

Make AI visible, takeover-ready, verifiable, and withdrawable at three urban interfaces

Zhongzhiyuan validates | AI Origin translates | Dazhongsi hosts public trial. AI may suggest, rank, translate, and assist verification; humans decide rights, safety, stop, and reopen.

SC10 + IM06 only

SOLE FIRST USE • NO OPENING UNTIL EVERY GATE IS PROVEN

Dazhongsi station + heritage/retail → CX10 → Human Takeover

F01 • OPEN CITY DESIGN / 2026

Belt Overview: Twelve Candidate Transects Located

One spine links three areas; 12 candidates, 0 surveyed [metric:cross_section_candidate_count]

F03 • OPEN CITY DESIGN / 2026

Three Key Areas at One Comparative Scale

Five background observations + three spatial moves per area; facts, targets, and unknowns stay distinct.

F03 • Three Key Areas at One Comparative Scale

Zhongzhiyuan validates, AI Origin translates, and Dazhongsi hosts public trials; all three boundaries are provisional.

F05 • OPEN CITY DESIGN / 2026

Evidence + Metrics: Adverse Results Stay Visible

23 package recalculable metrics; surveyed, one OSM intersection, and 667 m effort remain visible

F01 • Belt Overview: Twelve Candidate Transects Located

The extent is a constraint; the collaboration loop is the main story.

F02 • OPEN CITY DESIGN / 2026

Shared Partition: Same Edges, Zero Gaps, Zero Overlaps

A recalculable scenario partition—not statutory zoning, parcels, or control planning [metric:land_use_gap_area_sqm]

F02 • Shared Partition: Same Edges, Zero Gaps, Zero Overlaps

Complete coverage supports recalculation, not statutory zoning or parcels.

F04 • OPEN CITY DESIGN / 2026

Responsibility Transects: Twelve Candidates, Three Detailed

CX02 / CX05 / CX10 are relational design targets; the other nine are not presented as completed design

F04 • Responsibility Transects: Twelve Candidates, Three Detailed

All twelve CX candidates remain unsurveyed; only CX02, CX05, and CX10 receive relational design targets.

Adverse / unknown results retained directly

6 metrics unknown

3 provisional key areas

12 CX candidates unsurveyed

IMPLEMENTATION GATE: NO-GO • 8 official sources registered; 0 official project GIS/CAD, 0 surveys, 0 operator/professional signatures; total cost unknown.

Known / recomputable Provisional constraint Unknown / pending Design target Human Takeover

X Stop / remove

AI may assist; humans decide rights, safety, stop, and reopen

Twelve scenarios share one visible-status, Human-Takeover, complaint, appeal, removal, and archive contract.

SC10 + IM06

SOLE FIRST USE

F08 • Twelve Scenario Protocols: AI Authority + Human Takeover			Every scenario states what AI may do, what humans alone decide, how takeover works, the low-tech fallback, and the exit path.
SC01 • Model Evaluation Sandbox FLAGSHIP AI MAY ONLY Calculate, rank, explain, flag HUMAN ONLY Safety release, publish, stop/reopen HUMAN TAKEOVER CX02 sign, isolate output, safety staff explain LOW-TECH Offline script + paper protocol FAIL / EXIT Source/anomaly fail → takeover → stop/archive if unresolved	SC02 • Edge-Node Energy and Thermal-Safety Bench AI MAY ONLY Detect device anomalies HUMAN ONLY Threshold, isolate, fire/energy, reopen HUMAN TAKEOVER Power off, isolate, mark unavailable LOW-TECH Meter + power switch + paper check FAIL / EXIT Fault/limit → isolate → remove if unresolved	SC03 • Embodied-AI Accessibility Co-Test AI MAY ONLY Prompt and assist HUMAN ONLY Safety boundary, participation, stop HUMAN TAKEOVER Stop device + safety escort LOW-TECH Human escort + physical markings FAIL / EXIT Near miss/access fail → immediate takeover/stop	
SC04 • Open-Standard Co-Creation Desk AI MAY ONLY Summarize, cluster, translate HUMAN ONLY Attribution, rights, accept/withdraw HUMAN TAKEOVER Hide dispute + human review LOW-TECH Paper issue wall FAIL / EXIT Misattribute/rights fail → human → take down	SC05 • Research-to-Application Matching Clinic FLAGSHIP AI MAY ONLY Retrieve, rank, explain candidates HUMAN ONLY Contact, refer, reject, reopen HUMAN TAKEOVER CX05 adviser + stop candidate output LOW-TECH Booking ledger + paper summary FAIL / EXIT Mismatch/leak/no adviser → takeover/pause	SC06 • Shared Pilot Scheduling Assistant AI MAY ONLY Order candidate slots, flag conflicts AI MAY ONLY Eligibility, priority, safety, approval HUMAN TAKEOVER Administrator manual form LOW-TECH Schedule sheet + phone/counter FAIL / EXIT Conflict/outage/unknown device → human	
SC07 • Talent Life Navigator AI MAY ONLY Retrieve, translate, prompt HUMAN ONLY Eligibility/rights, casework, correct, reopen HUMAN TAKEOVER Counter handover + paper map LOW-TECH Counter + paper map + phone FAIL / EXIT Stale/bias/language risk → degrade/pause	SC08 • Accessible Route Companion AI MAY ONLY Rank verified routes, flag unknowns HUMAN ONLY Open/close, field safety, reopen HUMAN TAKEOVER Spine service point closes route + escort LOW-TECH Paper map + fixed signs + escort FAIL / EXIT Unknown risk/unreachable help → close	SC09 • Station-City Transfer Guide AI MAY ONLY Explain, translate, rank public options HUMAN ONLY Emergency, closure, field safety, reopen HUMAN TAKEOVER Arrival-loop static map + staff LOW-TECH Static map + announcement + staff FAIL / EXIT Emergency/data error → static/human	
SC10 • AI-Native Product Public Trial Room FLAGSHIP AI MAY ONLY Demonstrate approved function, explain, prompt HUMAN ONLY Admission, transaction, safety, stop/remove/reopen HUMAN TAKEOVER CX10 desk stops demo + human explains + removal LOW-TECH Human explanation + paper feedback + direct exit FAIL / EXIT Harm/rights/complaint fail → takeover/stop/remove	SC11 • Jing-Zhang Memory Co-Reading Guide AI MAY ONLY Retrieve, translate, cue HUMAN ONLY Facts, rights, publish/hide, reopen HUMAN TAKEOVER Hide dispute + fact/rights review LOW-TECH Cleared panel + human narration FAIL / EXIT Fact/rights dispute → hide/withdraw	SC12 • Explainable Civic-Service Desk AI MAY ONLY Retrieve, translate, assist verify, prompt HUMAN ONLY Casework, rights, professional conclusion, reopen HUMAN TAKEOVER Three service points stop answer + human transfer LOW-TECH Counter + paper directory + phone FAIL / EXIT Stale/high-risk/transfer fail → degrade/stop	

F11 • Operate, Take Over, Appeal, Stop, and Remove					Nine states, fifteen transitions, and the sole SC10+IM06 first use still constrain exit; regional-interface readiness is only 5 contracts / 0 authorized / 0 operating.				
01 • preflight Preflight	02 • limited-open Limited Open	03 • operating Operating	04 • degraded Degraded	05 • human-takeover Human Takeover	06 • paused Paused	07 • stopped Stopped	08 • removed Removed	09 • archive Archive	
RT-01 • High-risk wrong advice with failed human transfer Stop the affected Q&A; close the service if transfer or qualified review cannot be restored.		fail_stop	RT-02 • Group disparity in matching, scheduling, or navigation Pause the affected automation; do not restore it until disparity cause and equivalent service are verified.		fail_pause	REGIONAL INTERFACE READINESS CANDIDATE / NOT AUTHORIZED 5 CONTRACTS • 0 AUTHORIZED • 0 OPERATING ACTIVATE: WRITTEN AUTHORIZATION + FACTUAL BASIS + ACCOUNTABLE OWNER			
						COMPLAINT / APPEAL Non-digital entry → durable receipt → independent human review → correct / pause / stop → re-appeal			
RT-03 • Data or model drift with unknown impact scope Unknown impact scope stops automated output; silent reopening after an automatic rollback is prohibited.		unknown_stop	RT-04 • Impersonation or unauthorized delegation Stop and withdraw unauthorized results; do not restore when authorization cannot be verified.		fail_stop	SOLE FIRST USE SC10 + IM06 only • no opening if any gate is unproven			
						ADVERSE / UNKNOWN RETAINED 13 fail / stop / unknown retained; six metrics, 12/12 controllers, and legal, access, safety, site, operator, and approval remain incomplete.			
AI MUST NOT AUTOMATE default facial recognition • emotion recognition • social scoring • predictive policing • undisclosed sensitive inference • hidden monitoring • bypassing human accountability									

AI MAY ONLY suggest • rank • translate • assist verification • prompt	HUMAN ONLY rights • safety • approval • sanction • resources • stop • reopen	HUMAN TAKEOVER visible handover + low-tech fallback + complaint / appeal	EXIT degraded → paused → stopped → removed → archive	COMPLAINT / APPEAL non-digital entry → receipt → independent human review → correct / stop → re-appeal	SOLE FIRST USE SC10 + IM06 only • no opening if any gate is unproven	ADVERSE 16 red-team tests • 13 retained fail / stop / unknown	STILL UNKNOWN 6 metrics • 12/12 controllers • legal / access / safety / site / operator / approval incomplete
