

Overall structure and regional coordination

One spine · three hubs · two loops · six node types

Regional links

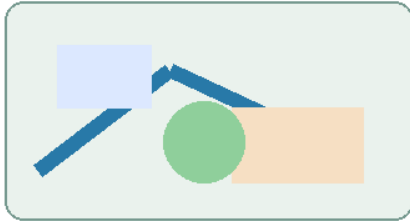

Knowledge, verification, conversion, civic service and feedback make an open network.

concept plan / node

Renewal spine

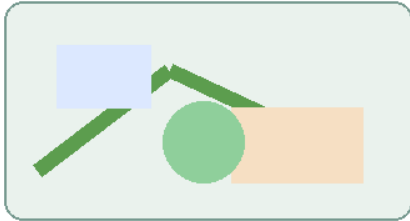

Railway memory and civic space repair walking and service gaps in existing districts.

concept plan / node

Three key areas

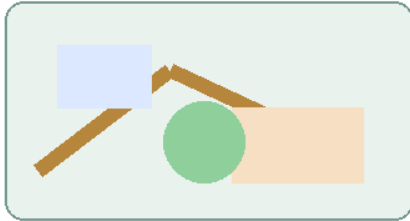

Zhongzhiyuan, AI Origin and Dazhongsi join daily innovation with public life.

concept plan / node

Low-carbon base

Shade, infiltration, reuse, walking and distributed energy reduce life-cycle burden.

concept plan / node

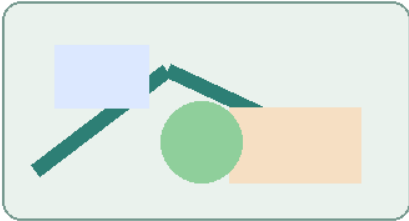

Original conceptual diagram · provisional geometry is not a statutory boundary

Case translation and zero-carbon corridor

Reversible · low-impact · maintainable

Traffic calming

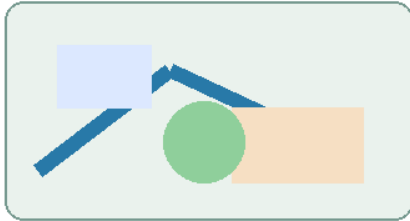

Movable street furniture and walking-priority pilots.

concept plan / node

Adaptive reuse

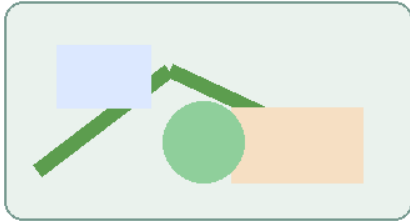

Grade existing buildings by safety and usability before renewal.

concept plan / node

Blue-green stitch

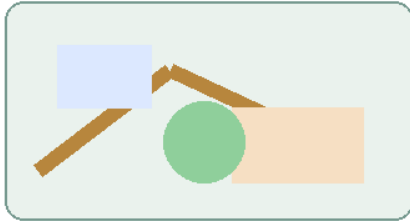

Rain gardens, permeable paving and shade join public space.

concept plan / node

Circular material

Demountable components and a material register support repair and recovery.

concept plan / node

Three key-area concept plans, nodes and implementation

Zhongzhiyuan: reuse court

retain
renew
public space
JZ-01
JZ-02
walking route

JZ-01 / JZ-02 · operator + owner

retain / renew / public space / walking route

owner · cost band · KPI · maintenance · exit

retain	renew	public space
walking route	JZ-01	JZ-02

AI Origin: campus seam

retain
renew
public space
JZ-03
JZ-04
walking route

JZ-03 / JZ-04 · offline + learning

retain / renew / public space / walking route

owner · cost band · KPI · maintenance · exit

retain	renew	public space
walking route	JZ-03	JZ-04

Dazhongsi: station living room

retain
renew
public space
JZ-05
JZ-06
walking route

JZ-05 / JZ-06 · transfer + feedback

retain / renew / public space / walking route

owner · cost band · KPI · maintenance · exit

retain	renew	public space
walking route	JZ-05	JZ-06

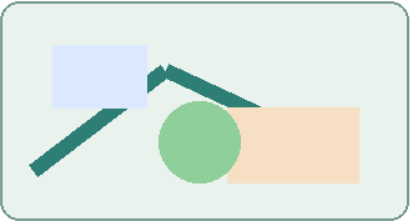

N ↑ · schematic not to scale · original concept plans; provisional geometry is not a statutory boundary.

Walking-blue-green network and test protocols

Human-centred · safe · pausable

T-01 Walking

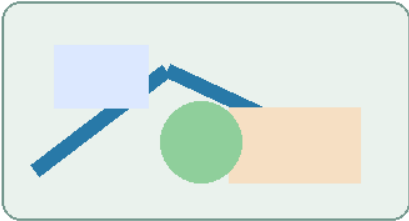

Observe shade, step-free movement and paper-wayfinding readability.

concept plan / node

T-02 Rainwater

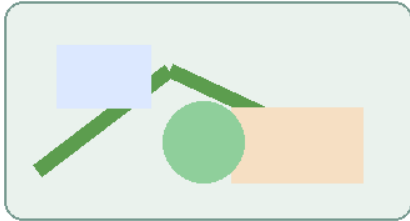

Record infiltration condition, replacement cycle and maintenance labour.

concept plan / node

T-03 Service

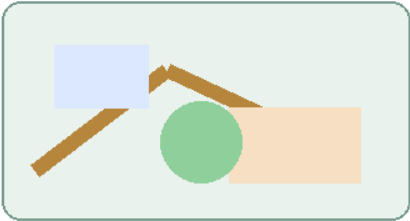

De-identified data, human review, appeal, exit and pause.

concept plan / node

Inclusion

Offline access serves children, older people, disabled people and non-smartphone users.

concept plan / node

Original conceptual diagram · provisional geometry is not a statutory boundary

JZ implementation, responsibility and exit register

Project	Lead	Phase	Cost	KPI	Maintenance / exit
JZ-01	District operator	Near	Low	access gaps	monthly / safety stop
JZ-02	Owner	Medium	Medium	reuse area	quarterly / fire exit
JZ-03	District operator	Near	Low	offline access	weekly / feedback stop
JZ-04	School + community	Medium	Medium	shade condition	quarterly / pause
JZ-05	Commerce + community	Medium	Medium	closed feedback	monthly / stop
JZ-06	Transit + maintainer	Long	High	response time	quarterly / ownership exit

Legend: Near / Medium / Long = phase; Low / Medium / High = conceptual cost only.
