PHOTO-08 · Charlie fong · Public domain dedication by the copyright holder · External context reference; not field evidence

The photographs provide history, urban character, and service-practice references. They do not prove project fieldwork, official boundaries, implementation, or performance. Missing values remain unknown.

OFFICIAL
boundary = false

GEOMETRY
provisional constraint

AREA USE
Topology and internal checks

FIELD
0/12; remains unknown

THREE SCALES, EACH ENDING IN A HUMAN STEP

Research connects industry and regional resources; overall design organizes walking, public space, and service; key areas turn decisions into reversible prototypes.

RESEARCH
Industry and regional loops

KEY AREAS
Reversible spatial operations

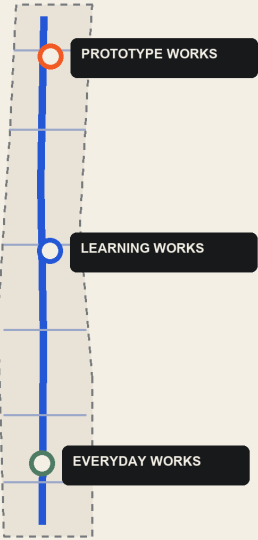

OVERALL
Land, mobility, public service

RETURN
Problems return to R&D and maintenance

JING-ZHANG WORKS

HOW ONE TASK GETS DONE

A problem moves through Prototype, Learning, and Everyday Works; failure returns through the second service chain

TWO SERVICE CHAINS

LAB TO STREET

PROBLEM TO CHANGE

ANY FAILED STEP REACHES A PERSON AND PAPER

LEARN METHODS FROM SIX CASES, NOT THEIR LOOK

Shared platforms, continuous feedback, agile pilots, resident validation, liveability metrics, and evaluation before scale are rewritten as Jing-Zhang adoption rules. No case imagery or brand asset is copied.

Qinghe Railway Station West Square; arrival, crossing, and station-city interface reference

PROTOTYPE WORKS: CONTAIN FAILURE FIRST

An observation foyer, accessible test lane, isolated test pocket, physical stop, and failure review make a controlled section. A robot that fails here never reaches the public street.

COMPONENT C04 accessible test lane	OWNER Test lead and site safety
RESOURCE M-class movable kit	HARD STOP Branch approach or failed E stop

JINGZHANG WORKS

THREE WORKS, THREE SPATIAL PROTOTYPES

One service rule becomes controlled testing, public learning, and everyday service space

01 PROTOTYPE WORKS

EIGHT PUBLIC TASKS, EACH WITH A NO-APP ROUTE

Routes, language, shade, night study, older-adult service, sensory access, jobs, and crowd passage share one floor: a person can find staff and leave with paper.

Qinghe Railway Station West Square; arrival, crossing, and station-city interface reference

MOBILITY
Arrival, shade, crowd

SERVICE
Older, language, sensory access

GROWTH
Night study, jobs, events

COMMON RULE
Same task without an app

FOUR INDUSTRY TESTS THAT FIRST LEARN TO STOP

Robots, closed delivery, privacy sensing, and digital twins stay controlled. Boundary breach, human proximity, unclear data purpose, or failed command triggers a hard stop.

ROBOT
Parallel access and recovery
DELIVERY
Closed-zone speed and takeover
SENSOR
Aggregate and delete

TWIN
Synthetic data and human command

PHOTO-02 · 1876-1915 · Public domain in China · External context reference; not field evidence

official_boundary=false · concept only

ONE ROUTE COUNTS FROM ARRIVAL TO EXIT

Arrival, crossing, entry, stay, takeover, and exit form one service. One unverified segment blocks the route; a polished fragment never cancels a broken middle.

PROVISIONAL GEOMETRY · EPSG:4326 DISPLAY / EPSG:4548 AREA CHECK
