

ONE SPINE, FIVE DATUMS, THREE FIELDS

A heritage innovation spine reconnecting universities, enterprises, neighborhoods, transit, and public life

CORE SPATIAL JUDGMENT

- SPINE

The Jing-Zhang Railway Heritage Park becomes a north-south innovation public spine.
- DATUMS

Five east-west links reconnect campuses, industry, communities, stations, and services.
- FIELDS

Co-creation, daily-life, and controlled validation fields make AI public and governable.

THREE DIFFERENTIATED AREAS

- NORTH | Zhongzhiyuan

Technology validation + governance
- CENTRAL | AI Origin

Near-campus co-creation + transfer
- SOUTH | Dazhongsi

Intelligent economy + urban release

ONE SPINE, FIVE DATUMS, THREE DIFFERENTIATED FIELDS

Existing streets, railway, waterways and stations anchor a reviewable structure for validation, co-creation and urban release.

PLAN LEGEND + FORM RULES

- EXISTING RAILWAY / HERITAGE SPINE
- FIVE EAST-WEST PUBLIC DATUMS
- ADAPTED R&D + CONTROLLED TESTING
- OPEN GROUND FLOOR + SHARED COURT
- STATION PUBLIC ROOM + RELEASE EDGE
- WALK / CYCLE / ACCESSIBLE LINK

MORPHOLOGY, NOT DECORATION

- 01 Retain/adapt park fabric; insert test courts and separated public/logistics routes.
- 02 Open selected ground floors and courtyards to connect campus, incubation and daily services.
- 03 Stitch station quadrants with sheltered public rooms, reversible events and service access.

03 JING-ZHANG NEW DATUM

THREE KEY AREAS, THREE VALIDATION ENVIRONMENTS

North validates technology; the center enables co-creation; the south presents innovation to the city

ZHONGZHIYUAN
OPEN VALIDATION CAMPUS

Qinghe ecological edge + shared test courts + human-review center; separate public, technical, and logistics routes.

AI ORIGIN
NEAR-CAMPUS CO-CREATION STREET

Campus-to-neighborhood walking links + open-source release hall + commercialization services + all-day public ground floor.

DAZHONGSI
URBAN RELEASE QUARTER

Station four-quadrant access + international release hall + intelligent urban consumption + controlled event operation.

MOBILITY, BLUE-GREEN, AND PUBLIC-SPACE SYSTEM

Complete walking, cycling, and accessible routes precede autonomous shuttles, robots, and event-day technology

FIVE-LEVEL MOBILITY PRIORITY

- 01

Continuous walking

Station-crossing-park-ground-floor accessible loop
- 02

Cycling backbone

Parking and interchange on five east-west datums
- 03

Public transit

Rail and bus access before private vehicles
- 04

Low-speed AI mobility

Limited time, route, and speed; human takeover
- 05

Vehicles and logistics

Perimeter access, internal calming, timed delivery

BLUE-GREEN PUBLIC-SPACE RULES

- Continuous ecological paths along Qinghe and Xiaoyue River
- Classify ring-road and railway gaps by conflict type
- Separate active event fields from quiet residential edges
- Retain staffed help and non-smart access for every AI service

METRICS, GEOMETRY, AND COMPLIANCE EVIDENCE CHAIN

Core values are recomputed from submitted geometry; statutory controls and operational performance remain separate

MODEL SITE AREA

11.41 km²

Low-confidence provisional model value

GREEN-SPACE RATIO

12.34%

green_space / site_boundary

PUBLIC-SPACE RATIO

7.33%

public_space / site_boundary

FOUR-LAYER EVIDENCE CHAIN

THREE CLAIM TYPES THAT MUST NOT BE OVERSTATED

STATUTORY CONTROLS

FAR, height, road boundaries, setbacks, and facility standards remain unknown without official data.

DRR AND CONSTRUCTION

No confirmed demolition list or delivery promise without ownership, survey, and engineering evidence.

OPERATIONAL PERFORMANCE

Talent, participation, and satisfaction are future evaluation metrics—not observed baseline facts.
