

# JING-ZHANG HANDOVER LINE

Intelligence moves. Responsibility stays visible.

Human takeover is not a fallback feature. It is civic infrastructure.

# Full coverage, no statutory fiction

Topological land-use partition + three scopes + three areas, two wings

JZ / 02

## FULL COVERAGE, NO STATUTORY FICTION

Topological land-use partition + three scopes + three yards / two wings

### LAND USE

- 0802 R&D / validation
- 0804 Learning / open source
- 05 Tech services / business
- 0701 Talent living
- 0702 Community service
- 0803 Culture / civic service
- 1401 Continuous parkland

**43.6 km<sup>2</sup>** → **11.4 km<sup>2</sup>** → **3 YARDS**

RESEARCH      OVERALL DESIGN      KEY AREAS  
Industry + future city      Spatial + delivery system      Detailed validation

Design recommendation: all zones recalculate when official boundaries arrive; no ownership or statutory land-use claim.

Data: land\_use.geojson and site\_boundary.geojson; codes from the public MNR subset

JING-ZHANG HANDOVER LINE / v1.0

# Official positions, real interfaces

Three positions, five functions, three areas and two wings x four levels of synergy

|                                                                                                                                                                                            |                                                                                                                                                                                |                                                                                                                                                                              |

# Eight shared stacks, handed to the next shift

Land, space, industry, finance, talent, compute, data, scenarios: interface and duty owner visible

JZ / 06

## Eight shared stacks, handed to the next shift

Land / space / industry / finance / talent / compute / data / scenarios x three areas, two wings

Source: agent\_taskbook.json three-areas-two-wings and eight-element mechanisms; concept advice only

JING-ZHANG HANDOVER LINE / v1.0

# Three yards, three shifts of duty

Each key area answers programme, space, scenario, human takeover and delivery gate

JZ / 03

## THREE HANDOVER YARDS, THREE SHIFTS OF DUTY

Each key area links programme, space, scenario, human takeover and delivery gates

01

### BUILD?VERIFY YARD

- Public validation street
- Model red team / robot sandbox
- Physical stop by safety staff

PROVISIONAL KEY AREA

02

### VERIFY?SHARE YARD

- Public handover table
- Research relay / translation
- Licence, withdrawal, human desk

PROVISIONAL KEY AREA

03

### SHARE?SERVE YARD

- Century logbook
- Oral history / AI-native service
- Non-commercial access / no-AI service

PROVISIONAL KEY AREA

Key-area geometry is provisional; detailed strategies are directions for professional development

JING-ZHANG HANDOVER LINE / v1.0

# Twelve reversible AI scenarios

Four controlled validation sandboxes; every scenario keeps human takeover and a no-AI equivalent

|                                                                                                |                                                                                                 |                                                                                                    |                                                                                                |

# Movement and blue-green public ground

The smart layer is removable; ordinary movement and human service stay online

# Renewal structure and priority areas

One spine, eight stitches, three yards; priority areas in three tiers

JZ / 07

## Renewal structure and priority areas

One spine, eight stitches, three yards; priority areas in three tiers

### RENEWAL SPATIAL STRUCTURE

Handover Line / organising spine  
East-west stitch links x8  
Handover yards x3

### PRIORITY RENEWAL AREAS

#### TIER 1

Three yards and their walkable surroundings  
One lead body, owners join by agreement

#### TIER 2

Stitch-spine junctions and low-efficiency park edges  
Packaged renewal units, unified public edge

#### TIER 3

Remaining frontage along the line  
Wayfinding, shade and edge tidying only

### TWENTY TYPOLOGY TEST CELLS (10 EACH SIDE)
