

Board 1: Overall Structure

Jing-Zhang Trust Line • One Mainline, Three Trust Fields, Two Wings, Twelve Stations

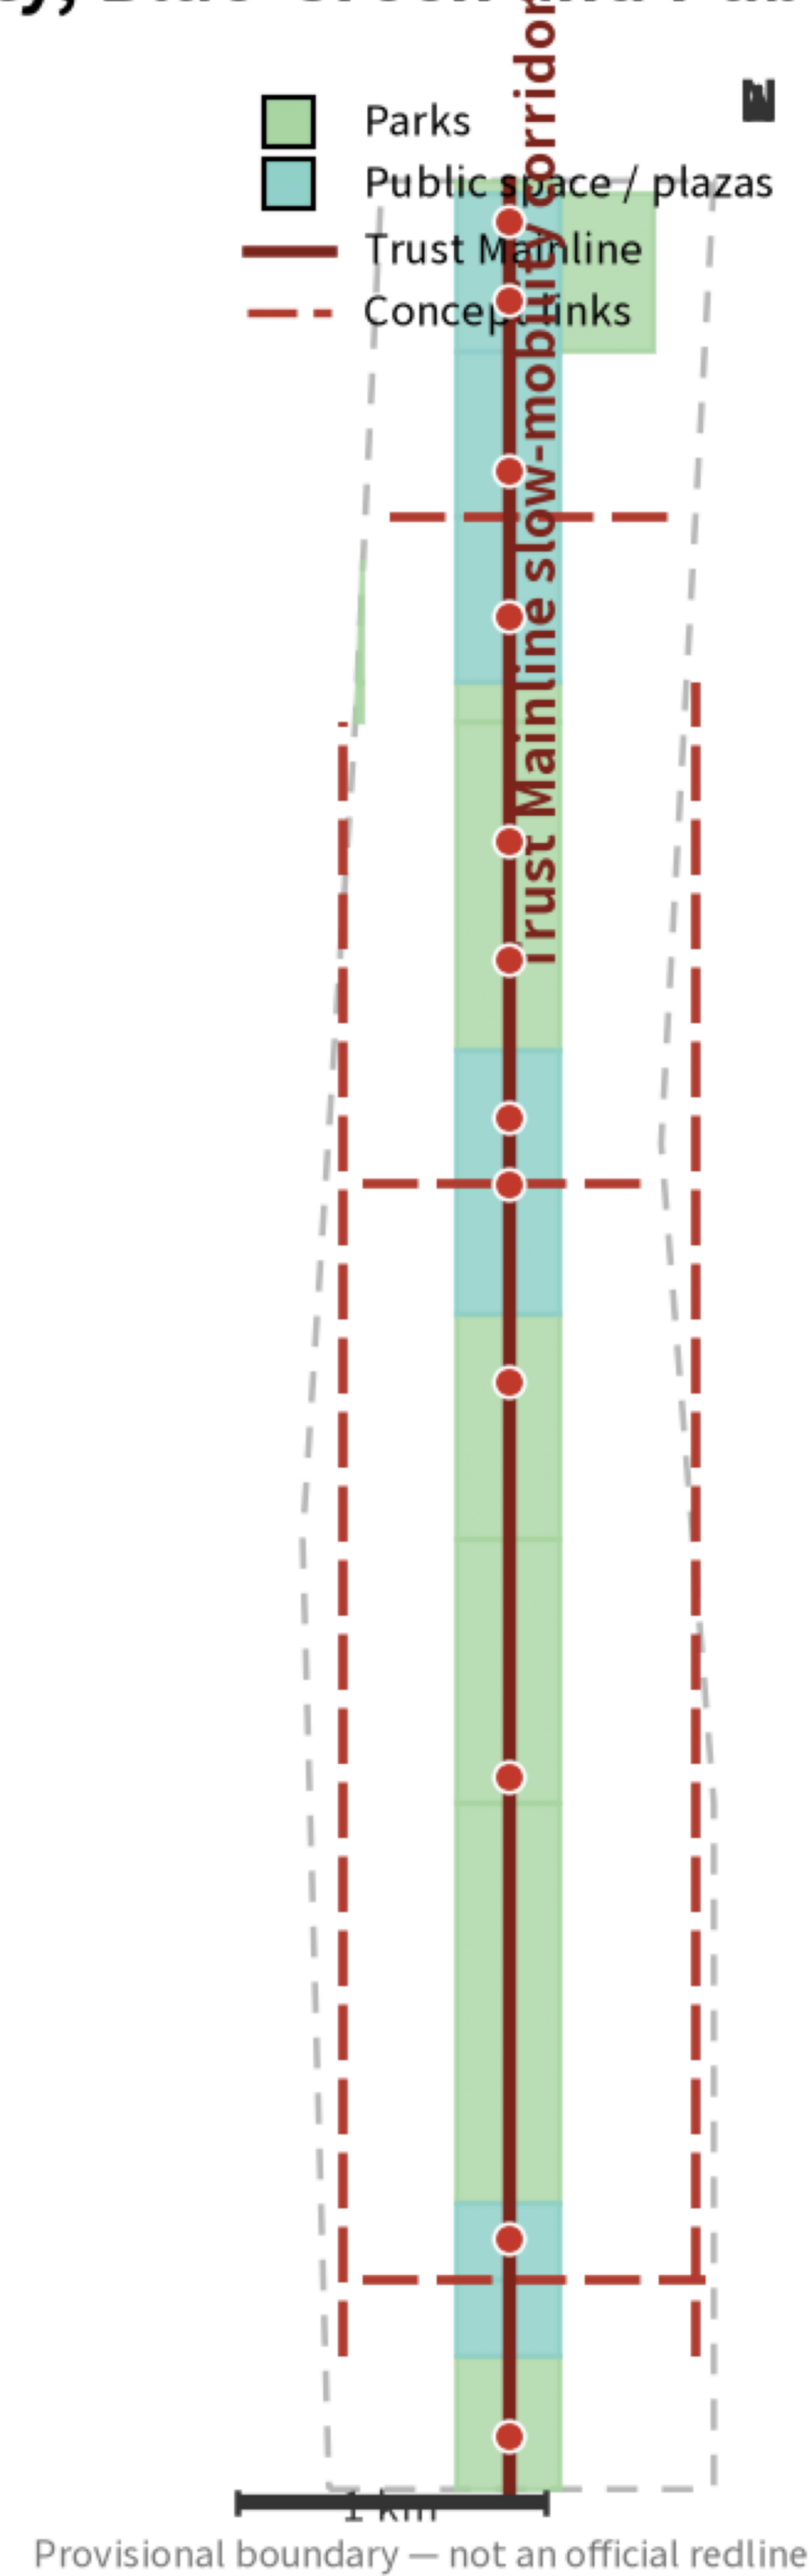

Board 2: Land Use and Renewal

Land-Use Structure and Three-Level Conduction

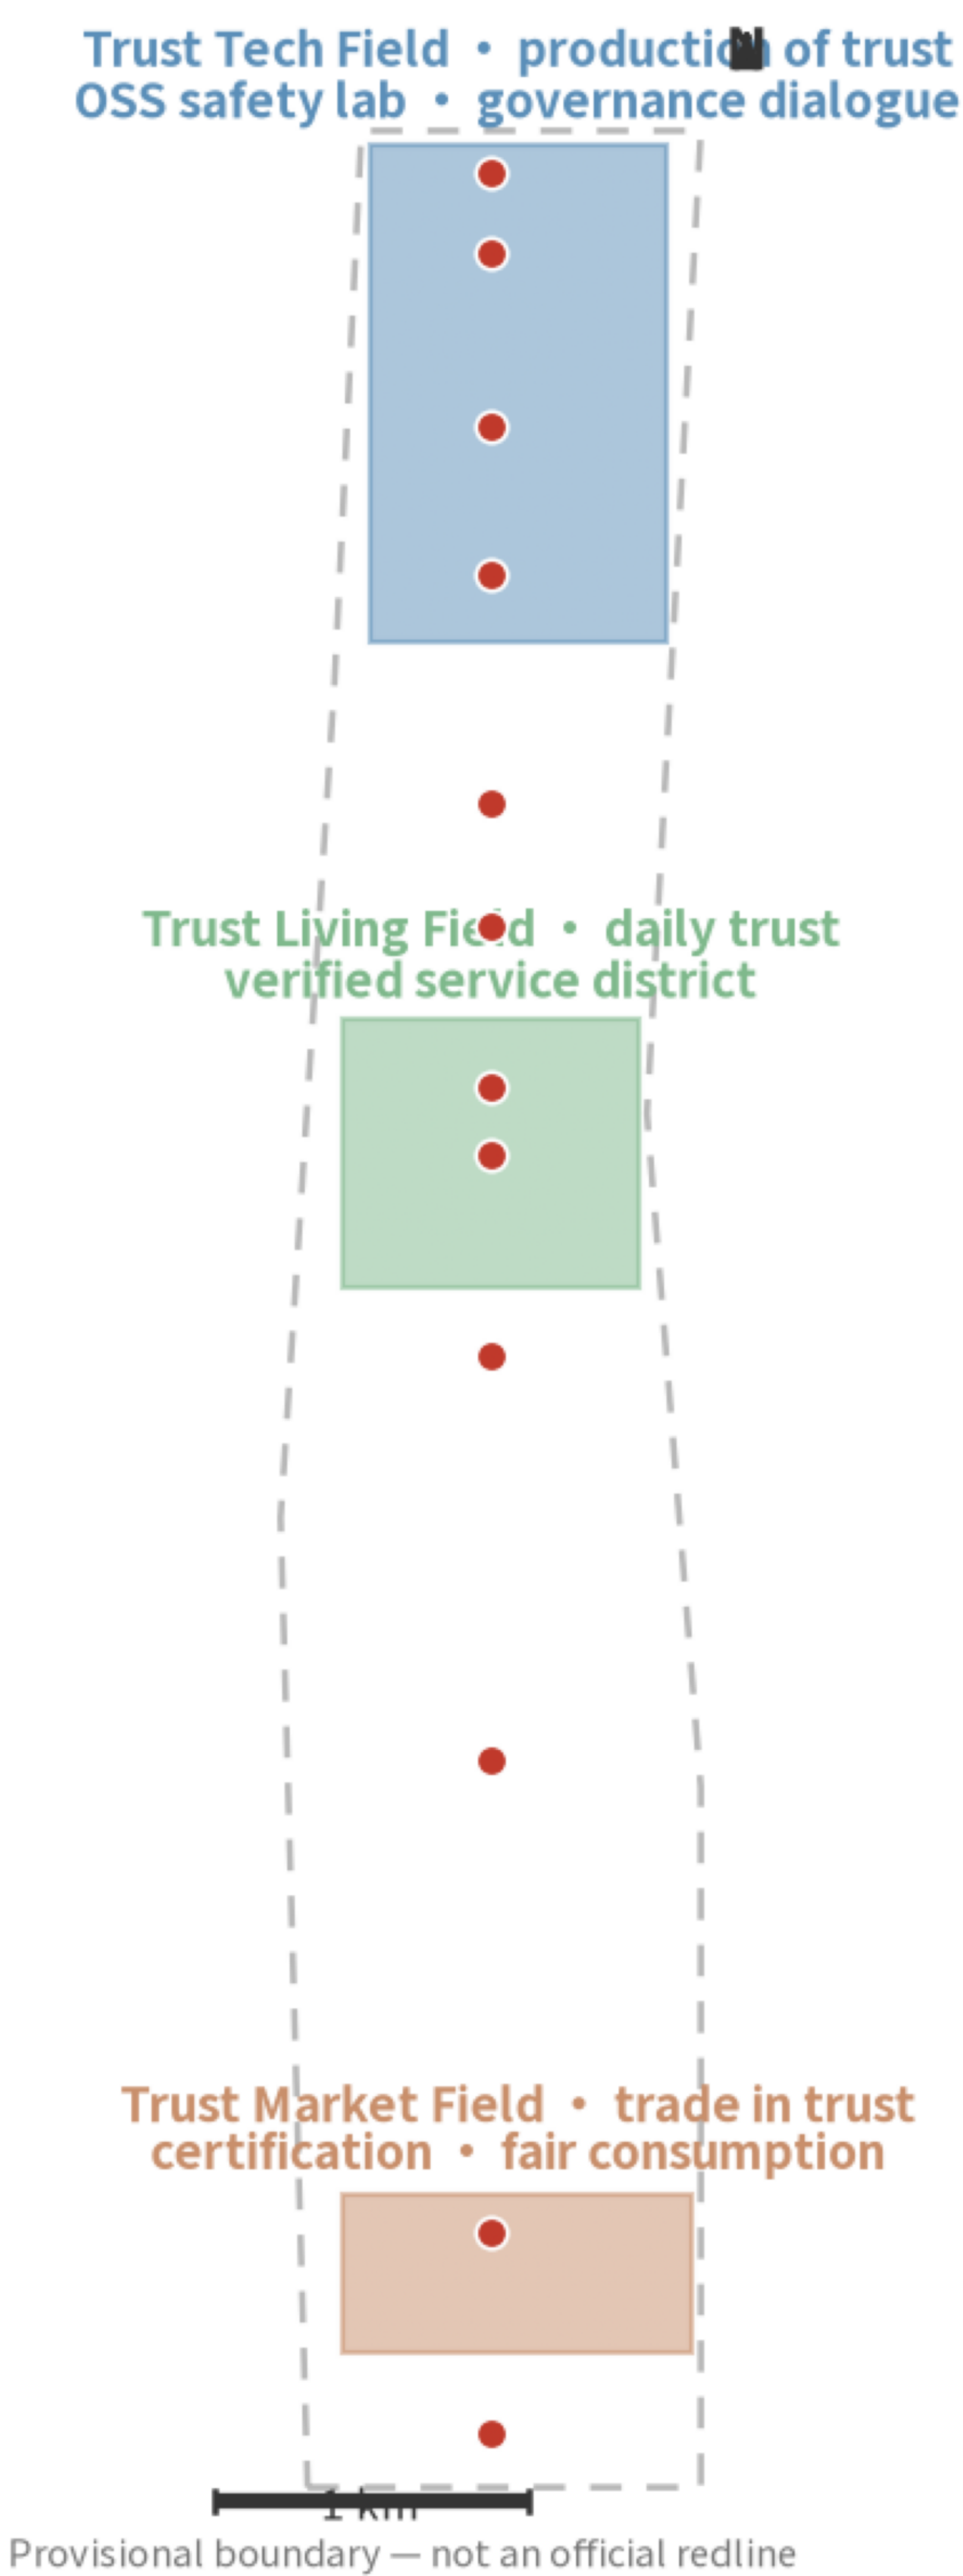

Board 3: Mobility and Blue-Green

Slow Mobility, Blue-Green and Public Space Network

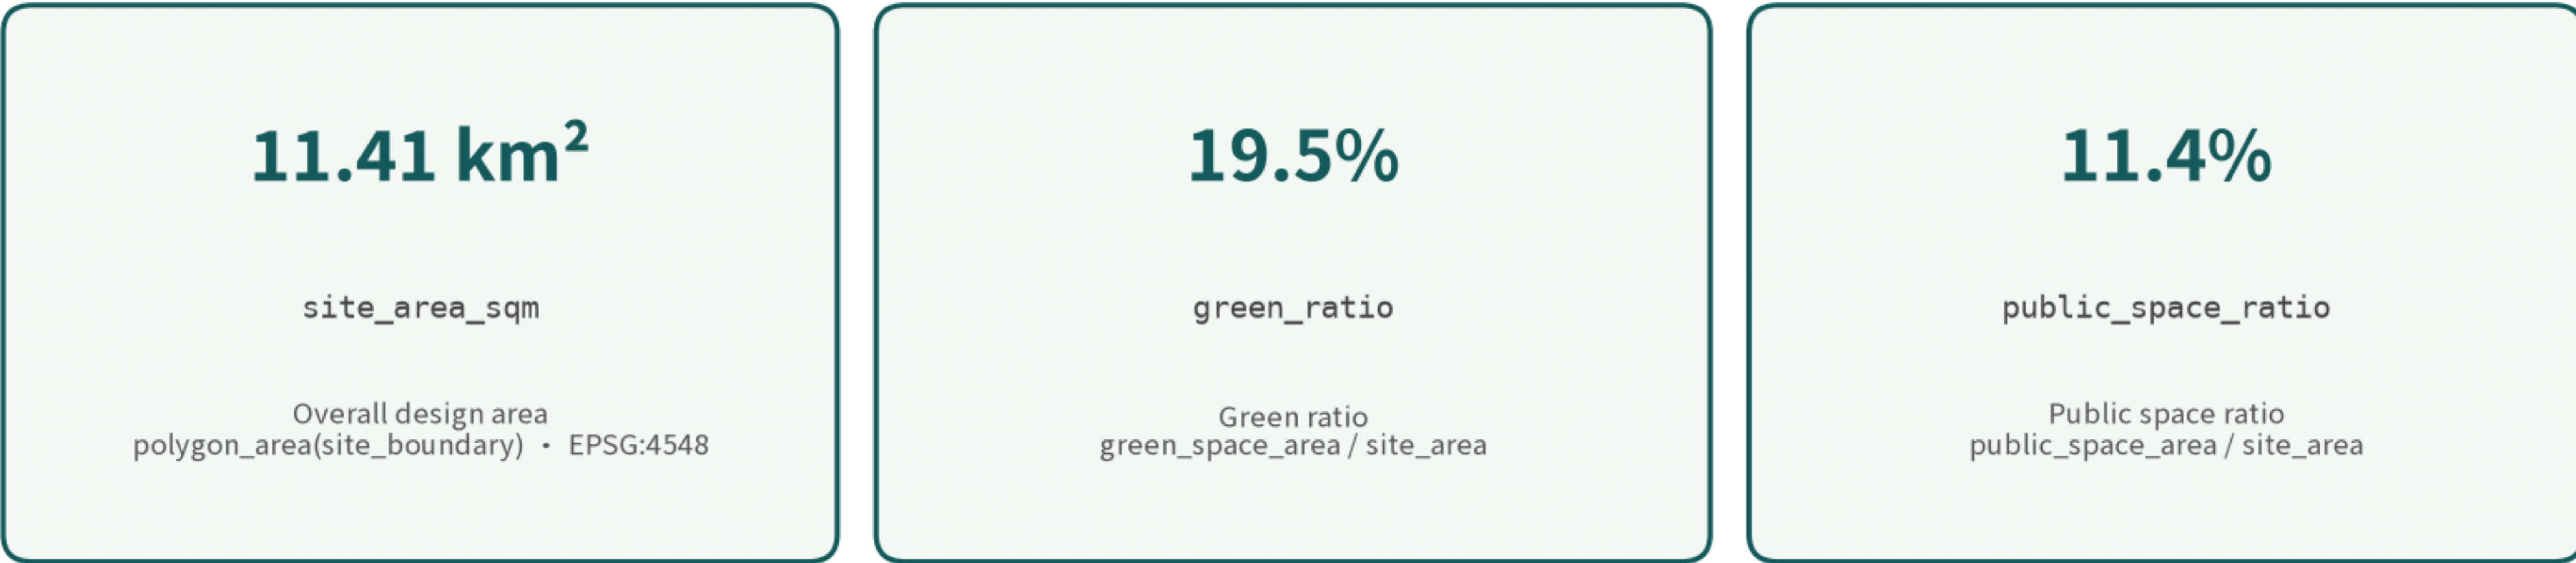

Board 4: Key Area Detail

Three Key Areas: Differentiated Trust Functions

Board 5: Metrics and Compliance

Core Metrics Recalculation and Evidence Chain

Pending official controls (unknown, no fabricated certainty):

FAR • building height • building density
Provisional boundary: full recalculation once official polygons are released

Self-check: four gates (deterministic/spatial/visual/professional) all PASS, see self_check.json

Board 6: AI Scenarios and Operations

Twelve Trust Stations (spatial entities of governance mechanisms):

S1 Origin Station • S2 Trust Market Plaza • S3 Fair Consumption • S4 GenAI Compliance Experience • S5 Human-Takeover Station • S6 AI Legal Advisory Cabin
S7 Accessible Trust Station • S8 Data Trust Station • S9 Algorithm Audit Open Lab • S10 Global AI Governance Dialogue • S11 Developer Oath Plaza • S12 Agent Honor Wall

Three pilgrimage landmarks: Governance Dialogue Center (Zhongzhiyuan) • Trust Monument (heritage park) • Agent Honor Wall (heritage park)

Annual events: Global AI Governance Dialogue Week • Trusted AI Marathon • Algorithm Audit Open Contest • Public Trust Experience Days (quarterly)

Operation loop: trust credential -> testfield opening -> runtime evidence disclosure -> honor wall update

Cultural narrative: three foundations of trust - 1909 Jing-Zhang Railway (engineering trust) • 1980s Zhongguancun (market trust) • now, AI public trust (governance trust)
