

Jingzhang Twin-Track · Smartly Connected Belt | Overview

Heritage belt × three cores & two wings × slow-mobility intelligence ring (concentric boundary)

Zhongzhiyuan AI Acceleration Area

Beijing AI Origin Community

-

Zhongzhiyuan AI Acceleration Area

Beijing AI Origin Community

Land codes per MNR classification (conceptual); retention/renovation conclusions pending official regulatory planning

Three Key Areas | Detailed design brief

Zhongzhiyuan (full-stack autonomy & governance) | Origin (open-source & talent) | Acceleration (AI & intelligent economy & global exchange)

Zhongzhiyuan AI Acceleration Area

Beijing AI Origin Community

Northern core · Full-stack autonomy
Concept · pending official polygon

Central core · Open-source & talent
Concept · pending official polygon

Southern core · Intelligent economy
Concept · pending official polygon

Mobility · Slow-traffic · Blue-Green | Composite network

Smart corridor + heritage greenway + three hub plazas + blue-green slow ring

Zhongzhiyuan AI Acceleration Area

Beijing AI Origin Community

Road redlines, rail alignments and engineering conclusions are conceptual; pending official road & municipal data.

Core Metrics Recalculation | Evidence chain

Area/ratio/layer metrics recomputable from geometry; regulatory metrics unknown

Blue = recomputable spatial metrics | Regulatory (FAR/height) = unknown, pending official conditions
