JINGZHANG URBAN VERSIONS

ONE PUBLIC BASELINE
THREE DECISION ARENAS
ONE ANNUAL VERSION CYCLE

01 VERIFIED FACT

Built facts reported in the 2025 article

02 HISTORIC PROPOSAL

Methods only, never current conditions

03 CONCEPT PROPOSAL

Relationships, pilots, decision protocol

04 TO BE VERIFIED

Boundaries, parcels, buildings, controls, engineering

Dashed working extents are task anchors, not official redlines.

02

Three Loops That Change Planning Decisions

INPUTS · OPTIONS · HUMAN DECISION · PILOT · MEASURE · STOP

JZ.V02

T1 TRANSVERSE ACCESS

01 DECISION

Which barrier first, and at what intervention intensity?

02 MINIMUM INPUT

Network / slope / delay / safety / ownership

03 PHYSICAL PILOT

Reversible crossing and edge-opening pilots

04 MEASURE

Accessible detour · conflict · maintenance

05 STOP RULE

Stop if safety worsens or ownership is unclear

T2 ADAPTIVE PARK

01 DECISION

Where should 12 gardens add shade, water relief or seating?

02 MINIMUM INPUT

Canopy / heat / ponding / use / maintenance

03 PHYSICAL PILOT

Facilities, timing, planting or drainage packages

04 MEASURE

Heat exposure · closure · work hours

05 STOP RULE

Rollback if ecology or operations deteriorate

T3 EXISTING BUILDINGS

01 DECISION

What to retain or adapt, and what public value to secure?

02 MINIMUM INPUT

Buildings / carbon / leases / vacancy / service gaps

03 PHYSICAL PILOT

Ground-floor prototype + public-benefit agreement

04 MEASURE

Open hours · displacement · balance

05 STOP RULE

Stop if costs or public commitments fail

01 BASELINE

02 OPTIONS

03 COMPARE

04 DECIDE

05 PILOT

06 MEASURE

07 SCALE / STOP

ACCESS CHAIN

STOP RULE

OPERATING SECTION

01 LONGITUDINAL BASELINE

Register heritage, walking, running and built gardens before proposing additions.

02 TRANSVERSE REPAIR

Compare surface, edge-opening, undercroft, underpass and crossing options at each barrier.

03 CROSS-SEASON REVIEW

Heat, rain recovery, equitable use and maintenance hours determine additions.

04 HUMAN DECISION + ROLLBACK

Stop when safety, accessibility or maintenance worsens; never reduce public value to foothill.

04

Ten Scenarios as Decision Protocols

DECISION CHANGED · MINIMUM DATA · HUMAN ROUTE · STOP RULE

JZ.V02

SCENARIO	DECISION CHANGED	STOP RULE	SCENARIO	DECISION CHANGED	STOP RULE
S01 R&D resource match	R&D resources and public front desk	No authorized data or explanation	S06 Rain recovery and care	Water relief, closure and work hours	Ecology or ponding worsens
S02 Open model benchmark	Model fitness for local tasks	Bias or version cannot be reviewed	S07 Activity scheduling	Quiet, movement and free stay	No appeal route
S03 Compliant procurement	Cost, risk and public conditions	No accountable sign-off	S08 Shared ground-floor service	Hours, price and maintenance	Displacement or failed commitment
S04 Complete accessible path	Barrier priority and access option	Access chain breaks	S09 Station-city coordination	Station-to-street continuity	Transport or fire review fails
S05 Park thermal comfort	Cross-season shade and seating	Movement or maintenance worsens	S10 Annual project review	Continue, adjust, stop or not-do	Evidence or responsibility missing

BASELINE → OPTIONS → COMPARE → DECIDE → PILOT → MEASURE → SCALE OR STOP
