

Jing-Zhang AI Belt · Urban Design Concept

From a century-old railway to an AI symbiosis belt · One Belt, Three Cores, Two Wings, Multiple Nodes

Concept

A heritage-and-public-space spine along the centennial Jing-Zhang Railway Park, forming a one-belt, three-cores, two-wings, multi-node structure.

Structure

- Belt: Jing-Zhang Heritage Park vitality belt
- Cores: Zhongzhiyuan / AI Origin Community / Dazhongsi
- Wings: Zhongguancun service wing · Xiaoyuehe scenario wing

Key Metrics

- Overall design scope 11.41 km²
- Three cores 3.69 km²
- Green ratio 21.6%
- Public space ratio 17.3%

Green

21.6%

Public

17.3%

Road

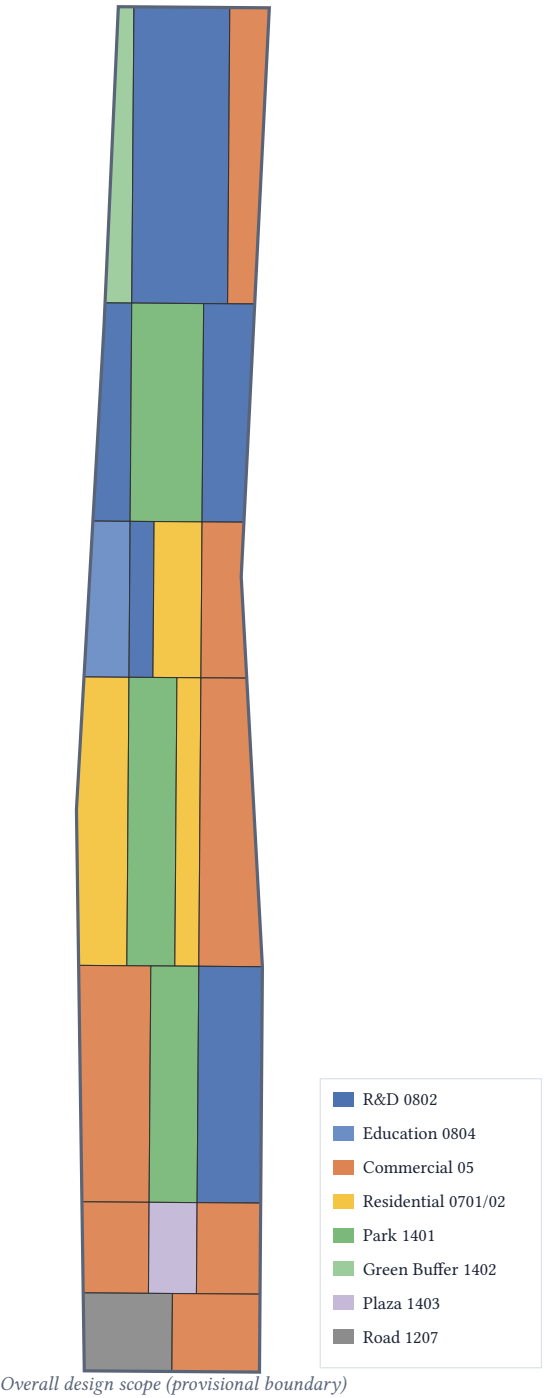

12.8 km

Phasing

Phase 1 pilot 2.97 km² · Phase 2 renewal 0.63 km² · Phase 3 governance 2.06 km², clearly separated from the 100-day call cycle.
