SOURCES, ASSUMPTIONS + PREREQUISITES FOR PROFESSIONAL DEVELOPMENT

- 01 Official overall and key-area polygons are unavailable; all boundaries remain provisional.
- 02 Statutory controls, roads, utilities, buildings, heritage, title and field accessibility require professional evidence.
- 03 Key sources retain URL/path, access date and use limits; OSM is background only.
- 04 Every pilot passes G0–G3; failure leads only to revise, bounded pilot or stop.
