

Jing-Zhang Synapse Corridor / A3

Concept: historic Jing-Zhang railway as axon; AI multi-agent synapses stitch campuses and neighborhoods.

Three key synapses: Zhongzhiyuan Research / Origin Living / Dazhongsi Industry.

All spatial moves are CONCEPTUAL SUGGESTIONS for professional deepening.

Provisional boundary only - recalculate after official polygons.

Deliverables: bilingual proposal, GeoJSON, metrics, matrices, offline visual, A3/A0.

Spatial Strategy

N-S cultural-innovation spine along heritage park corridor.

Three E-W synapse bridges for east-west stitching.

Blue-green continuous park + developer public interfaces.

Phasing: near-term axon+living; mid-term industry+events.

Agent Tasks Coverage

- agent.1 naming/logo Synapse Corridor identity system
- agent.2 6 global AI ecosystem cases + element mechanisms
- agent.3 10 scenario cards / 3 testbeds / 5 personas
- agent.4 3 pilgrimage landmarks + honor display
- agent.5 Jing-Zhang + Zhongguancun + AI culture narrative
- agent.6 annual events + developer community ops
