

CENTENNIAL JINGZHANG AI INNOVATION BELT

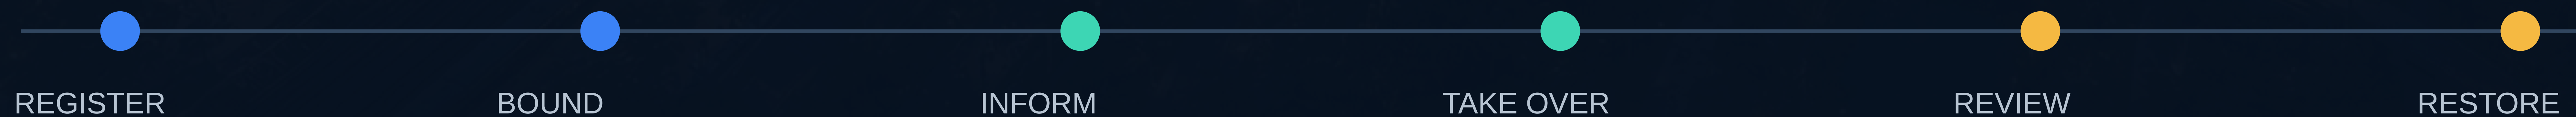

JINGZHANG LEDGER LINE

From railway proof to civic AI proof

A public verification spine where every AI scene can be challenged, taken over by people, and spatially restored.

THE PROJECT IN ONE LINE

1 line · 3 stations · 2 ledger wings · 12 stoppable scenes · 6 visible gates

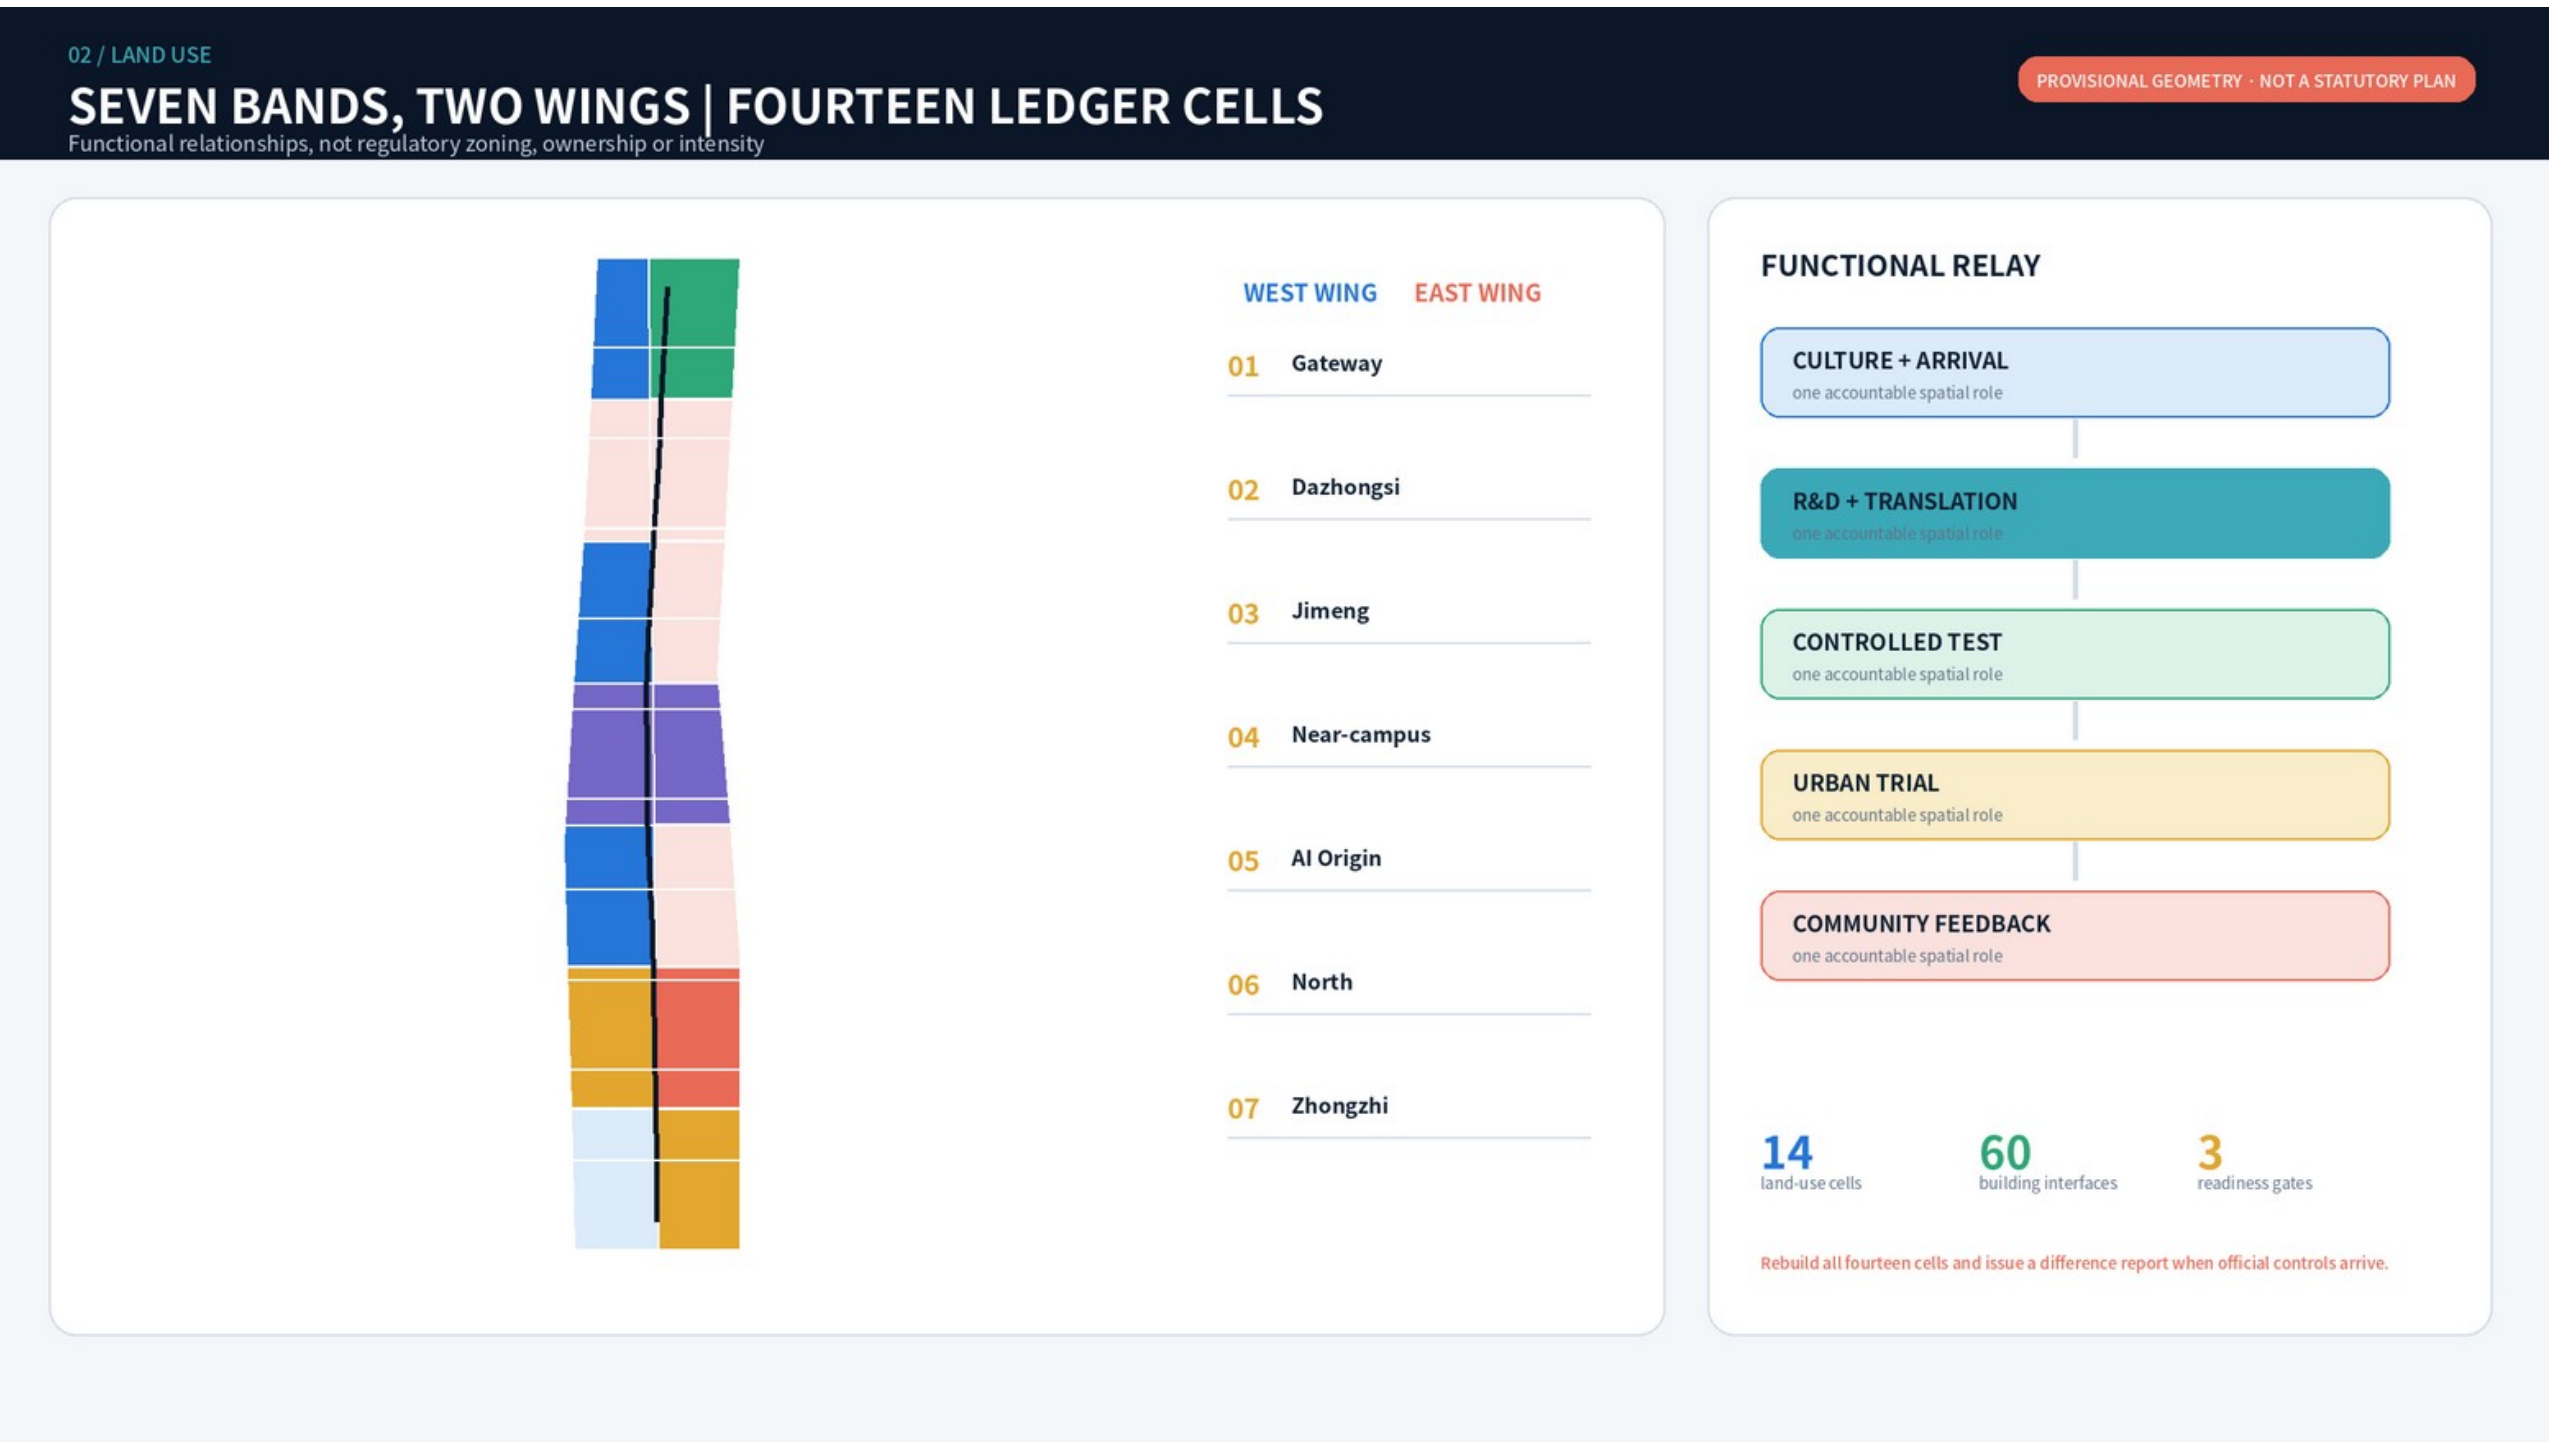

One protocol. Three places. Three public choices.

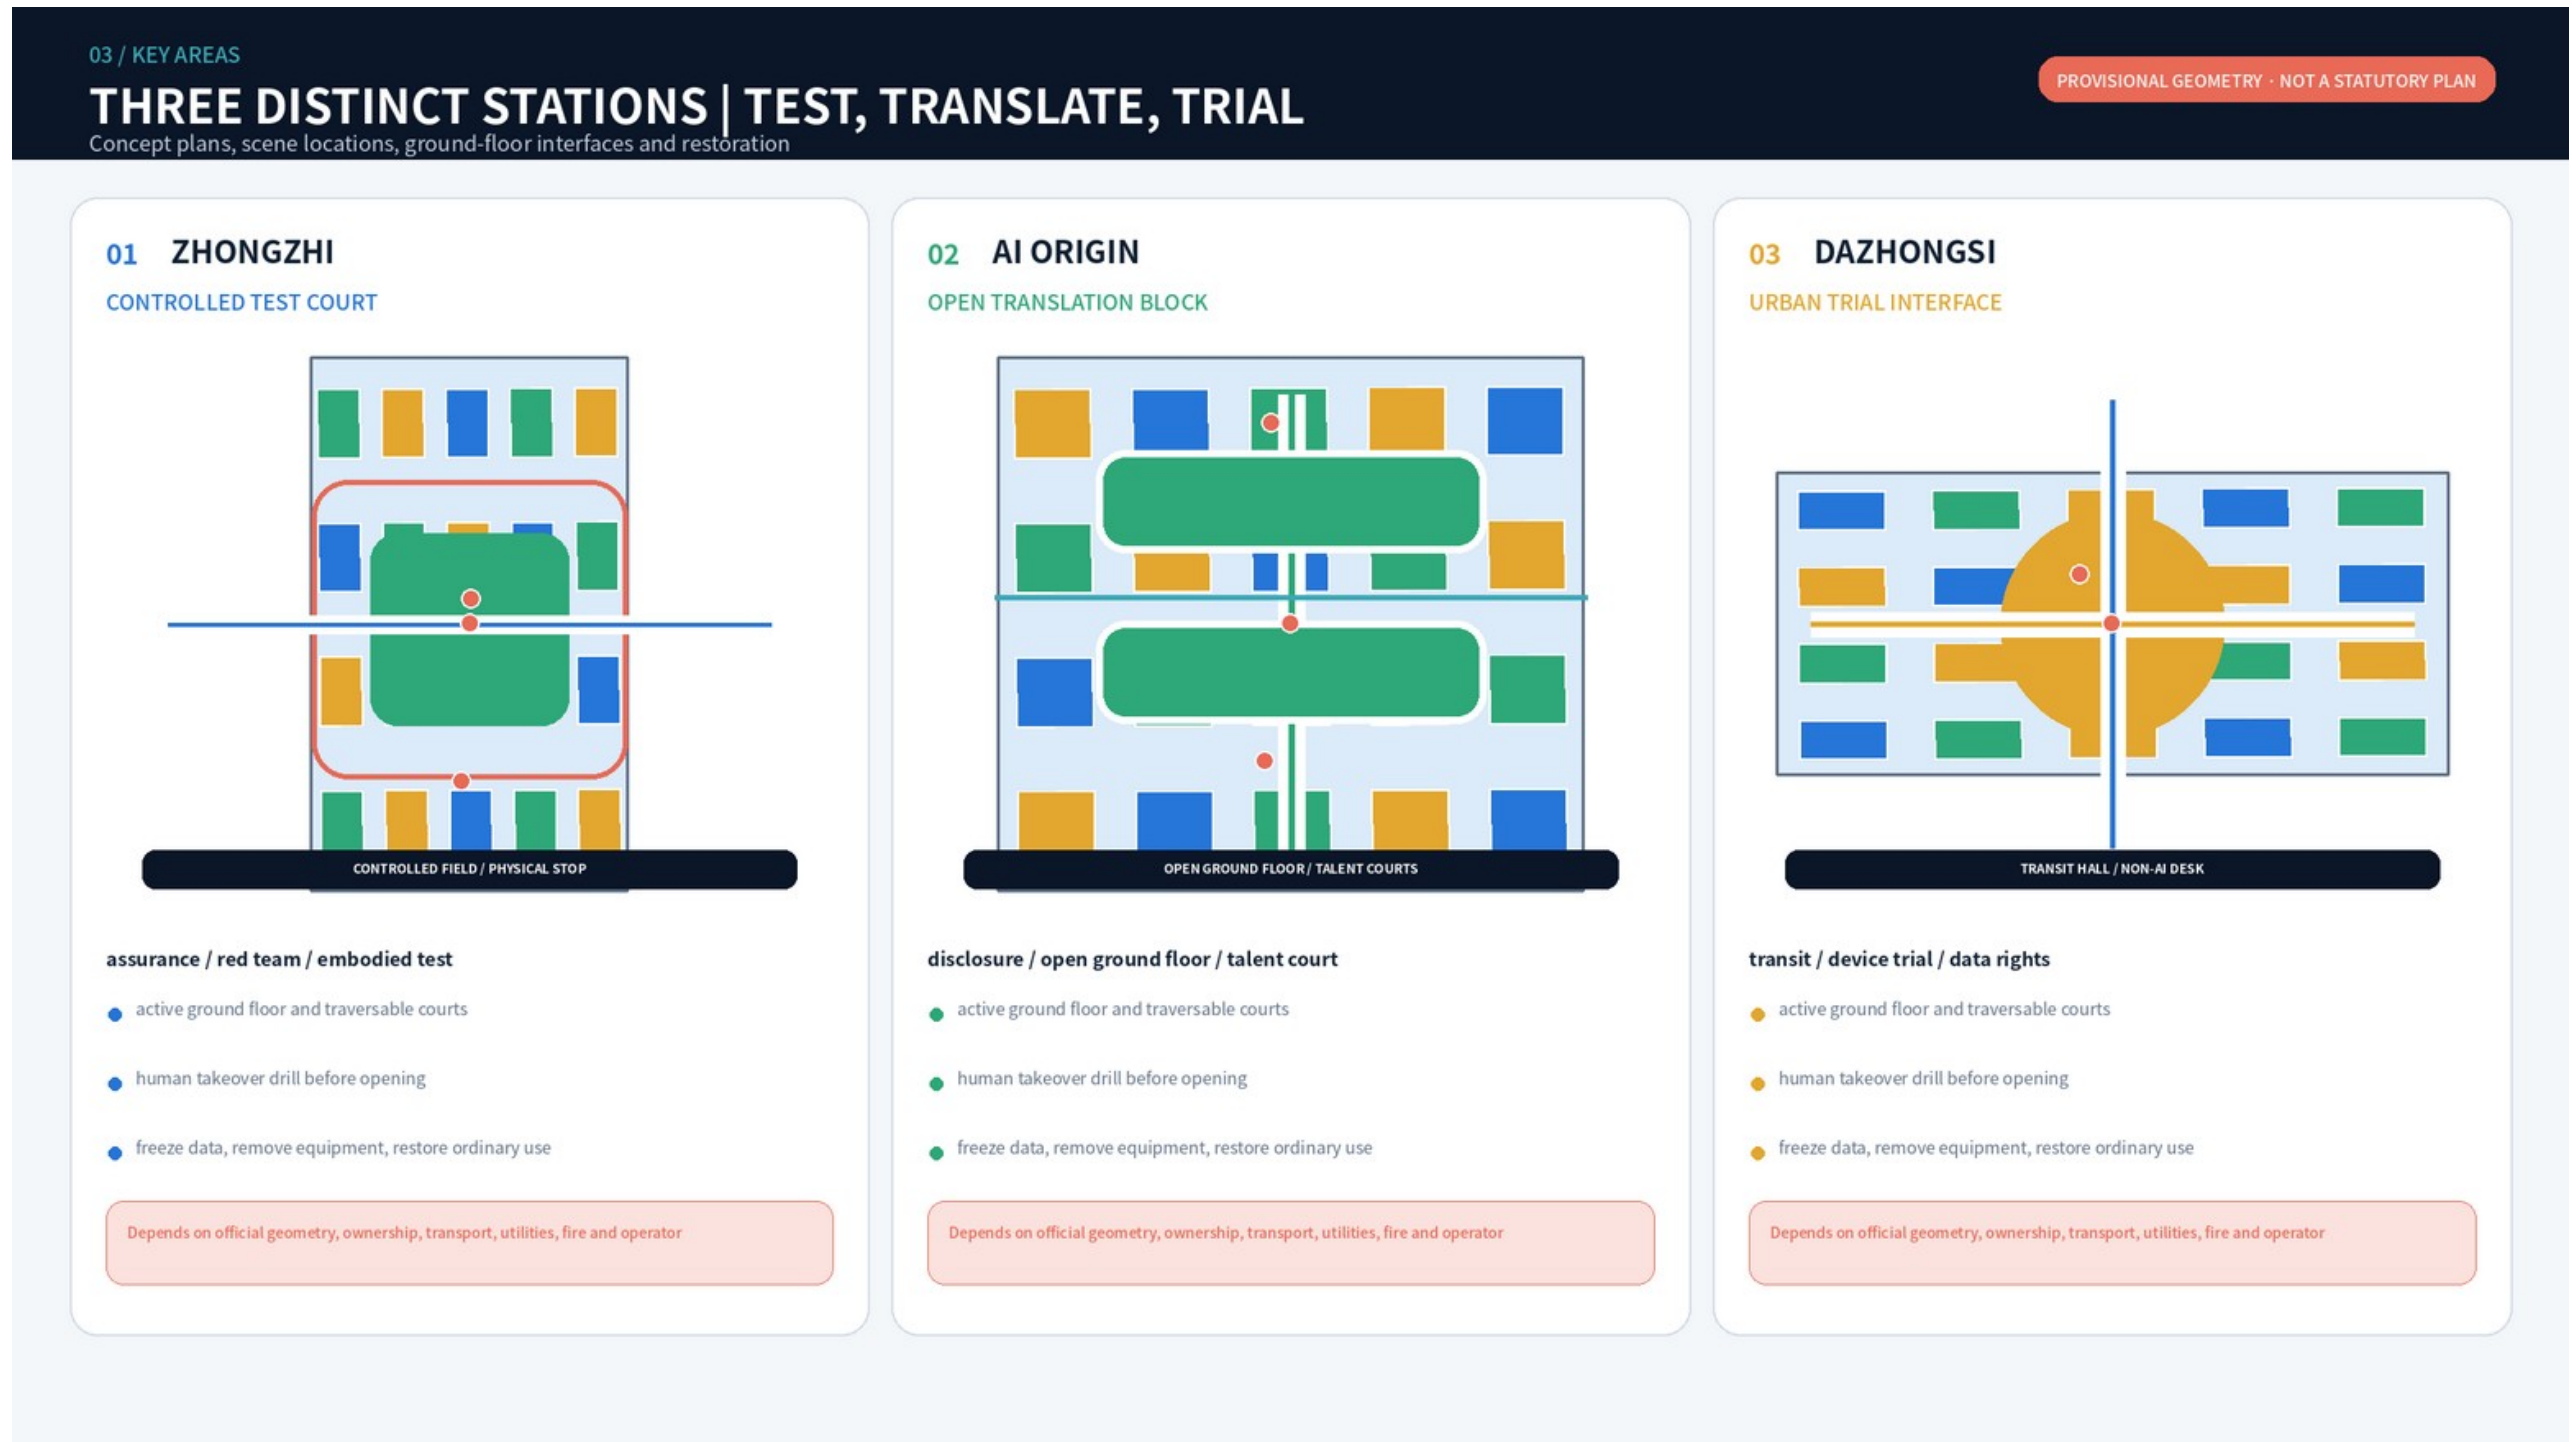

A recomputable framework, not a false-precision masterplan

01 · LAND-USE LOGIC

02 · KEY AREAS

03 · MOBILITY + BLUE-GREEN

REVIEWABLE NOW

14 cells

10 stitches

60 interfaces

15 public nodes

13 routes

Topology and feature counts are recomputable. Official polygons, FAR, height, ownership and road redlines are not claimed.

ONE LINE · THREE DIFFERENTIATED STATIONS · TWO LEDGER WINGS

Official-data release triggers a full-chain spatial rebuild and a recorded impact review.

Evidence first. Reversible pilots second.
