

THE OPEN GATE LINE

One line • Three yards • Twelve gates • Two wings

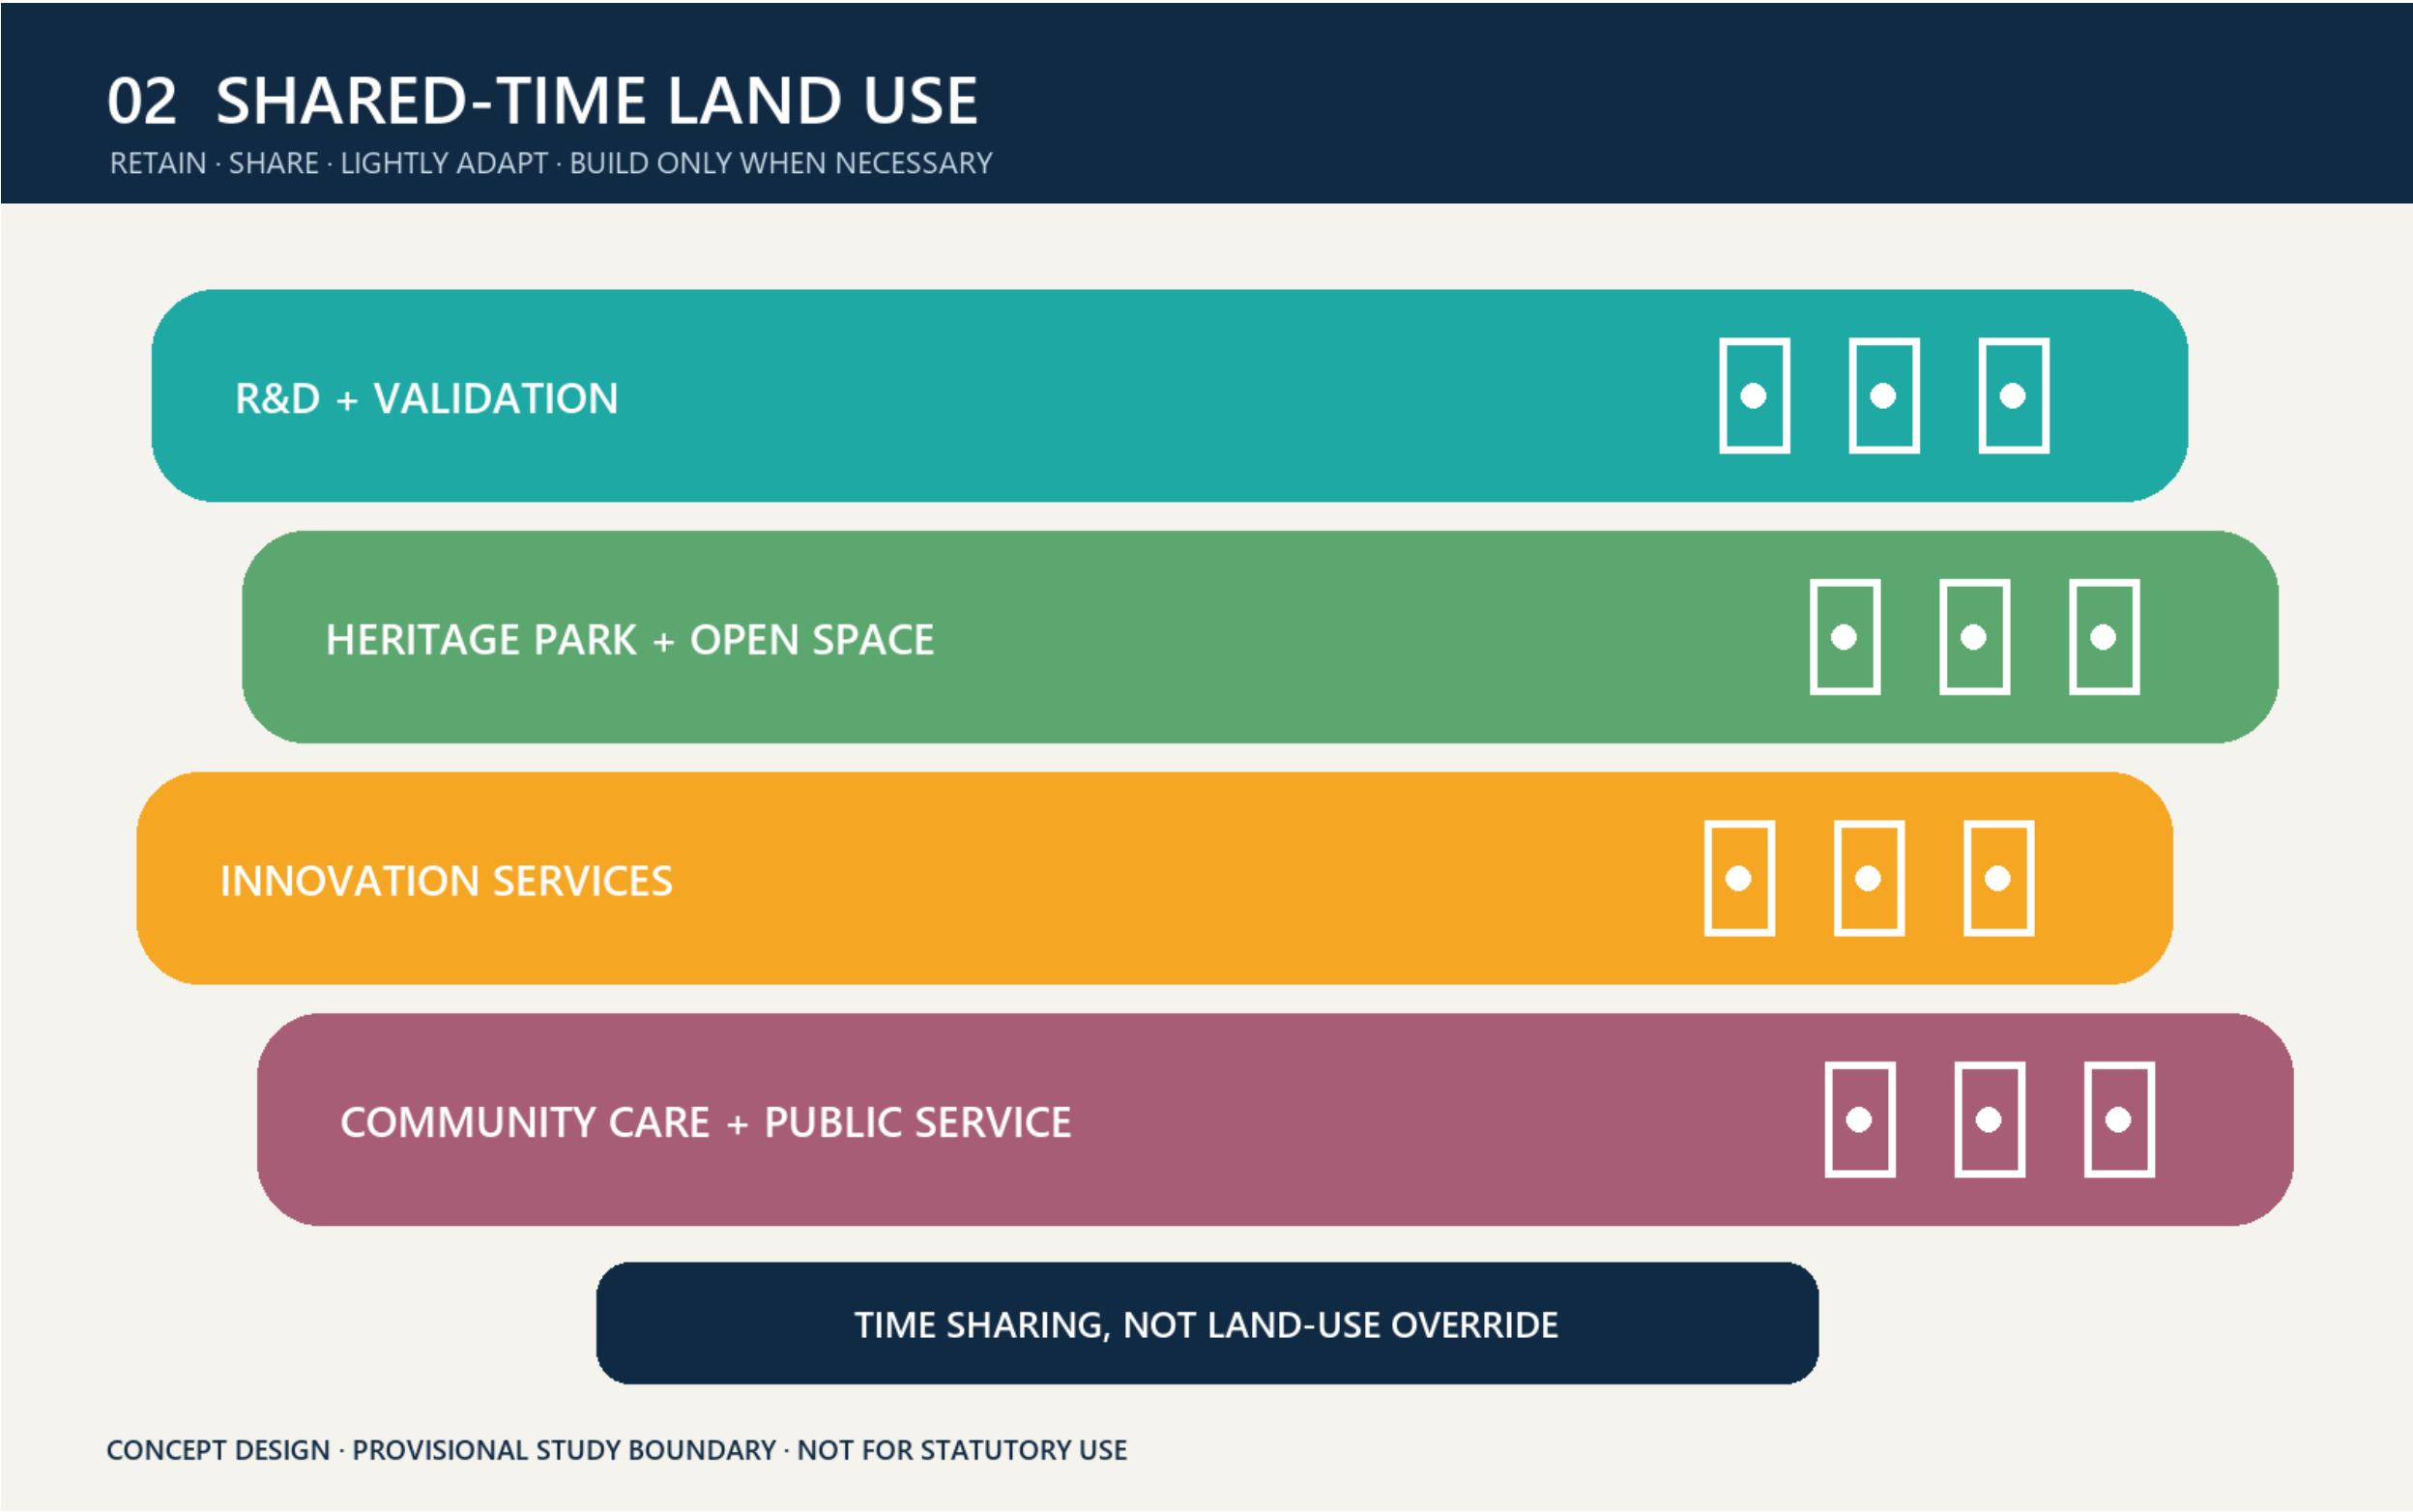

Concept design. Provisional study boundary. Not for statutory or approval use.

Overview and three-level logic

Every node is a design candidate. Opening requires an accountable owner, trained steward, safe capacity, accessible route, manual fallback, and restoration budget.

Land use and reversible gate types

Every node is a design candidate. Opening requires an accountable owner, trained steward, safe capacity, accessible route, manual fallback, and restoration budget.
