

THE CIVIC TIMETABLE

The park stays open while AI arrives by timetable

ZHONGZHI VALIDATION YARD
GPT Image 2 | text-free source | presentation only | no spatial, building, or engineering claim

AI ORIGIN OPEN TRANSFER HALL
GPT Image 2 | text-free source | presentation only | no spatial, building, or engineering claim

DAZHONGSI CIVIC TERMINAL
GPT Image 2 | text-free source | presentation only | no spatial, building, or engineering claim

Three text-free GPT Image 2 experience views | presentation only | no spatial, building or engineering claim

LAYER 0

Paths, static maps, shade, paper information and human/phone help cannot close.

LAYER 1

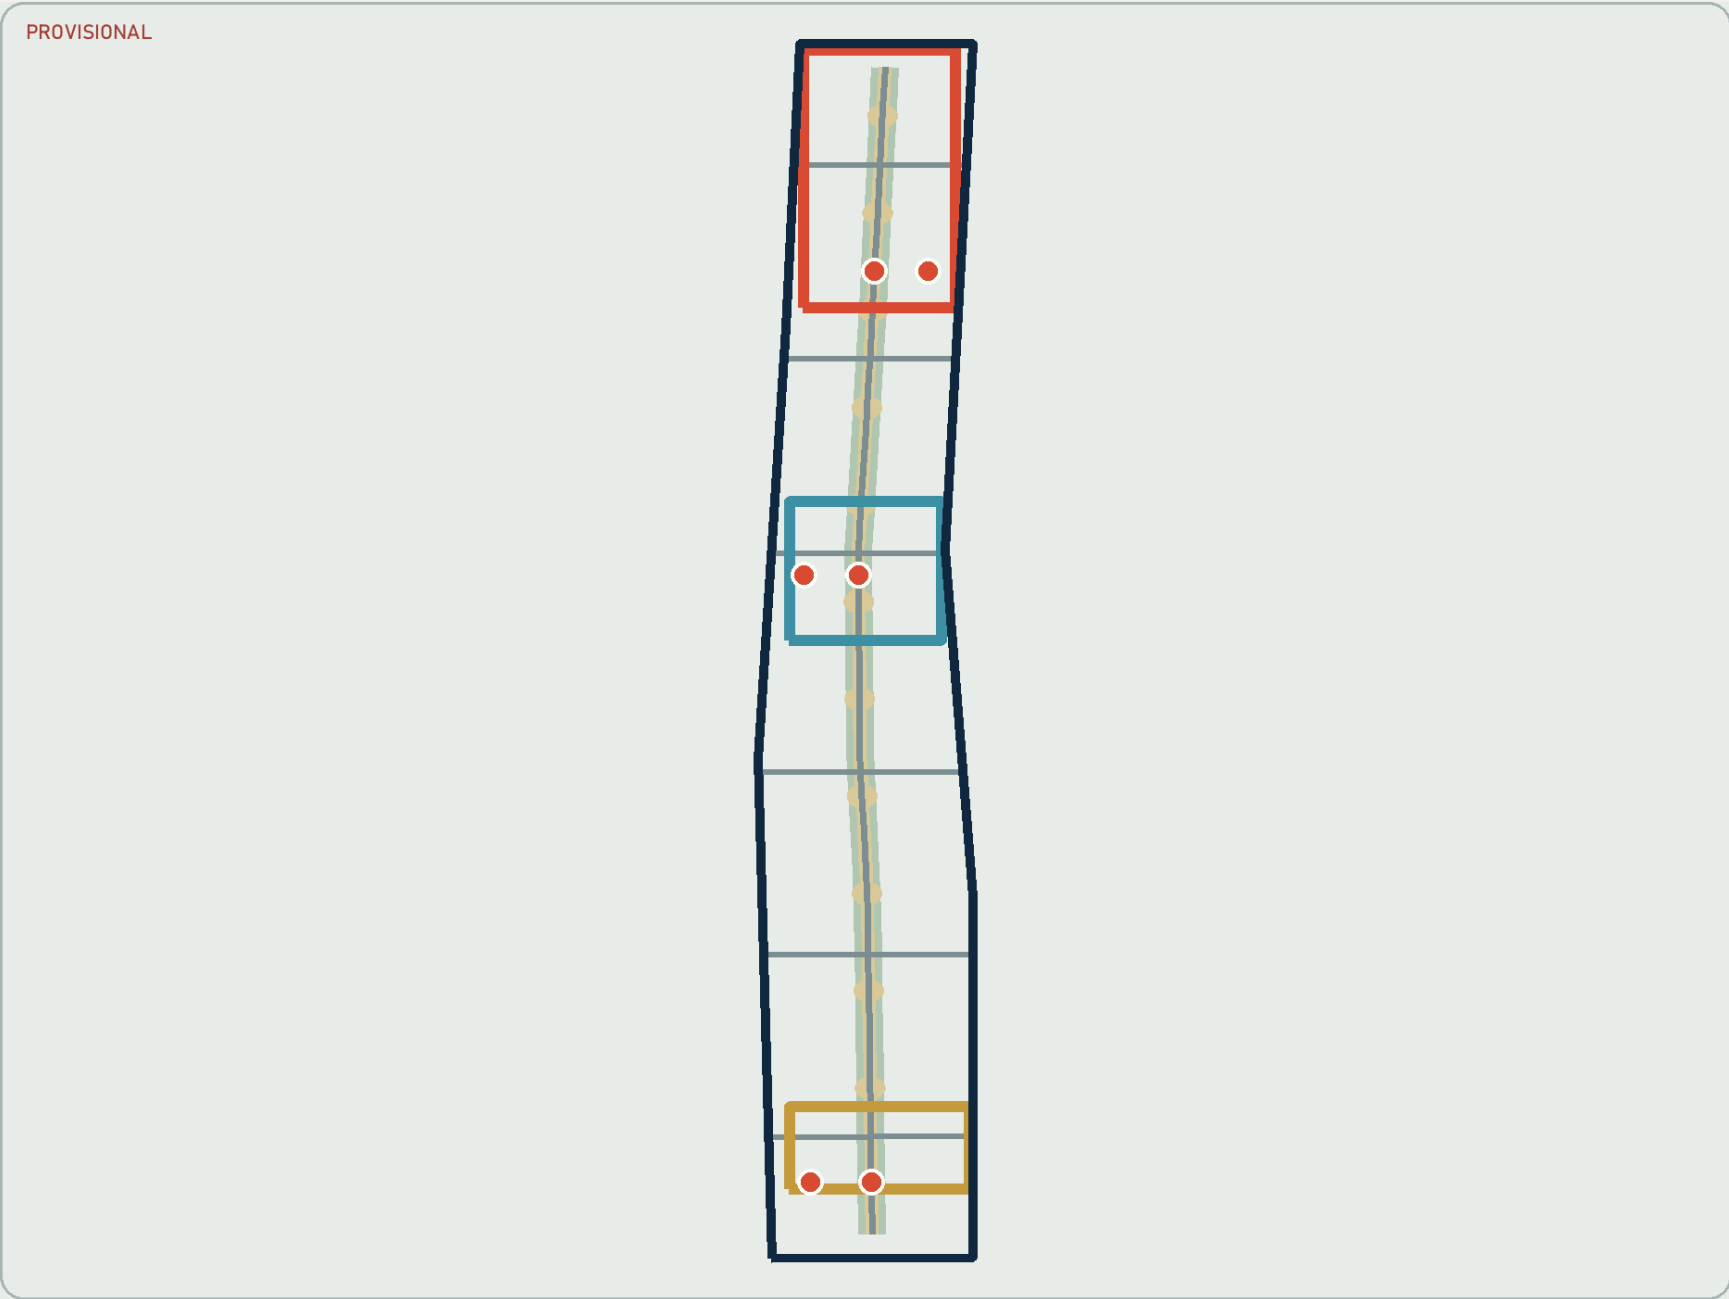

AI arrives only with a named human, non-AI equivalent, minimum data and stop/reset receipt.

STOP

Delay is visible; failure has a human takeover; stopping never blocks the civic path.

START FROM AN OPEN PARK

Current facts × provisional geometry × three civic stations

9 km
approximate official planning corridor

2.5 km / 16.8 ha
publicly reported open first phase

24 / 7
listed existing park: free, no reservation

CORE CONFLICT: How can AI be tested without turning an always-open park into a gated technology exhibition?

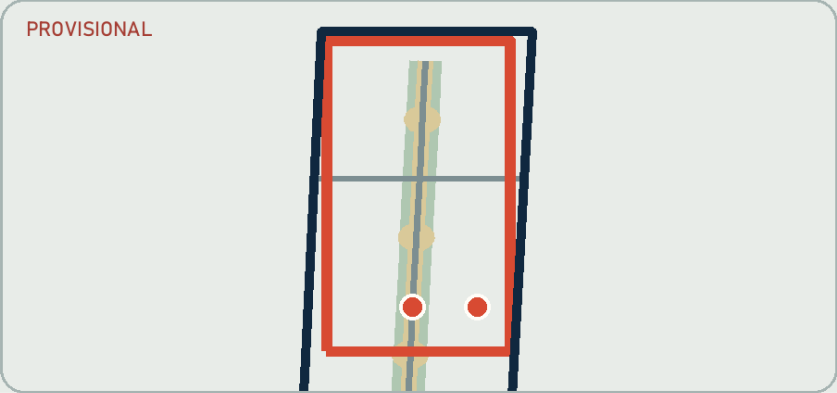

BOUNDARY HONESTY
Official polygons remain absent. The approximately 412.5 m OSM discrepancy is disclosed as risk—not used to replace or shift the base.

THREE STATIONS, THREE REAL CONFLICTS

Not one AI box repeated three times

ZHONGZHI VALIDATION YARD

PROVISIONAL

0

Always-open public path and observation edge

1

Scheduled, enclosed, staffed synthetic court

2

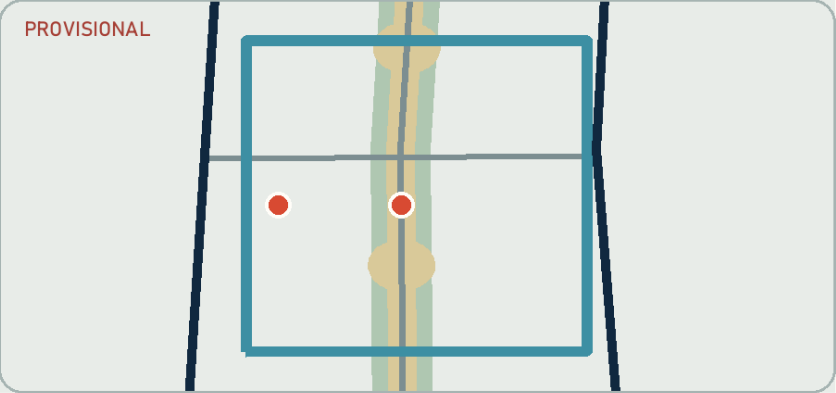

Isolation, maintenance, power-off, evidence seal

RETAIN / REPAIR / ADD

Retain public/ecological continuity. Repair access, shade and quiet interfaces. Add only reversible counters, stops and version boards.

AI ORIGIN OPEN TRANSFER HALL

PROVISIONAL

0

No-account paper/phone/human access

1

Public issue-evidence-permission workshop

2

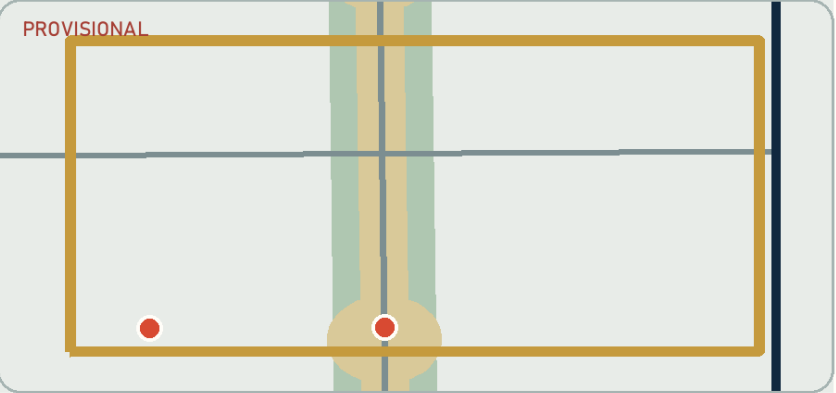

Controlled IP/data/professional transfer

RETAIN / REPAIR / ADD

Retain public/ecological continuity. Repair access, shade and quiet interfaces. Add only reversible counters, stops and version boards.

DAZHONGSI CIVIC TERMINAL

PROVISIONAL

0

Existing path, static map, seating, help always open

1

Staffed civic service, co-reading, access help

2

Synthetic consumer sandbox, isolated from payment

RETAIN / REPAIR / ADD

Retain public/ecological continuity. Repair access, shade and quiet interfaces. Add only reversible counters, stops and version boards.

THE CIVIC BASE COMES FIRST

Layer 0 civic rights; Layer 1 scheduled services

LAYER 0 | UNCLOSABLE

path, static map, seating/shade, paper information, human/phone help

LAYER 1 | STOPPABLE

arrives only with named human, non-AI equivalent, minimum data, stop/reset receipt

01 ZHONGZHI VALIDATION YARD

0 public observation edge

1 scheduled synthetic court

2 isolated maintenance back-house

02 AI ORIGIN OPEN TRANSFER HALL

0 no-account public counter

1 translation workshop

2 controlled IP/data back room

03 DAZHONGSI CIVIC TERMINAL

0 always-open ground

1 staffed service counter

2 synthetic transaction sandbox

THREE EXPERIENCES, ONE EVIDENCE BOUNDARY

Experience views express civic character, never site measurement

ZHONGZHI VALIDATION YARD
GPT Image 2 | text-free source | presentation only | no spatial, building, or engineering claim

AI ORIGIN OPEN TRANSFER HALL
GPT Image 2 | text-free source | presentation only | no spatial, building, or engineering claim

DAZHONGSI CIVIC TERMINAL
GPT Image 2 | text-free source | presentation only | no spatial, building, or engineering claim

01

Zhongzhi: testing and its boundary are both visible

02

AI Origin: public transfer front, controlled IP/data back

03

Dazhongsi: everyday civic service precedes technology display

TWELVE SERVICE CONTRACTS

3 industrial + 4 transfer + 5 everyday; every service has a human conductor, prohibited data, non-AI route and stop/reset

field_performance = null

PROVISIONAL DESIGN EVIDENCE | NOT A STATUTORY BOUNDARY | v3.0

tabletop-runner.js / timetable-tabletop-evidence.json / risk.json

SEPARATED POWERS; AI CANNOT RESTART ITSELF

Scheduling, fairness and safety remain distinct

TO Timetable Operator

Schedules slots and issues timetable; cannot replace fairness or safety review; holder pending

PTC Public Time Council

Protects civic time, fairness and non-participant rights; may shrink or stop service; holder pending

SASP Scenario Admission and Safety Panel

Admits, stops and reviews; restart requires a named human signature; holder pending

DHL Duty Human Lead

Duty takeover, stop and restoration signature | holder pending

DS Data Steward

Data minimisation, export/deletion and audit trail | holder pending

AO Accessibility Officer

Accessibility walk and equivalent route | holder pending

NL Neighbor Liaison

Neighbour quiet, appeal and non-participant impact | holder pending

PA Professional and Permitting Authority Liaison

Professional/permit interface, never a statutory authority claim | holder pending

OPS Area, Counter and Maintenance Operator Team

Counters, clearance, maintenance and staffing | holder pending

IE Independent Evaluator

Independent evidence, bias and post-evaluation review | holder pending

NON-PARTICIPANTS ALSO HOLD RIGHTS

Path, quiet, accessibility and labor staffing outrank trial popularity

01

Researchers

Impact review: access, queues, noise, digital exclusion and maintenance burden

02

Start-up Teams

Impact review: access, queues, noise, digital exclusion and maintenance burden

03

Students

Impact review: access, queues, noise, digital exclusion and maintenance burden

04

Families with Children

Impact review: access, queues, noise, digital exclusion and maintenance burden

05

Delivery, Cleaning and Maintenance Workers

Impact review: access, queues, noise, digital exclusion and maintenance burden

06

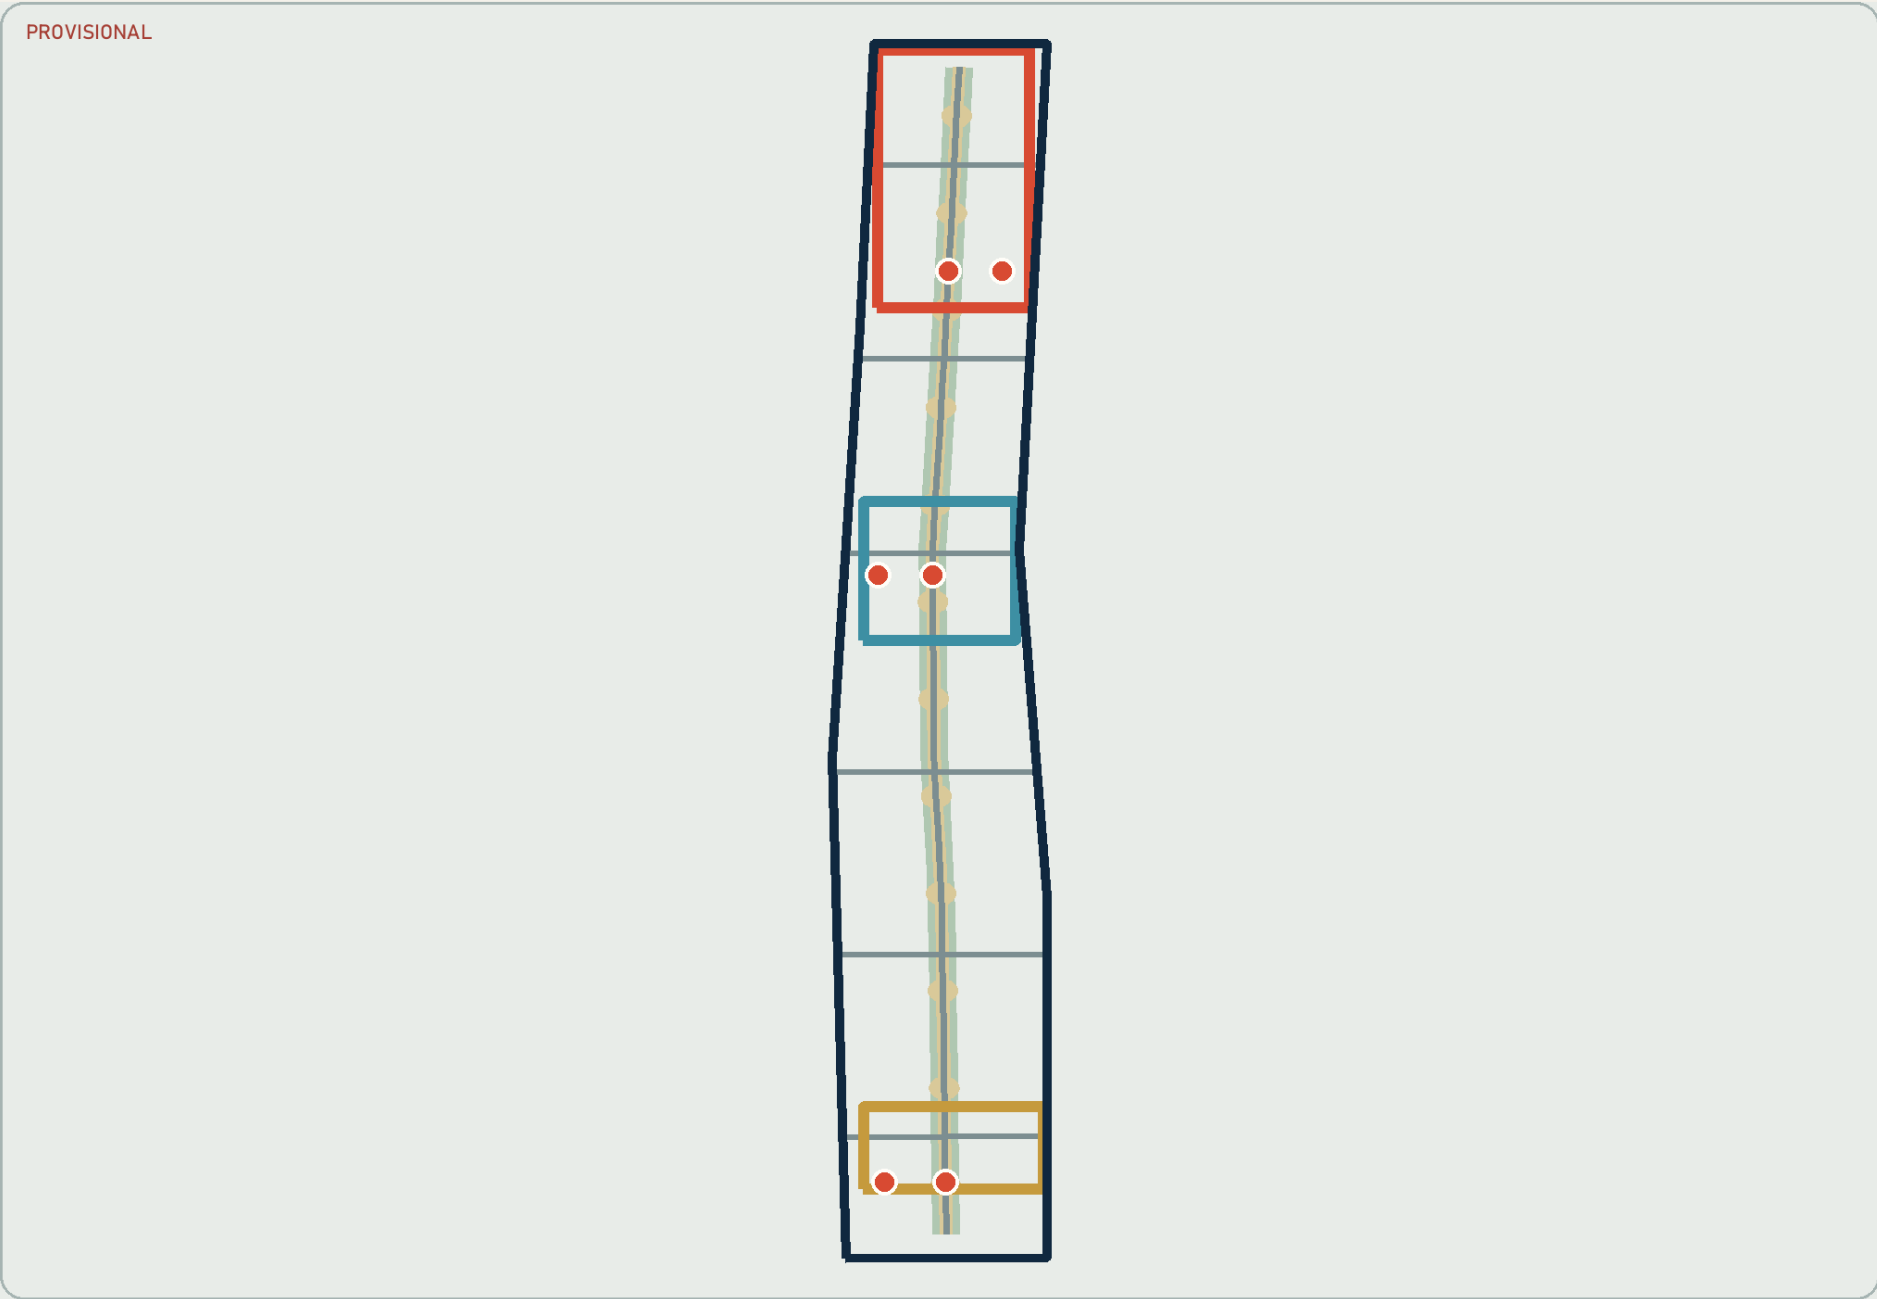

Older and Disabled Visitors

Impact review: access, queues, noise, digital exclusion and maintenance burden

- Paper information
- Phone/counter
- Human escort
- Visible appeal

AI STOPS; CIVIC PATHS DO NOT

One spine × six seams × blue-green continuity × non-AI equivalent

01 ALWAYS-OPEN BASE
Existing path, static wayfinding, seating and help take priority

02 SIX SEAMS
Audit entrances, cycle parking, wheelchair continuity and conflict before structures

03 ECOLOGICAL STOP
Water, flood, canopy and quiet thresholds may reduce programmed capacity

04 PHYSICAL STOP
Low-speed devices rehearse only when authorized, empty, staffed and removable

05 NO-PHONE COMPLETION
Paper, phone, counter and escort are equivalent services, not fallback theater

RETAIN—REPAIR—REVERSIBLE ADD

Buildings do not begin with demolition; quantities remain unknown before survey, title, structure, fire, heritage and whole-life review

Zhongzhi Validation Yard	AI Origin Open Transfer Hall	Dazhongsi Civic Terminal
RETAIN Ecological edge and existing public passage	RETAIN Existing campus public interface	RETAIN Current civic path and everyday urban use
REPAIR Accessibility, shade, drainage and quiet interface	REPAIR Ground-floor continuity, turning radius and night legibility	REPAIR Quadrant guidance, cycle parking and quiet edge
ADD Removable enclosure, human stop column and version board	ADD Removable counter, issue board and open version shelf	ADD Removable paper timetable, staffed counter and synthetic sandbox
FIELD GATES: title/boundary, ecology/flood, fire/power, operator/insurance, public impact	FIELD GATES: title/boundary, ecology/flood, fire/power, operator/insurance, public impact	FIELD GATES: title/boundary, ecology/flood, fire/power, operator/insurance, public impact

DOUBLE GATES: ONE FAILURE RETURNS TO THE LAST STATE

G0–G7 project maturity × C0–C7 scenario admission; sunk cost is not a reason to continue

PROJECT MATURITY

SCENARIO ADMISSION

METRIC HONESTY: CONTRACT COVERAGE IS NOT FIELD PERFORMANCE

Benefit-burden distribution

RULE

Define measures and stop conditions first; never substitute tabletop PASS for field performance.

VISUAL POLISH DOES NOT ERASE EIGHT-DIMENSION RISK

High risks remain 5/5; every dimension has mitigation, triggers and required human review

5/5

Policy and evidence uncertainty

Mitigate, retain an explicit stop trigger, and require the named human professional before progression.

5/5

Spatial and existing-condition conflict

Mitigate, retain an explicit stop trigger, and require the named human professional before progression.

5/5

Implementation complexity

Mitigate, retain an explicit stop trigger, and require the named human professional before progression.

4/5

Data and privacy

Mitigate, retain an explicit stop trigger, and require the named human professional before progression.

4/5

Technology maturity

Mitigate, retain an explicit stop trigger, and require the named human professional before progression.

4/5

Public acceptance and non-participant rights

Mitigate, retain an explicit stop trigger, and require the named human professional before progression.

4/5

Operations and labor

Mitigate, retain an explicit stop trigger, and require the named human professional before progression.

4/5

Equity and inclusion

Mitigate, retain an explicit stop trigger, and require the named human professional before progression.

ONE SOURCE, BILINGUAL, REPRODUCIBLE; RIGHTS REMAIN AUDITABLE

Delivery is not an endorsement; field permits, official geometry and professional sign-off remain pending

62 FILES

Manifest enumerates package assets and bilingual relationships

140 / 140

Chinese-English evidence-anchor multisets match

5 × 2

Core evidence figures are deterministically derived from GeoJSON/JSON

12 × 6

tabletop-runner.js rechecks all 72 branches

3 GPT IMAGE 2

Text-free, itemised disclosure, presentation only

BOUNDARIES / OPEN CONDITIONS

Official polygons, controls, title and engineering conditions remain absent | Tabletop evidence cannot create field performance | No real personal data or external I/O | Any field action requires lawful and professional process
