

Twin-Track Jing-Zhang: Ordinary Life Continuous, Verification Beside

Ordinary civic ground works first; verification appears only beside it

30 / 3 / 15

Read the spatial ruling—follow an ordinary task—trace evidence and professional handoff.

Present-day Haidian and Overall Spatial Structure

PRESENT-DAY HAIDIAN

Published material reports an open Phase II and about nine kilometres of continuous green corridor. The proposal does not claim another park; it considers reversible public-service additions that do not interrupt existing daily life.

S01 / CIVIC-GROUND STRUCTURE / SITE OVERVIEW

One civic-ground spine links three distinct prototypes

Read the ordinary route and six cross-links first; proof, staffed handoff and failure siding stay beside it.
Provisional relationship diagram, not a precise masterplan.

G0 spatial relations • provisional geometry • not to scale • proves no official redline, exact alignment, station, dimension, footfall, approval, built state, recovery time, or G1

G0 • PROVISIONAL • NOT TO SCALE

B / READ THE GROUND
Read civic ground first

- ordinary
- 6 cross-links
- heritage datum

ORDINARY
enter • move • pause
ask • leave

FAILURE OBJECT
proof overlay stops
ordinary life continues

Recalculate on official inputs
no coordinates, distances or station anchors

S02 / FUNCTIONAL CORRIDOR / LAND-USE STRUCTURE

G0 • PROVISIONAL • NOT TO SCALE

Thirty-six concept envelopes grow along civic ground instead of forming a parcel checklist

Colours denote function families only; irregular envelopes, six cross-links and three ground-level duties describe urban structure without creating statutory land use

G0 functional envelopes • 36 concept units frozen • six cross-links are relational • creates no statutory use, precise area, FAR, height, demolition decision, or implementation conclusion

S06 / CIVIC-GROUND NETWORK / MOBILITY + BLUE-GREEN

G0 • PROVISIONAL • NOT TO SCALE

One continuous civic ground, six cross-links, proof only in side pockets

Overall walking-blue-green structure, human section and failure boundary share one drawing; alignments, dimensions and site registration remain unknown.

G0 RELATIONAL ONLY • Non-AI continuity is intent, not acceptance • route, width, slope, ecology, railway safety, staff and recovery time remain unknown / 0

Three Non-interchangeable Spatial Prototypes

Three Ground—Threshold—Ordinary-task Relations

ZHONGZHIYUAN

01 VERIFY • ZHONGZHIYUAN / PARALLEL SECTION
Bypass below / proof court above

FAILURE: enclosure and equipment leave; bypass stays
RESTORE: clear court, then recheck; not G1

ORIGIN COMMUNITY

02 CO-CREATE • ORIGIN / STREET-COURT SECTION
Street through / two courts back

FAILURE: proof withdraws to the edge; street and courts continue
RESTORE: paper/spoken/staffed first; restart remains a decision

DAZHONGSI

03 PUBLISH • DAZHONGSI / COMMUTE SECTION
Commute clear / service aside

FAILURE: close the service side only; commute remains
RESTORE: correct sources and retest; not authorization or approval

CONDITIONAL FIT

Continuous bypass first; equipment-side court isolatable.

CONDITIONAL FIT

Resident street first; two courts and four nodes withdraw independently.

CONDITIONAL FIT

Four-way commute first; information and staff stay off-route.

Human Scale and Four-state Civic Signals

S05 / HUMAN-SCALE ORDINARY LIFE

One public right, three different spatial answers

Read how a person enters, asks, completes a staffed task and leaves. Proof stays beside, stoppable and removable; this is not field or accessibility evidence.

01 VERIFY • ZHONGZHIYUAN

PARALLEL BYPASS

SIDE PROOF GARDEN

Ordinary: bypass → read status → staff → correct or leave

Proof stops: close and clear the proof garden
Still works: bypass, observation, staffed explanation, exit
Spatial cue: parallel relations, never one crossed route

02 CO-CREATE • ORIGIN COMMUNITY

ONE STREET

TWO COURTS + FOUR WITHDRAWALS

Ordinary: street → paper/spoken → staff → withdraw or leave

Proof stops: withdraw nodes; remove court inserts
Still works: street, paper entry, staffed task, appeal
Spatial cue: one street links two stepped-back courts

03 PUBLISH • DAZHONGSI

FOUR-WAY COMMUTE

OFF-ROUTE HALL + STAFFED DESK

Ordinary: cross → read source → staff → continue

Proof stops: publishing and automation leave the route
Still works: commute, quiet rest, staffed service

G0 concept relation · people are generic symbols, not real participants or public feedback · non-AI task first · not field or accessibility evidence

S06 / FOUR-STATE STATIC STORYBOARD

Ordinary ground first; side proof is optional, stoppable, and removable

G0 • NO-GO • PROVISIONAL • REAL RESULTS 0
Concept only; not site, approval, or official-boundary evidence

01 ORDINARY

same task, no AI

PAPER • ORAL • PHYSICAL INFO
No account, QR, or device

02 VERIFY

voluntary • bounded • exit

SIDE-BOUND PROOF
Never uses ordinary ground

03 FAULT

only proof objects stop

BLUE OBJECT ISOLATED
Ordinary life and staff continue

04 RECOVER

restore task and proof first

PHYSICAL INFO • STAFF
Not restart, approval, or G1

CONTINUOUS ORDINARY GROUND: NEVER INTERRUPTED BY THE FOUR STATES

THREE TITLELESS SPATIAL SIGNATURES • DISTINGUISH BY RELATION

PARALLEL BYPASS • SIDE COURT

ONE STREET • TWO COURTS • FOUR EXITS

FOUR-WAY CROSS • OFF-ROUTE HALL

STATIC STORYBOARD, NOT ELAPSED TIME; RECOVERY IS NOT MODEL RESTART, AUTHORIZATION, APPROVAL, OR G1 • LINKS: CONTRACT / SAME-TASK NON-AI PATH / H01—H07

ANTIFRAGILE FAILURE GOVERNANCE | THREE-CARRIER WRITEBACK

Existing IZ-AIOS contract · G0 concept only · NOT TO SCALE · not a real incident, field recovery, or deployment licence

01 | Classify failure before choosing stop intensity

Safety + access
collision · blocked daily route

Rights + consent
prohibited data · no withdrawal

Source + version
stale · conflict · overwritten

Service + handoff
no human · daily task displaced

Evidence + decision
bad denominator · ignored appeal

Place restoration + exit
not removable · no destination

02 | Failure—stop—recover—retest storyboard (synthetic T-02 stale-source example)

03 | One state event, three atomic writebacks

Scene passport | back-stage fact

four axes · failure class · stop-authority role
before/after version · evidence/appeal · expiry
pilot-readiness-register.jsonrecords
Recovery never changes maturity or authority by itself.

Civic timetable | what works now

public runtime · ordinary/non-AI path
staffed contact · next update · source/exit
twin_track_frontend_contract.civic_timetable
No account, QR, or AI, show the conservative state.

Evidence matrix | how claim changes

hold/narrow/correct · anchor + version
scope/limits · retest · go/no-go
antifragile_failure_governance_contract
Retain old evidence; every pass says what it cannot authorize.

04 | Four separate axes + appeals + active retirement

Runtime
ordinary / proof / fault / recovery
place and service now

Maturity
G0 / G1 / G2 / G3
all scenes remain G0

Authorization
none / limited / withdrawn / retired
no real service authorization

Service
ordinary / optional AI / takeover
concept rule, not operation

Appeals change decisions; retirement leaves receipts
oral/paper/staffed → hold · narrow · correct · retest · withdraw · retire
No identity or shame ranking; every component/data/service/place has a destination.

PERMANENT AUTHORIZATION BOUNDARY | A file check, synthetic replay, machine PASS, retest, or restoration acceptance applies only to its named object and scope.
It authorizes no trial, procurement, construction, deployment, maturity gain, site/professional approval, rights clearance, or real-world outcome claim.

RECOVERY ≠ AUTHORIZATION

Official redline, exact anchors, real thresholds, responsible parties, approvals and independent clearance remain 0 or unknown.
Restoring ordinary use is not authorization, approval, restart or G1.

Eight Projects, Climate and Year-round Operations

8 PROJECTS

CLIMATE

STOP / RETURN

The eight existing projects state preconditions, duty combinations, concept acceptance and exit. Missing ordinary baseline, staff takeover or accepted duty retains G0 / NO-GO.

STOP / RETURN

Ordinary blue-green path, static notice, staffed inspection and maintenance clearance work first; extreme weather or maintenance conflict closes the optional layer.

OPERATIONS

STOP / RETURN

The timetable records opening, stopping, place return and review conditions only; it invents no roster, shift, budget or event commitment.

Metrics, Risk, Rights and Professional Handoff

One Conclusion: Ordinary Life Does Not Yield to Verification

ORDINARY FIRST

Complete the meta-task without account, device or AI.

VERIFICATION BESIDE

Voluntary, announced, bounded, stoppable and removable.

FAILURE STOPS THE OVERLAY

Staff, ordinary route, correction and exit continue.

RECOVERY DOES NOT AUTHORIZE

Return the place before review; material gaps retain G0 / NO-GO.
