

JING-ZHANG BREAKS NEW GROUND

From Building the Railway to Deploying Intelligence

ORIGINATE - INTEGRATE - PROVE - DEPLOY - SCALE - RETAIN

CONCEPT EXPERIENCE - NOT A NATIONAL PILOT DESIGNATION - NOT GOVERNMENT ENDORSEMENT - NOT AN APPROVED PLAN - NOT A DELIVERED OUTCOME - PROVISIONAL GEOMETRY

V0.9 / URBAN-SCALE ADVANCE-VALIDATION PROPOSAL / CONCEPT DESIGN

The National Question and Jing-Zhang Method

From Building the Railway to Deploying Intelligence

THE NATIONAL QUESTION

China's AI strategy is moving from technology breakthroughs toward application. Jing-Zhang proposes urban-scale advance validation without claiming national-pilot designation.

THE JING-ZHANG METHOD

The 1909 railway proved independent capacity for a complex modern system. Today the question is how trusted intelligence enters real society.

URBAN CAPABILITY

The aim is not more showcases, but the capacity to originate, integrate, prove, deploy, scale and retain AI.

ORIGINATE - INTEGRATE - PROVE - DEPLOY - SCALE - RETAIN

ORIGINATE

SOURCE / AI Origin

INTEGRATE

STACK / Zhongzhiyuan

PROVE

PROVE / real-world co-test

DEPLOY

LIVE & MARKET / FP01

SCALE

ENABLE / services and portability

RETAIN

COMMONS / public evidence

6 / 6

network roles / anchors

5 / 12

flagship pilots / scenarios

1

FP01 contract template

5/5 - 12/12

time gates / clauses

11.41 km²

provisional scope

UNKNOWN

actual first-use procurement

Capability Chain and Evidence Base

Provisional geometry has not been verified as correct. Community checks #846 / #1029 remain background warnings; V0.9 moves no coordinates. Official SITE/KEY polygons trigger whole-package recalculation.

Three Spatial Experiences

CONCEPT EXPERIENCE - NOT A NATIONAL PILOT DESIGNATION - NOT GOVERNMENT ENDORSEMENT - NOT AN APPROVED PLAN - NOT A DELIVERED OUTCOME - PROVISIONAL GEOMETRY

ZHONGZHIYUAN

STACK + PROVE

Public observation, a clear safety boundary, staffed control, physical emergency stop and visible energy interface.

AI ORIGIN

SOURCE + ENABLE

A no-smartphone wheelchair user reaches a staffed counter first; evaluation and appeal roles remain separate.

DAZHONGSI

LIVE & MARKET

Small merchants and creators stay frontstage; staffed service, dispute review and a contribution archive connect.

100-Day First-Use Contract

GO only unlocks separate procurement, legal and professional authorization discussion. REVISE / STOP freezes automation, pays no outcome fee, restores the human baseline, disposes data, returns assets and places failure evidence in COMMONS.

FP01 Space and Roles

S03 + S04 + S07 / PUBLIC-TEST-001 / ROOM-TEST-001

FP01-CONTRACT-001

- C01 human/non-digital baseline and real public problem
- C02-C04 role separation, version/provenance, site/funding/data/stop thresholds
- C05-C08 interoperation, no-account/accessibility, human takeover, incident/appeal and restoration drill
- C09-C10 public pass/fail/uncertainty evidence and independent go / revise / stop
- C11-C12 acceptance only after separate authorization; failure restores, disposes, returns and retains evidence

6 / 6

network roles / anchors

5 / 12

flagship pilots / scenarios

1

FP01 contract template

5/5 - 12/12

time gates / clauses

11.41 km²

provisional scope

UNKNOWN

actual first-use procurement

Five Flagship Pilots

12 scenarios assigned exactly once; FP05 observes FP01-FP04

FP01

AI Origin First-Use Station

S03 + S04 + S07

100-day contract prototype

FP02

Zhongzhiyuan Full-Stack Open Test Yard

S01 + S10

safety / interoperation / energy

FP03

Xiaoyuehe Scenario Co-Test Network

S02 + S05 + S06 + S08

bounded real-user validation

FP04

Dazhongsi AI Everyday Market

S11 + S12

provenance / consumer / dispute

FP05

Jing-Zhang Public Evidence Park

S09 + FP01-04

public observation and failure memory

Land Use and Public Realm

V0.3 geometry retained; V0.9 adds first-use and disclosure semantics

ADAPTABLE BASE | SEVEN LAND-USE CODES SUPPORT SIX COUPLED ROLES

02

Keep a closed, gap-free, reproducible topology; retire the 3x4 field story and organize renewal by functional affinity

Mobility and Human Journeys

Public green spine / seven-interface service link / three human journeys

CIVIC COMMONS SPINE | THREE HUMAN JOURNEYS RETURN THE ROLE NETWORK TO DAILY LIFE

04

COMMONS enables public access and feedback; east-west exchange links ENABLE / PROVE; journey dashes are stories, not surveyed routes

Trusted Operations Layer

AI City API + seven interfaces + human takeover + appeal + capability return

RETURN / CAPABILITY HANDOVER

GO only unlocks separate procurement, legal and professional authorization discussion. REVISE / STOP freezes automation, pays no outcome fee, restores the human baseline, disposes data, returns assets and places failure evidence in COMMONS.

Implementation Dependencies

P1 public baseline - P2 source/stack/prove - P3 live/market diffusion

D0 PROBLEM ENTRY

D30 ACCOUNTABILITY + BOUNDS

D60 BOUNDED CO-TEST

D90 INDEPENDENT DECISION

D100 PUBLIC HANDOVER

Provisional geometry has not been verified as correct. Community checks #846 / #1029 remain background warnings; V0.9 moves no coordinates. Official SITE/KEY polygons trigger whole-package recalculation.

Metrics, Risks and Next Step

Total floor area, FAR, density, height, setbacks, road area/ratio, ownership, utilities, energy, fire and heritage conditions remain unknown - never zero or average.

UNKNOWN IS VALID

Total floor area, FAR, density, height, setbacks, road area/ratio, ownership, utilities, energy, fire and heritage conditions remain unknown - never zero or average.

NEXT TRIGGER

Provisional geometry has not been verified as correct. Community checks #846 / #1029 remain background warnings; V0.9 moves no coordinates. Official SITE/KEY polygons trigger whole-package recalculation.

6 / 6

network roles / anchors

5 / 12
