

Figure 09 | Five project families: G0/G1 gates and acceptance focus

Project families express responsibility, evidence and exit order only; no institution, budget, permit, procurement or implementation commitment

Project family	G0 / G1 gate	Acceptance focus
PF-01 Human buffer and community retention	G0: 规则公开与共创样本；G1: 专业复核	人工服务可达、退出协议、
PF-02 Reskilling and night wellbeing	G0: 导航原型；G1: 无障碍与夜间安全复核	人工咨询、可解释路径、在
PF-03 City API and data governance	G0: 纸面协议；G1: 授权与安全审查	目的限定、撤销按钮、审
PF-04 Xiaoyue River blue-green and human-machine test	G0: 图上规则；G1: 专项安全复核	人优先、停机、事件记录、
PF-05 Culture, landmarks and global co-creation loop	G0: 叙事与活动原型；G1: 权利和场地复核	来源可追溯、文化审校、清

Public-service order: publish the problem and human route first, then authorize and review professionally; responsibility, evidence, rights or safety gate keeps G0, freezes or exits.

FIG. 03 | Three key areas: public space, scenario cards, landmarks

Candidate visual direction · official_boundary=false · geometry_role=provisional_constraint

01 Zhongzhiyuan

Problems—protocol—shared lab; human review, minimization, and exit are inside each G0 card.

02 AI-origin community

Retention—learning—care; human review, minimization, and exit are inside each G0 card.

03 Dazhongsi

Culture—business—explainable service; human review, minimization, and exit are inside each G0 card.

FIG. 02 | Shared-cut concept land use: reversible space and services

Candidate visual direction · official_boundary=false · geometry_role=provisional_constraint

Seven layers / shared coordinates

- Community resilience
- Small teams
- Innovation + skills
- Blue-green buffer
- Reversible blank
- Data + culture
- Night service

Shared cuts provide gap-free, non-overlapping coverage; categories are conceptual, not statutory.

FIG. 05 | Metrics—evidence—versions: every claim passes a concept gate

Candidate visual direction · official_boundary=false · geometry_role=provisional_constraint

Spatial recomputation

- Provisional scope
11,412,825.386 sqm
- Green layer 879,519.159 sqm
- Public-space layer
123,473.537 sqm

G0 scenario gate

- 10 scenario cards
- 6 personas
- 100% human fallback

Versioned governance

- Problem release
- Public/professional review
- Release note and exit

One algorithm, one rounding rule, one provisional-boundary warning: recomputable metrics are not legal or scoring areas.

FIG. 04 | People-first mobility rules and Xiaoyuehe resilience

Candidate visual direction · official_boundary=false · geometry_role=provisional_constraint

- People first
Walking, access, human service
- G0 observation
Robot, air, flood begin as rules
- Blue-green gate
No engineering conclusion before evidence
- Night care
Auditable service and screen-free space

Figure 07 | Ordinary-person task chain and stop

5 journey steps · 5 rollback steps · 6 acceptance checks · 4/4 routes · G0 concept replay, result_status

Step	What a person does	Evidence to retain
J-01	enter and choose an ordinary or AI-assisted route	AC-01 · AC-02 · 4 fixture(s)
J-02	request one bounded public service with purpose and data scope	AC-01 · AC-03 · AC-06 · 3 fixture(s)
J-03	trigger human takeover or freeze before an unsafe continuation	AC-02 · AC-03 · 4 fixture(s)
J-04	appeal, delete, withdraw, or return to a paper route	AC-04 · AC-06 · 4 fixture(s)
J-05	independently replay evidence before expand, repair, or exit	AC-05 · AC-06 · 1 fixture(s)
Replay evidence: 4/4 routes, 6/6 checks, 5/5 negative cases; remains not_authorized_not_run, not field serv		

Figure 08 | Ten scenario cards: taskbook, space

Every row resolves to a scenario card, space/operation matrix and taskbook; green has ordinary-person
amber remains GO structure evidence

ID / scenario	Taskbook	Spatial refs
SCN-01 Community-retention desk	agent.4 · agent.5 · agent.6	PUBLIC-01 · LAND-01
SCN-02 Reskilling corridor	agent.5 · agent.6	PUBLIC-02 · LAND-03 · MOBILITY-04
SCN-03 Intergenerational learning navigation	agent.4 · agent.5	PUBLIC-03 · LAND-01
SCN-04 Night human service	agent.4 · agent.6	PUBLIC-04 · LAND-07 · MOBILITY-01
SCN-05 International service assistant	agent.5 · agent.6	PUBLIC-05 · LAND-07
SCN-06 Municipal API governance	agent.4 · agent.6	SCN-06 · SERVICE-ZONE-02
SCN-07 Low-speed robot public test	agent.4 · agent.6	SCN-07 · SERVICE-ZONE-01 · MOBILITY-05
SCN-08 Low-air logistics rule sandbox	agent.4 · agent.6	SCN-08 · GREEN-02
SCN-09 Flooding simulation observatory	agent.4 · agent.6	SCN-09 · GREEN-01 · GREEN-03
SCN-10 Energy-compute-heat ledger	agent.4 · agent.6	SCN-10 · LAND-05 · SERVICE-ZONE-02
Coverage: 4/10 cards have ordinary-person replay; the rest need field, professional and authorization evi not_an_official_score=true.		

FIG. 01 | JINGZHANG COMMONS: daily life with human override

Candidate visual direction · official_boundary=false · geometry_role=provisional_constraint

Three linked layers

- A City for people**
Retention, skills, inclusion, night, screen-free green
- B City for machines**
API, rule-based access, embodied test, reversibility
- C Institutional moat**
Energy research, resilience, sandbox, versions

Three cores: Zhongzhiyuan, AI-origin community, Dazhongsi
Two wings: tech service / Xiaoyuehe scenarios

Data: package geometry / metrics / matrices · concept reference only · no external maps, photos, or logos

Figure 06 | Node-level public interfaces

Ordinary arrival → human explanation/service → bounded state → freeze/replay/exit · function

Relational reading of existing provisional anchors (not a map, redline, section)

	Ordinary arrival	Human explanation/service	Bounded state
01 Zhongzhiyuan	Ordinary route / observe	Staffed desk / explain	Limited control
02 AI Origin Community	Daily arrival / dwell	Paper / phone / human	Voluntary lock
03 Dazhongsi	Cultural arrival / move	Multilingual / consent	Withdrawal

The node plan expresses state, responsibility and order only; dimensions, capacity and performance are not included.
Evidence chain: existing GeoJSON anchors + package JSON + human fallback. No permission

Figure 10 | Taskbook, public space and annual

agent.4 public space · agent.5 cultural narrative · agent.6 global events/long-term operation; all remain concept evidence

agent.4 Public space

Three landmarks bring problems, human override and exit rules into daily space.
L-01 Open Problem Mile Marker · L-02 Calibration Court · L-03 Human Override Beacon

agent.5 Cultural narrative

Timeline + problem line + human-service line; heritage review remains pending.
Centennial Jing-Zhang / Zhongguancun / AI culture

Four-season rhythm: make version governance visible in public time

Spring | Public Problem Week
Problem, data boundary, human Q&A

Summer | Xiaoyue River Walk
Older people, workers, accessibility seats

Autumn | Development Protocol Camp
Authorization, exit and explainable G0 protocol

Five conceptual families: spatial carrier → G0 gate → professional review → reversible release

PF-01
Human buffer and community retention

PF-02
Reskilling and night wellbeing

PF-03
City API and data governance

PF-04
Xiao blue hum

This board resolves only package JSON and taskbook relations; it is not an official score, confirmed event, or heritage permit, partnership or field result.
