

PAR • JZ | Public participation loop

PAR • JZ

Three nodes • two wings • one issue–evidence–feedback loop

CONCEPT / PROVISIONAL

All nodes, routes and values are participant concept models; not official boundaries or implementation commitments.

Key areas | three participation nodes

PAR • JZ

Knowledge • verification • communication

CONCEPT / PROVISIONAL

Candidate concept locations require survey, tenure, accessibility and authority checks before siting.

AI innovation ecosystem map

PAR • JZ

Actors • flows • open interfaces

CONCEPT / PROVISIONAL

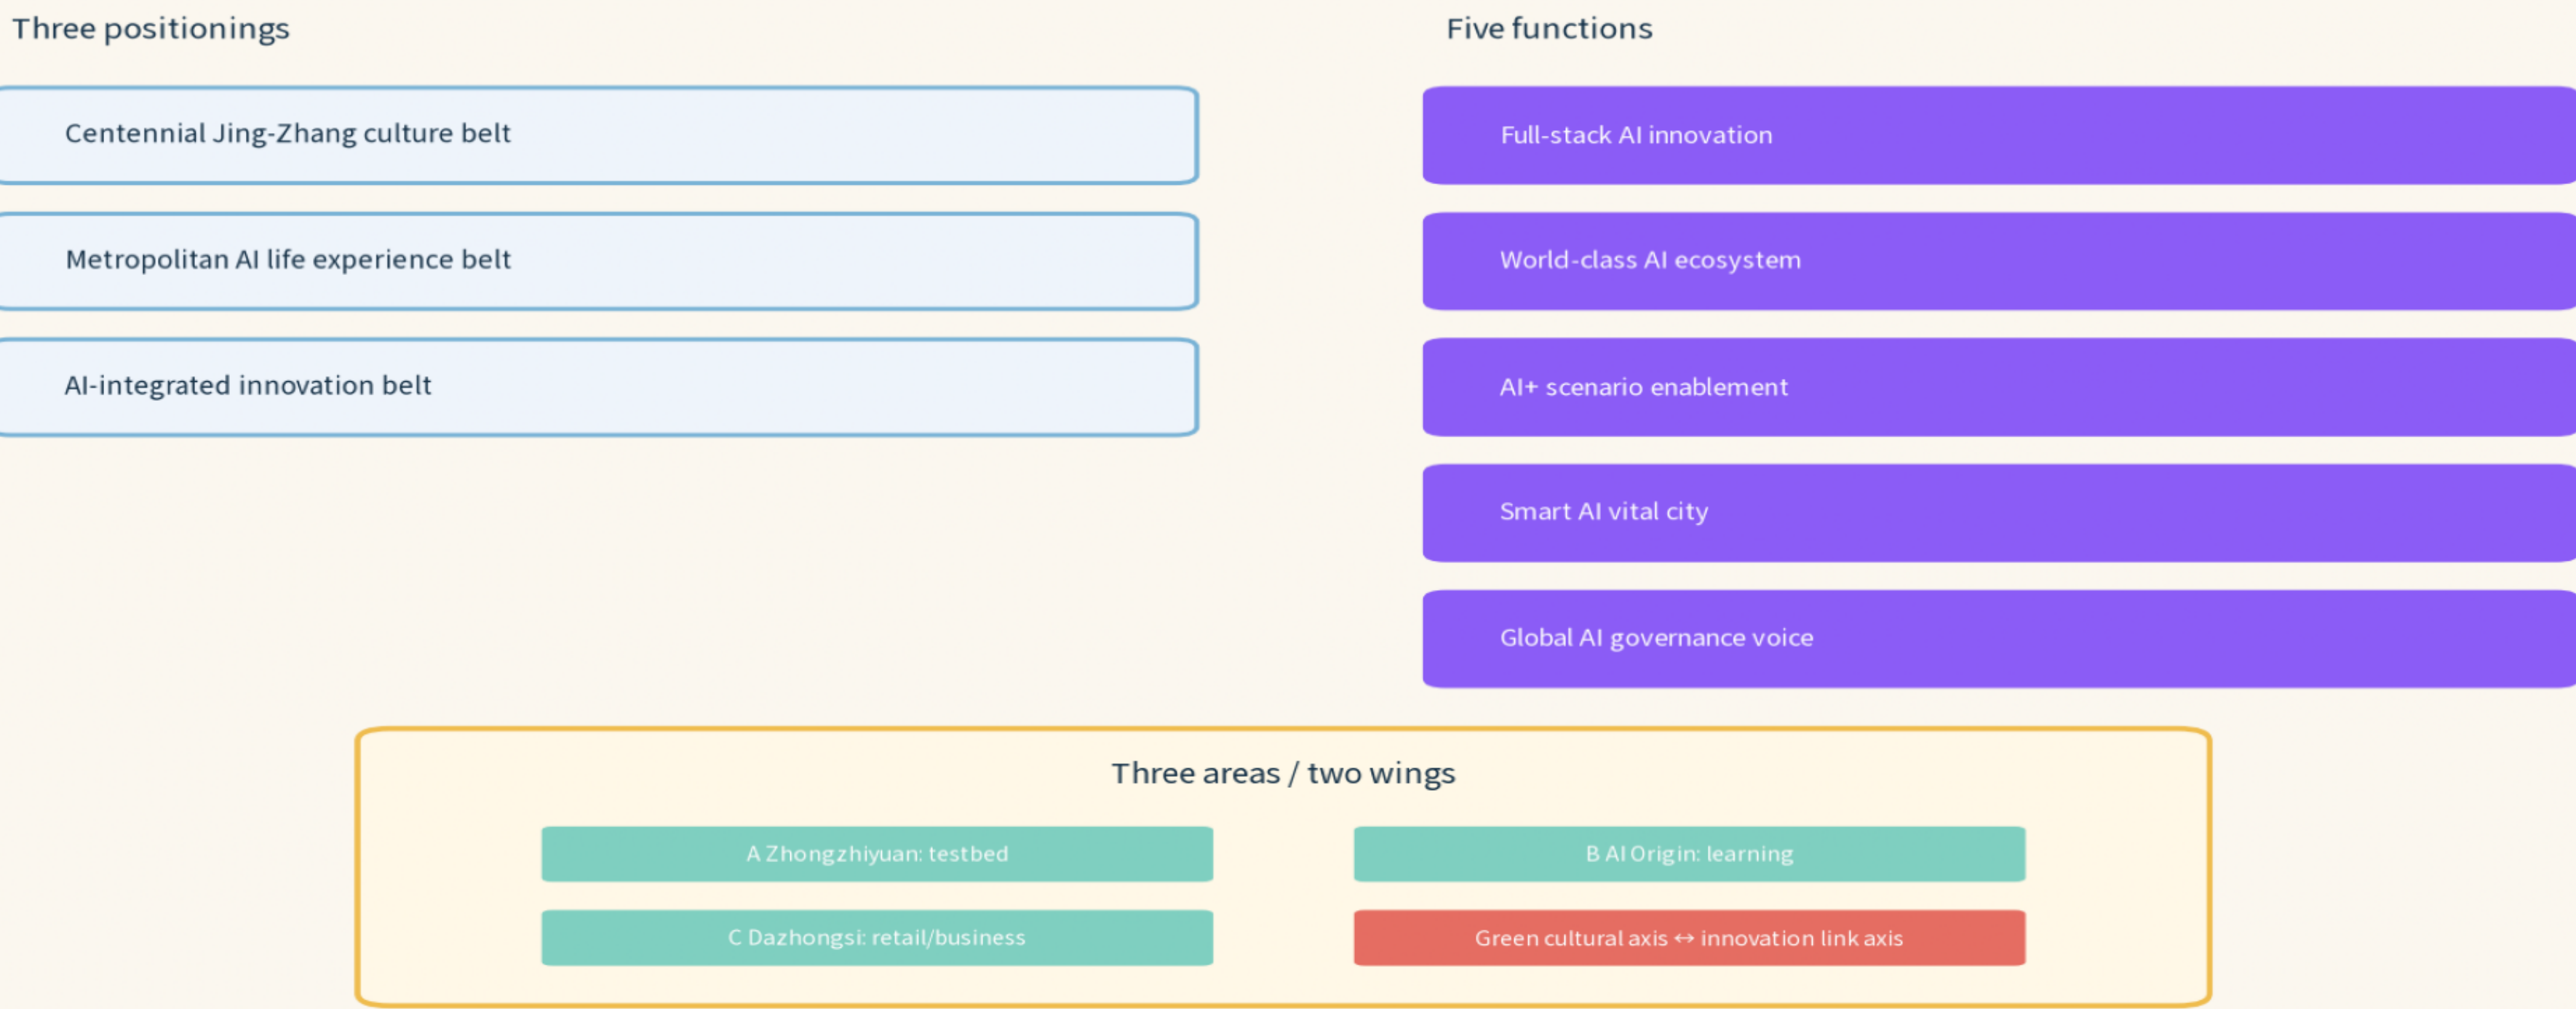

No partner, funding, capacity or implementation agreement is claimed; all interfaces remain unknown/to_verify.

Three areas • two wings • five functions

PAR • JZ

Concept mapping, not an authorized planning caliber

CONCEPT / PROVISIONAL

All spatial interfaces are concept reservations; official geometry, tenure and controls remain unknown/to_verify.

PAR • JZ

CONCEPT / PROVISIONAL

Community / market interface

Participant concept model; provisional geometry; not a statutory drawing.

CONCEPT / PROVISIONAL

Participant provisional model only; not an official land-use plan.

CONCEPT / PROVISIONAL

Ratios and counts are not compared on one axis; all values are provisional.

Geometry source: package provisional GeoJSON; values are not authoritative or approval evidence.
