

01

Five urban margins: space, time, routes, compute and human authority.

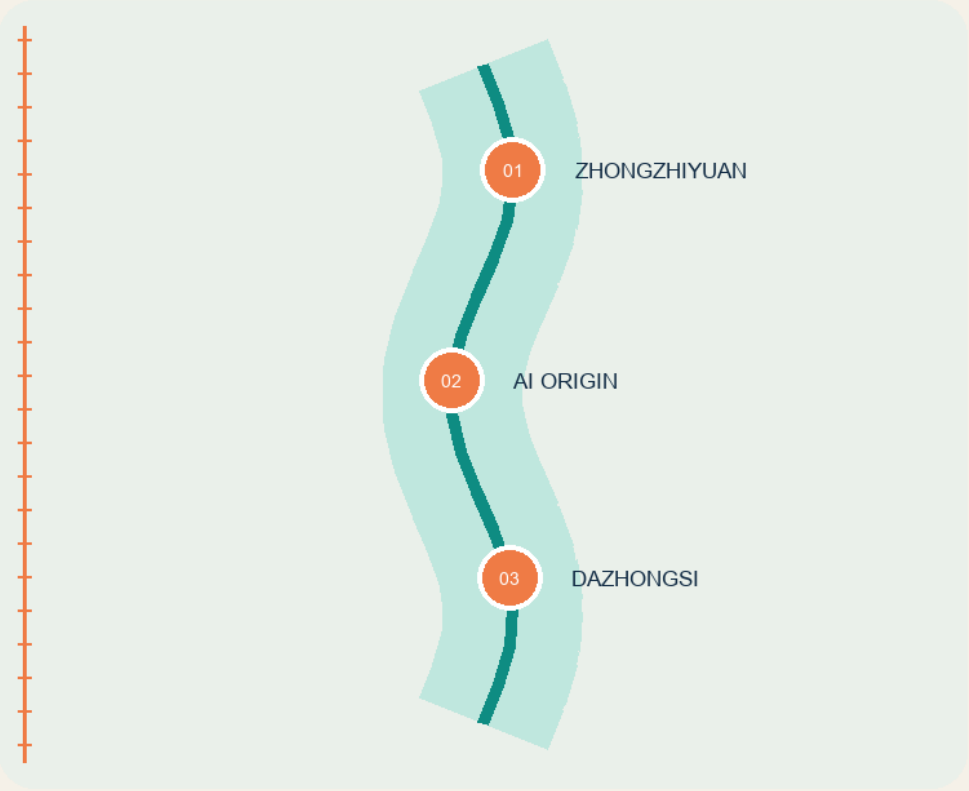

[JZ / 100]

01 / CONCEPT

ROOM FOR ERROR

Leave room for innovation and a fallback for everyday life

PROVISIONAL SCOPE · NOT AN OFFICIAL REDLINE · PROFESSIONAL

- 01

SPACE
Adaptable places

REVERSIBLE
- 02

TIME
Timed trials

PAUSABLE
- 03

ROUTE
No-AI fallback

ALTERNATIVE
- 04

COMPUTE
Edge to offline

DEGRADED
- 05

AUTHORITY
Notice, refusal, takeover

HUMAN

1 SPINE / 3 YARDS / 5 MARGINS / 12 SCENARIOS

HUMAN GATE

PAUSABLE PILOT / DEGRADED MODE /
HUMAN TAKEOVER

02

Provisional geometry supports concept generation and recalculation rehearsal only; statutory controls remain unknown.

[JZ / 100]

05 / EVIDENCE

METRICS WITHOUT OVERREACH

Compute what geometry supports; keep official-data gaps unknown

[JZ / 100]

02 / STRUCTURE

ONE SPINE / THREE YARDS / TWO WINGS

Complete conceptual coverage without false statutory precision

PROVISIONAL SCOPE · NOT AN OFFICIAL REDLINE · PROFESSIONAL

RESEARCH + LEARNING

SMALL CELLS

Clustered around the three yards

LIVING + SERVICE

EVERYDAY FIRST

Trials never crowd out daily life

GREEN + PLAZA

PUBLIC BUFFER

Quiet fallback remains open

RESERVE + MIX

REVERSIBLE

Borrow, evaluate, then retain

18 CELLS / ZERO GAP / ZERO OVERLAP

03

One spine, three yards and two wings; a complete conceptual partition covers the current provisional site.

HUMAN GATE

PAUSABLE PILOT / DEGRADED MODE / HUMAN TAKEOVER

05

A continuous slow-mobility spine and four cross-links keep routes legible when AI is off.

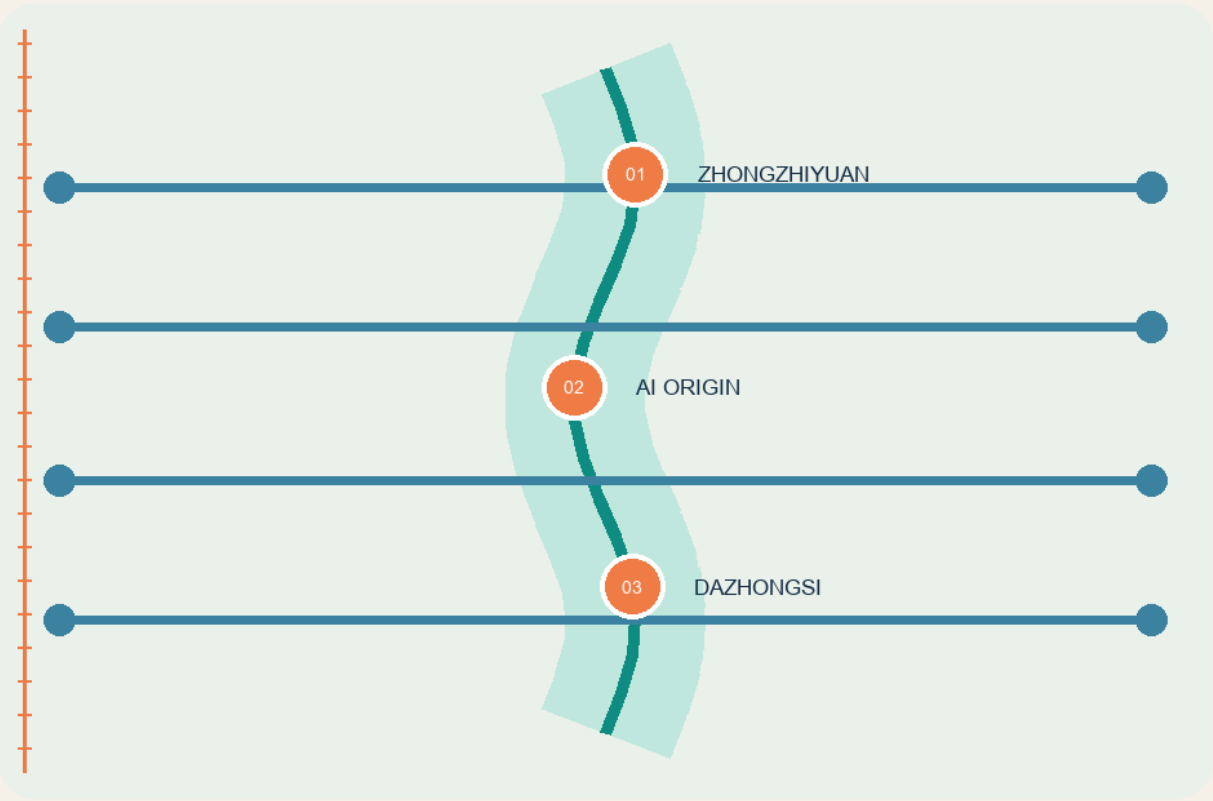

[JZ / 100]

04 / NETWORKS

ROUTE MARGIN + PUBLIC BUFFER SPINE

Static signs, accessible routes and human help remain when AI is off

PROVISIONAL SCOPE · NOT AN OFFICIAL REDLINE · PROFESSIONAL

12 AI SCENARIO NODES

04 CROSS-LINKS

06 PUBLIC COURTS

01 CONTINUOUS SPINE

AI OFF → STATIC SIGNS → HUMAN HELP
