Start with One Person and One Candidate Task

China’s AI Plus Strategy · One Candidate Task

ONE FICTIONAL COMPOSITE

P01 is an early-career user. Wheelchair use and no smartphone are design-test conditions, not a real resident or user-research evidence.

ONE CANDIDATE SERVICE TASK

At a staffed window, find one human-confirmed learning or career service—or receive a reasoned, appealable refusal—while preserving no-smartphone and non-AI paths. D0 remains unknown.

ONE REVOCABLE CONTRACT

S07 serves, S03 evaluates independently and S04 supports interfaces. Four receipts—success, refusal, human takeover and exit/restoration—govern go, revise or stop.

Three Supporting Areas

CONCEPT PROPOSAL - NOT A NATIONAL PILOT DESIGNATION - NOT GOVERNMENT ENDORSEMENT - NOT AN APPROVED PLAN - NOT A DELIVERED OUTCOME - PROVISIONAL GEOMETRY AND TEST DIMENSIONS

ZHONGZHIYUAN

INTEGRATE + PROVE

Public observation, safety boundaries, staffed control, physical emergency stop and visible energy support the contract.

AI ORIGIN

FP01 / S07 + S03 + S04

S07 is the only user-facing service; S03 evaluates independently; S04 provides interface/API support only.

DAZHONGSI

DEPLOY + SCALE

Small merchants and creators stay frontstage; staffed service, dispute review and contribution records remain continuous.

Revocable First-Use Contract

GO only opens separate procurement, legal and professional authorization discussion. REVISE / STOP freezes automation, restores staffed service, disposes data, returns assets and retains failure evidence.

ONE DEFINED CANDIDATE SERVICE TASK: CHOICE, TAKEOVER, EXIT

Candidate task: an early-career user needs skill-transition and job information without mandatory smartphone use or automated employment decisions. Provisional place: ROOM-TEST-001 / AI Origin Community.

P01 / FICTIONAL COMPOSITE

P01 SEVEN-STEP SERVICE JOURNEY | J01-J07

Fictional composite design persona · wheelchair use and no-phone access are synthetic accessibility tests, not field-research findings

J01 STAFFED ARRIVAL
No phone, app or AI account required

staffed walk in desk

J02 CHOOSE CHANNEL
Ordinary catalogue and human help stay available

paper or staffed non ai catalogue

J03 MINIMUM NEED
No direct identifiers or raw free text

minimum necessary staffed intake

J04 COMPARE CATALOGUE
AI explains options; it cannot decide eligibility or rank people

ordinary catalogue is source of continuity

J05 HUMAN CONFIRMATION
A person confirms referral or reasoned refusal

named human confirmation required

J06 PORTABLE RECEIPT
Outcome, reason, human authority and three rights

paper or portable receipt

J07 APPEAL / DELETE / EXIT
Human routes restore the ordinary-service baseline

human appeal and baseline restoration

A staffed service and ordinary non-AI catalogue remain available; a person confirms outcomes; appeal, deletion and exit are human routes, and exit restores the D0 baseline.

Unified Brand and Reversible Component Architecture

One master brand governs five flagships, four operating rituals, five contribution records, three landmarks and six reversible components; AI City API / Trusted Compact remains the cross-cutting operating layer.
