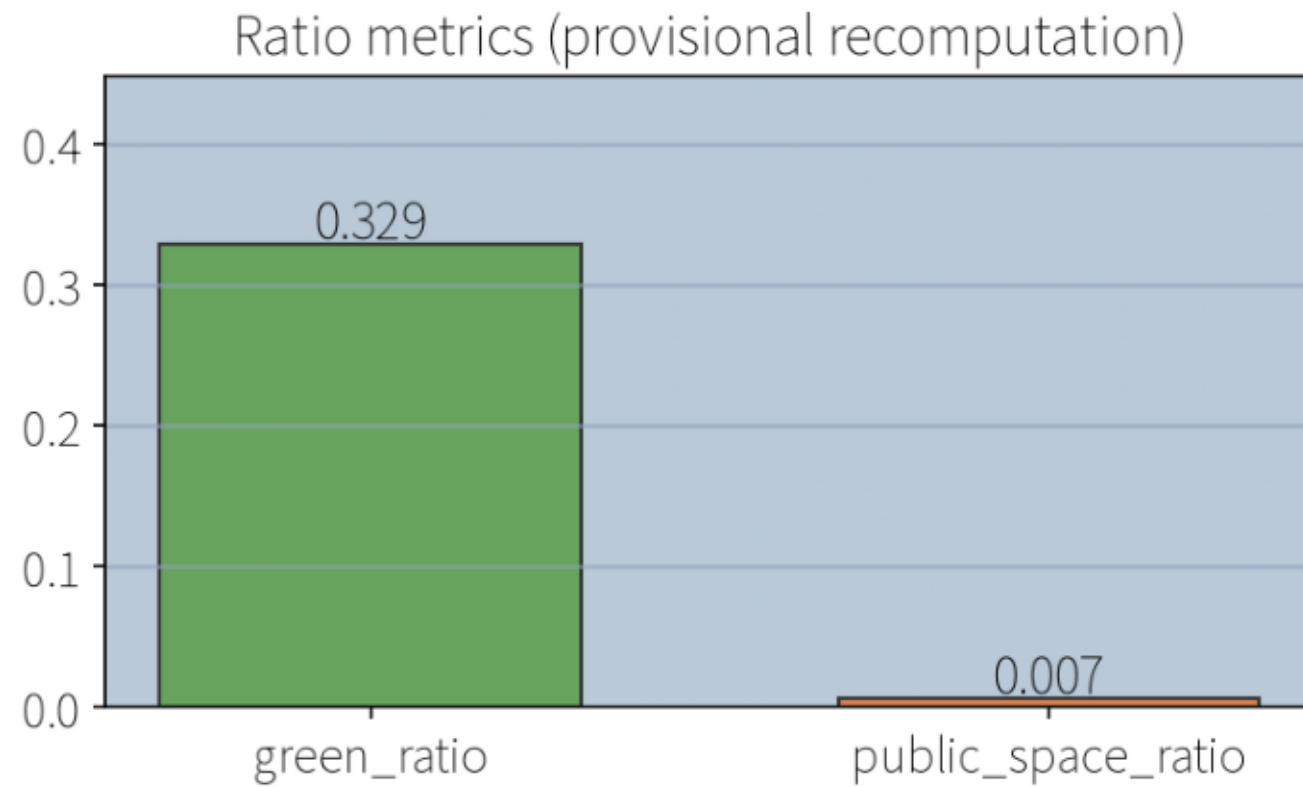

绿色廊道载体: Jing-Zhang heritage-park linea

静音隔离带: Between take-off zones and rest

- Overall design overview (provisional geo)
- Key areas (provisional)
- Conceptual green space
- Conceptual slow-traffic spine
- ★ Low-altitude landmark (conceptual point)
- AI scenario node

临时概念边界、非官方红线、官方数据发布后复算
PROVISIONAL boundary • not an official redline • recalculate after official data

Core metric recalculation (metrics.json • provisional, reduced precision)

site_area_sqm approx 11.41 km² (provisional geometry recomputation)

Note: site_area_sqm approx 11.41 million m² (approx 11.41 km²); green_ratio approx 0.329; public_space_ratio approx 0.007

All values are provisional-geometry recomputations or conceptual assumptions; full recalculation after official data

Recalculation triggers: official redlines/regulatory drawings, transport/municipal surveys, land-use and ownership data.
