

A Century of Jing-Zhang Self-Innovation × AI Innovation
Belt • International Urban Design Competition

Jing-Zhang Intelligence Artery

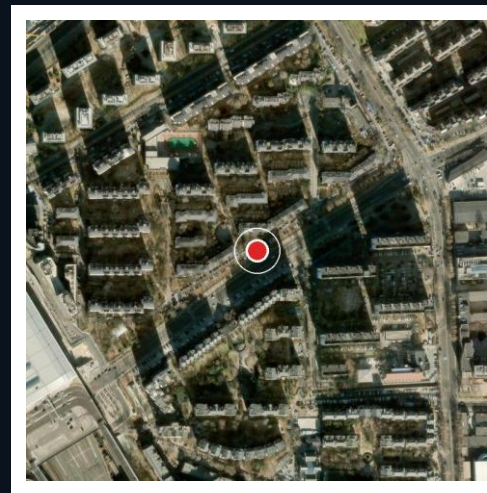

Jing-Zhang Intelligence Artery (JZ-IA)

AI Innovation Belt on Century-Old Railway Heritage

Concept Proposal • Beijing-Haidian | Author: adjustshot | Contact:
158581138235

文化定魂 · 创新赋能 · 活力聚人 · 品质筑基
一廊三核两翼多点 · 触媒激活网络

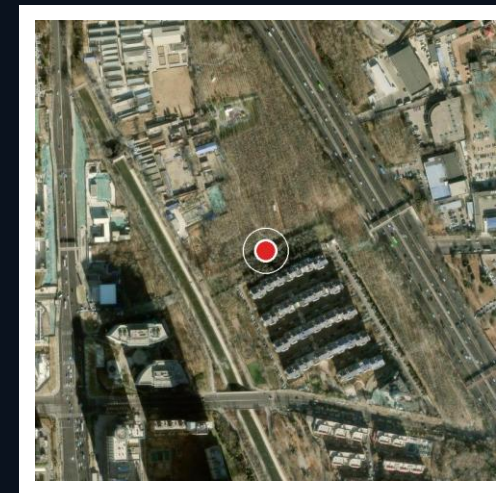

● Viewpoint (影像·红点)

- ▲ 效果图对应现状位置
- ▲ 影像底图: Esri 卫星
- ▲ 红点 = 设计视点

E1 • Gateway of Jing-Zhang

Qinghe Station Front Plaza · Twin HSR Gateways · Global Visitors' First Impression

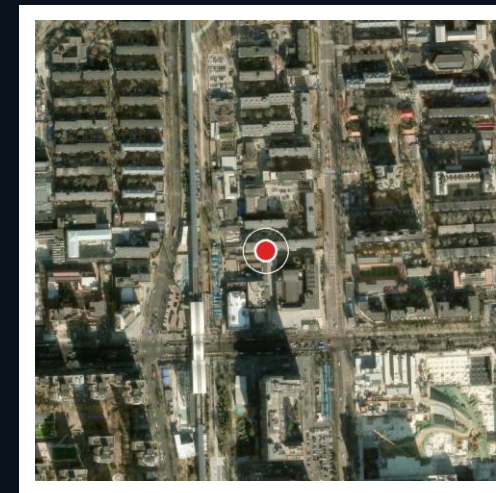

● Viewpoint (影像·红点)

- ▲ 效果图对应现状位置
- ▲ 影像底图: Esri 卫星
- ▲ 红点 = 设计视点

E2 • Stack Sanctuary

Zhongzhi Park · AI Self-Innovation Accelerator · Ren-shape Topological Motif

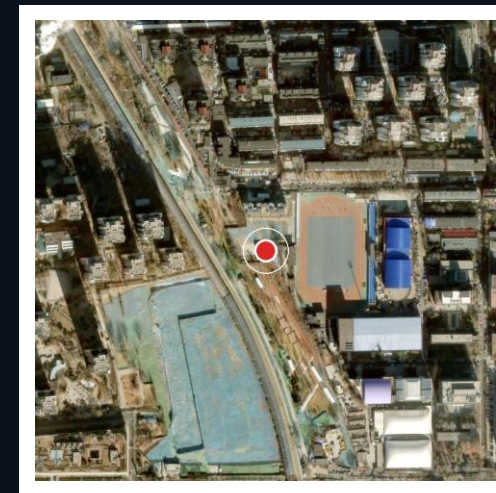

● Viewpoint (影像·红点)

- ▲ 效果图对应现状位置
- ▲ 影像底图: Esri 卫星
- ▲ 红点 = 设计视点

E3 • Origin Dialogue Axis

Qinghua Garden Station × Origin Building · Origin of Exam × Origin of Innovation

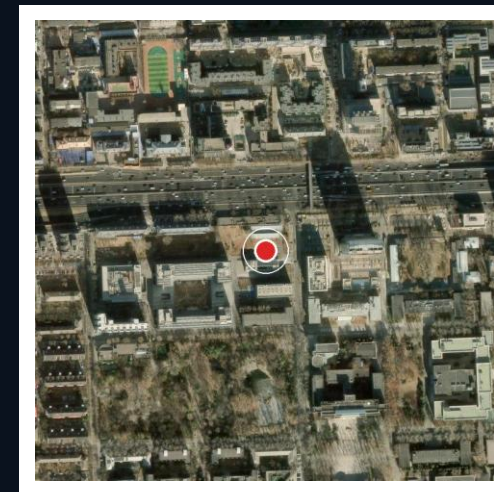

● Viewpoint (影像·红点)

- ▲ 效果图对应现状位置
- ▲ 影像底图: Esri 卫星
- ▲ 红点 = 设计视点

E4 • Ancient Bell New Wave

Dazhongsi AI Industry Cluster · Ancient Bell × AI New Wave

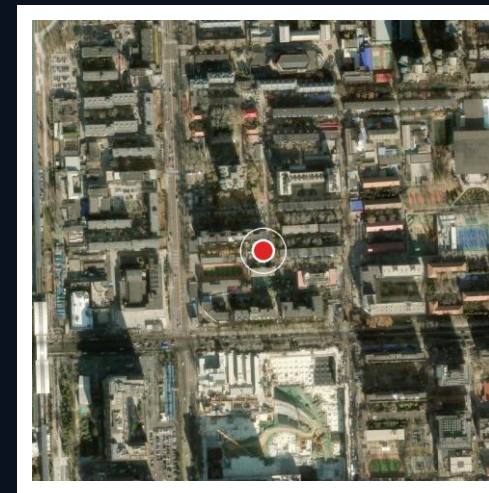

● Viewpoint (影像·红点)

- ▲ 效果图对应现状位置
- ▲ 影像底图: Esri 卫星
- ▲ 红点 = 设计视点

E5 • Intelligence Corridor

Jing-Zhang Heritage Park · 9km Green Corridor · A Storytelling Corridor

● Viewpoint (影像·红点)

- ▲ 效果图对应现状位置
- ▲ 影像底图: Esri 卫星
- ▲ 红点 = 设计视点

E6 • Youth Co-Creation

Wudaokou Youth Co-Creation Block · From Consumption to Co-Creation

10 Indicator System & Compliance	10

01 Project Understanding & Task Interpretation — Century-Old Jing-Zhang × AI Innovation Belt

Jing-Zhang × AI Innovation Belt · Concept Proposal

| Design Notes

- 1905–1909: Zhan Tianyou led the construction of the Jing-Zhang Railway — the first trunk line independently designed and built by China; the 'Ren-shape' switchback conquered the 33‰ steep grade, opening the first year of Chinese self-innovation.
- 2019: Jing-Zhang HSR opened, old line retired, the Jing-Zhang Railway Heritage Park became a landmark urban renewal event — the railway transformed from a transport tool into urban public space and cultural memory carrier.
- Contemporary translation of the Zhan Tianyou spirit: self-innovation, overcoming difficulties, daring to be first, rigorous pragmatism, industrial patriotism — the design foundation of the AI innovation belt
- Task framework: three-level scope (study 43.6km² / overall design 11.4km² / key areas 368.4ha) + six agent tasks

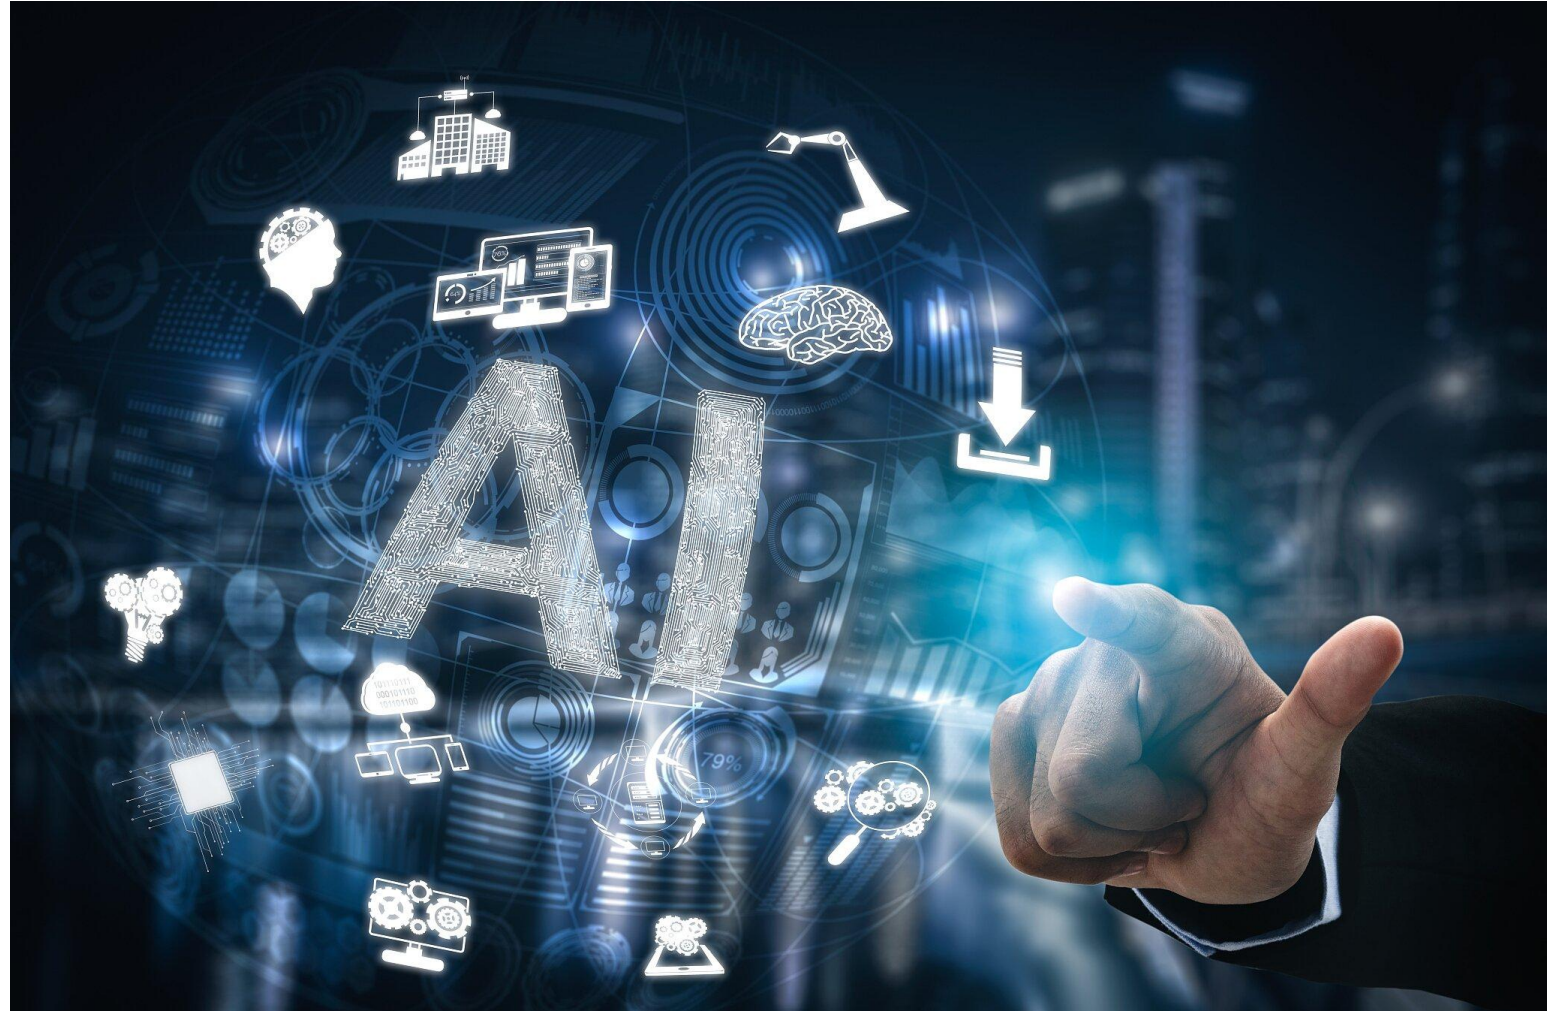

02 Site Context & People Analysis — Aggregation of Innovation Talent

Jing-Zhang × AI Innovation Belt · Concept Proposal

| Design Notes

- People landscape: 3.12M residents in Haidian; within 3km² of the AI Origin Community — 1,000+ scientists, 13,000 developers, 400+ enterprises, 100,000 young students; 450,000 residents along the corridor
- Six-dimension diagnosis: mobility (twin HSR gateways + three rail lines → hub activation) / facilities (from density to stitching → people stitching) / business (1733 anchor ignited → format iteration) / heritage (triple heritage → heritage catalyst) / industry (lacking space containers → scenario weaving) / connecting pipelines to industries already aligned; the ecology (green belt → blue-green stitching)
- Design insight: renewal is not igniting from zero, but the daily life lines of innovation talent and 450,000 residents are the activation paths

03 Thematic Positioning & Strategy — Future Life Scenes, AI Experience District

Jing-Zhang × AI Innovation Belt · Concept Proposal

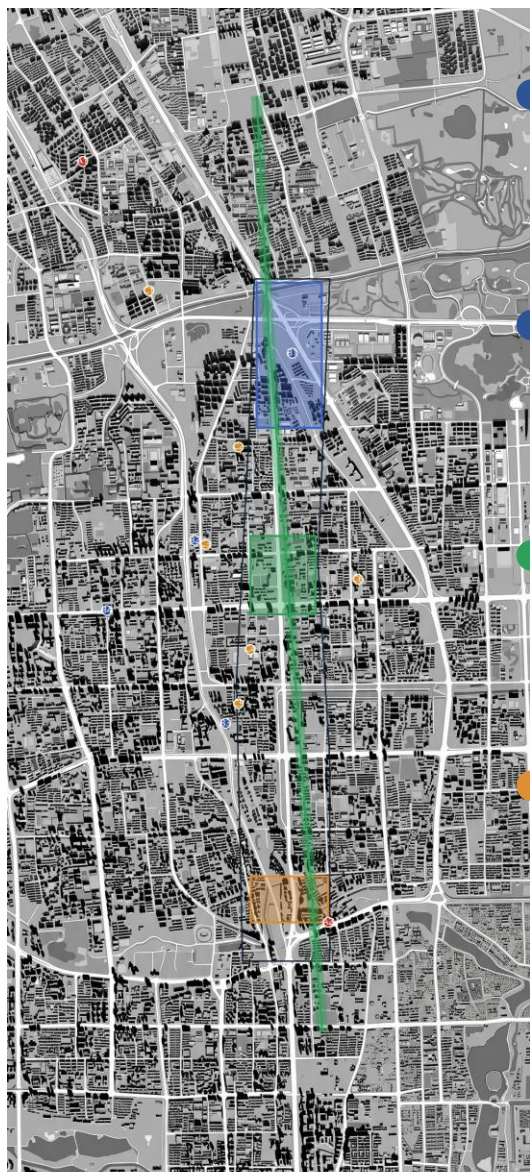

| Design Notes

- Theme naming: Jing-Zhang Intelligence Artery (JZ-IA)
— 'Artery' is both the topological extension of the Ren-shape rails and the city's lifeblood/innovation network; core metaphor 'Ren-shape Railway → Ren-shape Intelligence Net'
- Capital-function response: the area carries Beijing's twin core functions of 'Science & Technology Innovation Center' and 'Cultural Center' — a stitching belt where the two centers converge
- Four-element framework: Culture anchors the soul · Innovation empowers · Vitality gathers people · Quality builds the base; all seven strategies mapped to the four elements
- Renewal foundation: the Jing-Zhang Railway Heritage Park as the ready activation channel of JZ-IA
— 9km old rails → AI intelligence-net corridor

04 Overall Spatial Structure — One Corridor • Three Cores • Two Wings • Multi-Points

Echoing the control plan · Concept Proposal

① 智脉廊·9km 活力带

9km 智脉廊（京张遗址公园活力带），历史·生态·通勤·社交串成一线

② Source Core • Zhongzhi Park (192.1ha)

Zhongzhi Park · Source Core (Origin) — full-stack self-innovation cradle

③ Transform Core • AI Origin Community (104.3ha)

AI Origin · Transform Core (Conversion) — near-campus translation & young talent

④ Apply Core • Dazhongsi (72.0ha)

Dazhongsi · Apply Core (Application) — Ancient Bell + smart economy district

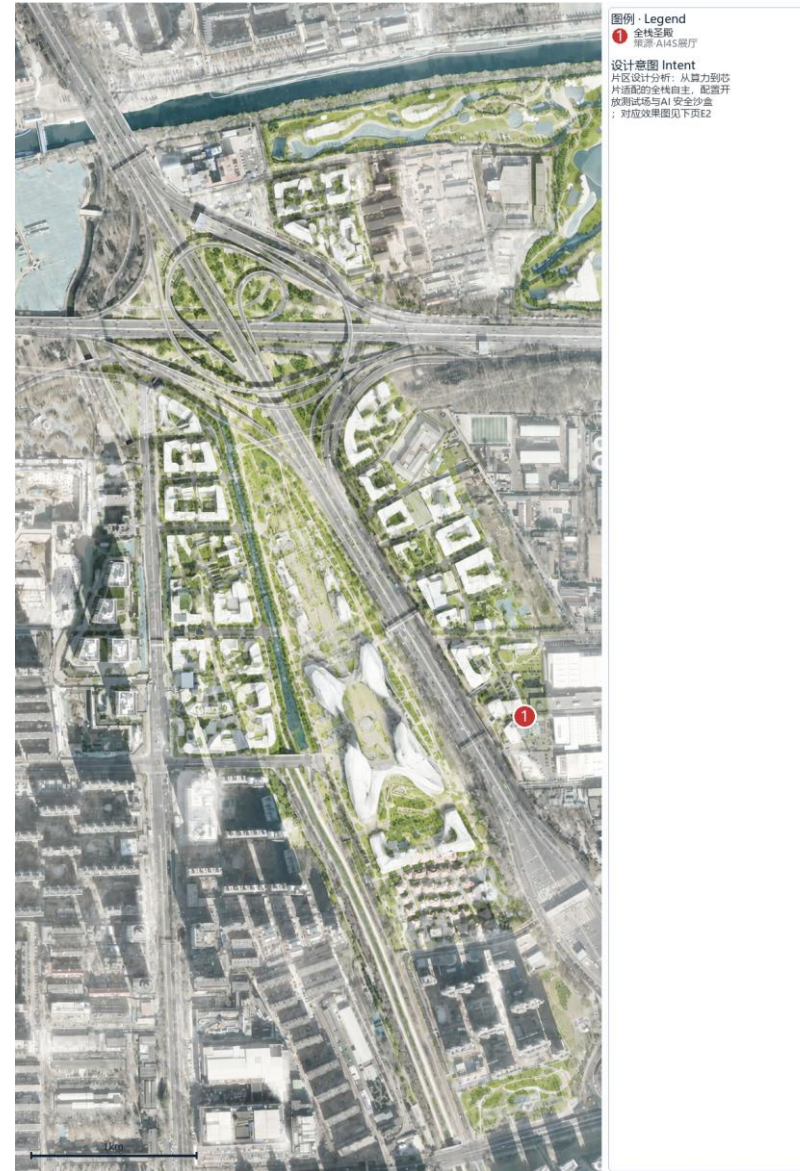

⑤ Two Wings + Multi-Points

两翼：中关村科技服务翼（西）+ 小月河场景赋能翼（东）；多点：12 节点（2 门户+4 核心+6 支撑）均衡带动全线

05-1a Key District • Zhongzhi Park AI Self-Innovation Accelerator (192.1ha) | Source Core • Stack Sanctuary (Design Analysis)

District Design Analysis

- Positioning: origin of full-stack self-innovation — the showcase highland of China's AI full-stack system
- Structure 'One Core, Two Belts, Three Clusters': the core is the central 'Stack Sanctuary' — a white streamlined exhibition cluster with the Ren-shape topological motif, hosting the open-source consortium HQ, AI 4S exhibition and going-global services
- Two belts: Qinghe innovation interface belt (waterfront terraces + setback buildings) and the north vitality belt of the Intelligence Corridor; three clusters: R&D, testing, service
- District analysis: full-stack self-reliance from computing to chip adaptation, with an open test ground and AI safety sandbox; see E2 on the next page

| Node Design Notes

- 人字形拓扑母题
- 白色流线型展厅群承载开源协作体
- 总部、AI 4S 展示与出海服务
- 中央广场是开源社区集会核心
- 开发者之夜与黑客松场地

05-1b Zhongzhi Park Rendering (E2 Stack Sanctuary) | Showcase of the Ren-shape Topological

05-2a Key District • AI Origin Community (104.3ha) | Transform Core • Origin Dialogue

Axis (Design Analysis)

| District Design Analysis

- Positioning: near-campus translation & young-talent community — the first stop from laboratory to market
- Structure 'One Axis, Two Zones, Multi-Points': the 300m 'Origin Dialogue Axis' — Qinghua Garden Station at the west end (1910 red-brick station, origin of the exam) and the Origin Building at the east end (origin of innovation) facing across time, with an elevated pedestrian bridge over Metro Line 13 stitching the east-west split
- Two zones: north near-campus translation zone (shared labs + roadshow halls) and south young-talent life zone (apartments + youth co-creation street); multi-points: OPC hub station, open-source community square, etc.
- District analysis: stitching the east-west split of the Line 13 viaduct, activating the 'origin of exam × origin of innovation' dialogue; see E3 on the next page

图例 · Legend

- ① 原点对话轴
300m时空对话轴

设计意图 Intent

片区设计分析：缝合13号线高架东西割裂，激活赶考·原点×创新原点：时空对话；对应效果图见下页E3

| Node Design Notes

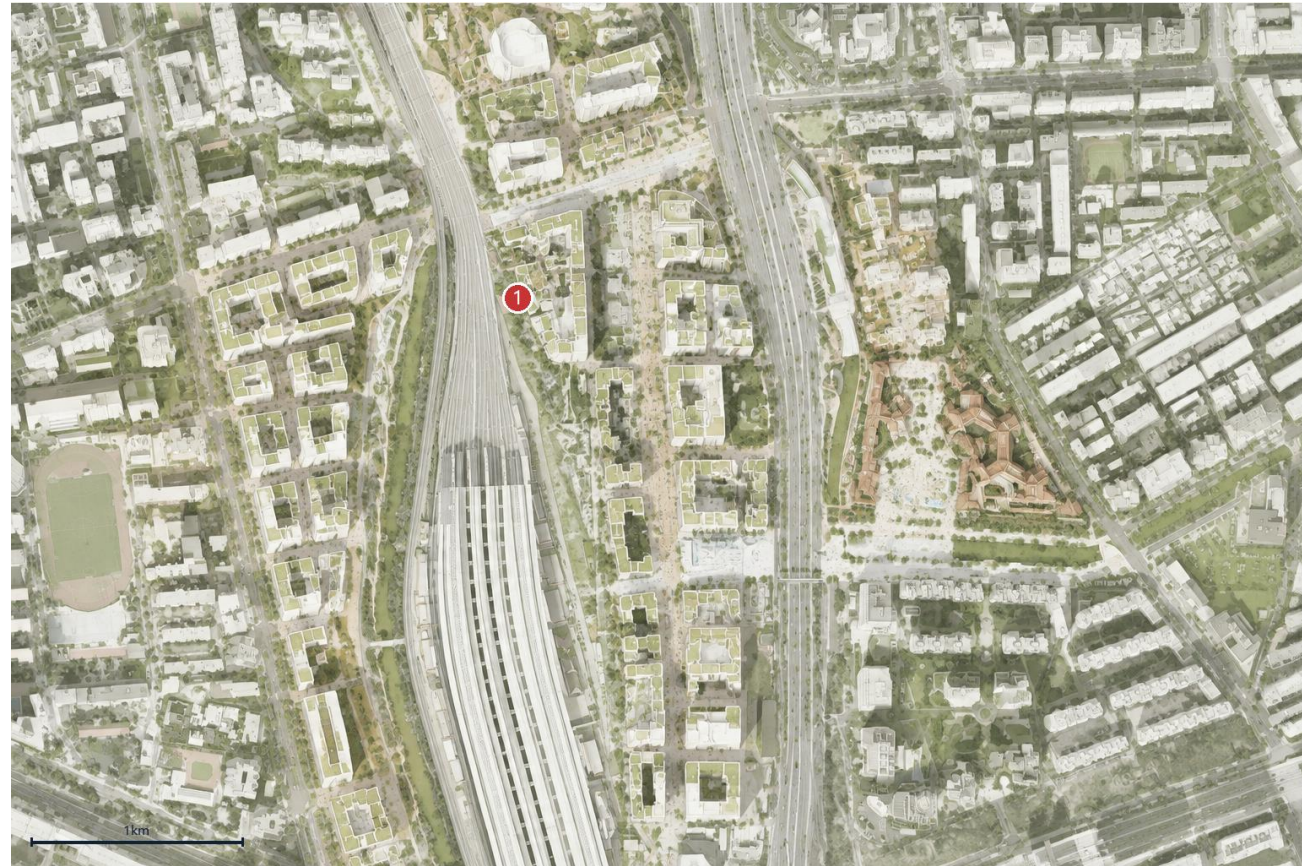

- 300m 时空对话轴
- 1910 清华园车站 × 原点大厦
- 跨 13 号线高架步行连桥
- 缝合东西割裂、激活'赶考×创新'
- OPC 一人公司全生命周期服务

05-2b AI Origin Community Rendering (E3 Origin Dialogue Axis) | Red-Brick History × Glass

05-3a Key District • Dazhongsi AI Industry Cluster (72.0ha) | Apply Core • Ancient Bell New Wave (Design Analysis)

| District Design Analysis

- Positioning: smart-economy & international-exchange district — the urban living room of 'Ancient Bell × AI New Wave'
- Structure 'One Core, Two Streets, Three Quadrants': the core is the Ancient Bell Museum cultural anchor (heritage untouched; 300m quiet plaza + AI light-art installations around)
- Two streets: AI-native commercial street (1733 direction: unmanned retail, robot coffee) and international-exchange street (Lanjing Lijia direction: international exchange center + roadshow hall)
- District analysis: three quadrants — Dazhongsi station transit-oriented, consumption-experience, heritage-view corridor; see E4 on the next page

图例 · Legend
① 古钟博物馆
文化锚点/AI光影装置

设计意图 Intent
片区设计分析：三象限为大钟寺站城一体、消费体验、文保视廊象限；对应效果图见下页E4

| Node Design Notes

- 古钟回响 × AI 新潮
- 静谧广场+AI 光影艺术装置
- 1733 方向无人零售街区
- 机器人咖啡+夜间经济
- 国际路演厅（全球 AI 发布场）

05-3b Dazhongsi Rendering (E4 Ancient Bell New Wave) | Ancient Bell Silhouette × AI-Native

06 AI Innovation Ecosystem & Vitality Scenes — Iconic Nodes

Concept Proposal · Locations + Ecosystem Map

| Iconic Nodes

· Location: the AI innovation ecosystem core sits in the AI Origin Community (104.3ha, Transform Core) + Zhongzhi Park (Source Core) + along the 9km Intelligence Corridor Stationary (Zhongzhi Park) + the vast highland of China's AI full-stack system, hosting open-source consortium HQ, AI 4S exhibition hall, 200+ Origin Dialogue Axis (AI Origin Community): 300m 'origin of exam × origin of innovation' dialogue axis; OPC one-person-company Node - 8km Intelligence Corridor Vitality Belt: 12 AI scenario cards distributed along the belt, one AI station every 500m, 3 test grounds (Xiaoyue River ecosystem map 'One Core Three Circles' talent circle (30 universities, 12000 developers) + capital circle (VC + competitions + translation mechanisms) + scenario circle (Xiaoyue River wing + belt-wide scenarios)

07 Mobility & Blue-Green Systems — Twin HSR Gateways + Three Rail Lines + Fishbone Blue-Green Network

Esri Satellite + AI Rendered Foundation

系统整合

- 双高铁门户
清河站'京张之门'
+ 西直门'京张南门'
- 三线并行
13/15/昌平轨道
- 慢行体系
9km 智脉廊'三道一绿'
- 蓝绿网络
清河—小月河鱼骨状

08 Cultural Narrative & Pilgrimage Landmarks — Triple Heritage, Three-Stage Storyline

| Landmark Locations (N→S)

- Locations: 4 AI pilgrimage landmarks along the belt, north to south: A1 Gateway of Jing-Zhang (Qinghe Station, ~40.04°N) / B1 Stack Sanctuary (Zhongzhi Park, ~40.02°N) / B2 Origin Dialogue Axis (Qinghua Garden × Origin Building, ~39.99°N) / B3 Ancient Bell New Wave (Dazhongsi, ~39.96°N)
- Three-stage storyline: north 'Access' (Qinghe—Shangdi: railway-construction memory) → middle 'Origin' (Wudaokou—Zhichun Road: origins of exam and innovation) → south 'Echo' (Dazhongsi—Xizhimen: industrial and urban echoes)

· 4 pilgrimage landmarks: Gateway of Jing-Zhang / Stack Sanctuary / Origin Dialogue Axis / Ancient Bell New Wave

- Honor system 'Contemporary Zhan Tianyou' in three tiers: historical glory / Zhipu Star annual awards / young innovators; open-source attribution culture woven into public space
荣誉体系'当代詹天佑'三层：历史荣耀 / 智脉之星年度评选 / 青年创新者；开源署名文化融入公共空间

▲ E1 京张之门（清河站前 · 40.04°N · 最北门户地标）

09 Implementation, Operation & Events —— 三期实施 × 六项更新项目 × 全年活动策划

Linked globally via twin HSR gateways · Concept Proposal

Near Term 1–3 yrs

原点社区 2.0 + 绿廊场景织入
轻量启动、快速见效

Mid Term 3–5 yrs

众智园开园 + 大钟寺更新
重点项目落地

Long Term 5–10 yrs

两翼扩展 + 全域激活
43.6km² 全域联动

| Annual Event Plan (6 signature events)

- Zhipu Open-Source Day**
Open-source meetup + code marathon + dev night
- Origin Launch Hall**
OPC company roadshow + AI launches + matchmaking
- Jing-Zhang Smart Transit Week**
Autonomous shuttle rides + smart transit open-test day
- Zhipu Star Annual Gala**
Honor system launch · annual innovators awards
- Jing-Zhang AI Belt International Forum**
Global AI leaders keynotes + international launch stage
- Ancient Bell New Wave Art Season**
Ancient Bell × AI light art + night economy festival

| Renewal Project Library (6 items)

- JZ-01** Heritage Park slow-mobility gap stitching
- JZ-02** Zhongzhi Qinghe innovation interface
- JZ-03** Origin near-campus translation street
- JZ-04** Dazhongsi 4-quadrant pedestrian link
- JZ-05** AI public service & edge-computing node
- JZ-06** Global AI activity-week public route

运营机制：品牌 IP 统一出口（JZ-IA）· 政企学研多元共治 · 自我造血（空间租金+服务收费+活动运营+投资分成）· 轻量启动 · 全球链接（双高铁门户+上合 AI 应用合作中心）

10 Indicator System & Compliance —— 用地构成 / 建筑总量 / 路网密度 / 蓝绿占比 / 服务覆盖

盖 Concept estimate (provisional) · full recalculation after official data release

Key Indicators (concept estimate)

Overall design scope
11.4 km²

Road network density
5.4 km/km²

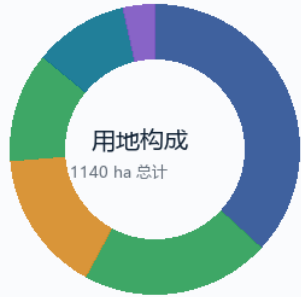

Blue-green space ratio
15.5%

公共服务覆盖率
85% (5-min life circle)

Total building volume
18.80M m² (12.0M+6.8M)

Compliance Status

六项智能体任务全覆盖；本地自检 formal-review-ready
；指标基于 provisional 边界，正式数据发布后全量重算

AI 研发与科创服务	420ha	36.8%
居住与生活服务	240ha	21.1%
商业服务业	180ha	15.8%
绿地与开敞空间	140ha	12.3%
交通运输	120ha	10.5%
公用设施及其他	40ha	3.5%

用地构成表 (概念)

用地类型	面积(ha)	占比
AI 研发与科创服务	420	36.8%
居住与生活服务	240	21.1%
商业服务业	180	15.8%
绿地与开敞空间	140	12.3%
交通运输	120	10.5%
公用设施及其他	40	3.5%
合计	1140	100%

分期实施 (更新项目)

近期 1-3 年 2 个更新项目 原点社区 2.0	中期 3-5 年 2 个更新项目 众智园开园 + 大	远期 5-10 年 2 个更新项目 两亩扩展 + 全城
---------------------------------	----------------------------------	-----------------------------------

11 Summary — A Century of Trailblazing, Open-Source Today

Ren-shape Railway → Ren-shape Net · AI-era expression of self-innovation

| Key Points

- JZ-IA: Ren-shape Railway → Ren-shape Intelligence Net — the AI-era urban expression of the self-innovation spirit
- One Corridor · Three Cores · Two Wings · Multi-Points: seriated N-S along the 9km Intelligence Corridor, catalyst-igniting a complete innovation chain
- People-driven: an agglomeration of innovation talent — read the people first, then ignite the points
- Culture anchors the soul · Innovation empowers
- Vitality gathers people · Quality builds the base — a virtuous cycle of four elements
- Node catalyst · balanced drive: 12 nodes along the belt, every district has its spark
- Concept proposal, not a substitute for formal planning; continuously iterable and revisable

| Conclusion

**A Century of Trailblazing,
Open-Source Today — From
Ren-shape to Ren-shape**
