

OPENLINE 100 — Concept Board

A Century of Jing-Zhang. The Next Century of Public Intelligence Is Co-Created Here.

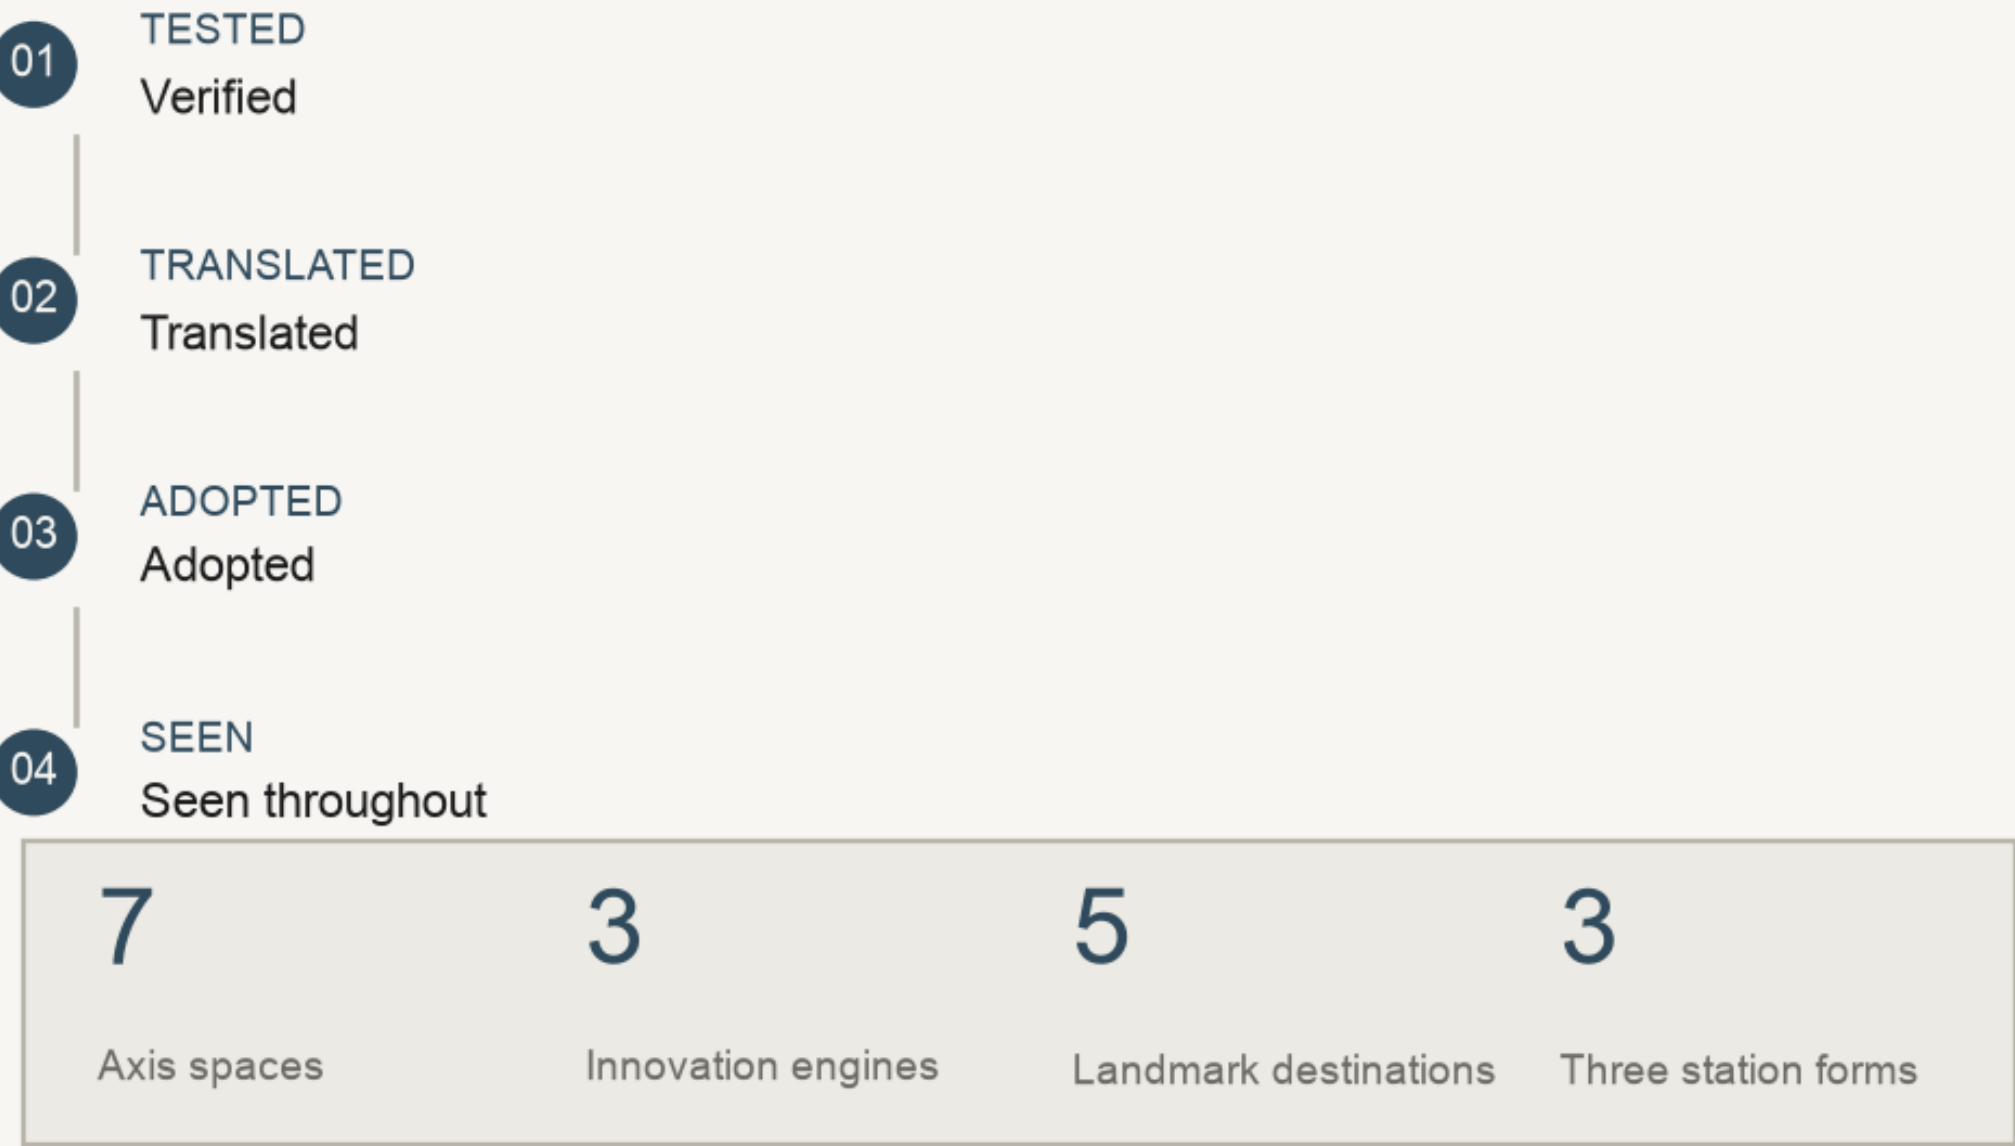

Conceptual alignment & provisional boundary / NOT A STATUTORY PLAN

A Century of Jing-Zhang · AI Axis

OPENLINE 100

A Century of Jing-Zhang.
The Next Century of Public Intelligence
Is Co-Created Here.
Heritage park as the public display layer of the innovation chain:
Seven axis spaces expand and contract; research enters everyday city life.

Seven spaces / three engines

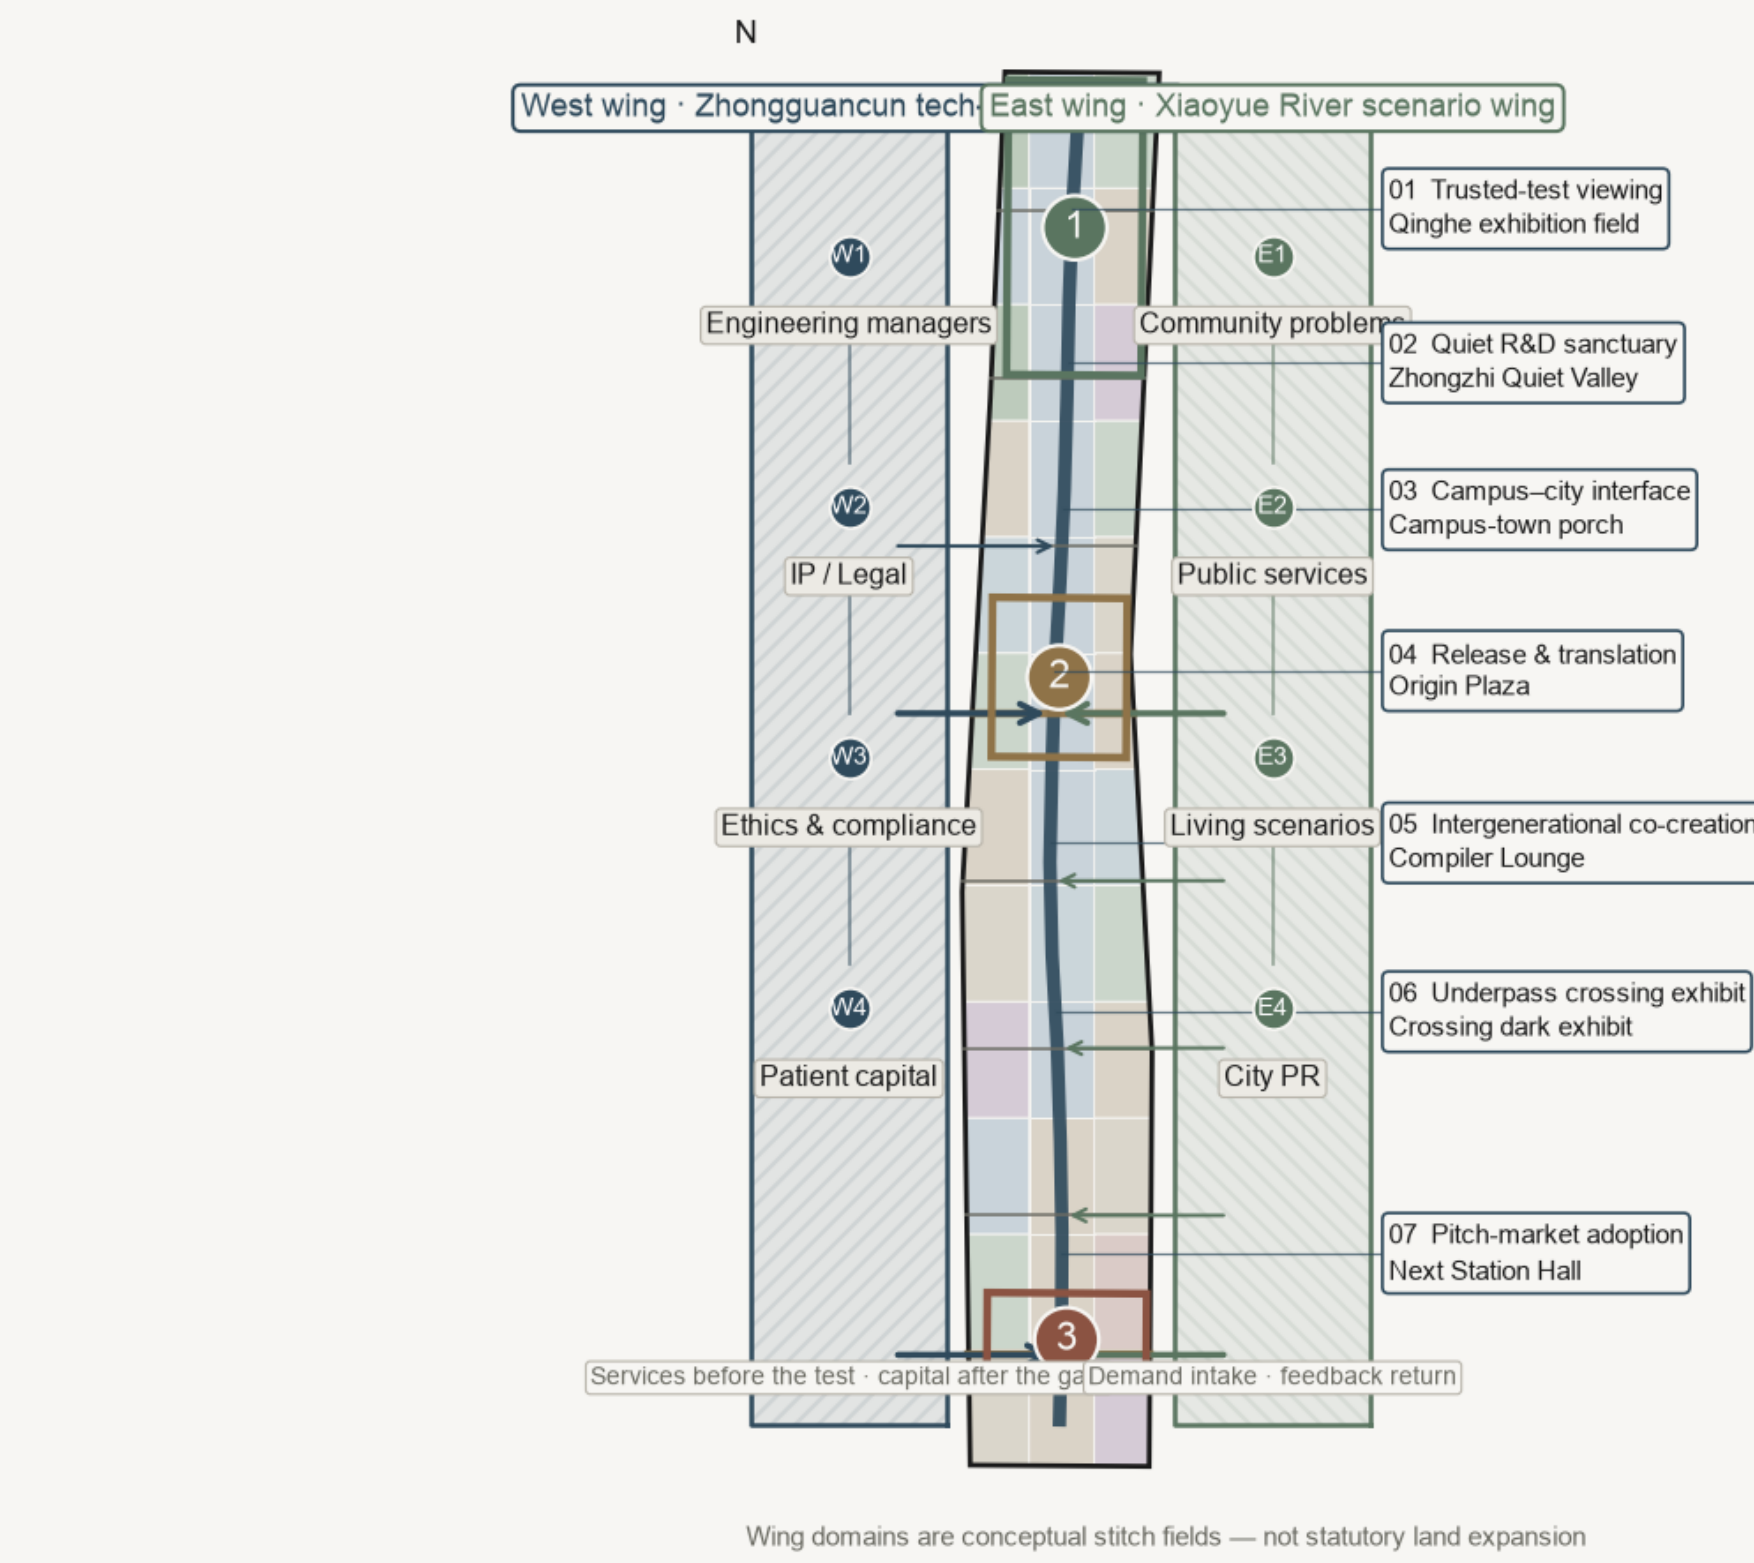

Zhongzhiyuan verifies
Origin translates
Dazhongsi adopts
West wing = services & capital after the test gate
East wing = demand intake

Seven gates / one passport

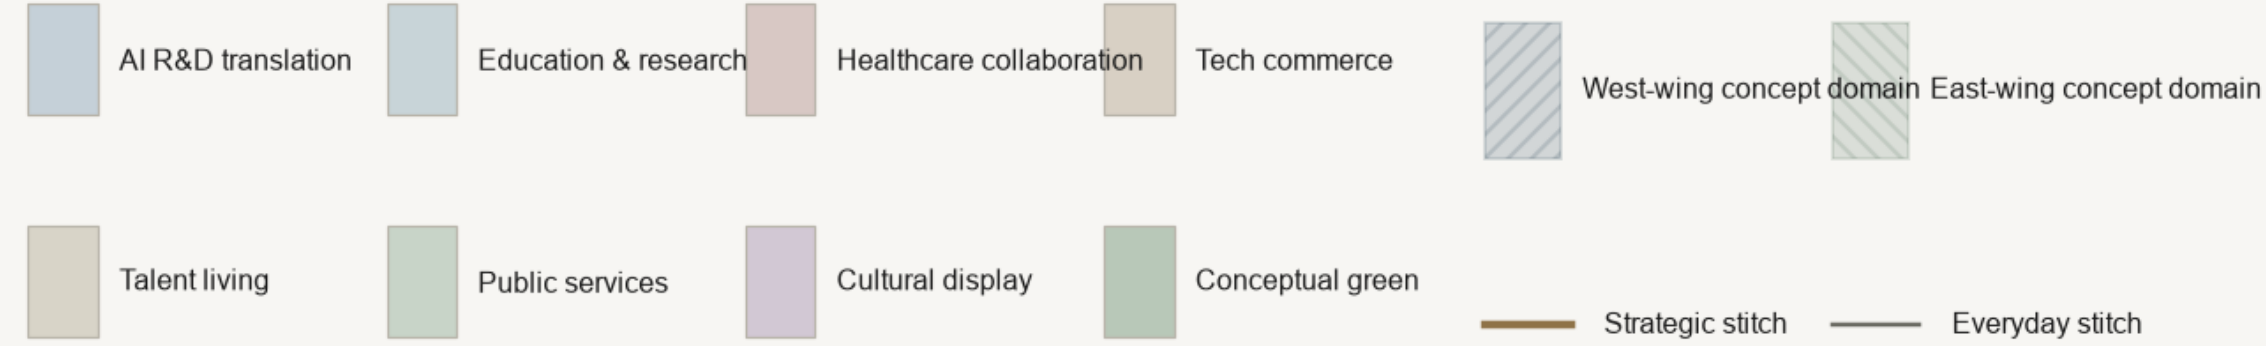

Research → PuCIP → Open source → Validation
→ Incubation → Patient capital → City adoption
One project passport across the chain

One axis · two wings · three engines · seven spaces

AXIS × WINGS × ENGINES × SPACES

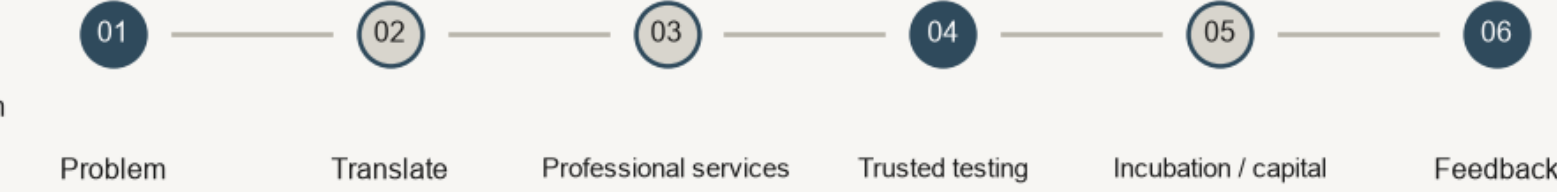

Legend / LEGEND

Three engines / THREE ENGINES

Collaboration chain / ONE PROJECT PASSPORT

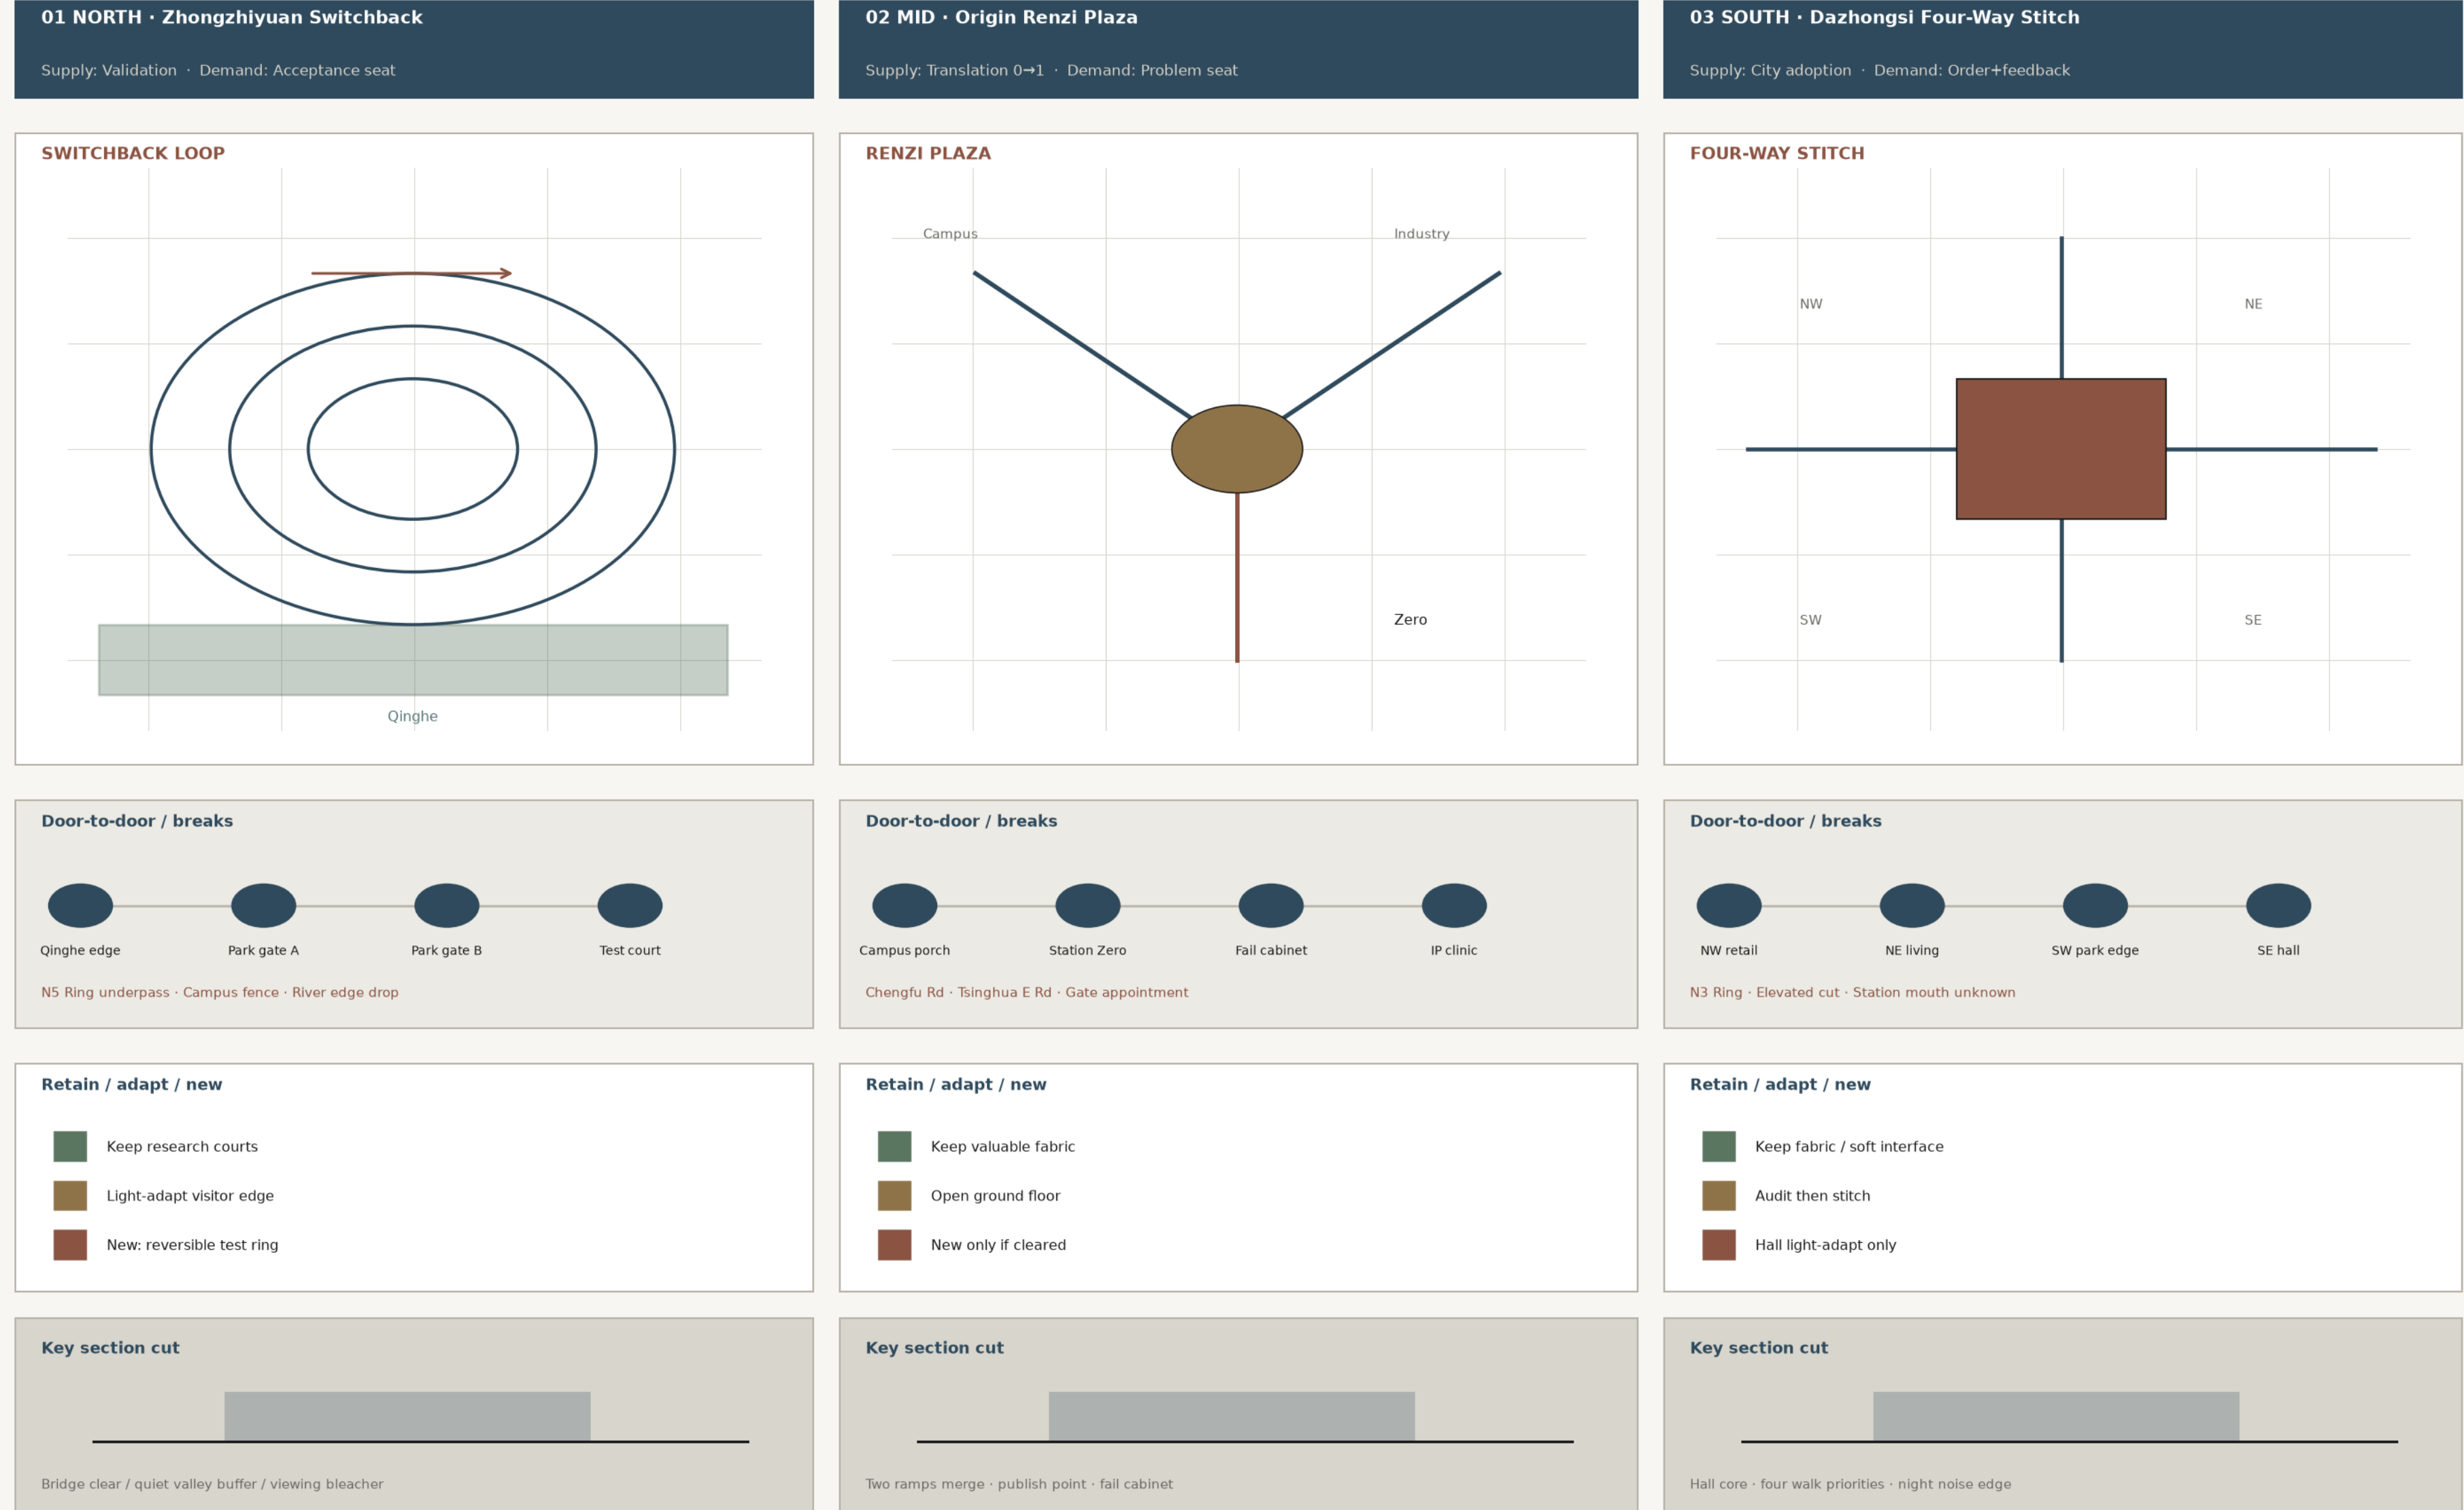

West wing supplies services, east wing supplies real problems, capital enters only after the test gate.

Gold = strategic stitch (Qinghe / campus-city / Dazhongsi four-way); gray = everyday stitch.

Zones and wing domains are conceptual — not a substitute for statutory land use or road red lines.

Station Surgery Plans · Three Engines

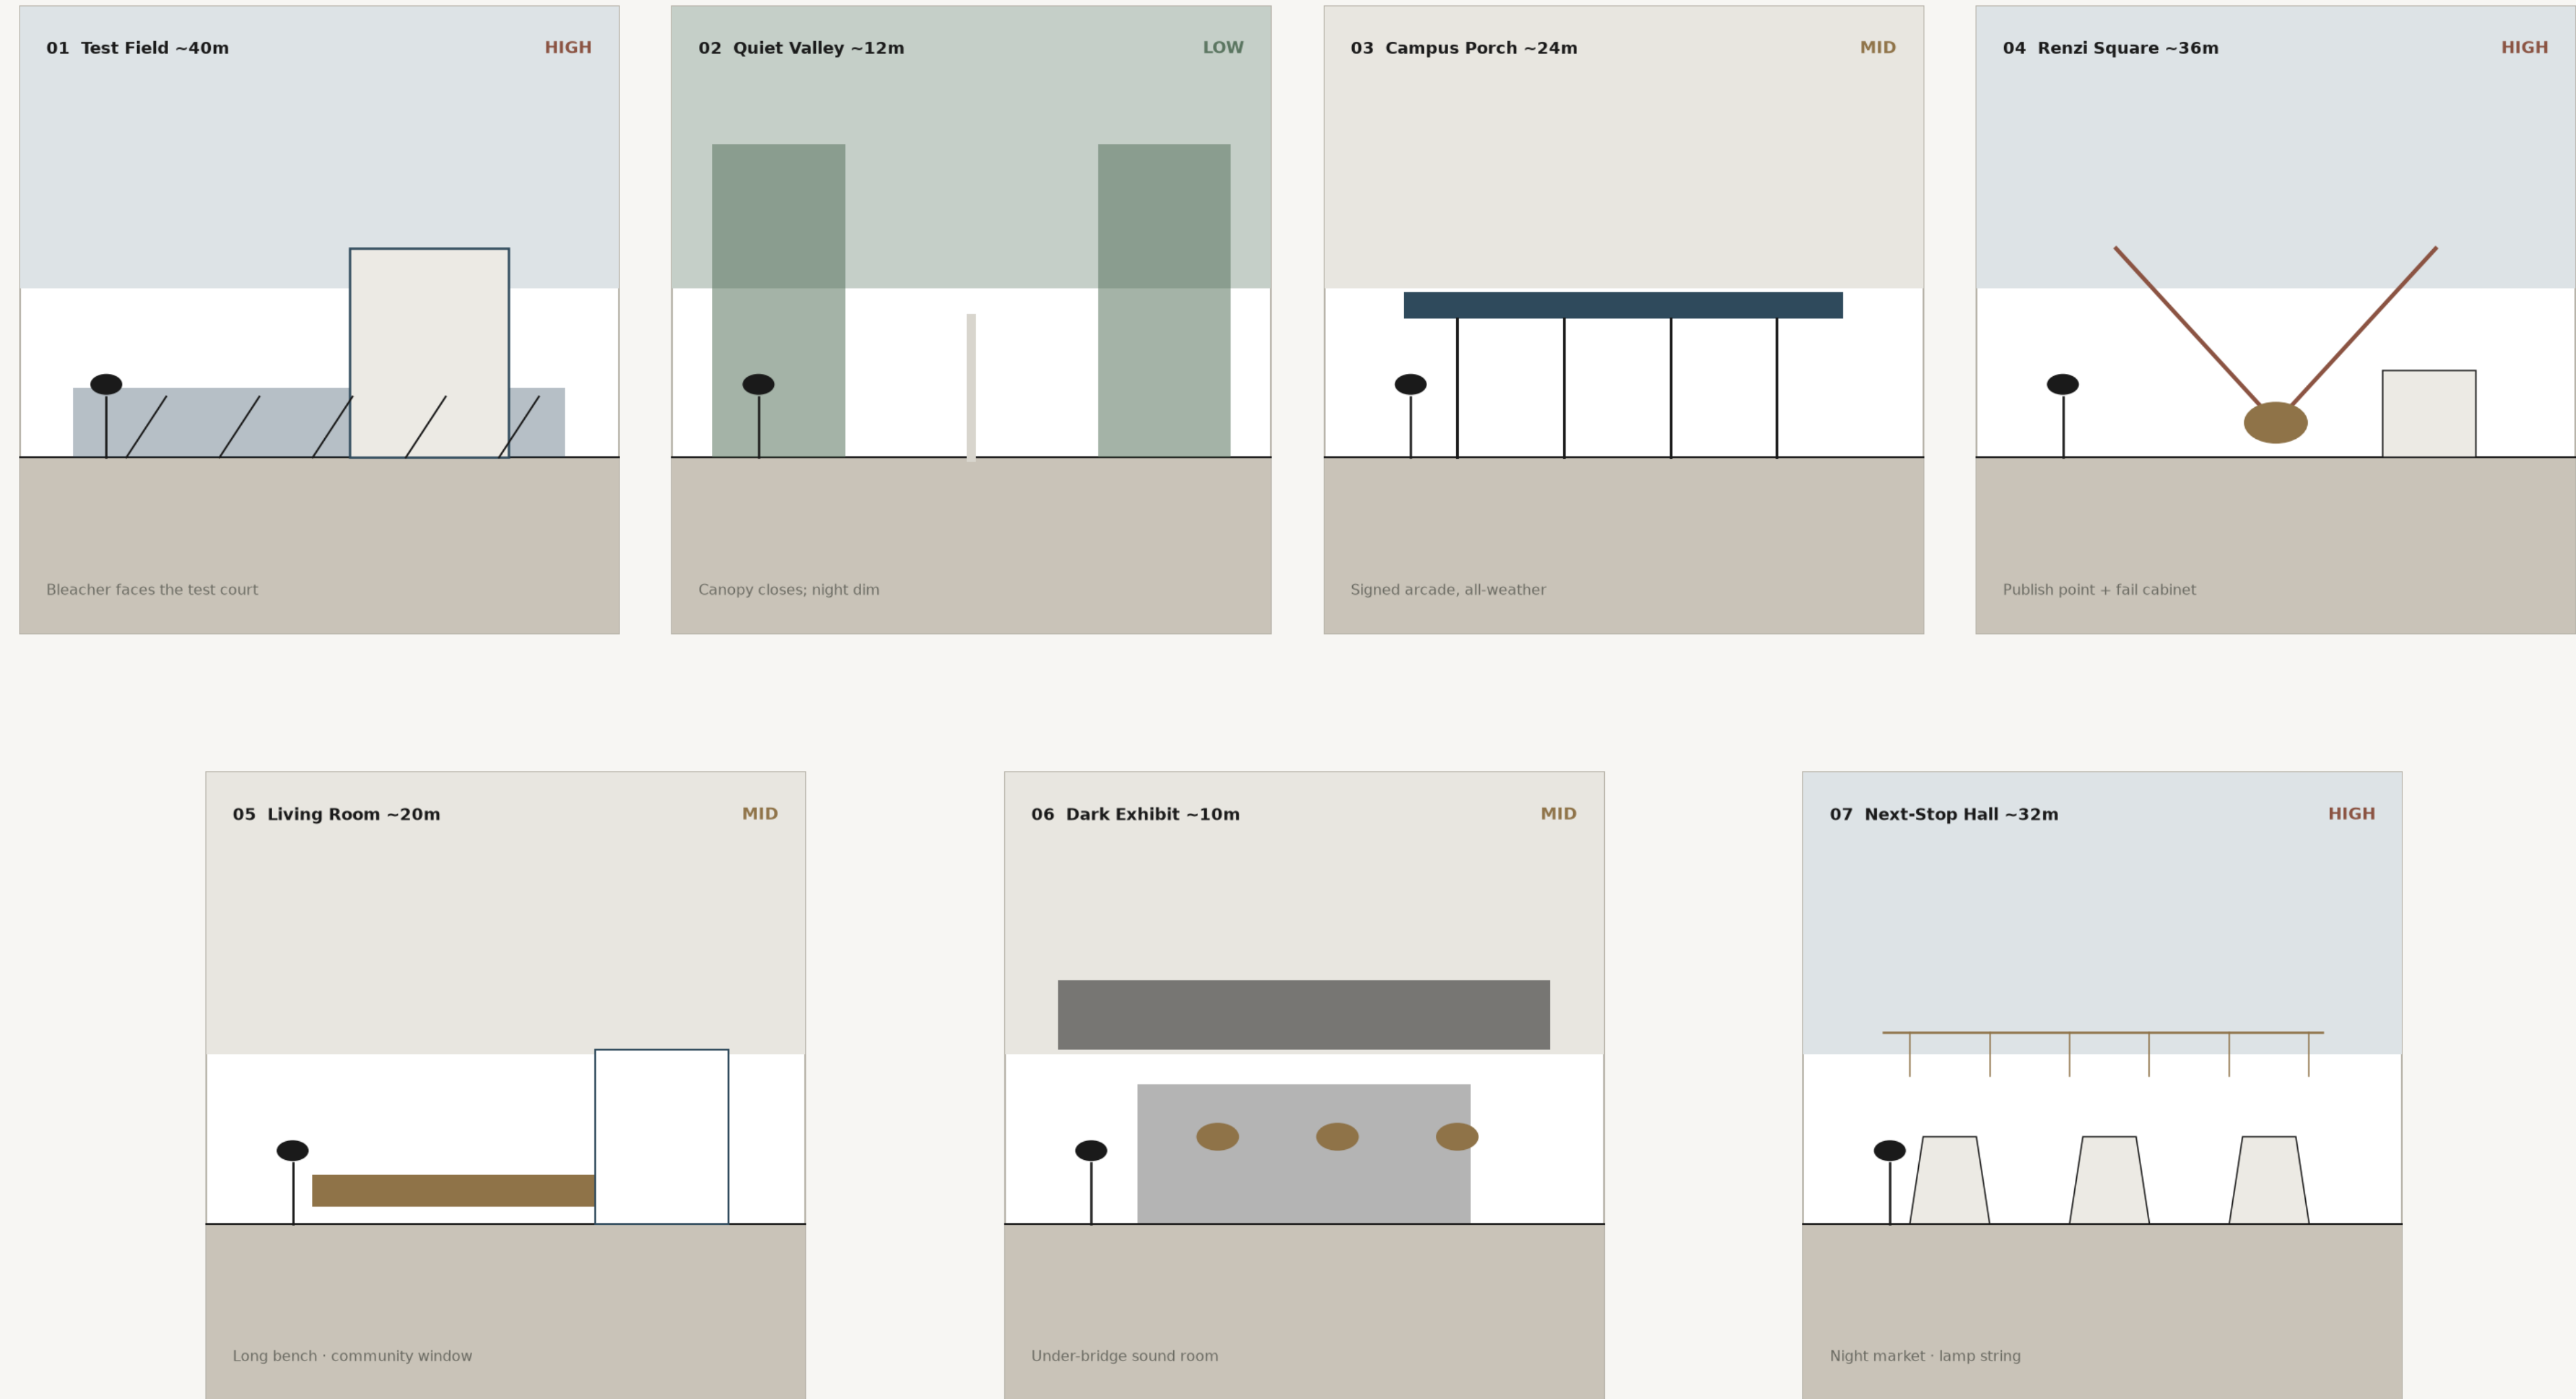

Plan + section cut + door-to-door walk breaks + retain/adapt attitude. Concept depth — not engineering.

All geometries provisional. Official red lines / station mouths replace and recalculate.

Seven Spaces at Eye Level · One Horizon Grammar

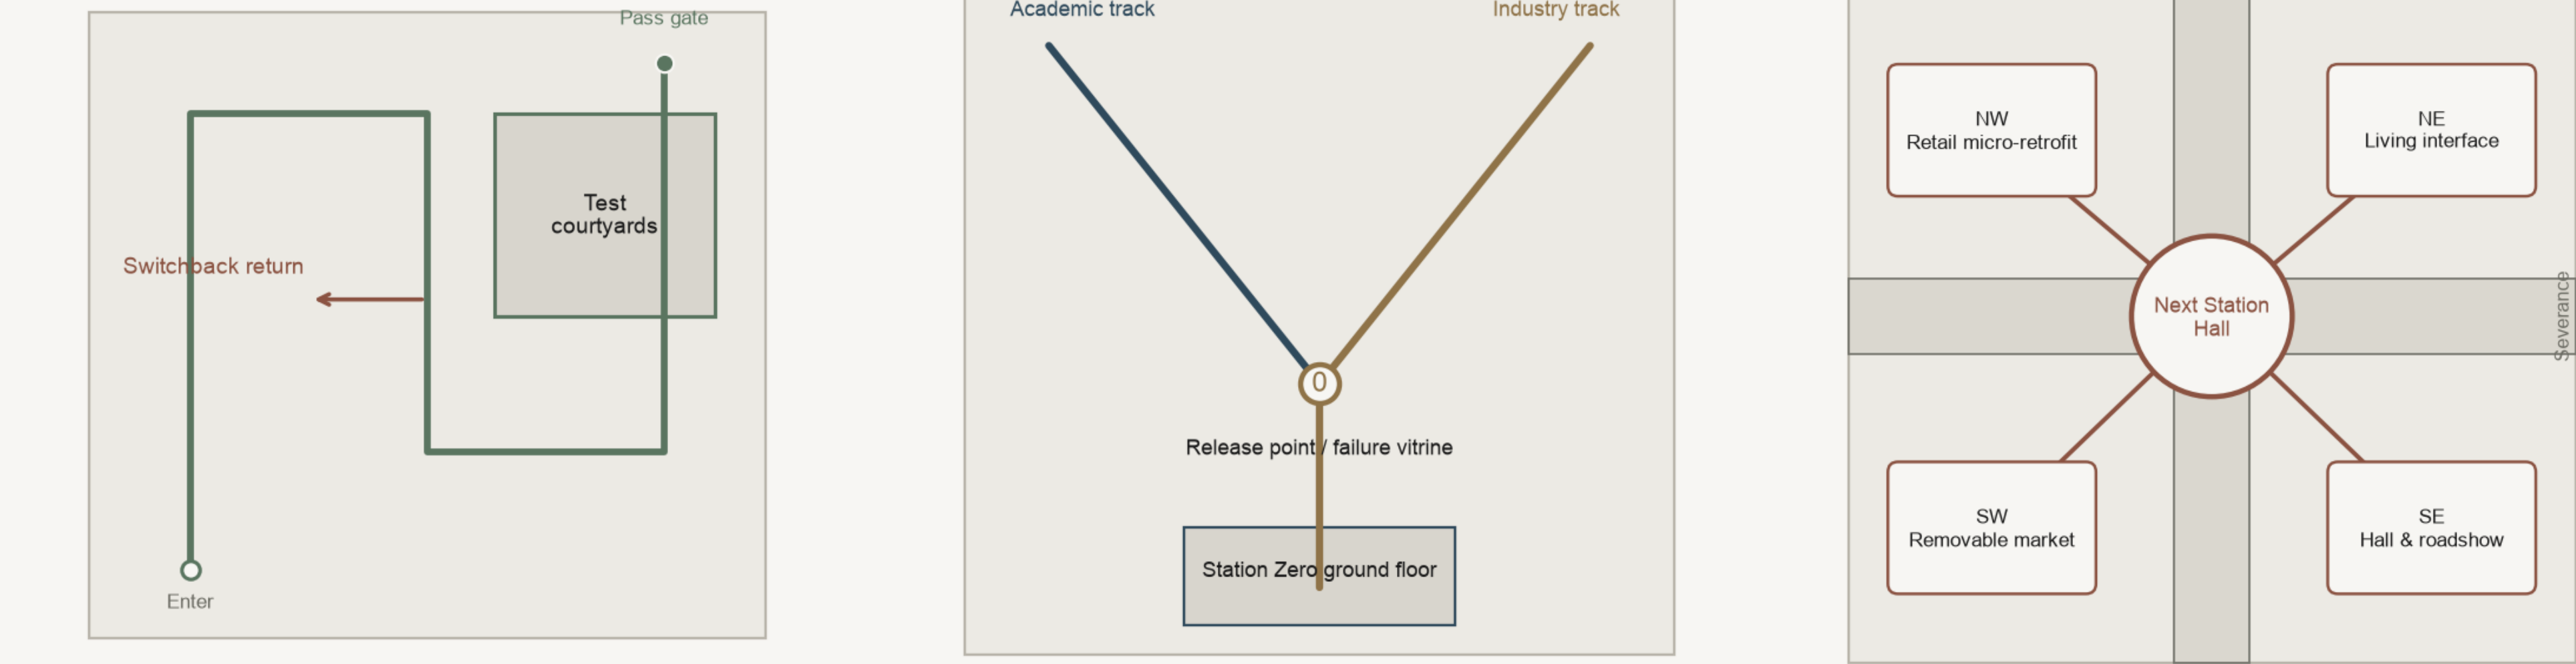

Same eye height · same daylight rule · width rhythm you can feel — not only a table.

Conceptual atmosphere plates. Vertical clearances pending official survey.

Three station forms: one form per station — not all Renzi

THREE STATION FORMS / CONCEPT MOTIFS, NOT ENGINEERED PLANS

01 / NORTH · SWITCHBACK LOOP

Zhongzhiyuan · Switchback Loop

Trusted validation × acceptance demand

Translating Qinglonggao: switchbacks overcome grade → return for retest overcomes failed gates

Enter → public test → fail gate → switchback → pass gate → release

Conceptual motif diagram: one form per station — spatial logic and public behavior; not a survey reconstruction, road red line, or engineering plan. Rebuild geometry when official data arrives.

02 / CENTRAL · RENZI PLAZA

AI Origin · Renzi Plaza

Outcome translation × problem translation

Academic and industry tracks merge, the merge point is the release point and failure vitrine

Campus ramp || city ramp → merge release → PoC exits

03 / SOUTH · FOUR-WAY STITCH

Dazhongsi · four-way walk stitch

City adoption × order feedback

Station-city surgery under interchange cuts: walk through first, micro-retrofit next, new build last

NW commerce · NE living · SW removable market · SE hall

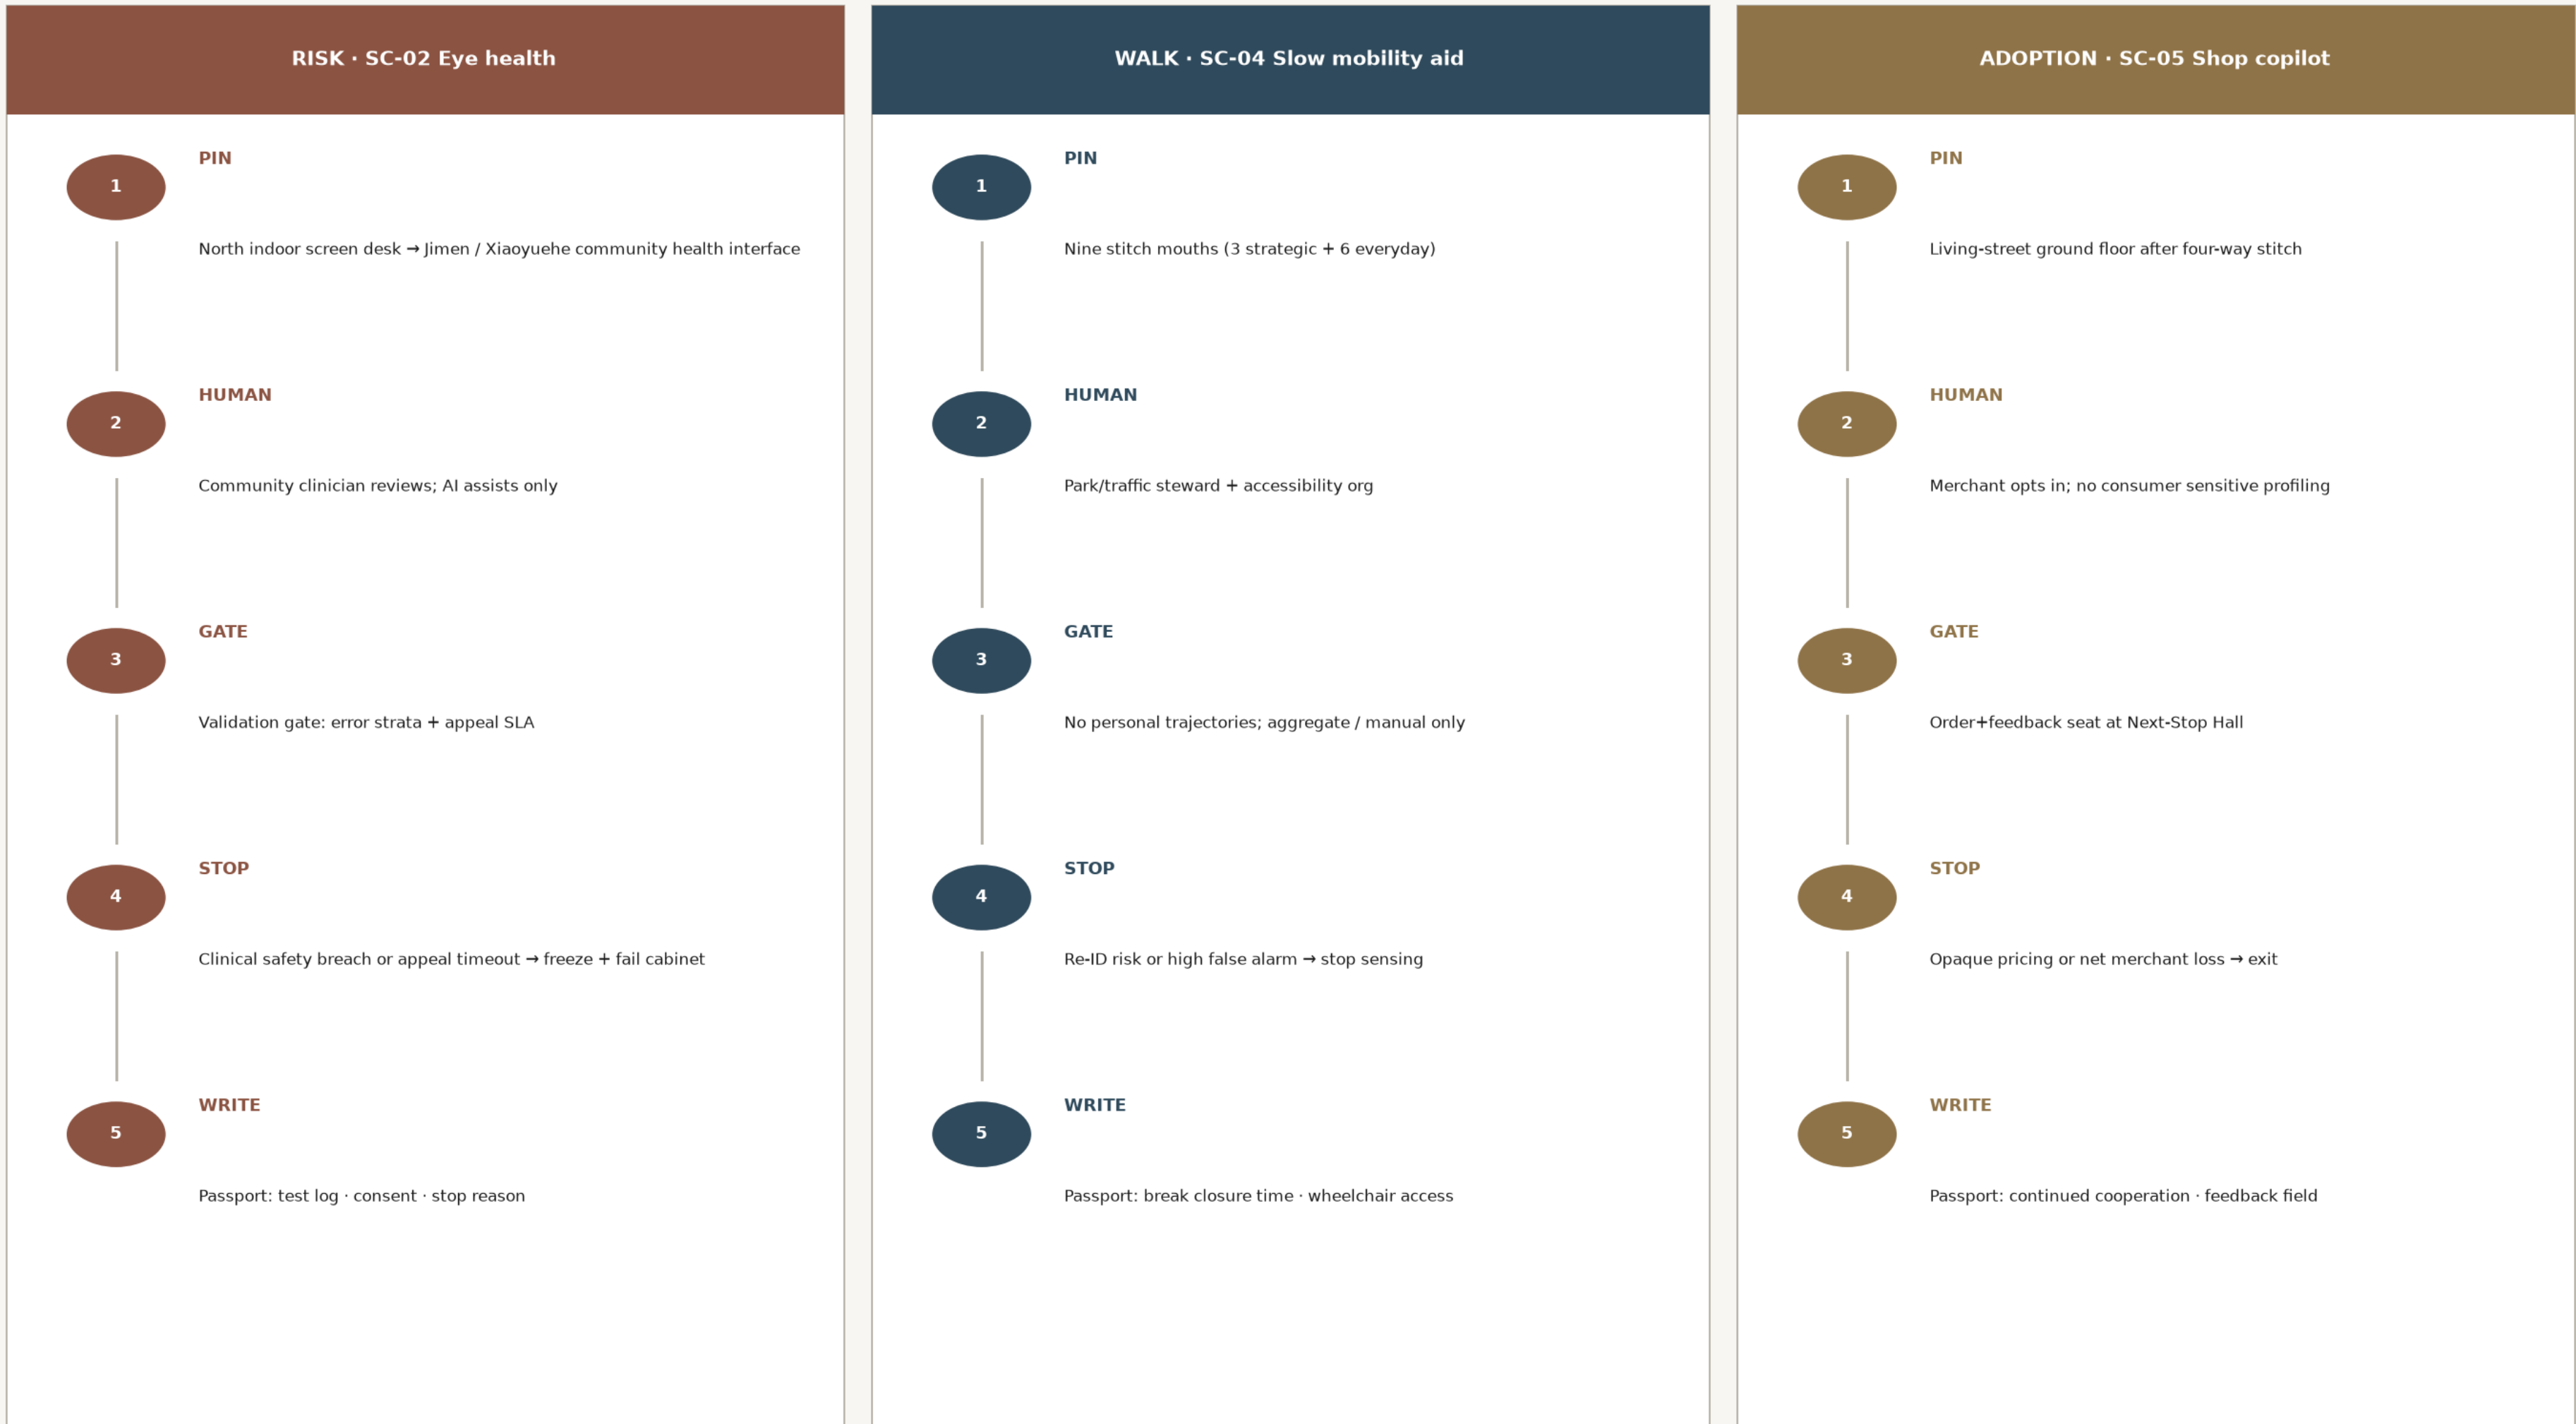

Deep Loops · Delivery Evidence

v0.5.13 · Risk / walk / adoption loops carry the proof burden.

Three Deep Loops · Risk / Walk / Adoption (others stay indexed)

Auditability over card count. Each loop: pin · human-in-charge · stop key · passport write-back.

P2 DEEP SC · v0.5.13

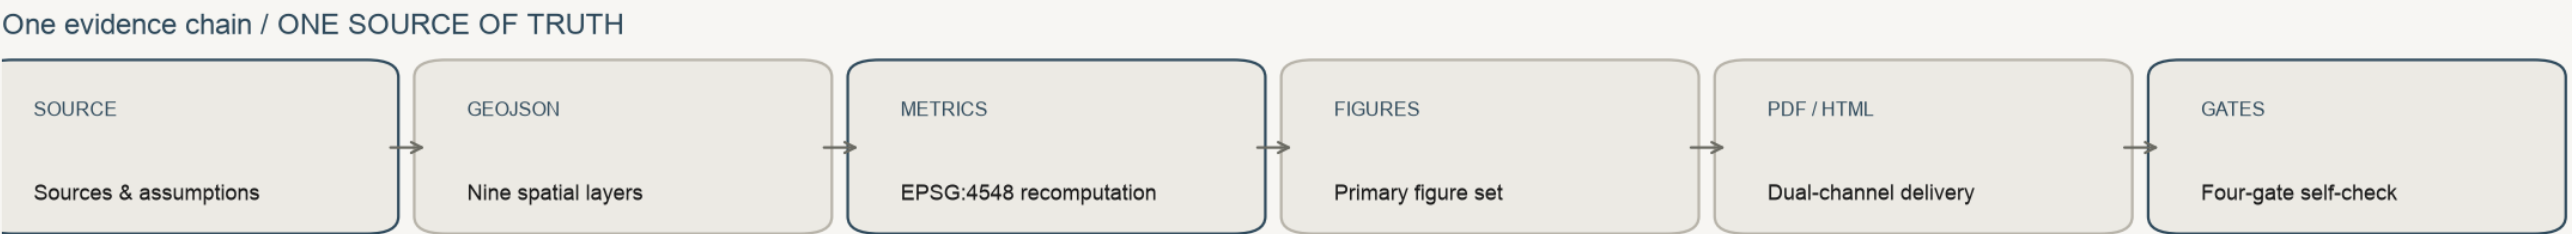

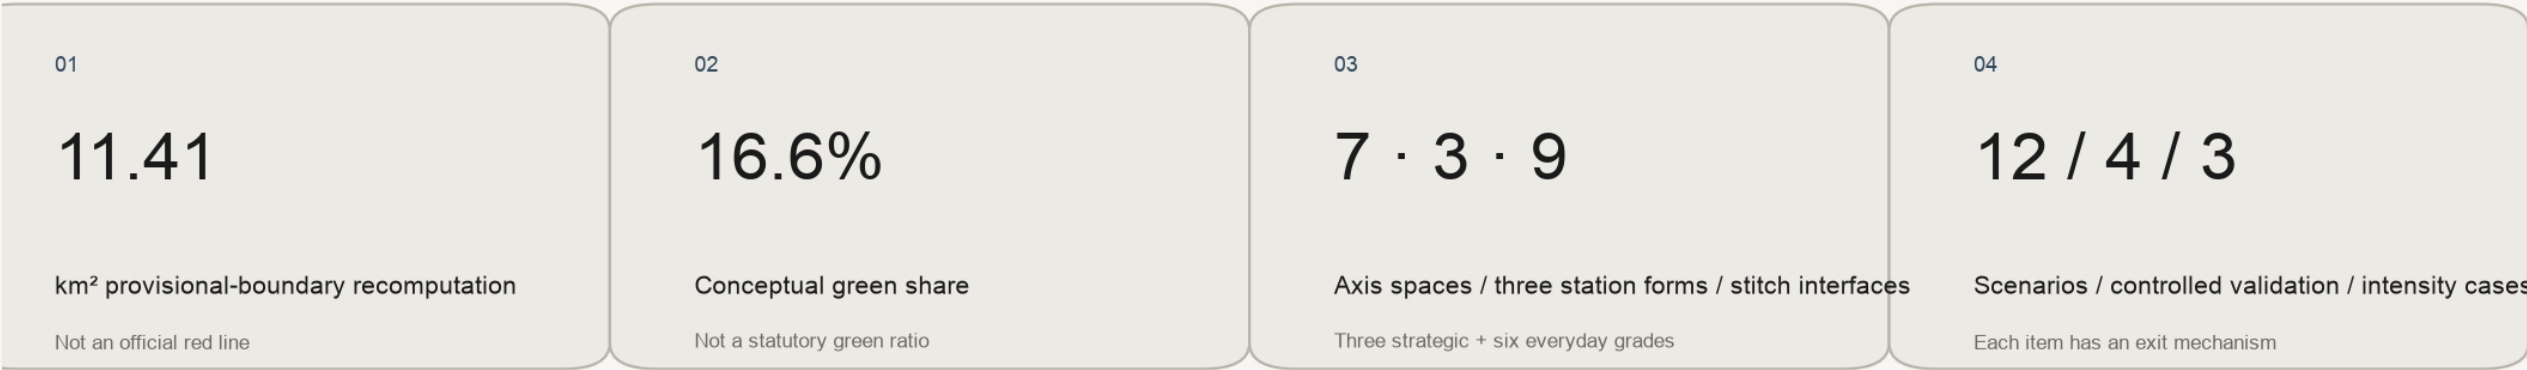

SC-01/03/06–12 remain in the index table; deep evidence concentrates on three auditable loops.

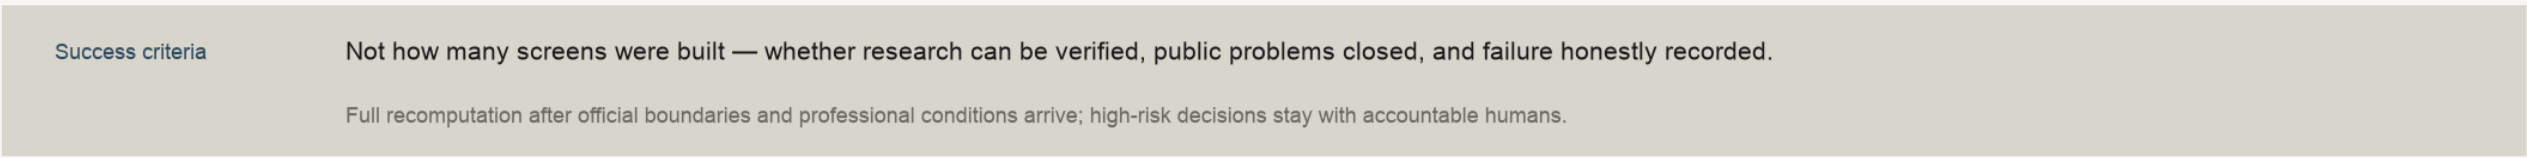

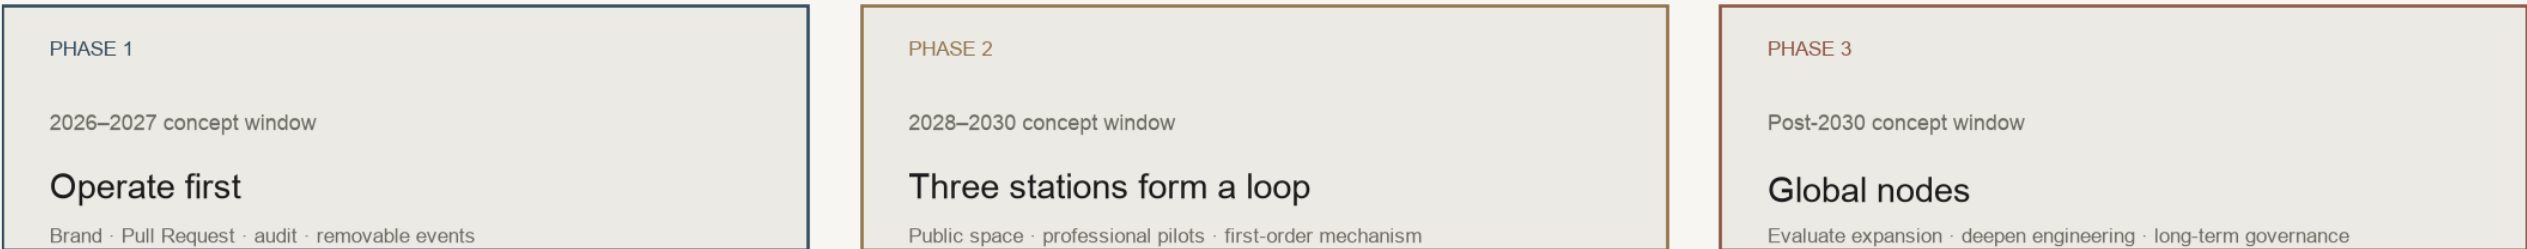

12 cards remain discoverable; 3 loops carry the proof burden.

A blueprint that can be recalculated, stopped, and continued

METRICS × EVIDENCE × DELIVERY

Three-phase roadmap / START LIGHT, LEARN IN PUBLIC

Annual loop

JAN call → MAR residencies → APR Commit Walk
JUN trust test → SEPT OPENLINE Week → OCT forum
Monthly failure review · year-round PPRs + microgrants

Exit rules

No maintainer for two cycles → leave the pool
Safety threshold missed → stop the pilot
Public space capture → cut event slots and remove

Belt Brand Visual Identity

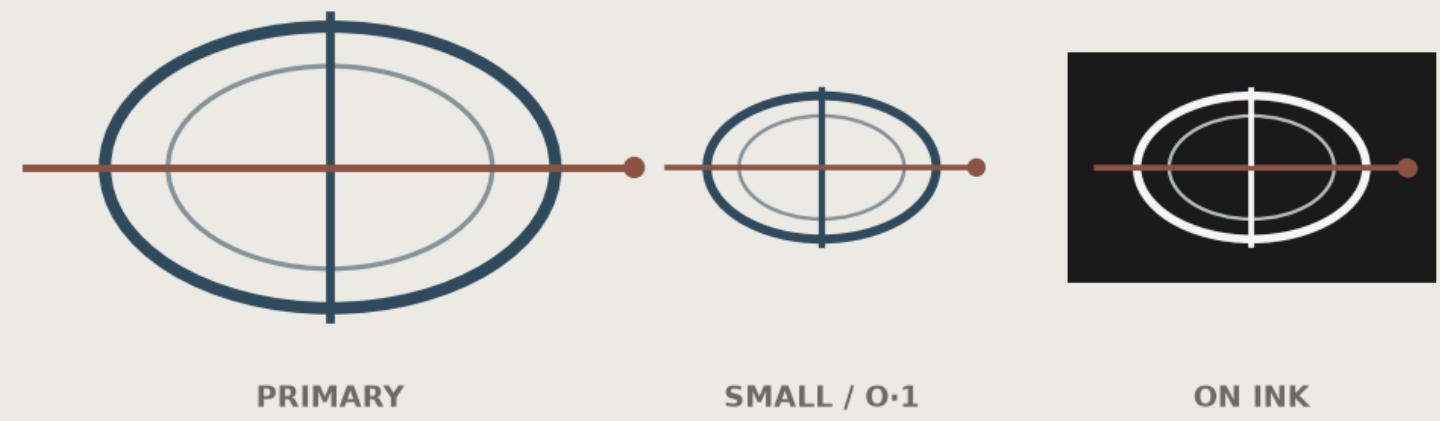

O-1 locked · four primaries · applications · four-sense patch.

OPENLINE 100 Visual Identity

Heritage rails → open ring O · Commit line → stem 1 · Public intelligence, not neon tech.

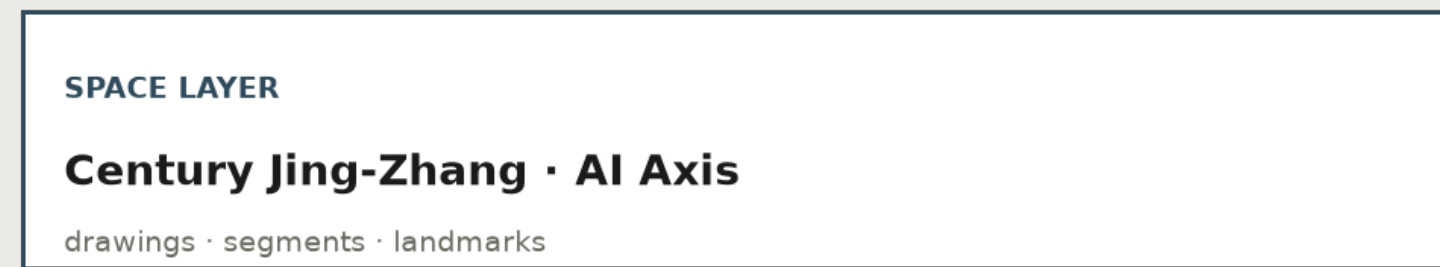

BELT BRAND VI · NOT DRAWING LAYOUT · agent.1

A Logo construction

- Dual rails close into open ring → letter O
- Umber commit line crosses center → digit 1
- Small sizes keep O-1 only — no gradients, no robots
- Clear space ≥ 0.5x mark radius on all sides

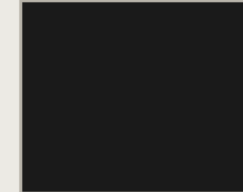

C Naming lockups

E Do / Don't

- DO: industrial skeleton · garden base · digital ignition at nodes · failure cases visible · reversible installs
- DON'T: neon streets · robot statues · continuous sound-light · fake heritage purple lines · 'shown' = 'verified' · confuse belt Logo with cultural wayfinding (agent.5)
- Concept-Vt direction only — not a registered trademark or procured design system.

B Color system

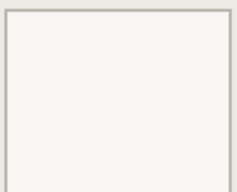

Rail Ink
#1A1A1A
Industrial skeleton / type hierarchy
1909 steel & ink drawings

Axis Steel
#2F4A5C
Axis, interfaces, structure
Line as civic infrastructure

Signal Umber
#8B5342
Events & interactive only
Signal lamp / commit pulse

Ballast Paper
#F7F6F3
Ground / quiet field
Ballast bed & drawing paper

Four colors max. No neon wash. Umber is a signal — not a wallpaper.

D Vocabulary & type

Station

nodes

Commit

projects

Release

annual outcomes

Space

axis segments

Suzhou + 1-2-3

mileage language

ZH: Song / Heiti stack for space names · EN: geometric sans for OPENLINE

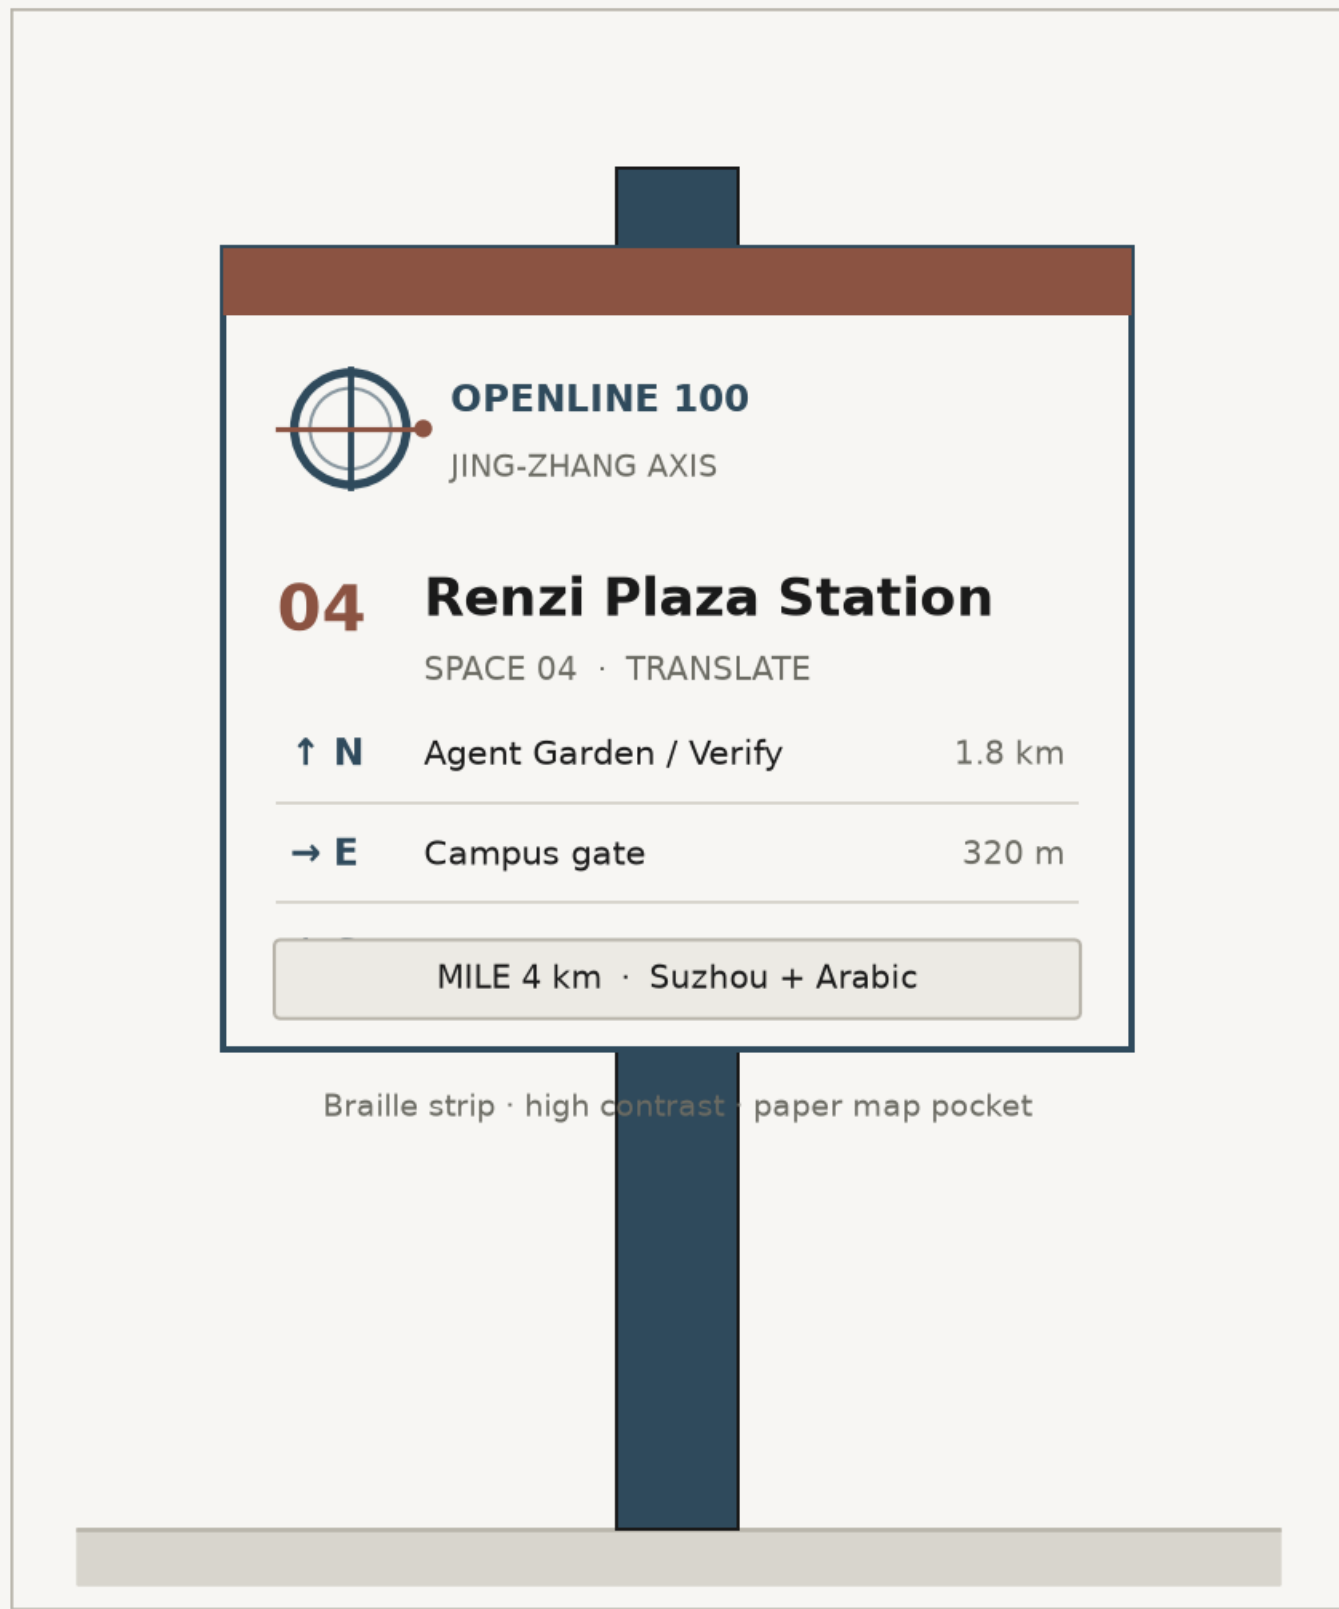

Wayfinding: bilingual · high contrast · braille/tactile · paper fallback

Clear trademark / type / Suzhou-numeral rights before formal use.

VI Applications: Sign · Commit Plinth · Passport

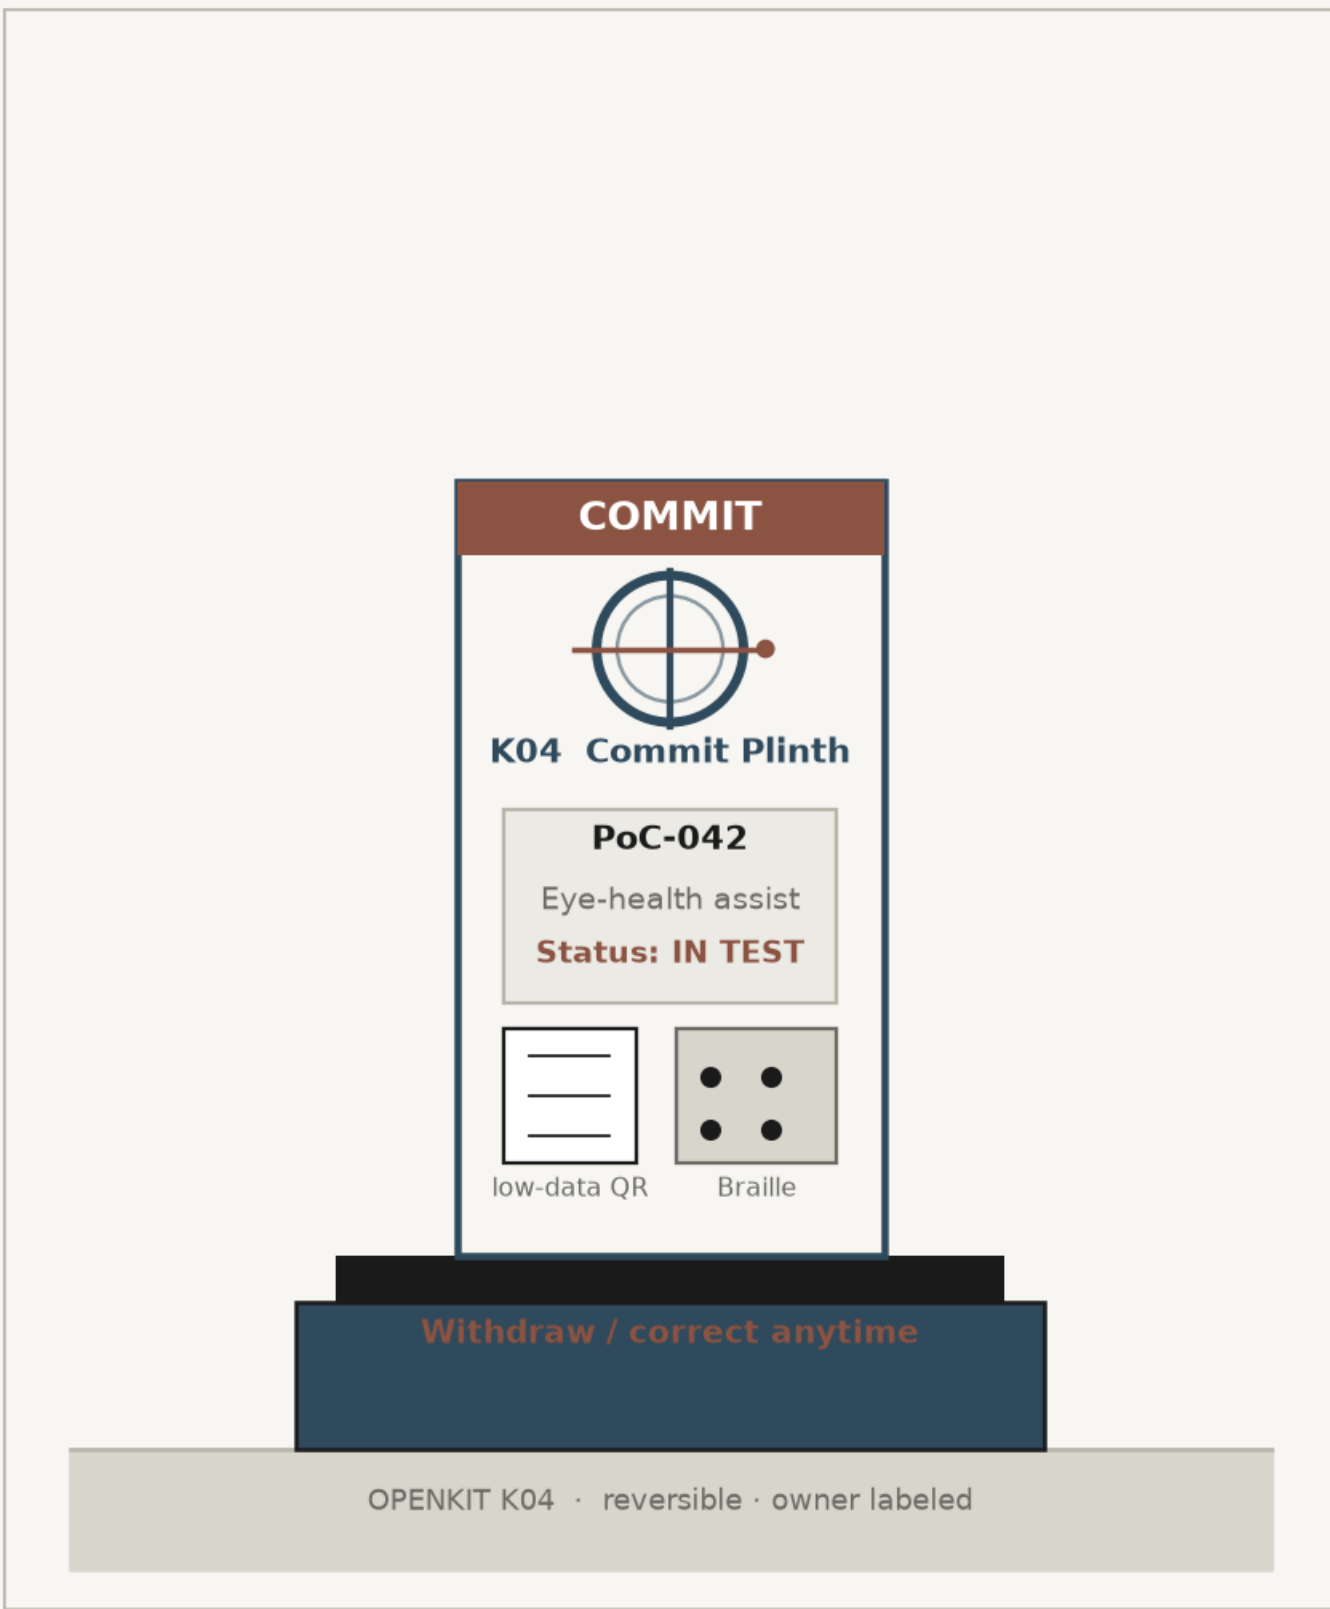

Three proof points that the belt brand can live outdoors, on street furniture, and in the mechanism layer.

CONCEPT MOCKUPS · NOT PROCURED PRODUCTS

01 WAYFINDING

Bilingual totem · mileage · tactile
Space layer, navigation face, O-1 mark, paper map pocket
Concept applications only. Not fabrication drawings, procured SKUs, or legal ID documents.

02 COMMIT PLINTH

K04 pedestal · exhibit · withdraw
Umbor commit band; low-data QR; braille; owner on base.

03 PASSPORT COVER

Mechanism lockup · Release seal
OPENLINE 100 primary; Chinese axis as secondary line.

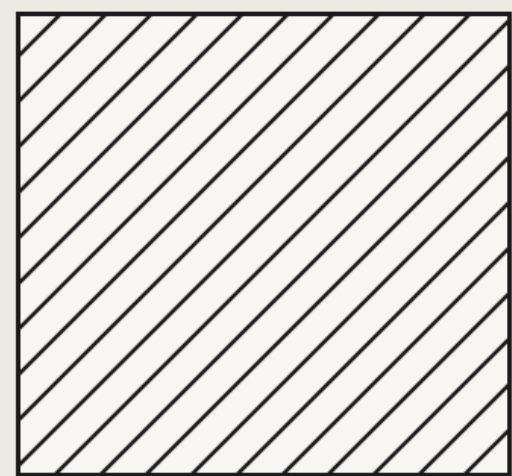

VI Patch · Four-Sense Calibration

History thickness · Ecological beauty · Livelihood warmth · Future tech — close the gap left by the industrial-drawing core.
LOCKED: O-1 mark · Rail Ink · Axis Steel · Signal Umber · Ballast Paper

PATCH LAYER · DOES NOT REPLACE CORE VI

A History depth · materials

Keep O-1 geometry. Add felt thickness: paper · sleeper · rail grit.

Ballast Paper

Sleeper Wood

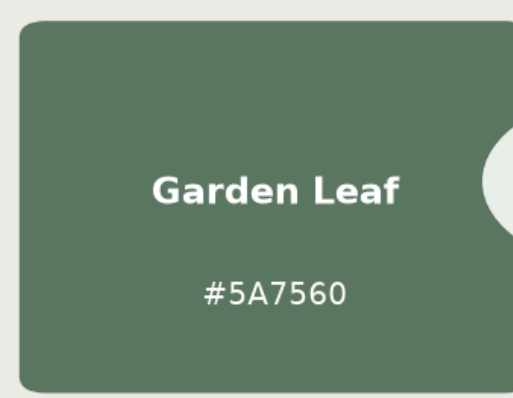

Rail Grit

Use on: sign backs · passport stock · plinth base. NEVER ON O-1 mark fill.

B Ecology · Garden Leaf

Auxiliary only — green corridor / garden rooms. Not a 5th brand primary.

Garden Leaf

Quiet

Rain

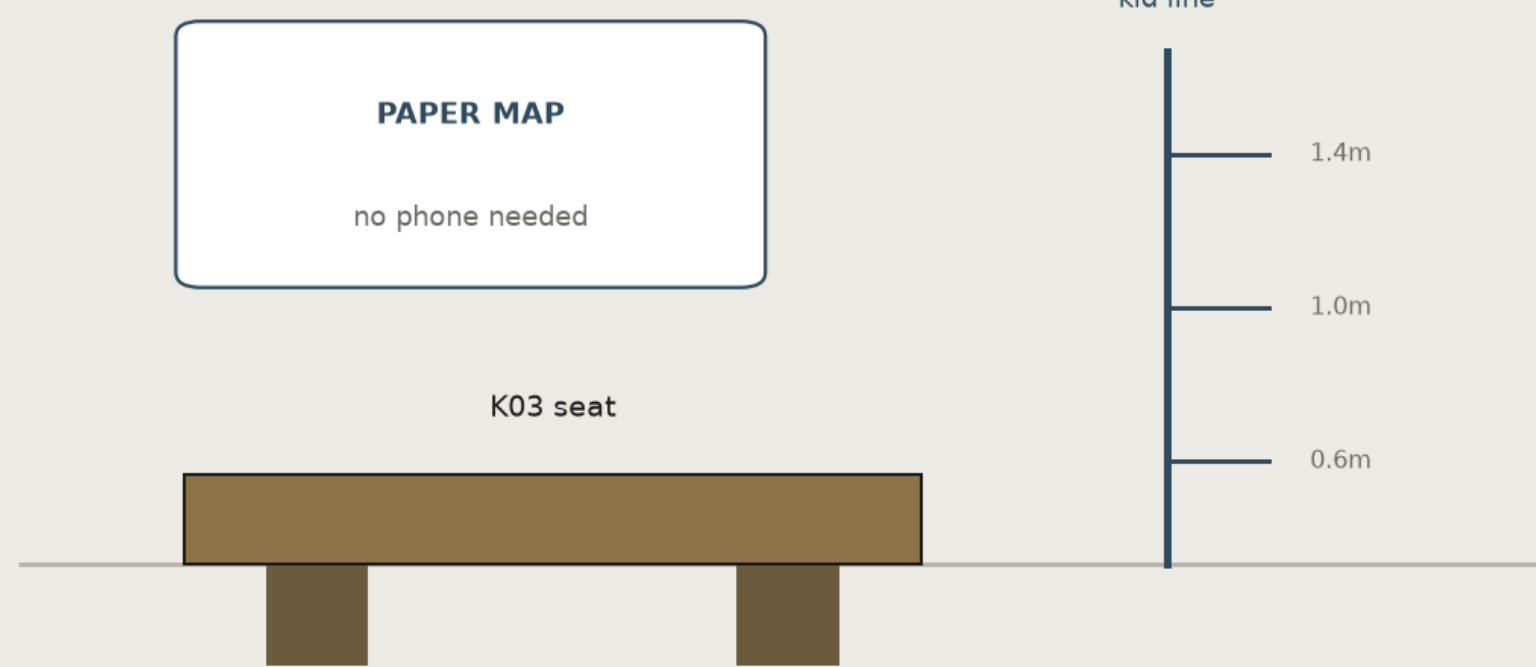

Kids

DO garden rooms · river edge · habitat signs

DON'T logo fill · neon green · wall paint wash

C Livelihood warmth · street touch

Warmth must be visible: seat · kid height · paper offline — not only Braille notes.

Community proof: elder seat depth · child readable · offline fallback.

D Future tech · signal ignition

One thin pulse at state change. Never continuous neon street wash.

ON entry / gate / commit
OFF idle corridor
NO robot statues / wash

Concept patch for belt brand VI · not procured materials or lighting products.

v0.5.2

Score Evidence Board

v0.5.13 · Existing · host/design · intensity · delivery & money.

Existing Conditions Plate · What Is Known / Empty / Forbidden to Fake

Gaps drawn as empty constraints — not painted as facts. Replaceable base for official packages.

P1 EXISTING · v0.5.13

KNOWN (citeable)	EMPTY CONSTRAINT	FORBIDDEN TO FAKE
> Announced scopes 43.6 / 11.4 km² / 368.4 ha key areas (task brief)	Official site / key-area survey polygons	✕ Do not digitize fake purple / blue lines
> Park phase 1 open ~2.5 km · 16.8 ha public park (official)	Statutory FAR · height · density · setbacks	✕ Do not invent FAR / height as design conclusions
> Heritage notice Qinghuayuan station protection text (no surveyed polygon)	Existing building footprints · tenure · leases	✕ Do not downscale district stats onto the site
> Severance corridors N3/N4/N5 rings · Zhichun · Chengfu · Tsinghua E (public names)	Road red lines · rail mouths · traffic counts	✕ Do not treat provisional GeoJSON as statutory plan
> Stats (district) Population / GDP / labs — calibrate only, no area downscale	Blue lines · flood · municipal capacities	
	Cleared heritage control polygons	
When official packs arrive: regenerate 9 layers + all metrics + segment thresholds as one pipeline.		

Host Layer × Design Overlay · Why 16.6% / 2.5% Must Not Be Misread

Park / city green = host. Seven spaces · landmarks · OPENKIT = design overlay. Daily free access first.

P1 HOST/DESIGN · v0.5.13

HOST Jing-Zhang heritage park corridor (host) Qinghe / Xiaoyuehe blue-green intents Existing open park segments (phase 1 cite) City sidewalks & underpass volumes (to audit) DESIGN OVERLAY seven rooms · landmarks · kit · stitches	Minimum operable public set (even under S1) Continuous walk ≥4m clear Along OPENLINE concept centerline Seat every 150-200m Quiet Edge + Rail Bench Toilet / water / quiet room Non-digital fallback required Accessible alternate At every strong severance mouth
Ratio reading protocol green_ratio 16.6% public_space_ratio 2.5% 16.6% green / 2.5% public-space = design-layer ratios on provisional boundary — NOT statutory park / civic ratios. Always publish host continuity + design overlay + minimum operable set together.	

Intensity Scenarios S1 / S2 / S3 · Side-by-Side Evidence

No FAR numbers. Comparable assumptions · spatial consequences · ops consequences · kill conditions.

P1 INTENSITY · v0.5.13

Assumption	Reuse + ops first; new only tiny civic	Mid infill on cleared low-efficiency plots	Higher intensity near rail-candidate mouths
Data required	Building survey · structure · tenure	Controls · tenure · inefficient land list	Station mouths · aviation · sun · view corridors
Spatial consequence	Display frontage stays; limited new mass	Talent living + incubate + frontage balance	Global program vs heritage scale tradeoff
Ops consequence	Can 3 stations run on light-adapt only?	Does weave meet living/incubate/frontage?	Does intensity tax commons & heritage?
Kill / reject if	Finance/space cannot host passport gates	Public display layer loses continuity	Display ratio exits 40-60% guide band
Shared recalc pipeline: any chosen scenario regenerates 9 layers + metrics after official data.			

Delivery & Money Plate · Who Holds / Who Vetoes / Who Pays

Four seats · passport issuer · free commons vs chargeable layer · 0-12 month do-now list.

P1 DELIVERY · v0.5.13

Four-seat roundtable

Public / Asset	Research / Firm	Community / Public interest	Independent audit / safety
Propose + statutory veto	Propose projects	Veto commons capture	Veto unsafe release
Veto: Park access / safety	Veto: No skip of Validation gate	Veto: Quiet hours / access	Veto: Publish fail cabinet

Passport issuer: proposed operating steward + independent audit countersign. Gate signature required before Capital seat activates.

Money boundaries

Free forever	Chargeable	Never
Passage · base exhibit · City PR submit	Compliant venue rent · challenge prizes · member services · public procurement	Selling personal data · forced face ID · ranking by financing

Do-now vs wait

0-3 mo	Brand commons · City PR beta · walk audits · reversible events
3-6 mo	Station Zero light pilot · Agent Garden beta protocol · Commit Wall rules
6-12 mo	Four-way stitch audit · controlled SC-02/03 · Passport desk
WAIT	Bridges / new build / compute rooms — until red lines & specialties clear
