

RAIL • JZ | Transit-City Integration Coordination System (Concept)

- Centennial Jingzhang AI Innovation Belt - concept proposal: stations, interchanges, public space and blue-green network as one system
- Coordinated research area ~43.6 km² (official announcement)
- Overall design area ~11.4 km² (provisional substitute boundary)
- Key areas ~368.4 ha (official announcement)

Overall design overview - three-tier scope & three nodes (concept)

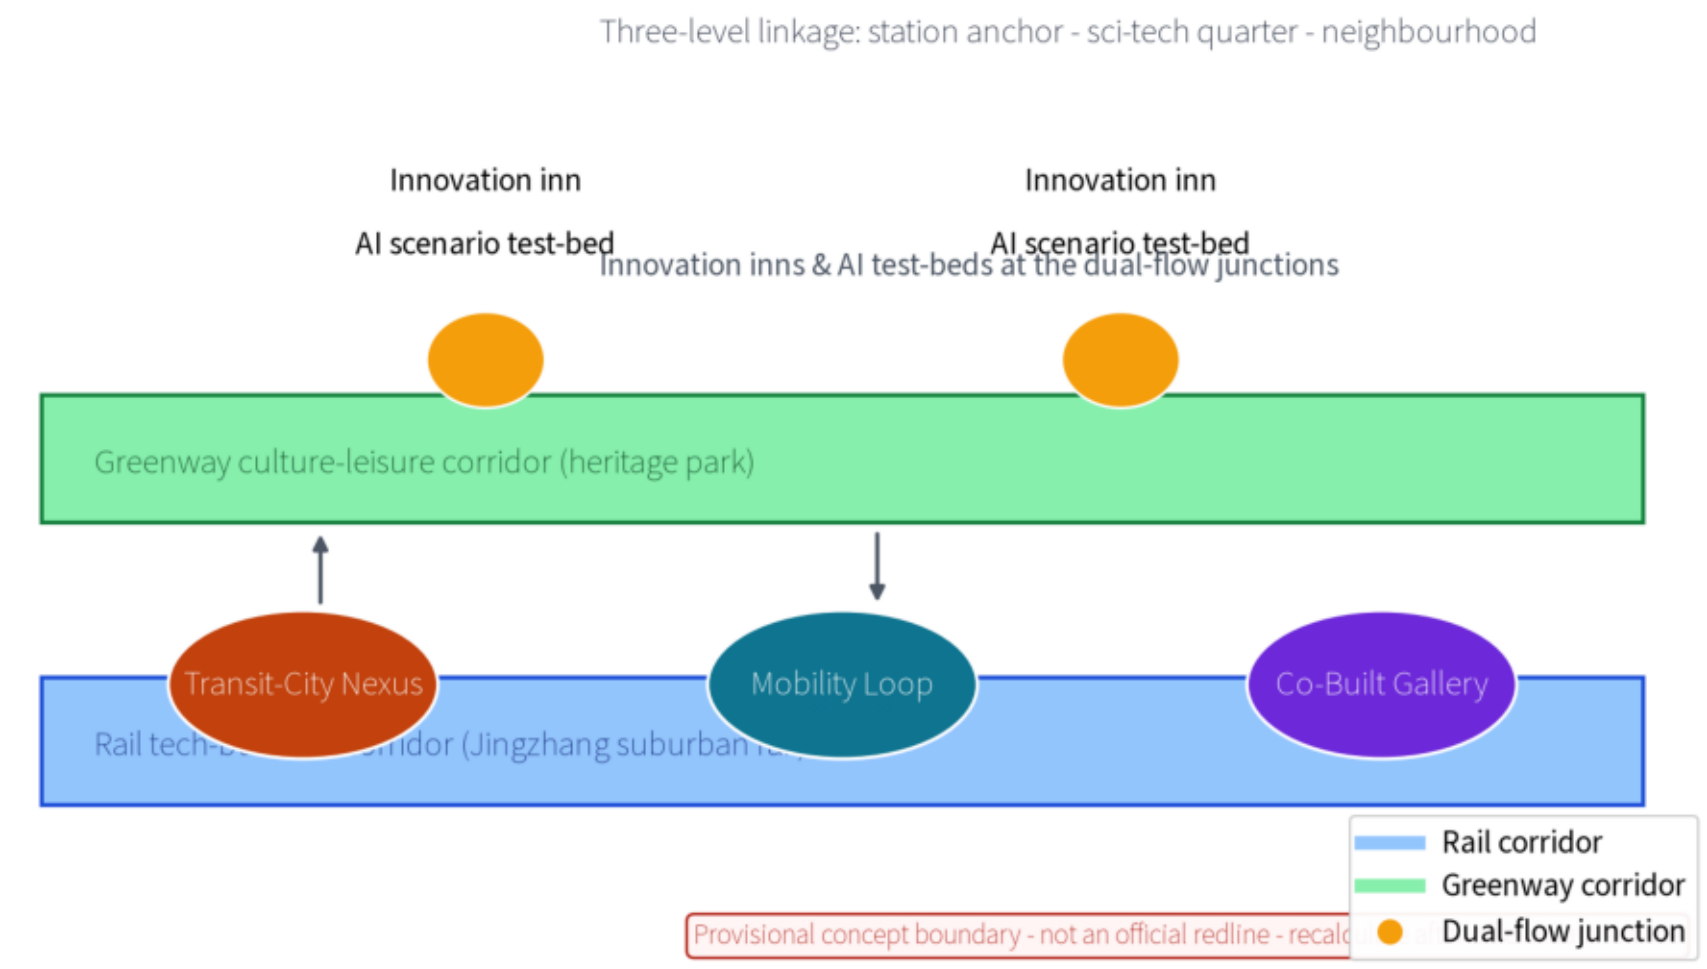

PROVISIONAL - conceptual boundary, not an official redline; recalculate after official data release

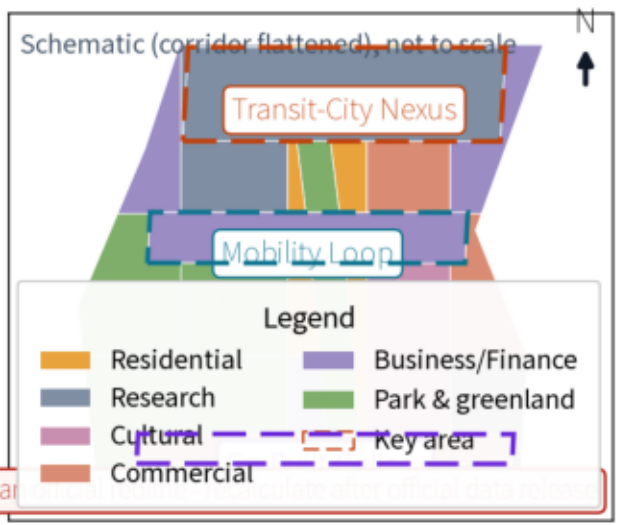

PROVISIONAL - conceptual boundary, not an official redline; recalculate after official data release

Overall spatial structure - rail + greenway dual corridors, three-level linkage (concept)

Three-node index & site-level design tasks (plan / section / journey, concept)

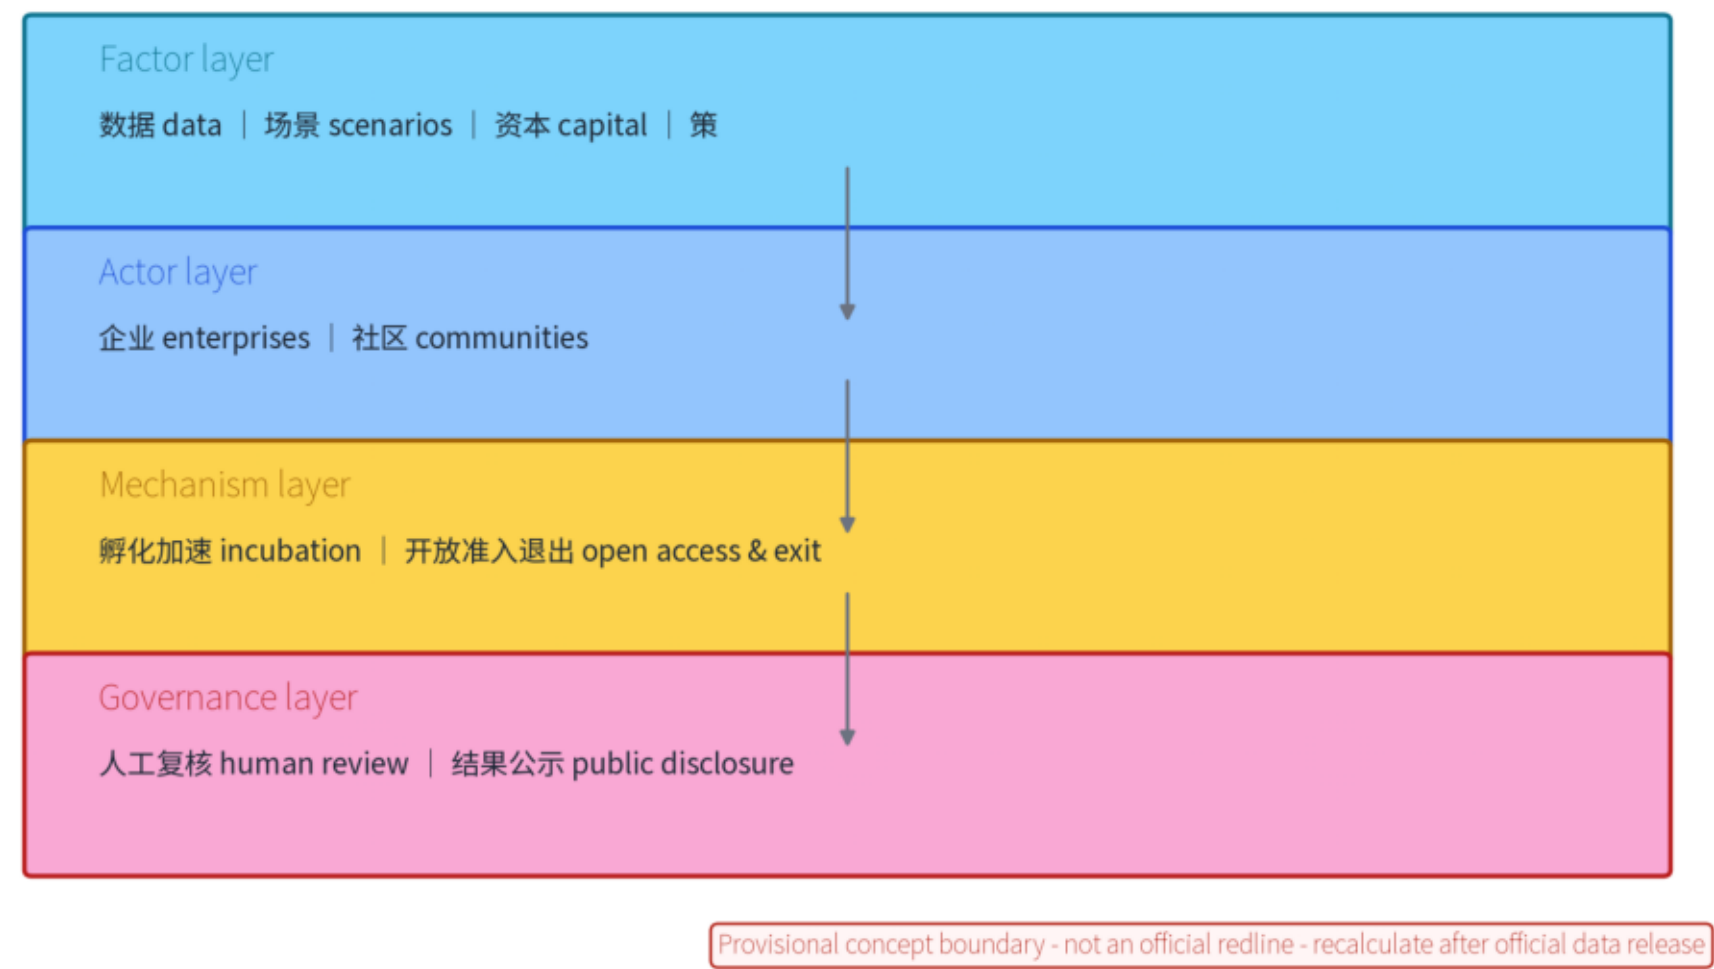

Node design task cards

- Transit-City Nexus
- Vertical interchange hall
 - Joint ops & deck linkage
 - Dispatch AI test-bed
- Mobility Loop
- P+R & cycling roof garden
 - Shaded accessible transfer ring
 - Slow-mode planning AI test-bed
- Co-Built Gallery
- Under-bridge living room
 - Deck mix stitched to greenway
 - Feedback AI & performance space
- User journey
- Exit
 - Transfer
 - Shop/Work
 - Greenway
 - Home
 - Live, accessible & age-friendly

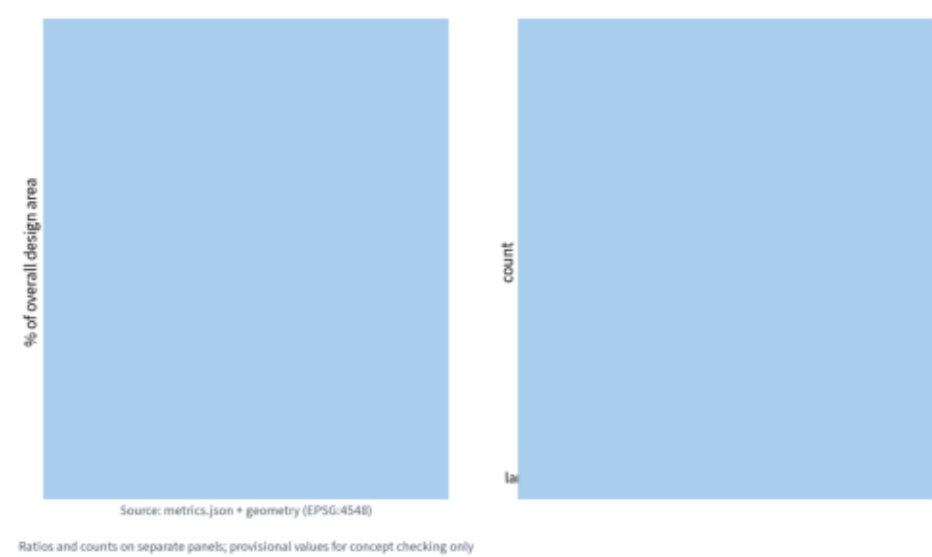

- Plan
- Nexus hub
 - Loop P+R
 - Gallery living room
- Four bands: platform - deck - greenway - street

- Section
- Platform
 - Deck
 - Greenway
 - Street
- Layered, transparent sightlines, reversible

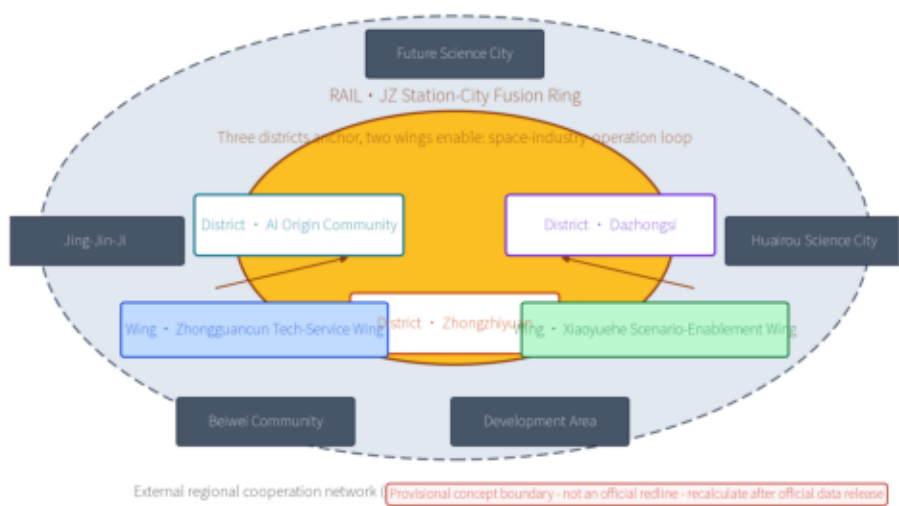

AI innovation ecosystem map - factors / actors / mechanisms / governance (concept)

Core metric evidence - ratios and counts on separate panels (provisional)

onal innovation linkage - taskbook three districts & two wings + external cooperation network (con

Operations, metrics & public participation (concept)

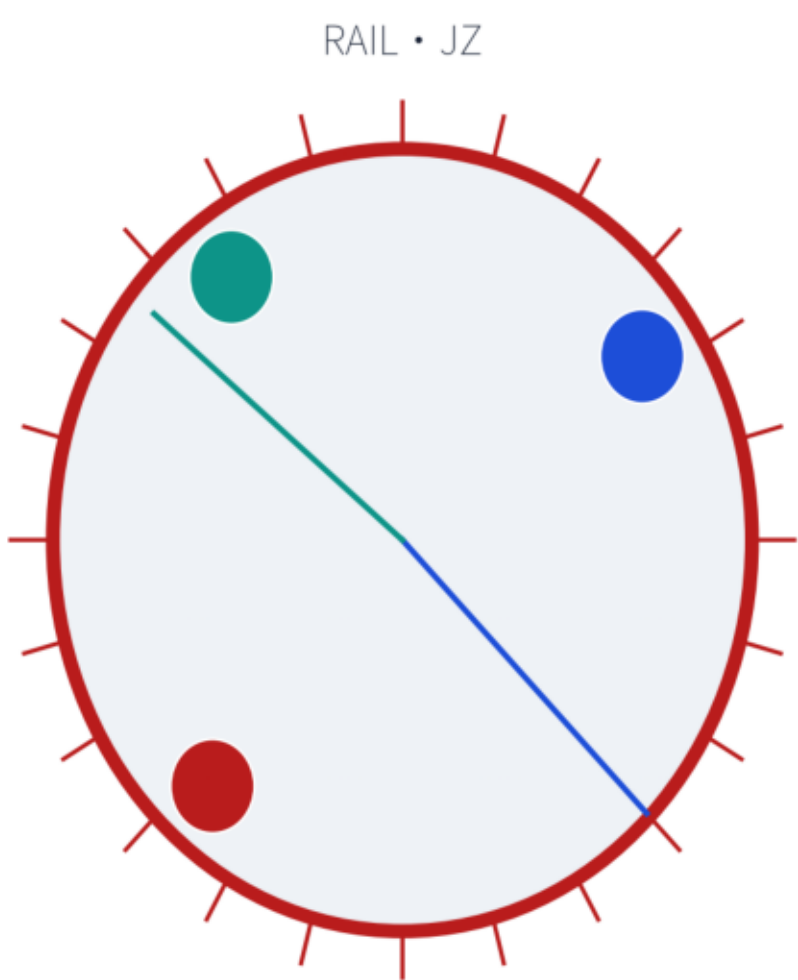

Core metrics: green_ratio≈0.11 • public_space_ratio≈0.003 • zones 27 • envelopes 12 • scenario nodes 8 • cases 6 • phases 3 (concept; recalc after official data)
Five AI+ scenarios: dispatch / joint operations / slow-mode planning / deck O&M / public feedback

Annual brands: Rail Open Day / Co-Build Workshop / Slow-Mode Experience Season
| mechanisms: co-build covenant, points, disclosure, registration, dev community
AI governance: anonymised aggregation only / human review of key decisions / no over-monitoring

Risks & gaps: provisional boundary; statutory controls unpublished; ridership/ownership/heritage ledgers not obtained; all conclusions conceptual

Conceptual proposal only - not a statutory plan, approval, or implementation commitment.

Brand identity direction - concept logo: fusion ring + sleeper rhythm + data nodes

- Rail brick red (heritage)
- Zhongguancun tech blue (innovation)
- AI pulse teal (intelligence)

- Typography (concept)
- Geometric sans-serif
 - Balanced zh/en spacing

- Application (concept)
- Dark waymark field, white type, ring motif
 - Rail Open Day visual template

Provisional concept boundary - not an official redline - recalculate after official data release

PROVISIONAL - conceptual boundary, not an official redline; recalculate after official data release
