

ORIGIN DUAL BEAT

Commerce beat near stations, residence beat inward

Wudaokou observation: keep the station busy, walk inward to a courtyard. Walk rings are hypotheses.

Overview: corridor + Origin dual-beat sequence

Origin sequence (hypothesis)

Origin: station public area · ~80 m/min · not an isochrone

● Station 0 min
Transfer / exit

● Commerce 0–3 min
Food, pitches, parlor

● Seam 3–8 min
Pocket green, noise buffer

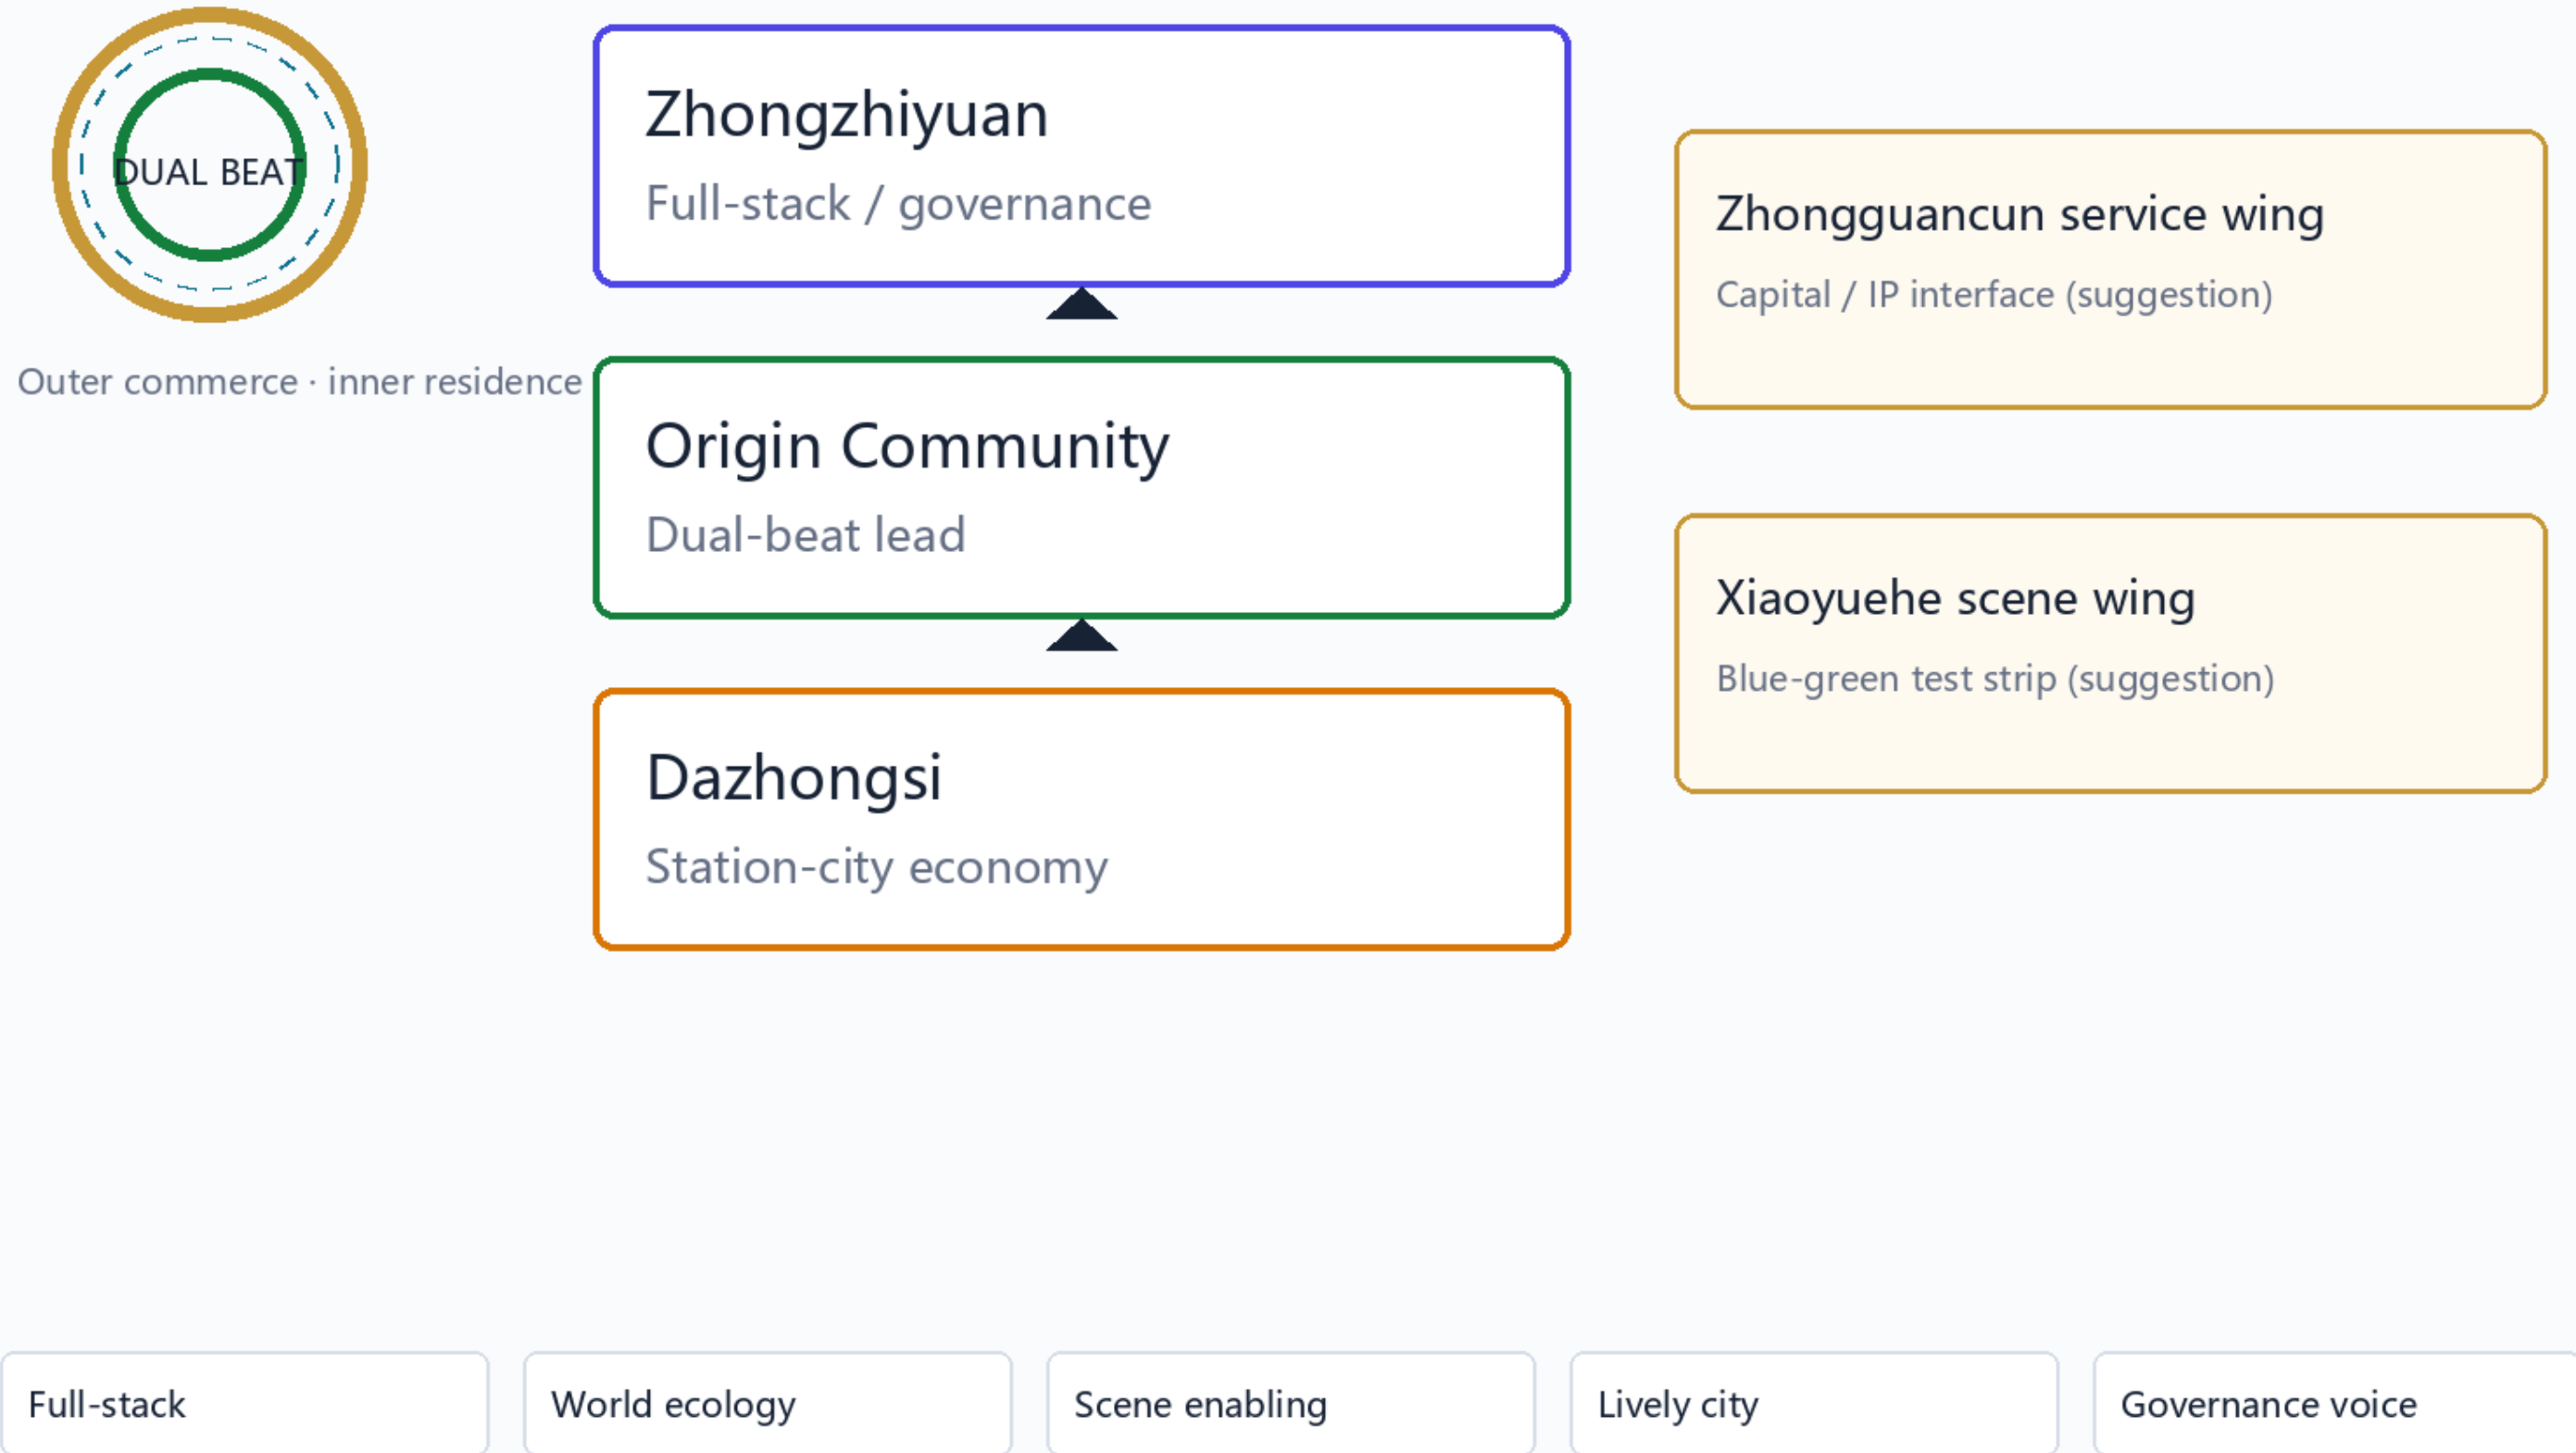

● Residence 8–10 min
Courtyard, care, opt-out

Equal rectangles retired; sequence is station–commerce–seam–residence.

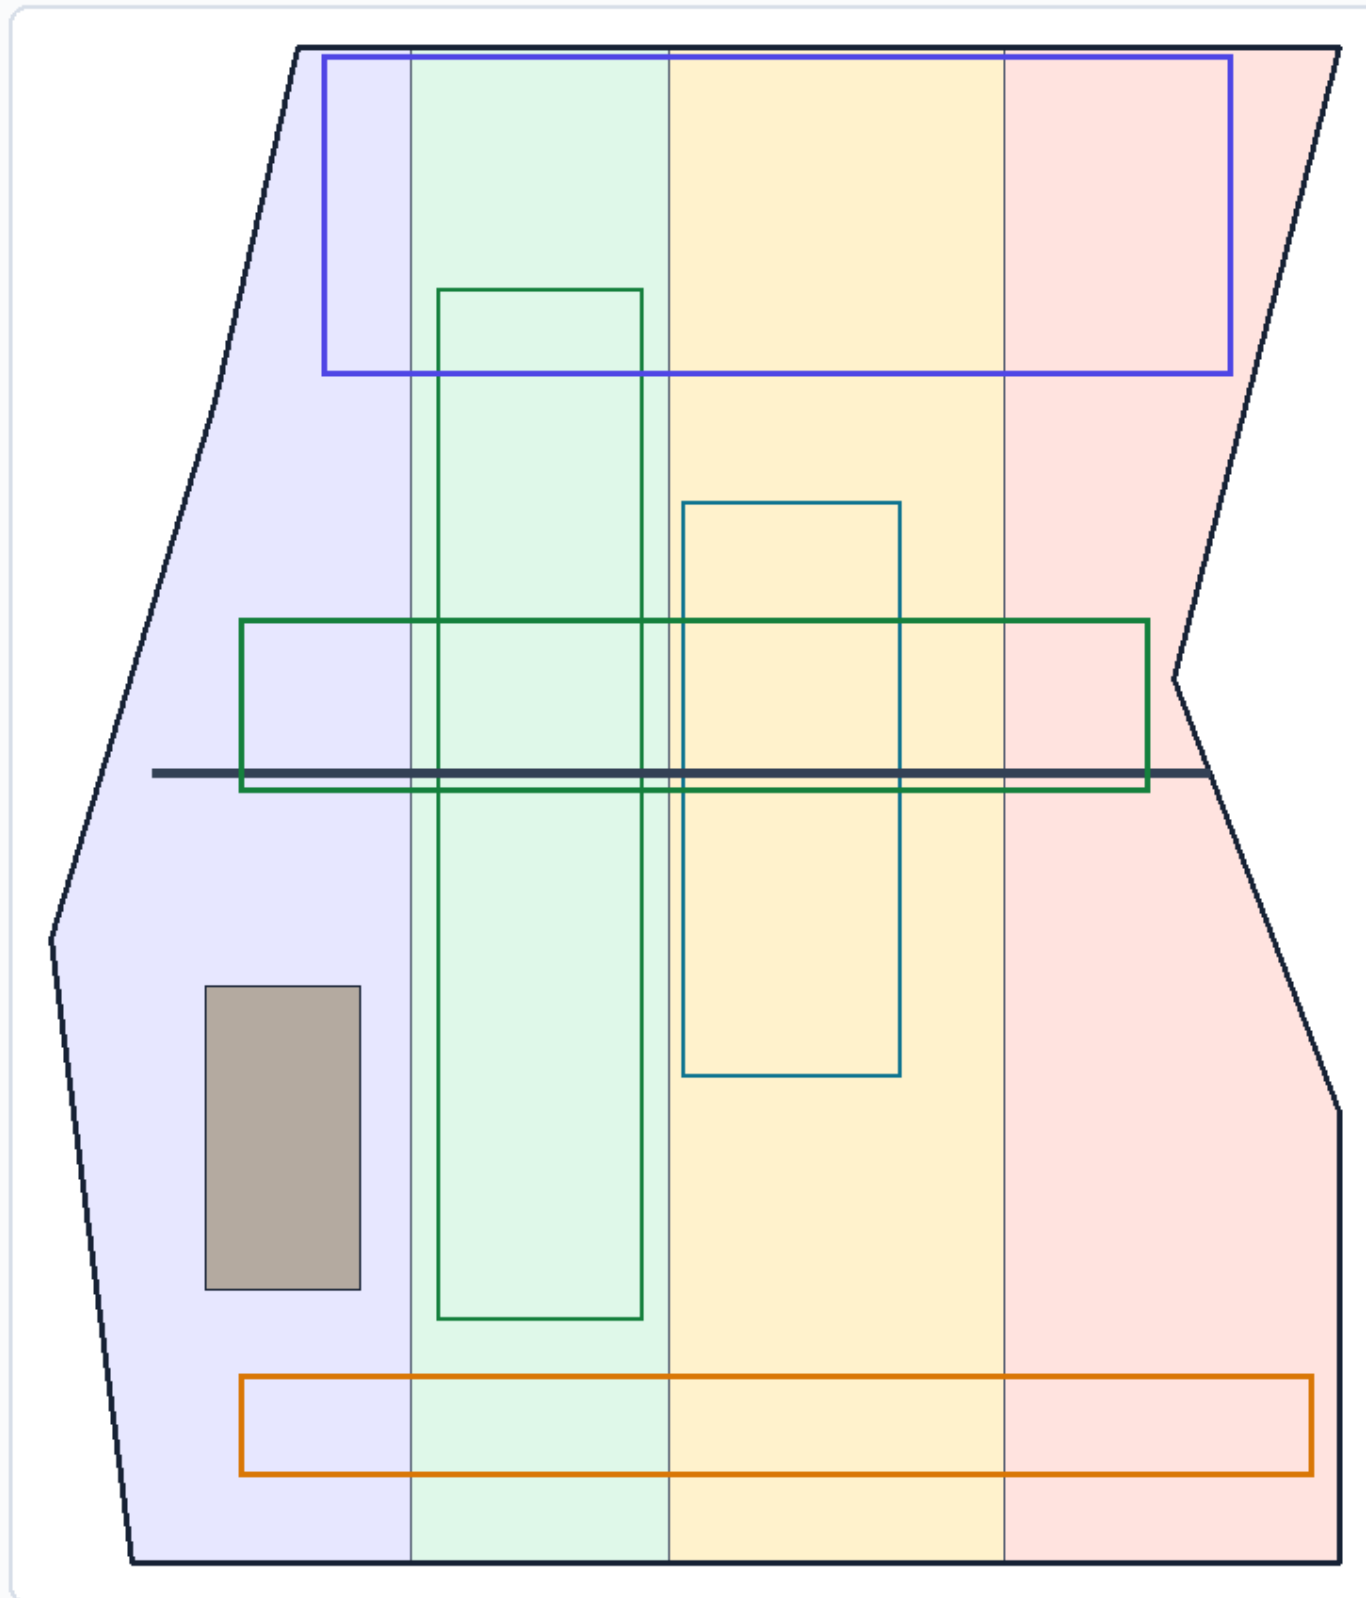

虚线圈 = 待测步行假设 / dashed = walk hypothesis Provisional geometry is for internal recalculation only. The organizer gap does not block content s

Brand, three areas / two wings, five functions (concept)

Jing-Jin-Ji etc. are research suggestions Provisional geometry is for internal recalculation only. The organizer gap does not block content

Three key areas (provisional) and Origin sequence

Zhongzhiyuan

Garden full-stack + governance; Qinghe edge as method, no floodway take.

Origin Community

Station street → green seam → courtyard. No named Wudaokou demolition.

Dazhongsi

Four-quadrant walking is a method, pending junctions and utilities.

Origin sequence (hypothesis)

Origin: station public area · ~80 m/min · not an isochrone

● Station 0 min
Transfer / exit

● Commerce 0–3 min
Food, pitches, parlor

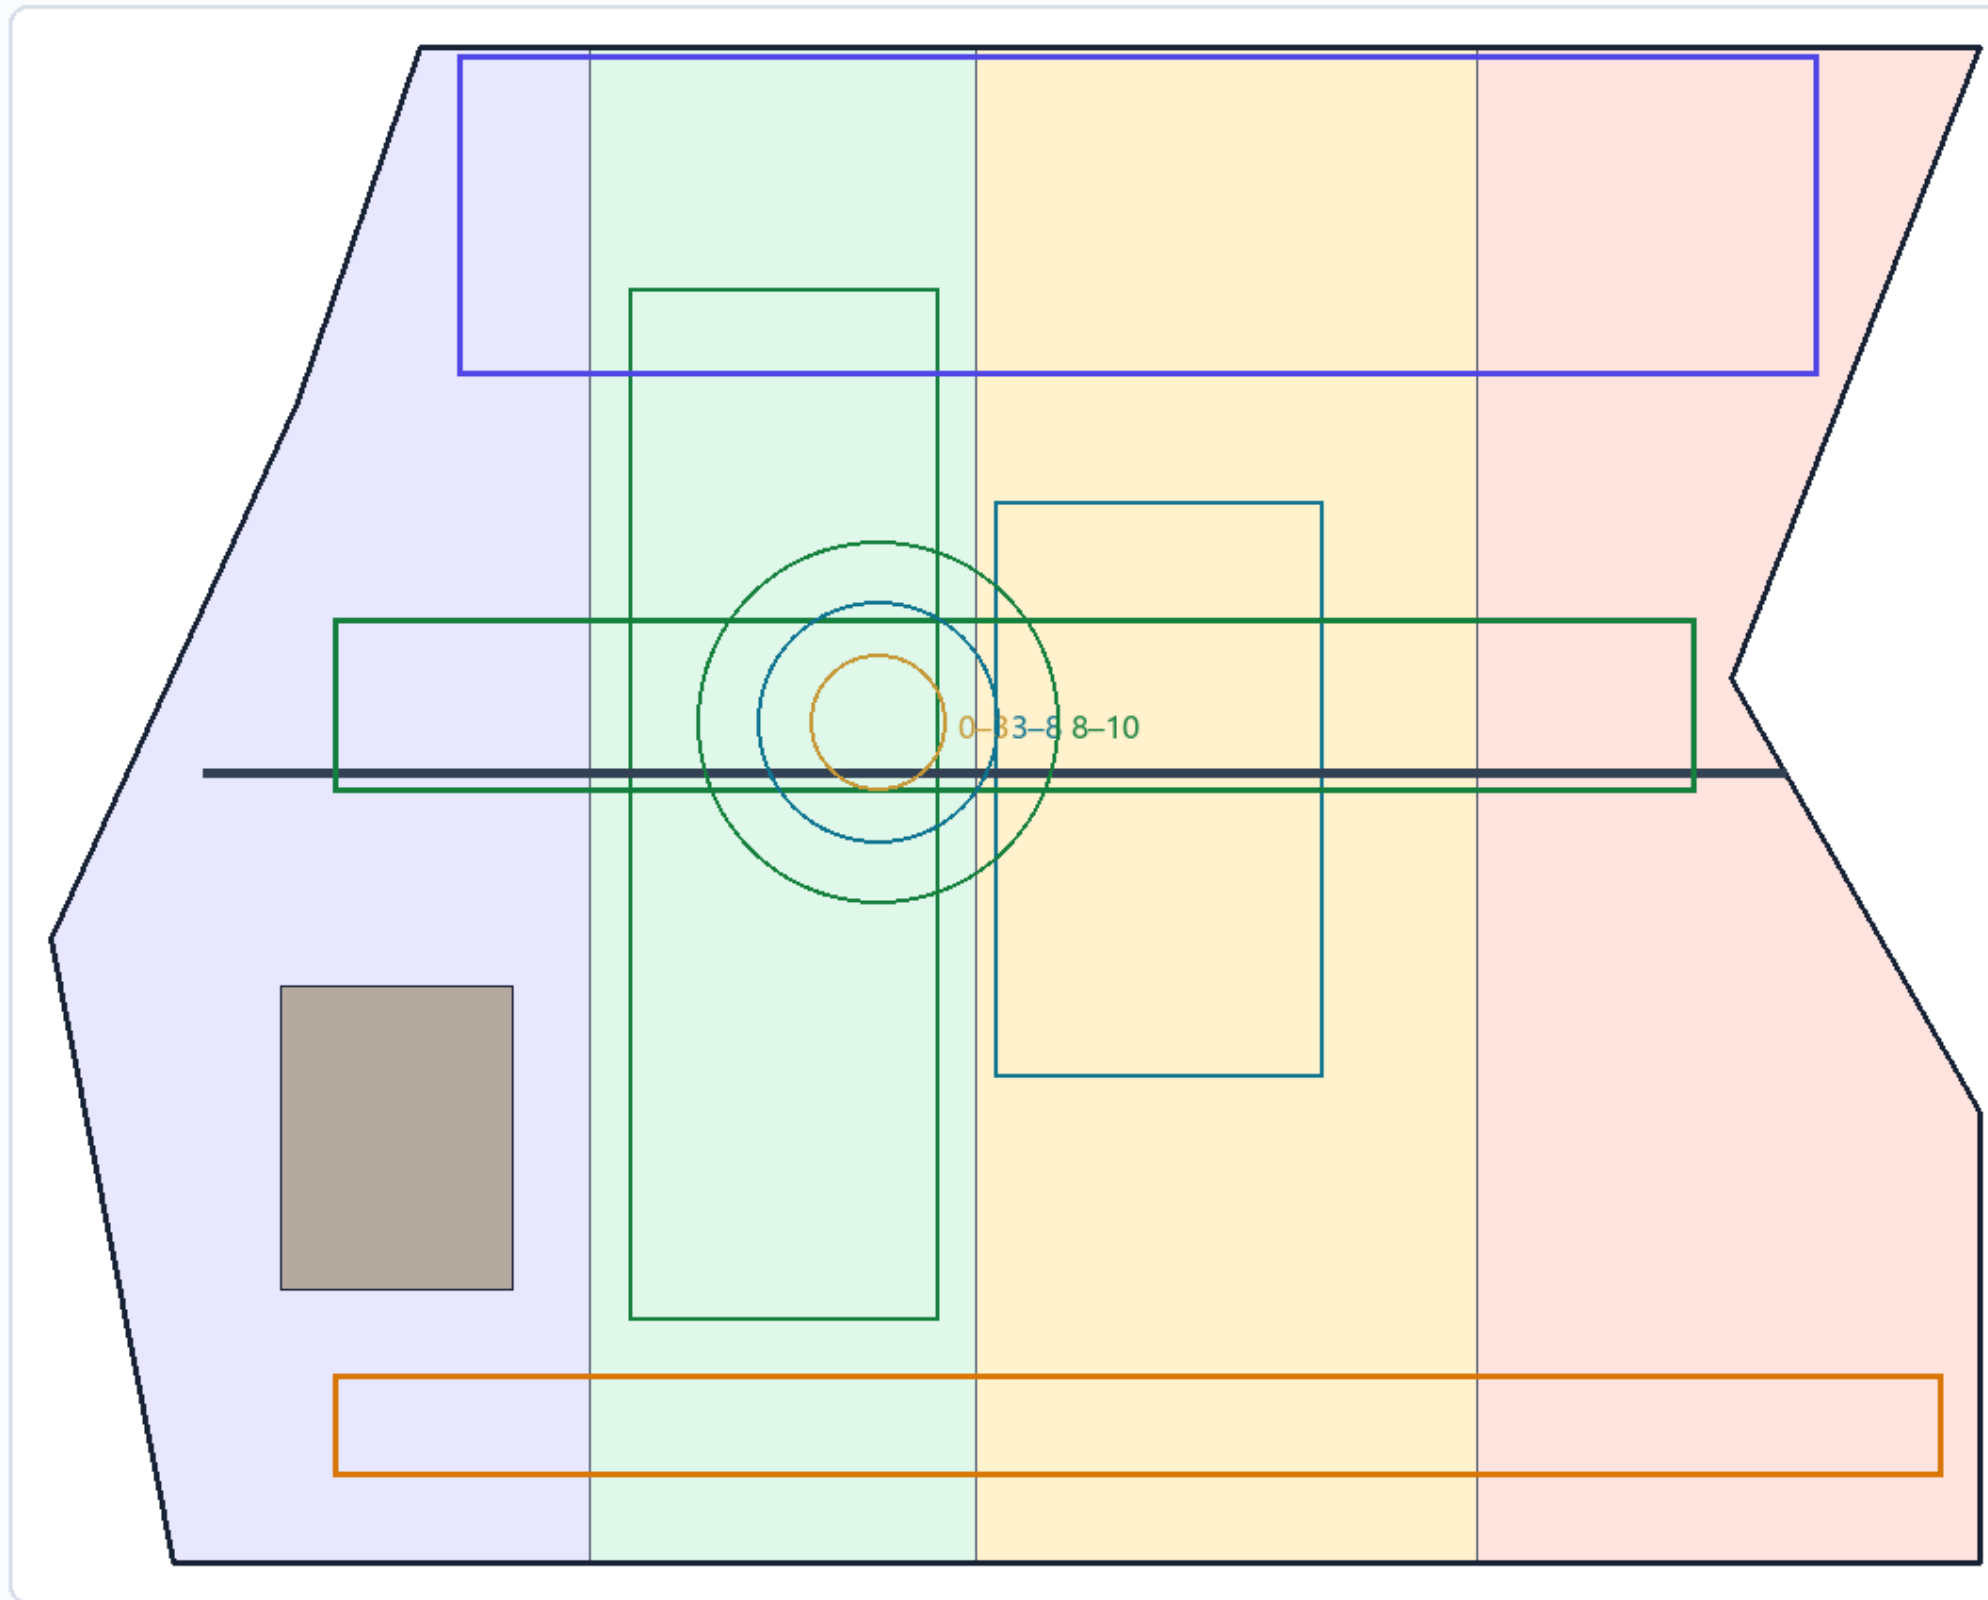

● Seam 3–8 min
Pocket green, noise buffer

● Residence 8–10 min
Courtyard, care, opt-out

Equal rectangles retired; sequence is station–commerce–seam–residence.

Rectangle edges are not plots or road redlines Provisional geometry is for internal recalculation only. The organizer gap does not block co

Walking and blue-green seam (provisional, dashed)

图例 / legend

Green = submitted green layer
Teal = public space
Dashed rings = walk hypothesis
Not isochrones

Fifth Ring and station links are methods pending redlines and utilities.

Provisional geometry is for internal recalculation only. The organizer gap does not block content scoring; recalculate when official polygon

Metric basis: internal recalc + low confidence
