

Parcel span · Three vertical belt · West · Center · East · Residential spine · Blue-green network

图01 资料证据链与三带总览

Fig.01 Evidence Chain & Three-Belt Overview

三带范围由用地地块跨度派生；建筑基底为设计提案体量 / Belts derived from parcel spans

京张尺规线 / Jingzhang The Gauge Line
双轨度量 · Dual Gauge, not Slogan

Provisional boundary · 临时粗略边界，仅用于设计讨论与自检，非官方红线 / Not an official redline | 米制投影·等比·已旋转排版 / Projected (m), equal aspect, rotated for layout | Source: provisional_boundaries.geojson (EPSG:4548)

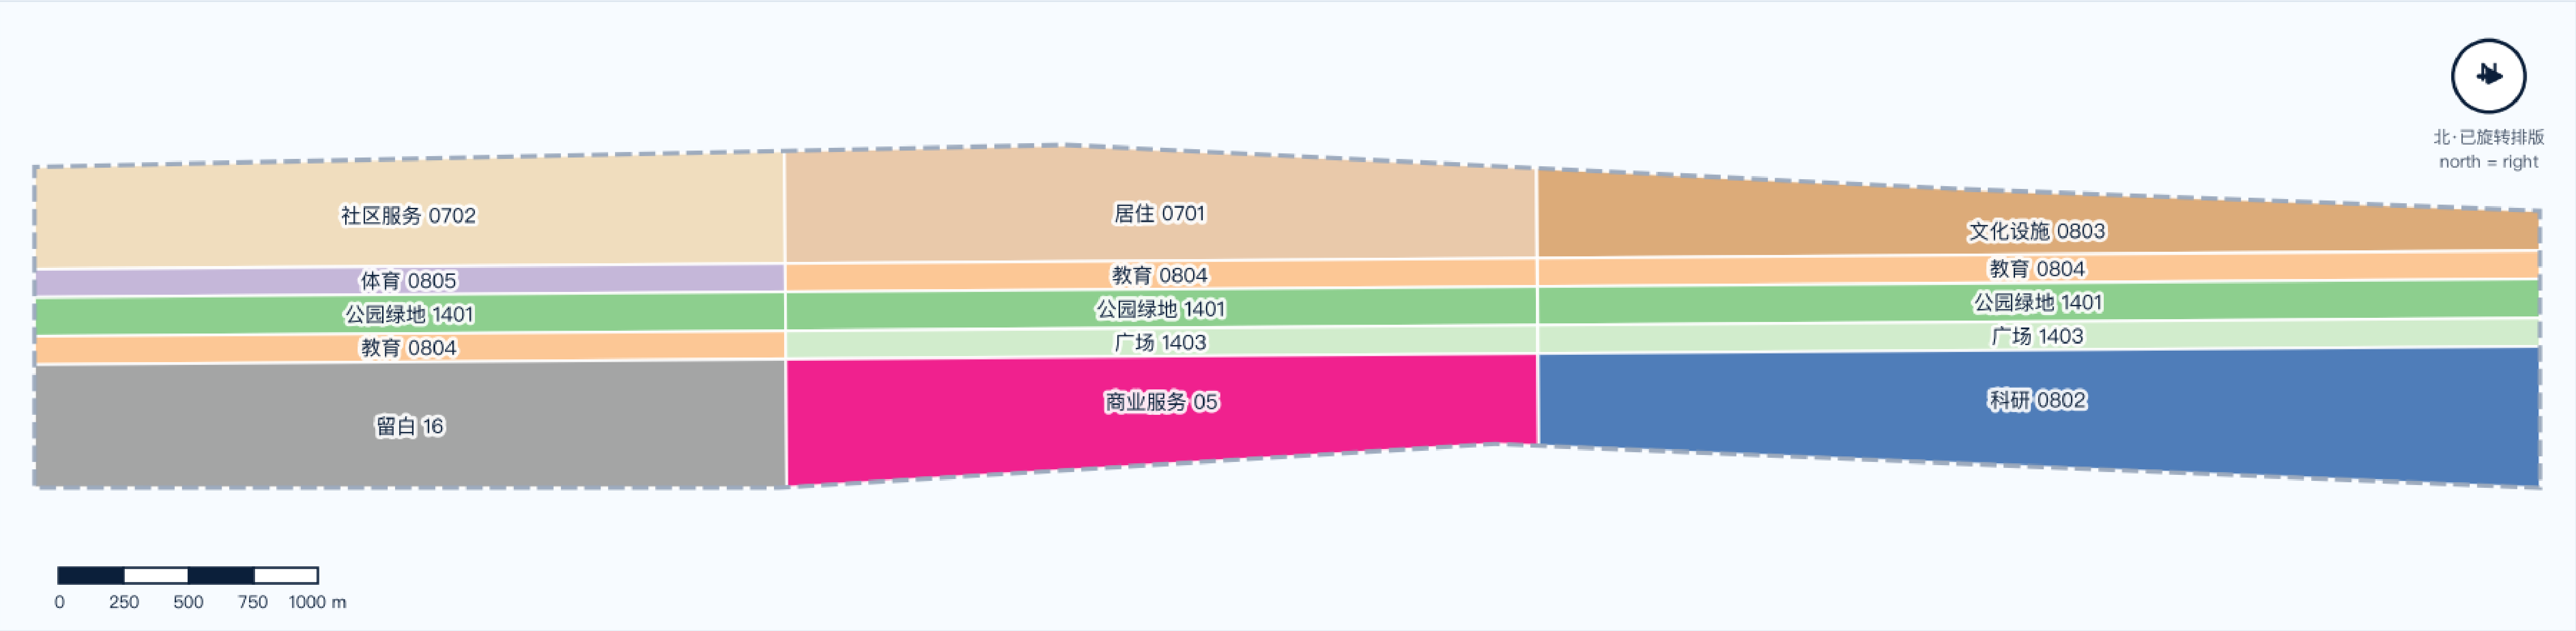

Fig.01 Overview: three belts + key areas + evidence chain
Spatial spine: a human-scale pedestrian spine threads the Jingzhang heritage-park green axis; east-west stitching secondary roads reconnect the fabric severed by the railway. Three key areas — Zhongzhiyuan (autonomous innovation), AI Origin Community (open-source conversion), Dazhongsi (intelligent economy) — land along the axis.

图02 总体设计范围用地结构

Fig.02 Land-Use Structure of Overall Design Area

用地全覆盖、无重叠；代码依《国土空间调查、规划、用途管制分类》；面积占比按米制投影复算

京张尺规线 / Jingzhang The Gauge Line
双轨度量 · Dual Gauge, not Slogan

Provisional boundary · 临时粗略边界，仅用于设计讨论与自检，非官方红线 / Not an official redline | 米制投影·等比·已旋转排版 / Projected (m), equal aspect, rotated for layout | Source: provisional_boundaries.geojson (EPSG:4548)

Governance: four agent roles (perception / service / governance / operations) × data boundaries × human review points — data minimization, human-in-the-loop, explainable logging, no substitution for statutory process; agents recommend, never decide. Compliance: no official approval, approved regulatory plan, final ownership or guaranteed implementation is claimed; spatial conclusions under the provisional boundary are directional designs.
