

JINGZHANG WEAVELINE • CENTURY TRACK BELT

Jingzhang Railway Heritage Park corridor renewal & AI-convergence belt (concept • reference design)

Three official tiers: coordinated research ~43.6 km² > overall design ~11.4 km² (this package ~1,141 ha, provisional) > key areas ~368.4 ha (192.1+104.3+72.0)

Fig.A Overall design overview & site relations

Overall Design Overview • Site Relations and Three Tiers (provisional geometry)

Legend • Site relations (concept)

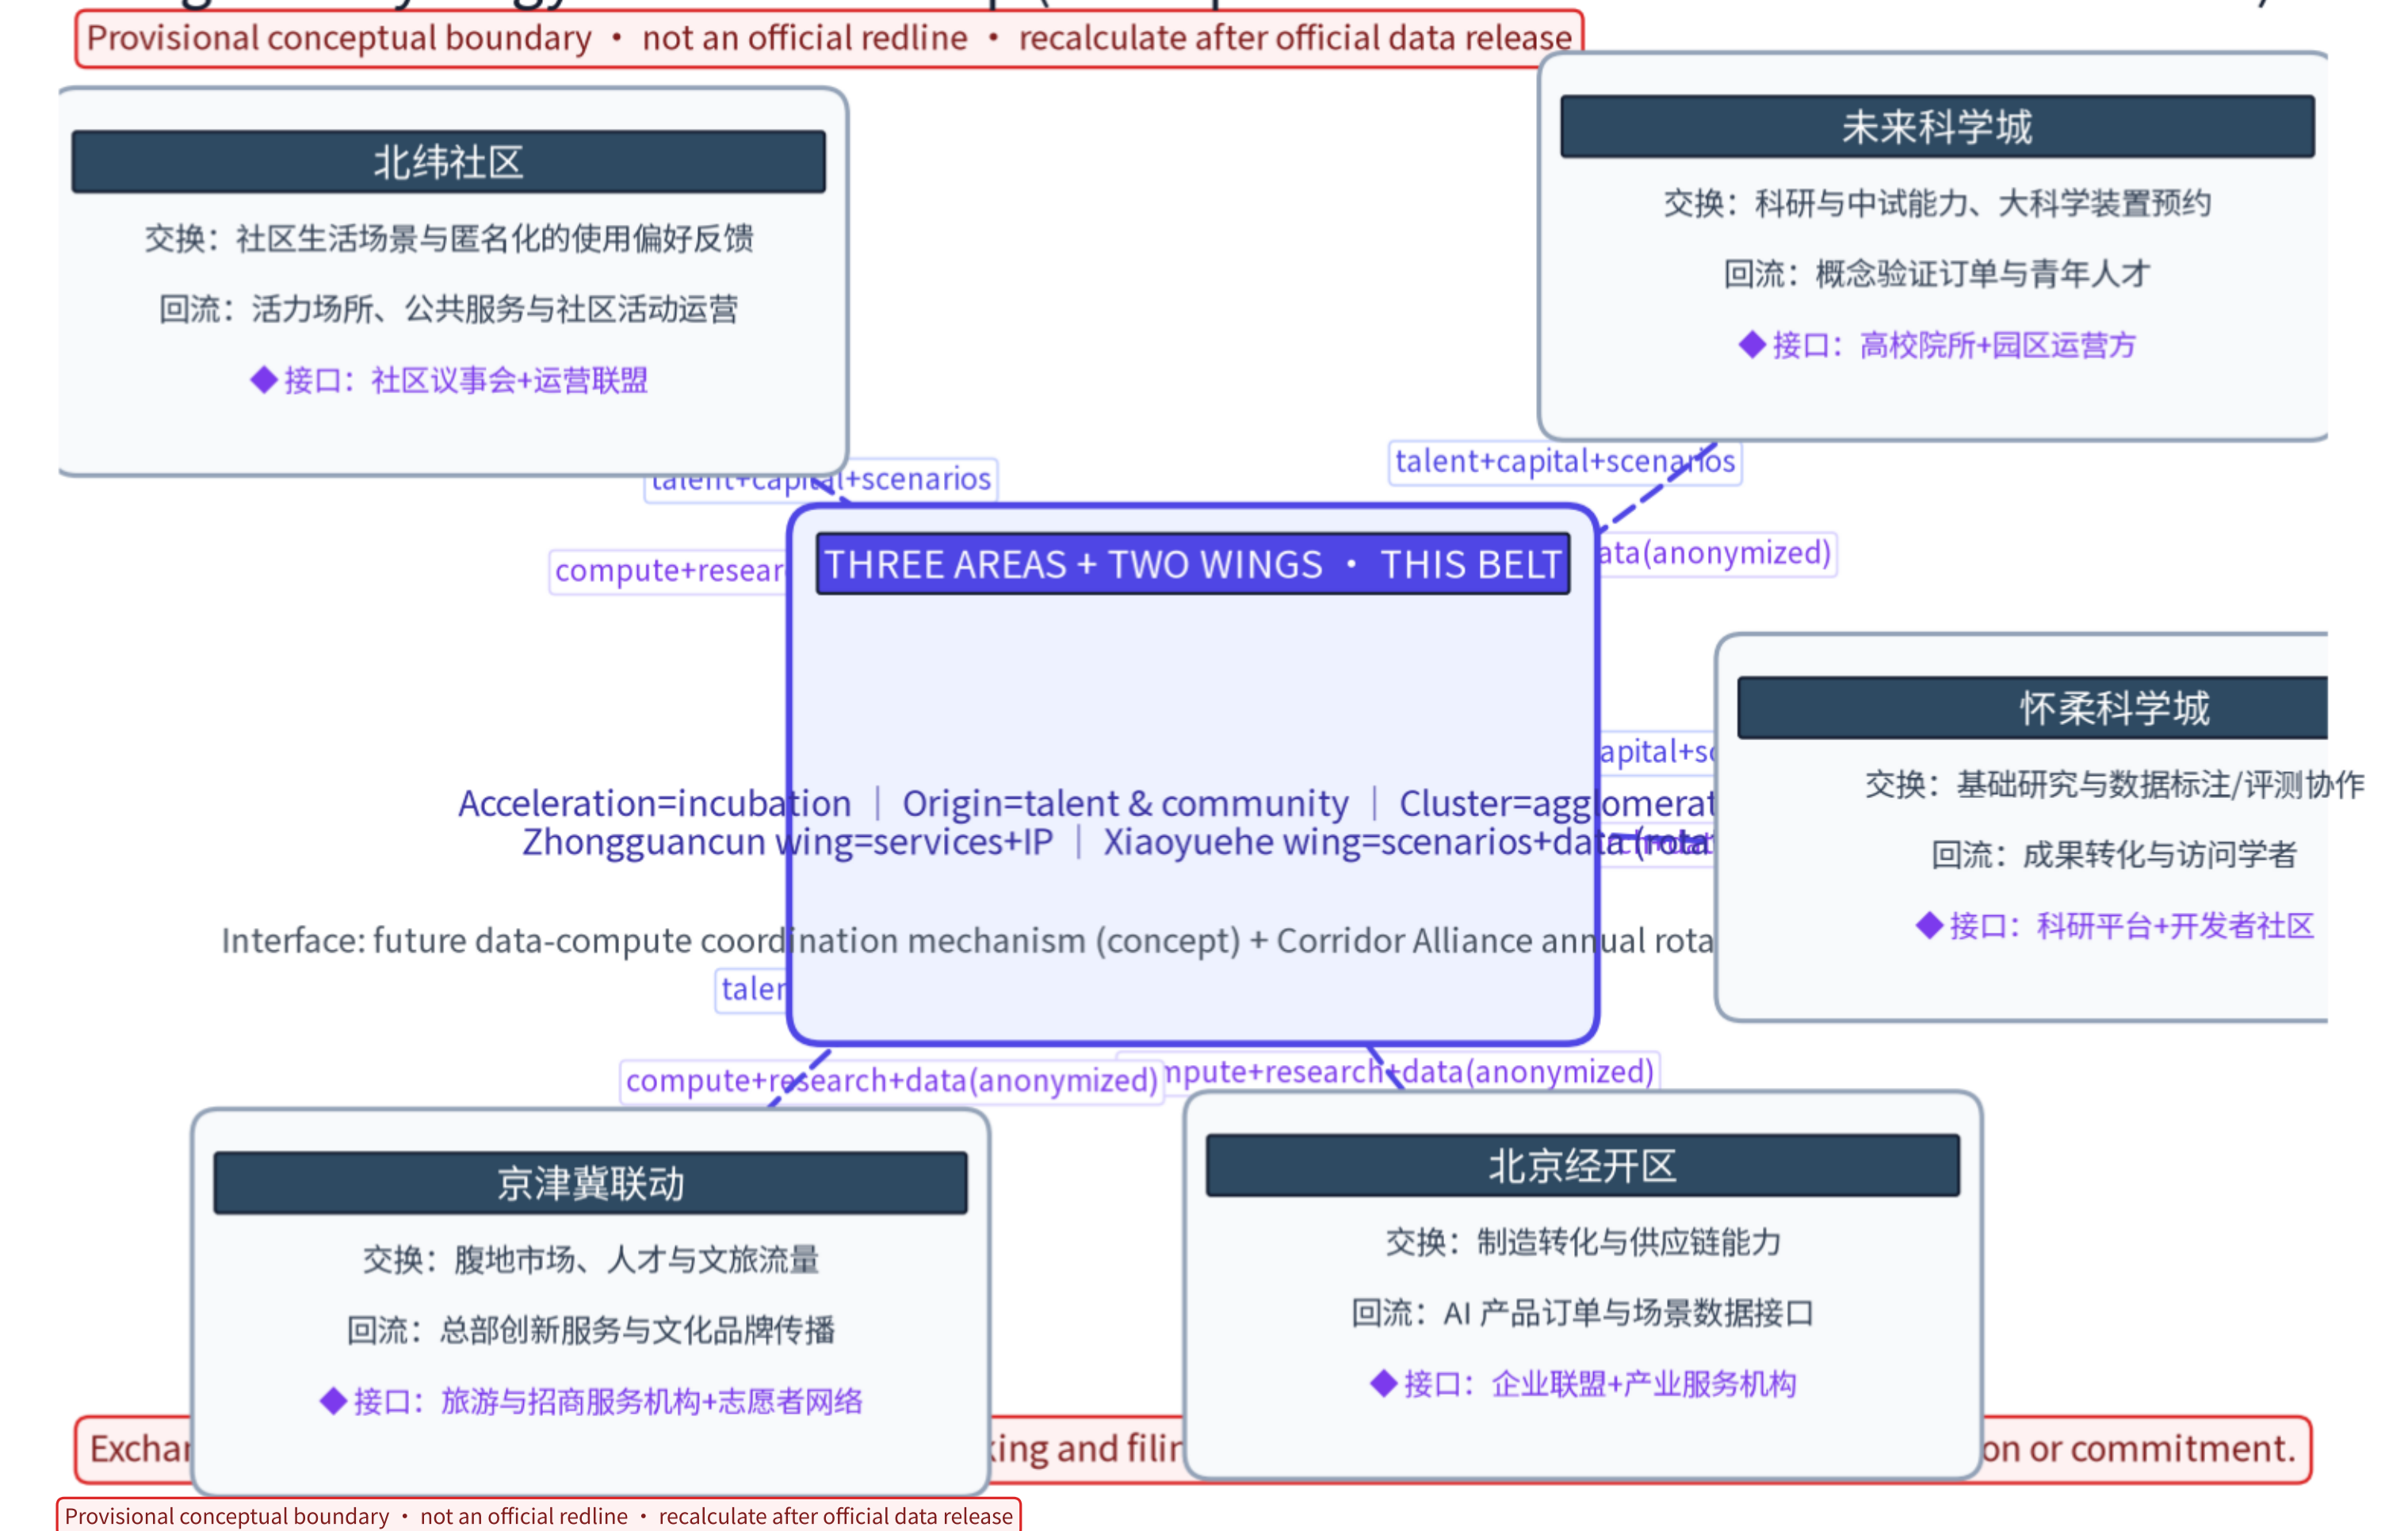

-  Existing context (public info, schematic)
-  Proposed slow-traffic spine (warp)
-  Proposed stitching links (wefts)
-  Provisional boundary (not a redline)
-  Heritage-awareness zone (concept)
-  Rail stations (public info)
-  Original concept nodes N1-N3
-  AI scenario nodes (8)
-  Slow-traffic gaps (bridges/underpass, concept)

Scope tiers (official text): coordinated research ~43.6 km² > overall design ~11.4 km² (this package ~1,141 ha, provisional) > key areas ~368.4 ha (192.1+104.3+72.0).

⚠ Street and station names are public information; positions are schematic. All package geometry is a provisional conceptual model, not a redline or statutory conclusion.

Fig.B Regional synergy mechanism

Regional Synergy Mechanism Map (concept • no official bodies or commitments)

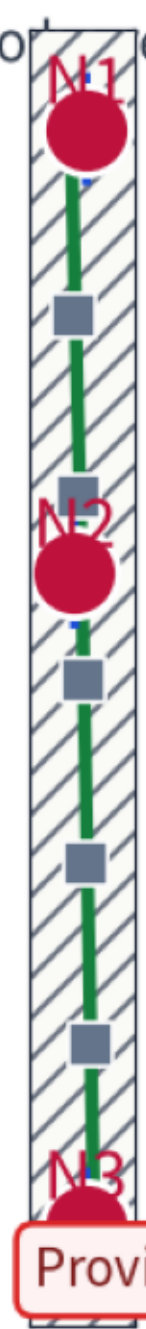

Provisional conceptual boundary • not an official redline • recalculate after official data release

Node Prototypes • Implementation Matrix • Long-Term Operations (concept)

Fig.C Three-node prototype cards

Three-Node Spatial Prototype Cards and Design Tasks (concept)

Node index (provisional geometry; siting to be re-evaluated after heritage/rail assessment)

N1 Daocha Gate (heritage culture gateway • north end)

- Suitable space type:Heritage park north gateway plaza and platform culture grounds (concept)
- Core components:Century Timeline origin engraving, AR time platform, honor wall-H, reversible canopy and info post-S
- Day/night use: Day: guided tours, archive access; night: timeline lighting, AR time show
- Cultural narrative:Starting point of the 1905 start - 1909 opening narrative
- AI interaction: AR history guide (historian review), booking-based flow control, on-device rendering
- Accessibility: Wheelchair turning circle, low service counter, voice/tactile guidance with human option
- Reversible installation:Modular platform and canopy, relocatable

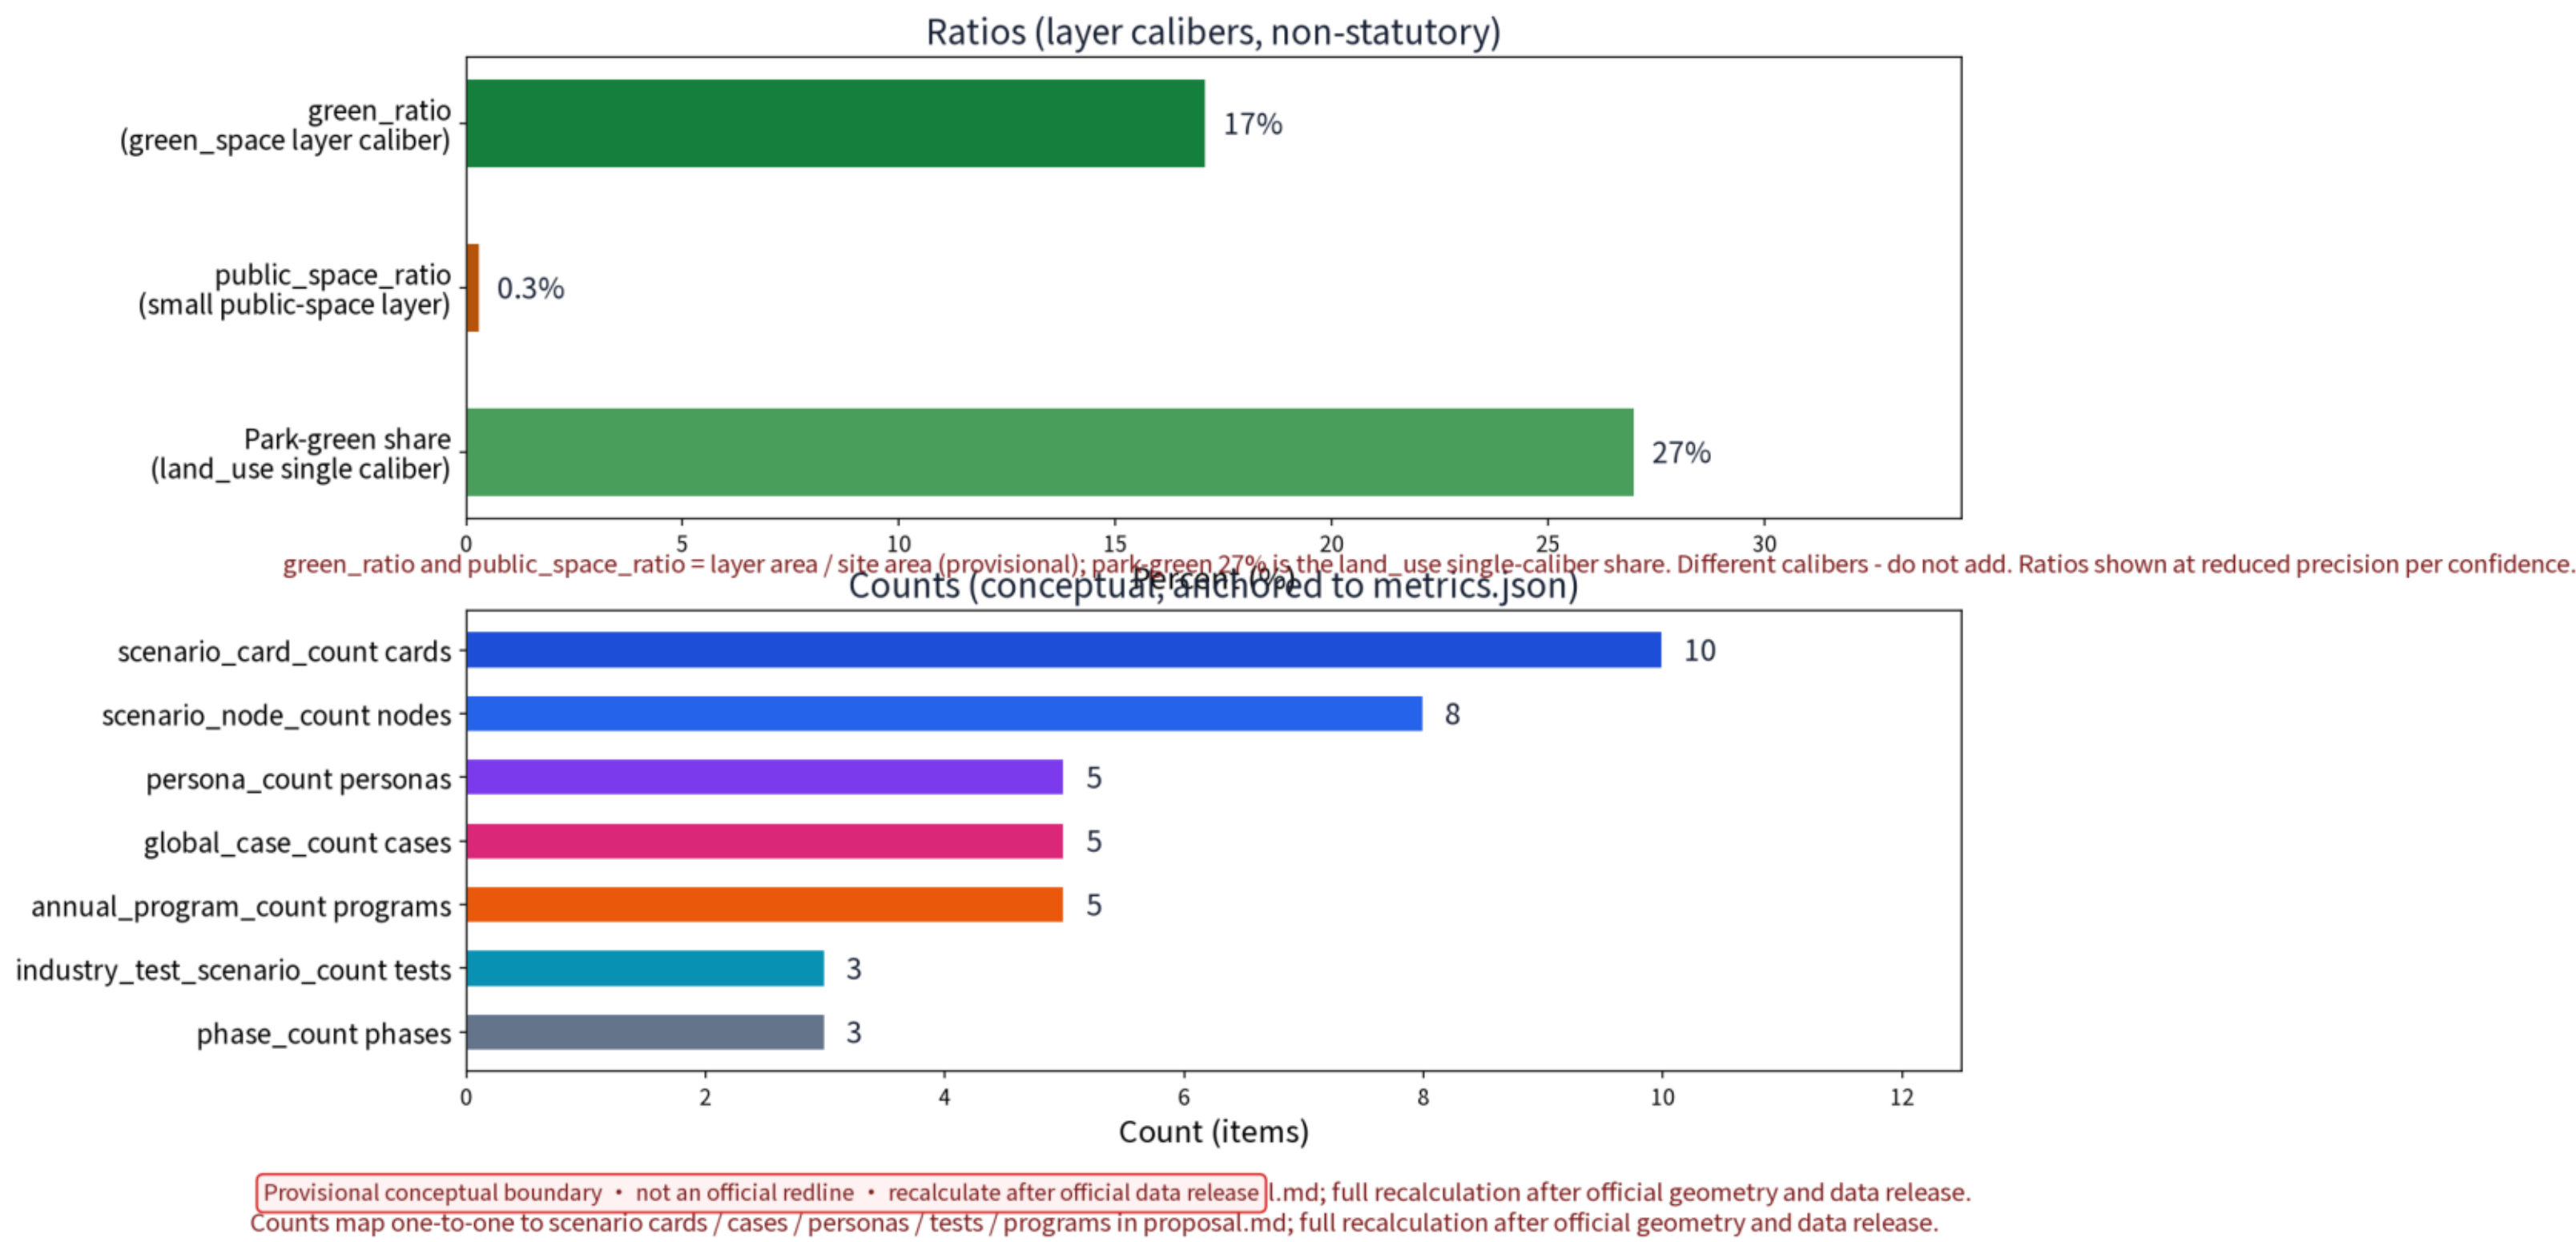

N3 Crossing Garden (community stitching node • south residential segment)

- Suitable space type: Community garden on the former crossing image in the dense residential segment (concept)
- Core components: Sleeper planters, adoption-points board, Weave Assembly point, child-friendly play corner, elderly rest zone
- Day/night use: Day: garden care, play and rest; night: tiered lighting with quiet hours
- Cultural narrative: Crossing memory: everyday life where railway and street once crossed
- AI interaction: Adoption points (human-reviewed), maintenance reminders; no individual tracking
- Accessibility: All-age accessible loop, low planters, non-digital sign-up channels
- Reversible installation: Sleeper-module planters and facilities, rotated by points

N2 Whistle Post (slow-traffic vitality post • mid-flow segment)

- Suitable space type:Slow-traffic service post with small performance grounds at mid-flow (concept)
- Core components:Service pavilion, station-concert stage, booking screen, water/infant-care/accessible restroom module
- Day/night use: Day: supply, bike service, rest; night: station concerts & open days
- Cultural narrative:Whistle motif: train arrival-departure memory vs contemporary city sound
- AI interaction: Event booking and time-slot flow control; edge anonymized crowd aggregation (human review)
- Accessibility: Low counter, step-free routes, AED and staffed service
- Reversible installation:Container-module pavilion and stage, withdrawable to public facility

Fig.D Core metric evidence
Core Metric Evidence (ratios and counts on separate axes)

Implementation matrix (near-term pilots P1/P2, full cycle P1-P6; cost tiers qualitative, price base 2026, recalculated after official data)

Pilot	Preconditions	Responsible actors	Deliverables	Cost tier	Acceptance KPIs	Risk gate	Stop/rollback
P1 Gateway demo	Heritage/rail assessment	Platform co./heritage-rail/assembly	Gateway+AR platform	Medium	Slow-through rate, AR sessions	Assessment fails	Degrade to paving
P2 Three posts	P1 siting approved	Operator/street/volunteers	3 posts	Low-Med	Coverage, escort response	Flow/ops fail	Withdraw to public facility
P3 Gap links	P1/P2 alignment	Transport/rail authority/merchants	Bridges+under-viaducts	Medium	Gaps connected, activation	Rail safety	Stop/realign
P4 Garden network	P3 stitching	Weave Assembly/universities/firms	Gardens+pocket parks	Low	Garden count, points	Care gaps	Rotate custody
P5 AI trial zone	P1-P4 data	Data-compute mechanism+dev alliance	Sandbox+trial zone	Med-High	Anonymity 100%, false-positive	Failed evals	Tiered suspension/stop
P6 Events & ops	P1-P5	Ops alliance+responsible planner	5 annual programs	Low	Events, non-digital channels	Low participation	Rotate/stop

Long-term operation model (agent.6, concept)

Module	Mechanism & flow	Responsible actors	Ongoing KPIs
Annual programs	AP-01-05 booking/rotation/points, annual disclosure	Ops alliance+volunteers	Event count, non-digital channels
Developer community	Developer alliance tiered access, open-source filing day	Developers+universities+firms	Sandbox projects, filing compliance
AI scenario opening	Apply→eval→go-live→human review→annual recal.	Data-compute mechanism+filing bodies	Eval pass rate, review rate
Public space care	Merchant covenant+volunteer roster+response	Streets+merchants+volunteers	Response time, takeover count
International outreach	Warp-Weft-Weave bilingual narrative+en pages	Ops alliance+university offices	Bilingual content refresh
Talent/enterprise/dev conversion	Event→residency→test→registration journey	Park operators+incubators	Conversion funnel touchpoints

Community participation & redress loop (concept)

Participation step	Mechanism	Non-digital channel	Responsible actors
Needs collection	Annual board+assembly+survey	Phone/on-site box	Community assembly
Co-creation review	Co-design sessions+resident review	On-site posting+human briefing	Planner team
Pilot notice	Prior written notice (AI sensing scope)	Notice board+talks	Street+operator
Consent/exit	Explicit consent, exit anytime	Paper registry	Volunteers+desks
Complaint/correction	7-day response & correction (concept)	Hotline+on-site log	Ops alliance
Feedback to next round	Eval report+design revision registry	Public annual report	Planner+assembly
