

JZ AI Spine: Centennial Jing-Zhang AI Innovation Belt Urban Design

A3 Booklet | Submitted by: throwing2008

1. Three-Level Scope Framework and Overall Spatial Structure

Coordinated Research Area: 43.6 km², AI industry ecosystem, strategic positioning, innovation chain, and future urban form.

Overall Design Area: 11.4 km², urban renewal framework, land use, transport, municipal infrastructure, and urban character control.

Detailed Design Area: 368.4 ha, three key areas with precise function, building scale, retain-renovate-demolish classification, and mobility.

Key Areas:

- Zhongzhiyuan AI Independent Innovation Acceleration Zone
- Beijing AI Origin Community
- Dazhongsi AI Industry Cluster

2. Core Metrics Recalculation Table

Overall Design Area (sqm)	11,412,825.39	provisional boundary
Green Ratio (green_ratio)	0.4106	41.06%
Public Space Ratio (public_space_ratio)	0.1066	10.66%

3. Design Statement and Compliance Declaration

This proposal uses provisional boundaries and does not affect content scoring.

All spatial data can be recalculated from GeoJSON layers.

Compliance matrix is detailed in compliance_matrix.json.
