

Fifteen-Minute Living Loop — Convenience Life Circle & Community Service Network (C)

A3 Booklet (Concept Deliverable)

Official three-tier scopes (announcement text): coordinated research area approx. 43.6 km² / overall design area approx. 11.4 km² / key areas approx. 3.0 km²
This package's sub-scope: fifteen-minute convenience life circle & community service network (within the overall design area, anchored on the three key areas)

Six personas • 12 AI scenario cards (C01-C12) • 3 industry test-and-validate scenarios (T1-T3) • 8 global AI ecosystem cases • 4 annual programme briefs

Core metrics (participant provisional model data): site_area_sqm approx. 11,412,825 m² • green_ratio approx. 0.129 • public_space_ratio approx. 0.045

NOTE: all content is conceptual advice and a reference scheme; does not replace formal planning; mandatory recomputation when official geometry and data are published

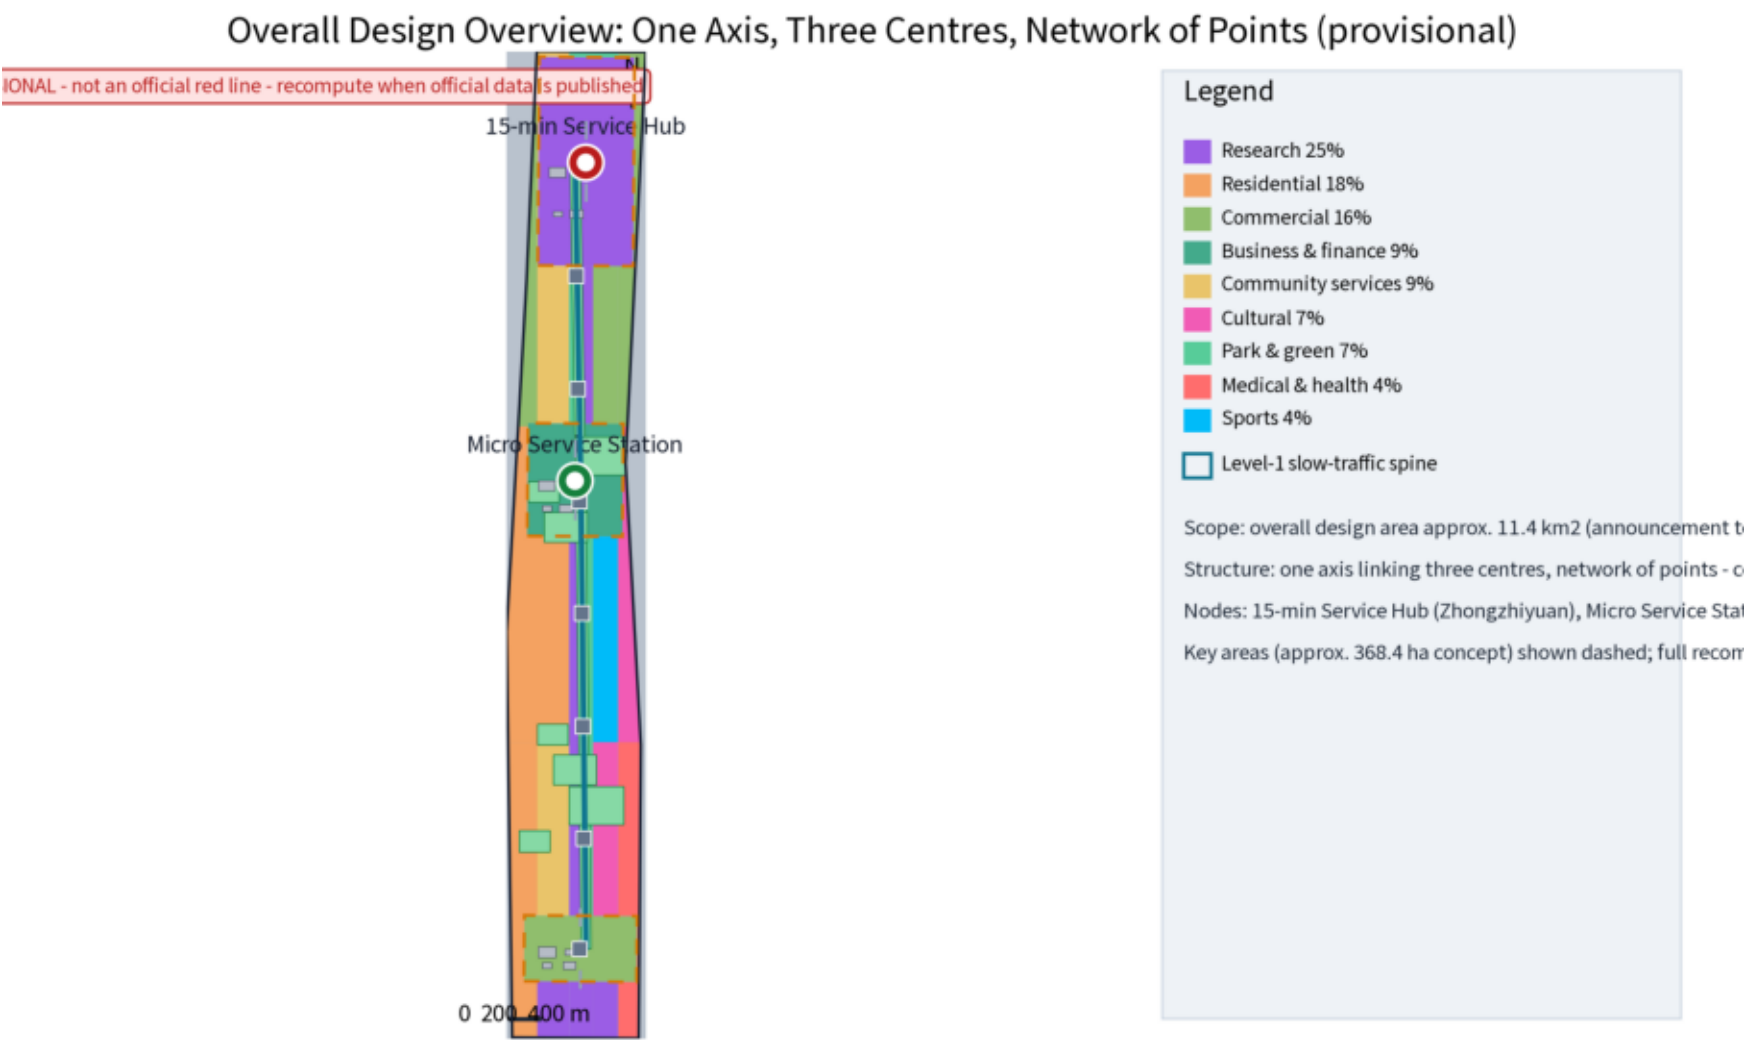

PROVISIONAL CONCEPT BOUNDARY - NOT AN OFFICIAL RED LINE - RECOMPUTE WHEN OFFICIAL DATA IS PUBLISHED

1. Design Basis and Source List

part of LIVE • JZ fifteen-minute living circle concept package

2. Three-Level Scope Framework

part of LIVE • JZ fifteen-minute living circle concept package

provisional concept boundary - not an official red line - recompute when official data is published

3. Coordinated Research Area

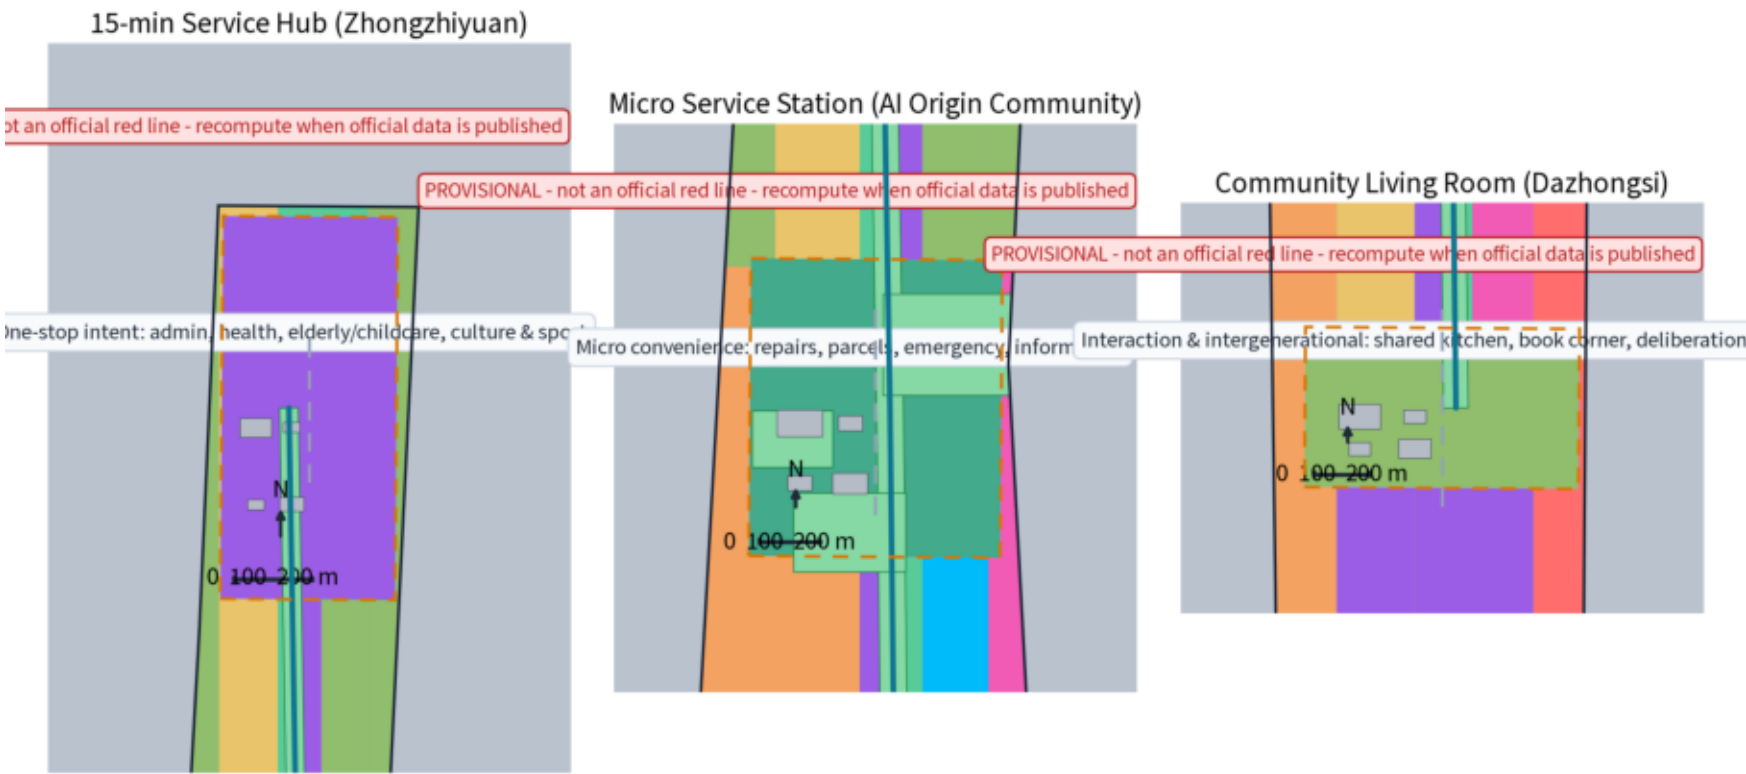

part of LIVE • JZ fifteen-minute living circle concept package

provisional concept boundary - not an official red line - recompute when official data is published

4. Overall Design Area

part of LIVE • JZ fifteen-minute living circle concept package

Three-Node Index and Design Task Map (concept nodes, provisional)

provisional concept boundary - not an official red line - recompute when official data is published

5. Detailed Design of Key Areas

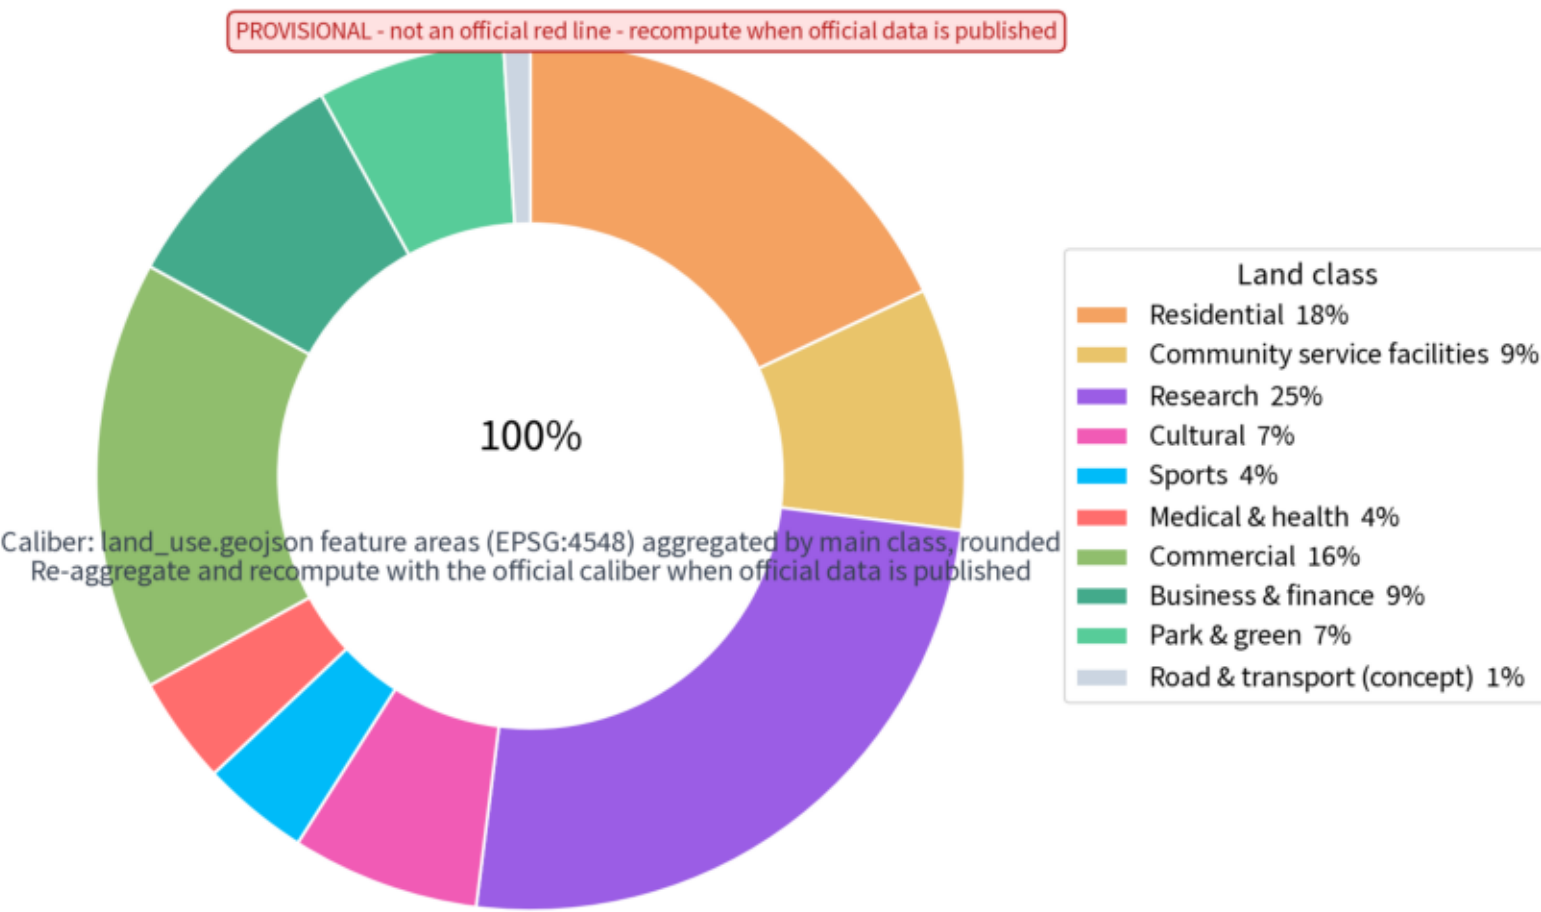

part of LIVE • JZ fifteen-minute living circle concept package

provisional concept boundary - not an official red line - recompute when official data is published

6. AI Innovation Ecosystem

part of LIVE • JZ fifteen-minute living circle concept package

Land-Use Structure (single caliber: 9 main classes + road, provisional)

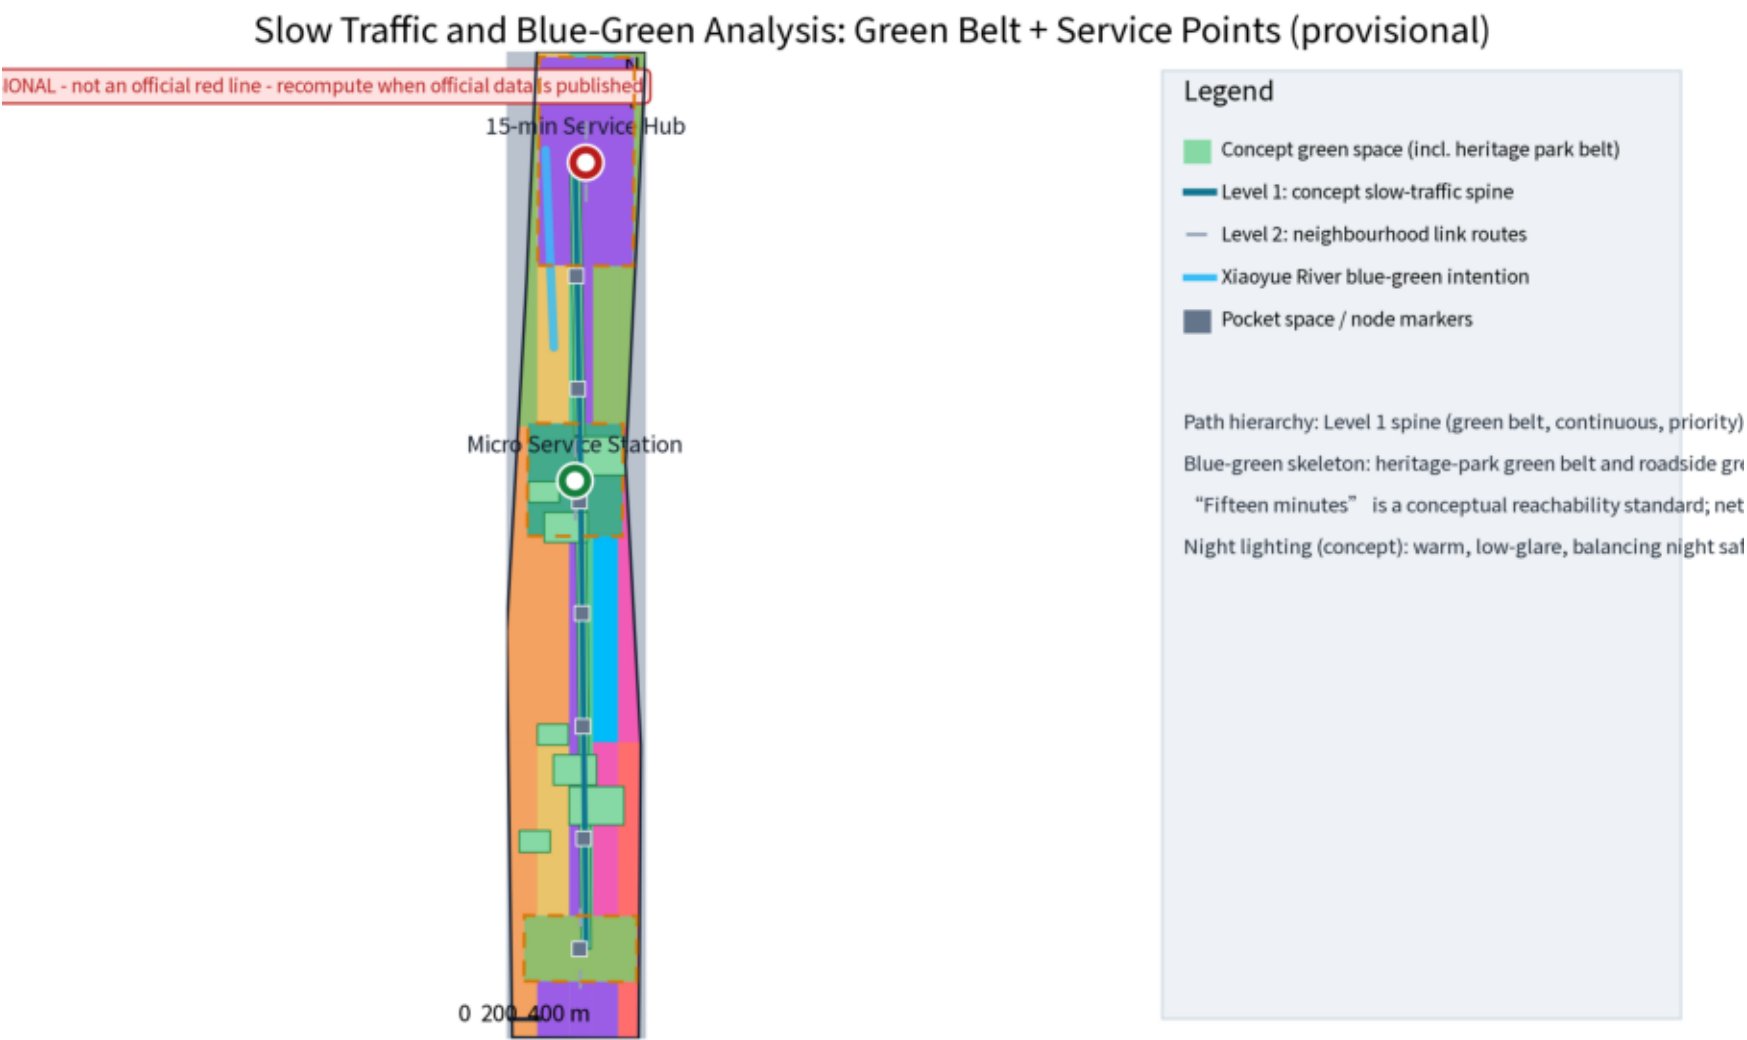

provisional concept boundary - not an official red line - recompute when official data is published

7. Land Use, Building Scale

part of LIVE • JZ fifteen-minute living circle concept package

8. Transport, Rail, Municipal

part of LIVE • JZ fifteen-minute living circle concept package

provisional concept boundary - not an official red line - recompute when official data is published

9. Blue-Green Network

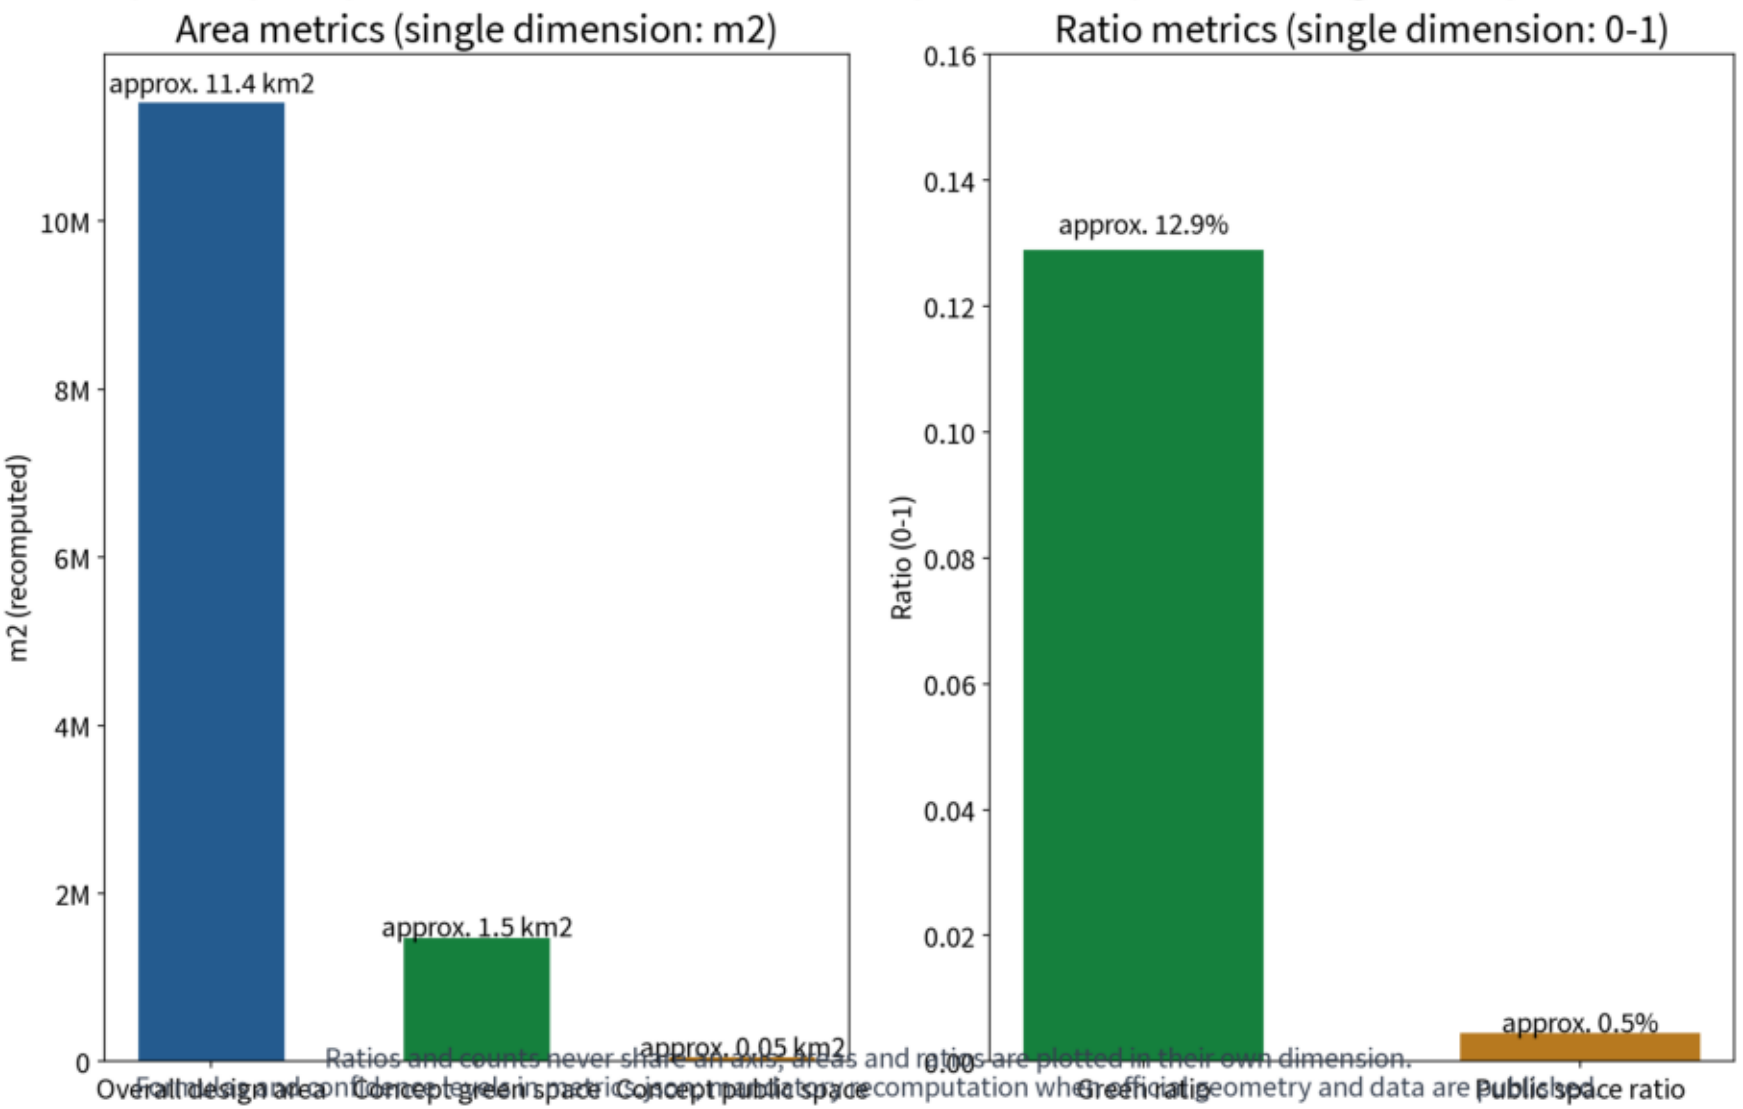

part of LIVE • JZ fifteen-minute living circle concept package

provisional concept boundary - not an official red line - recompute when official data is published

10. Renewal Projects

part of LIVE • JZ fifteen-minute living circle concept package

dence (participant provisional model data: recomputed from provisional geometry, reduced di

provisional concept boundary - not an official red line - recompute when official data is published

11. Metrics, Area Recalculation

part of LIVE • JZ fifteen-minute living circle concept package

provisional concept boundary - not an official red line - recompute when official data is published

12. Risk, Copyright
