Scenario, Test and Programme Matrix (concept)

Scenario card (12)	Input data	AI capability	Location	Operator	Human takeover/failure	Indicator
S1 Bell Hall roadshow	registration (anon)	scheduling/summary	flagship floor	operator leads	manual hosting	sessions
S3 Zhixin Market	stock/sales (anon)	checkout/restock	lane ground floor	merchant alliance	human cashier	repeat rate
S5 Low-Altitude Post	orders/routes (anon)	route/avoidance	eaves/roof pads	logistics operator	stop & manual	on-time rate
S4 Companion guide	on-device AV	multimodal assist	smart living street	subdistrict/volunteers	volunteer backstop	completion

Three industry tests, five annual programmes and 12 scenario cards are consistent with metrics.json and the proposal text (concept).

Indicator System and Area Recalculation (concept)

Indicator (concept)	Caliber and formula	Source/confidence	Use restriction	Recompute trigger
Green ratio	concept green / concept total	provisional geometry / low	concept check	official boundary
Public-space ratio	concept public space / total	provisional geometry / low	concept check	official boundary
Smart scenario coverage	open cards / 12	operating index / medium	annual roll	annual disclosure
Area recalculation: official textual calibers only (approx. 43.6 km2 / 11.4 km2 / 368.4 ha / 72 ha); no precise recalculation before official polygons; full recompute with version recording on publication.				
Barrier-free rate	passed / checked points	after site check / research	aspirational	verification done
Opinion closure rate	closed / opinion tickets	channel ledger / medium	aggregated	annual disclosure
