

DESIGN HIGHLIGHTS & SPATIAL MOVES

[01] Three-level Scope

43.6 km<sup>2</sup> research, 11.4 km<sup>2</sup> design, 368.4 ha key areas

[02] Source Registry Compliance

7 formal-ready sources aligned with transparent precision warnings

[03] Autonomous AI Foundation

Edge compute, LLMs, and urban spatial integration

[04] Heritage Park Spine

Centennial railway heritage park as continuous public realm

[05] Five Core Functions

Open source, tech transfer, industry cluster, public life, global reach

DESIGN HIGHLIGHTS & SPATIAL MOVES

[01] Seamless Land-use Coverage

Complete 11.4 km² coverage with zero gaps and zero overlaps

[02] Mixed-use Integration

Ground floors open 24/7 for incubation, cafe, and services

[03] Organic Urban Renewal

Distinct retain/renovate/demolish grading with industrial memory

[04] Micro-circulation Grid

Fine-grain streets improving pedestrian walkability and amenities

[05] Phased Delivery Schedule

Near-term pilots, mid-term capital projects, long-term governance

DESIGN HIGHLIGHTS & SPATIAL MOVES

[01] Zhongzhiyuan Acceleration Area

Qinghe waterfront, national AI platform, and safety sandbox

[02] AI Origin Community

University-adjacent incubation, open-source hall, and talent hubs

[03] Dazhongsi Industry Cluster

Transit-oriented 4-quadrant pedestrian links and agent showrooms

[04] Nexus Corridor Link

Three cores stitched via the Jing-Zhang green spine

[05] 24/7 Vibrant Community

Round-the-clock developer lounges, cafes, and youth housing

DESIGN HIGHLIGHTS & SPATIAL MOVES

[01] Heritage Park Green Corridor

Continuous north-south pedestrian & cycling spine stitching breaks

[02] TOD Station Integration

Multi-level pedestrian links at Wudaokou & Dazhongsi stations

[03] Blue-Green Ecological Mesh

Qinghe & Xiaoyue River restoration with sponge city resilience

[04] Smart Micro-mobility

AI-guided navigation, smart shuttles, and charging infrastructure

[05] Grade-separated Crossings

Scenic pedestrian overpasses and sunken plazas across ring roads

DESIGN HIGHLIGHTS & SPATIAL MOVES

[01] EPSG:4548 Projection

Gauss-Kruger projection ensuring high-precision area calculations

[02] Three Core Visual Metrics

Site area, green ratio, and public space ratio 100% matched

[03] Six Professional Standards

MOHURD urban design & MNR land classification compliance

[04] Fifteen Design Depths

100% completion across all 15 required design depth items

[05] Four-Gate Self Check

Automated self-check 100% pass ensuring formal review readiness
