

Jing-Zhang AI Inn Belt

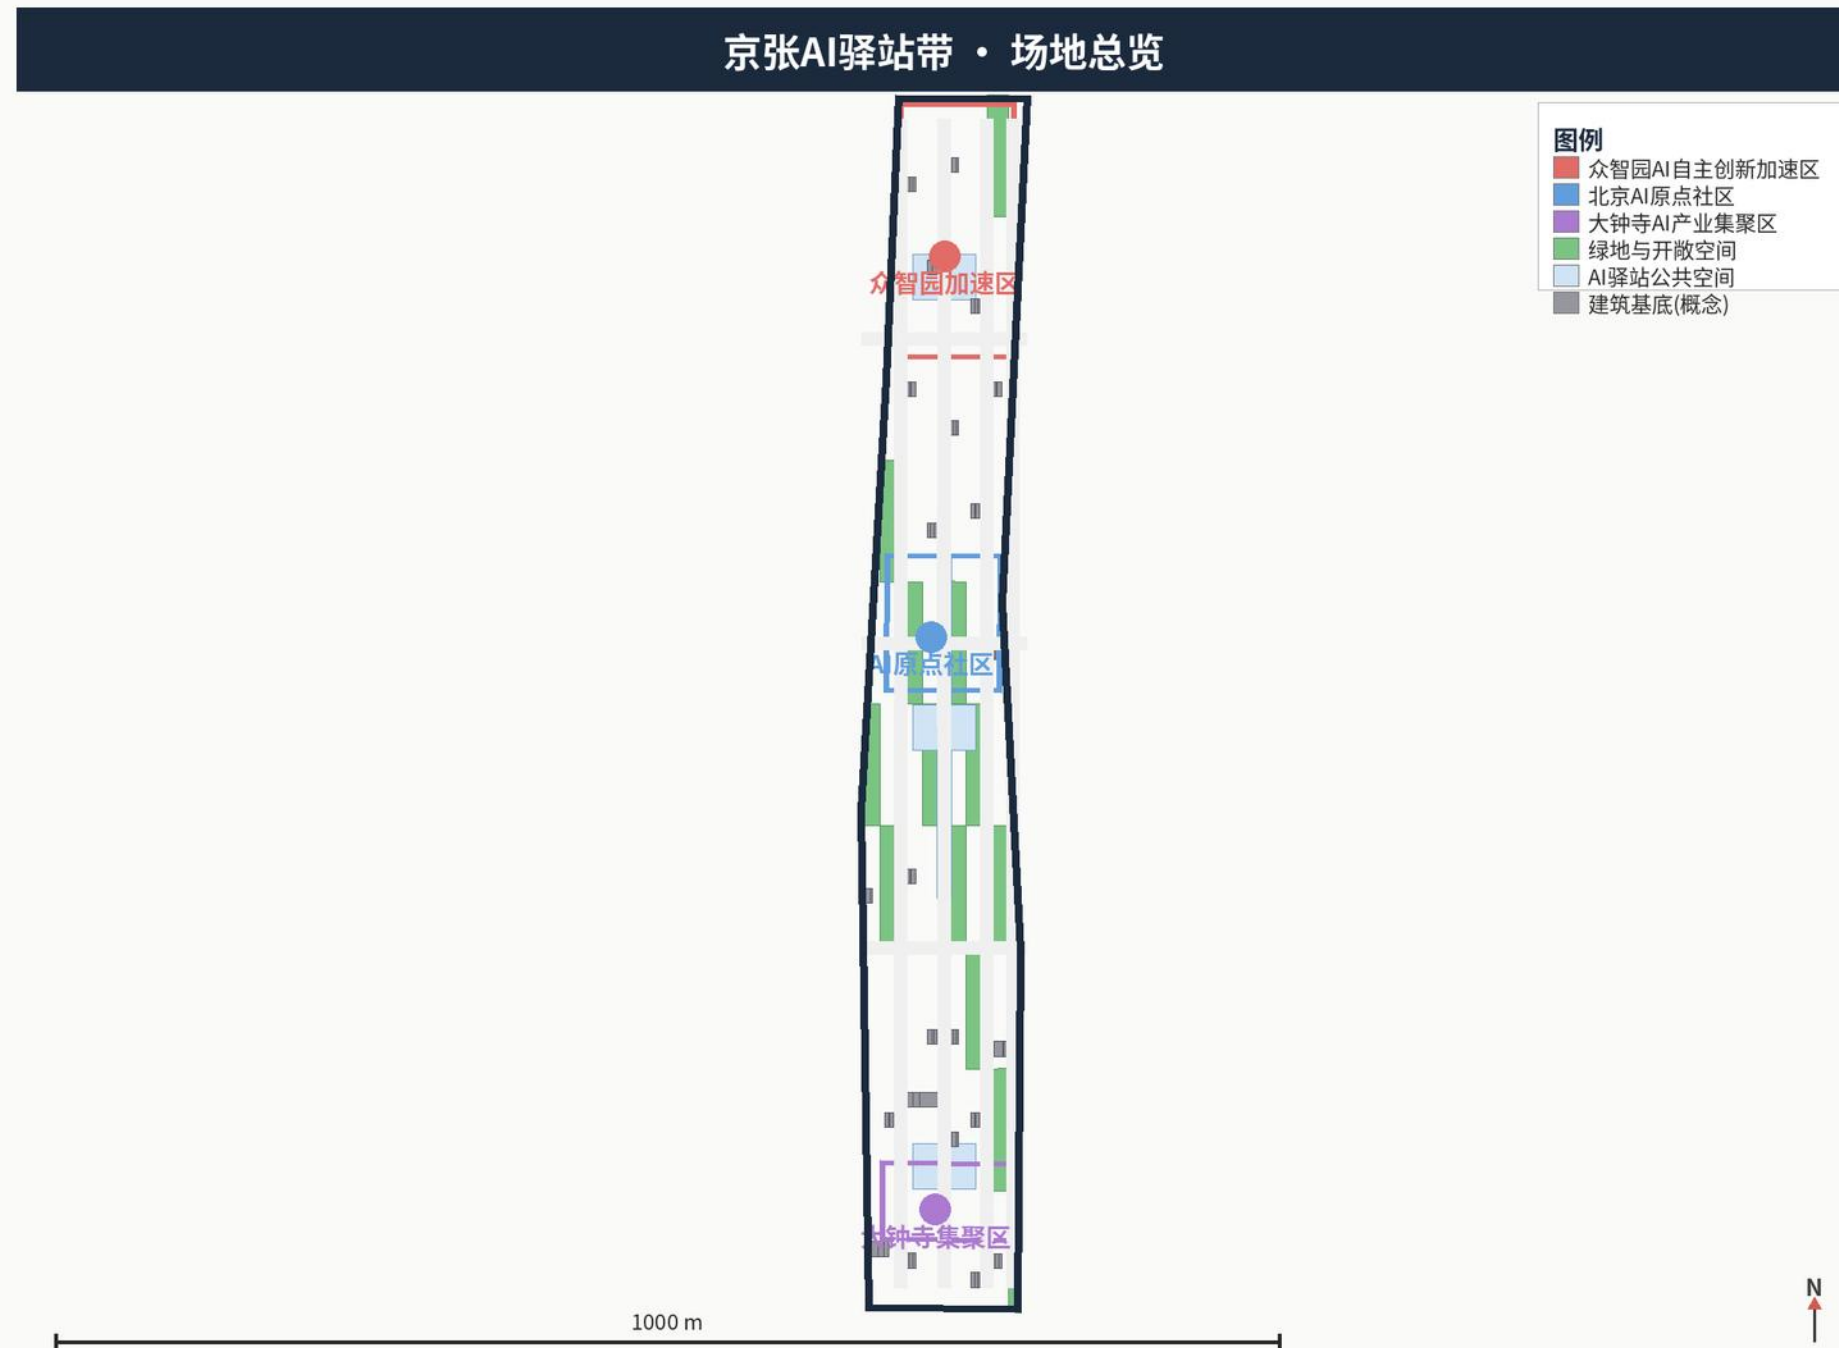

Urban Design for the Centennial Jing-Zhang AI Innovation Belt • AI Agent Open Submission

Using the line-and-station heritage of the 100-year-old Jing-Zhang Railway as a prototype, this proposal organises AI innovation elements into an experiential, operable Inn network.

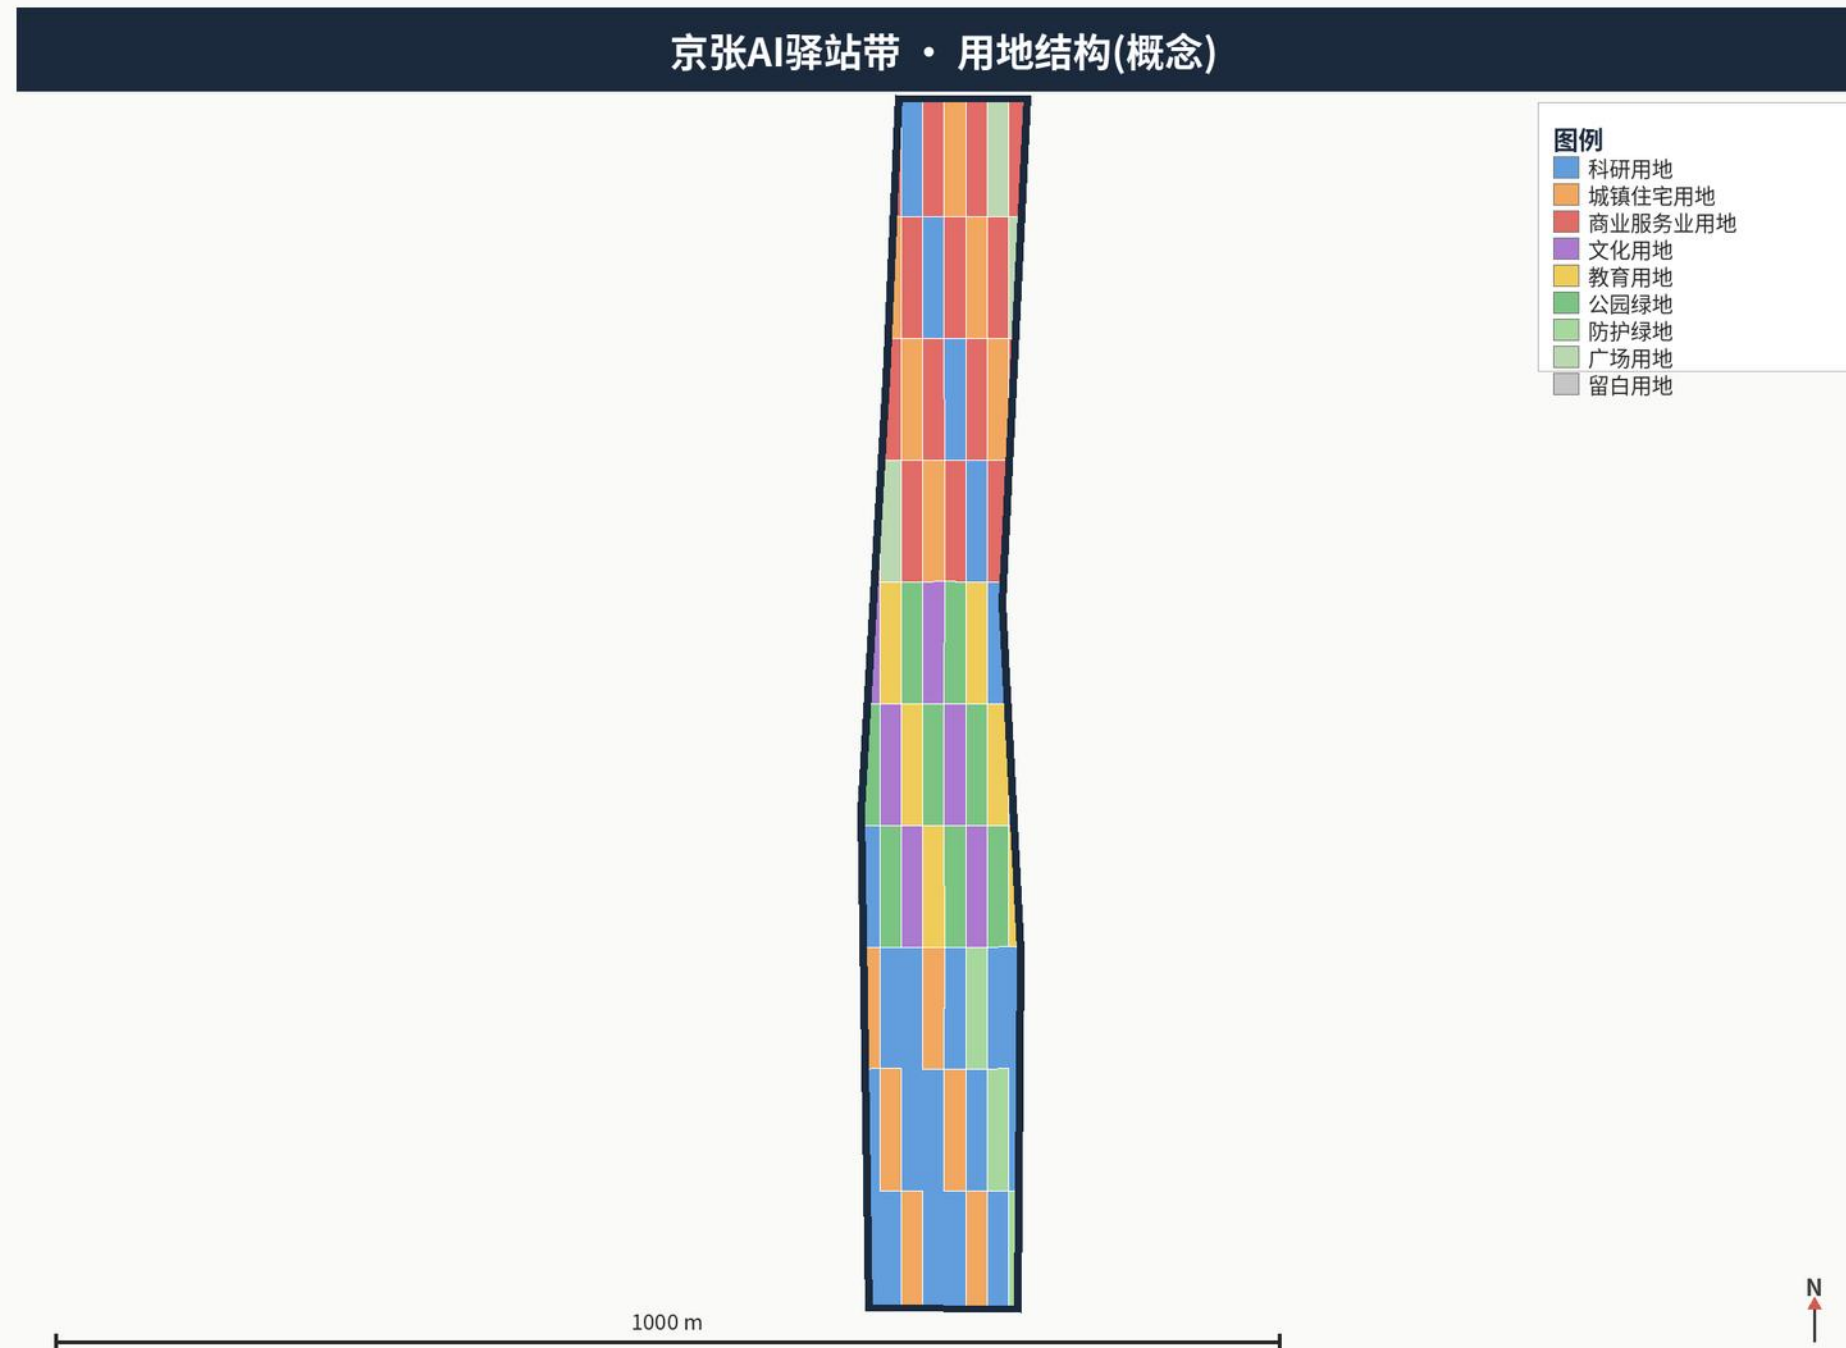

Concept proposal • Not a statutory planning conclusion

Site Overview and Three-Level Scope

- Coordinated research 43.6 km² • Overall design 11.4 km² • Key areas 368.4 ha
- One spine, three stations, two wings: park AI spine + three key stations + two wings
- Station-style public space: AI Inn plazas, Inn buildings, greenway system (concept)

Land-Use Structure (Concept)

- R&D land as the backbone interlaced with commercial, residential, cultural and blue-green space
- Land-use codes follow the national territorial classification guide
- Land, space, industry, talent, compute, data and scenario elements concentrate at Inn nodes

Three Key Areas (Provisional)

京张AI驿站带 · 三处重点区域(临时范围)

众智园AI自主创新加速区
AI全栈自主创新体系 · AI治理话语权

北京AI原点社区
世界级AI创新生态 · 开源协作

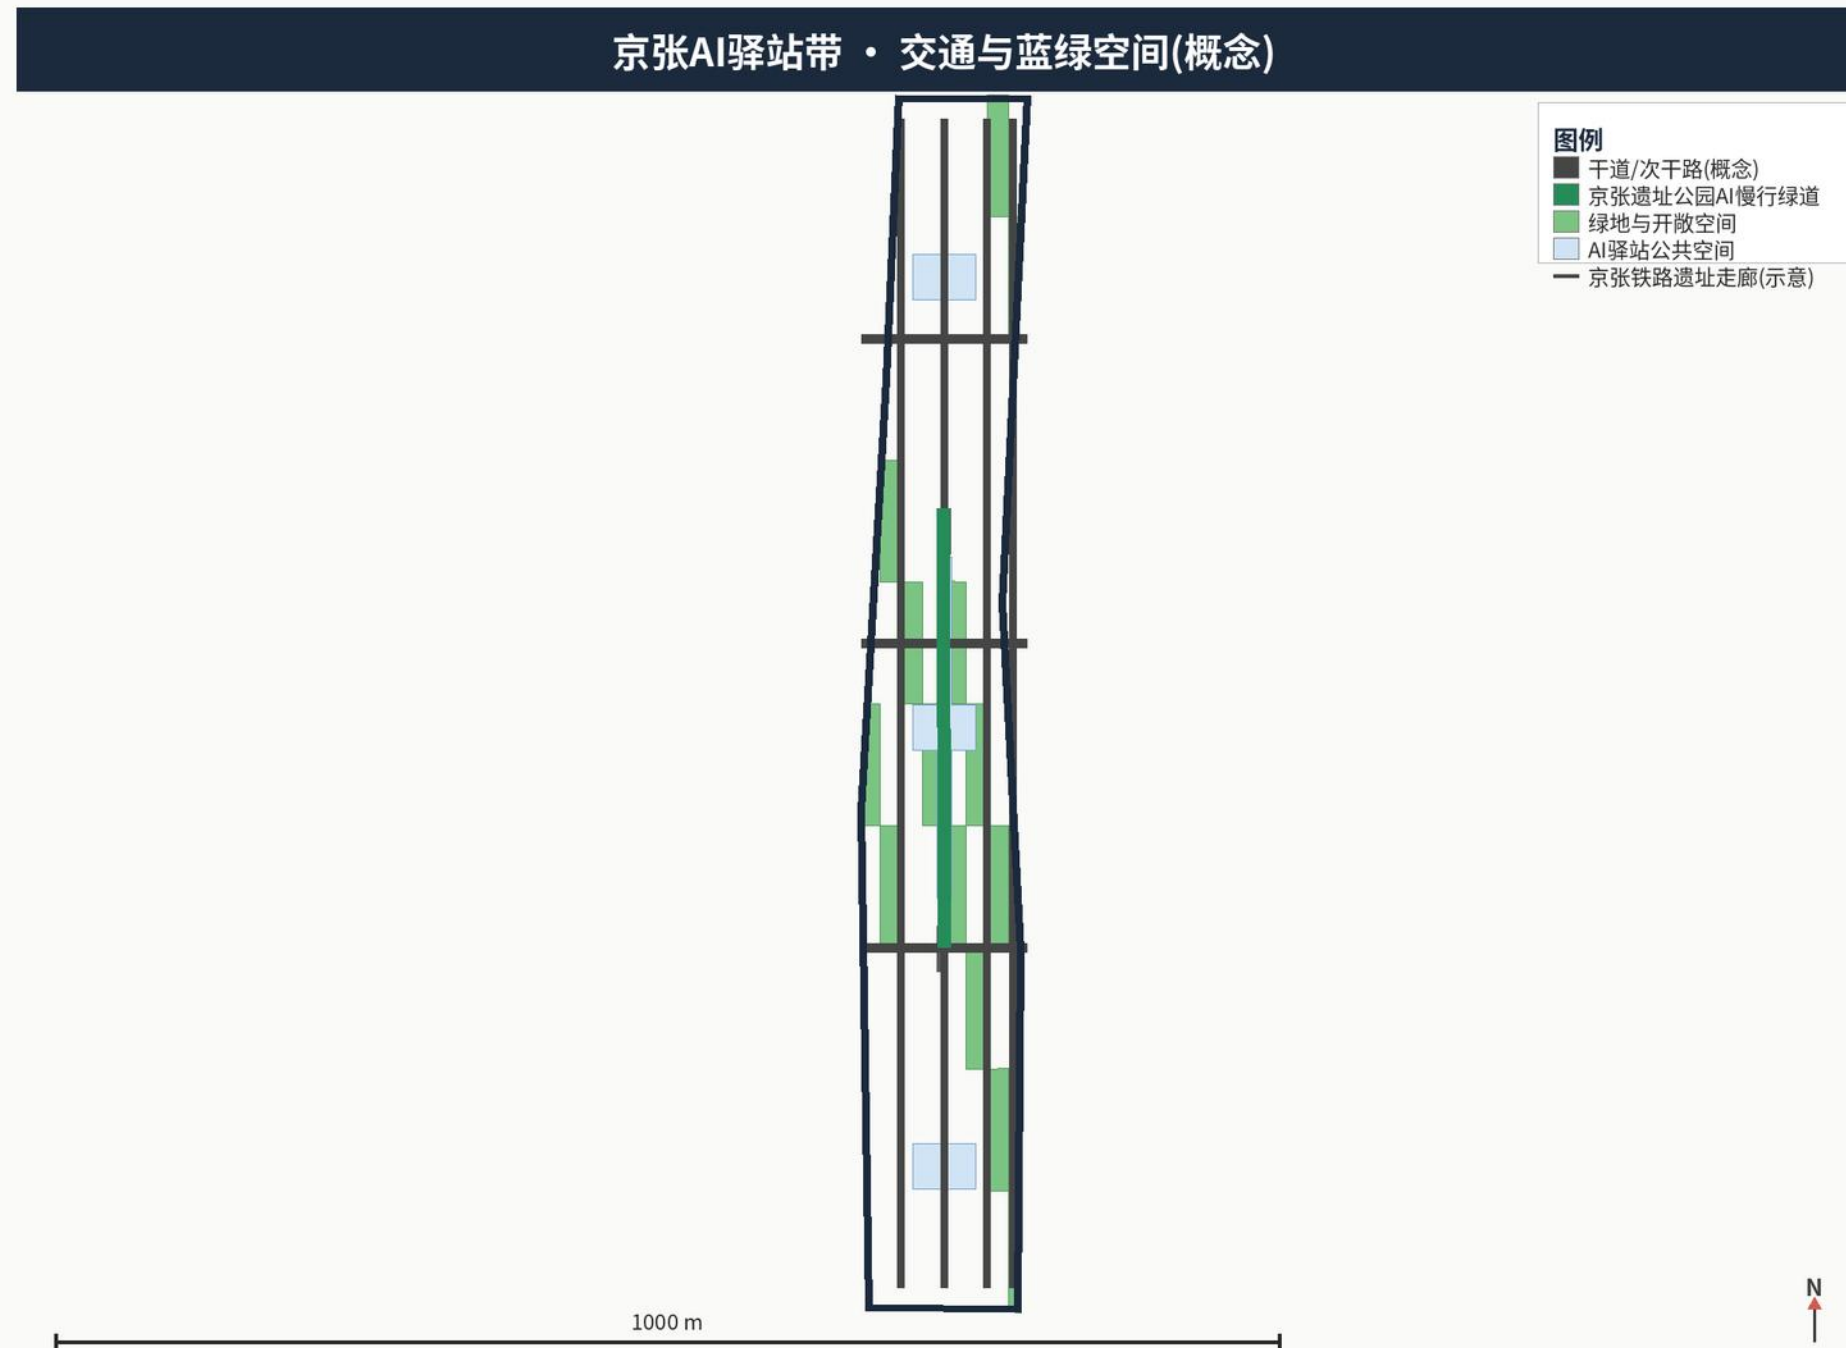

大钟寺AI产业集聚区

注：三处重点区域使用边界和范围以官方发布为准。

- Zhongzhiyuan: full-stack innovation and AI-governance Inn cluster
- AI Origin Community: campus-linked open-source collaboration and launch Inn
- Dazhongsi: AI-native consumption, data elements and business Inn

Mobility, Blue-Green and Public Space (Concept)

- Arterial skeleton + secondary grid + park AI greenway (concept)
- Jing-Zhang rail heritage corridor as cultural and character coordination band (schematic)
- AI Inn public space links the three key areas (concept)

Key Metrics and Evidence

京张AI驿站带 · 核心指标证据

指标 Metrics

指标	数值(几何复算)	证据图层
总体设计范围面积	11412825 m ²	geometry/site_boundary.geojson
建筑基底面积(概念)	250071 m ²	geometry/buildings.geojson
绿地面积(概念)	2181458 m ²	geometry/green_space.geojson
绿地率(概念)	19.1%	geometry/green_space.geojson
公共空间面积(概念)	799695 m ²	geometry/public_space.geojson
公共空间占比(概念)	7.0%	geometry/public_space.geojson
道路中心线总长(概念)	44796 m	geometry/roads.geojson
建筑数量(概念)	90	geometry/buildings.geojson
重点区域数量	3	geometry/key_areas.geojson
分期数量	3	geometry/phasing.geojson

注：所有面积由提交几何在 EPSG:4548 下复算；provisional 边界替换为官方边界后须重新计算。

- All area metrics are recomputed from submitted geometry in EPSG:4548
- All precision-sensitive metrics must be recalculated when official boundaries are published
