

Structure: learn—prototype—review—return
one spine • three nodes • two wings • reversible parts

CONCEPT / PROVISIONAL

Three nodes and spatial actions
prototype school • reversible test yard • service loop station

CONCEPT / PROVISIONAL

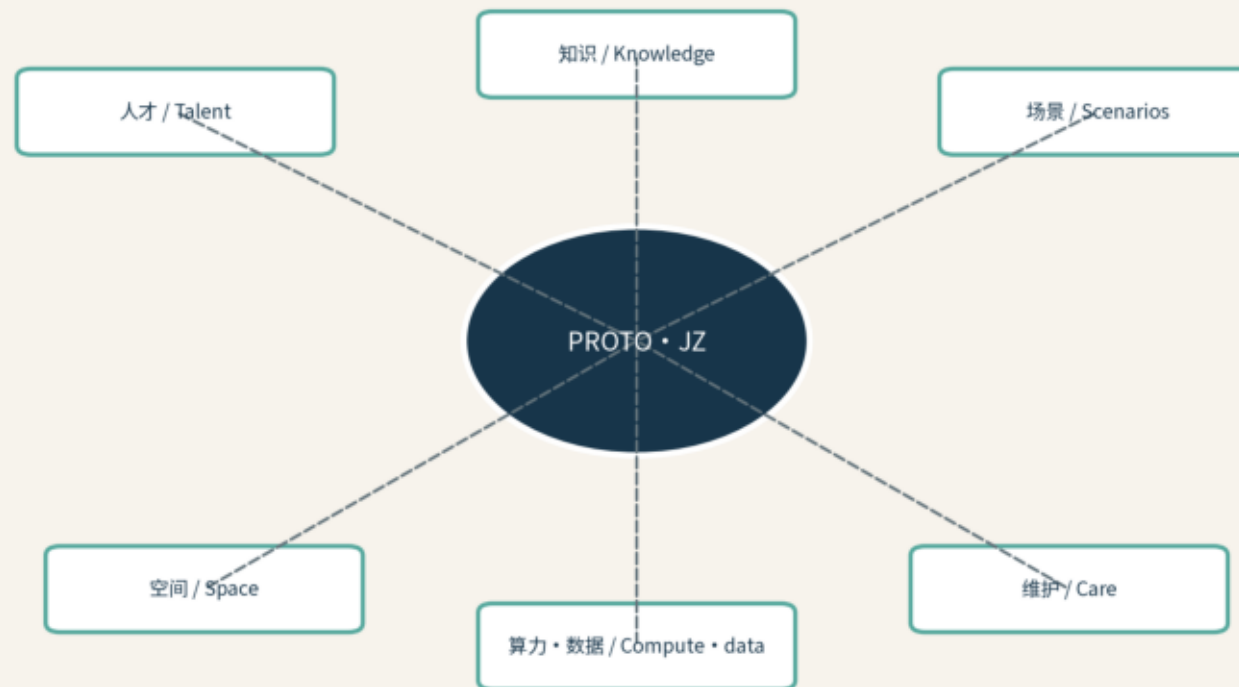

Demountable signs, information boards, seats, paper entry and low-power display

AI prototype ecology and element interfaces

issues • knowledge • talent • compute/data • maintenance

CONCEPT / PROVISIONAL

Unverified cooperation, tenure, controls and operating baseline: unknown/to_verify

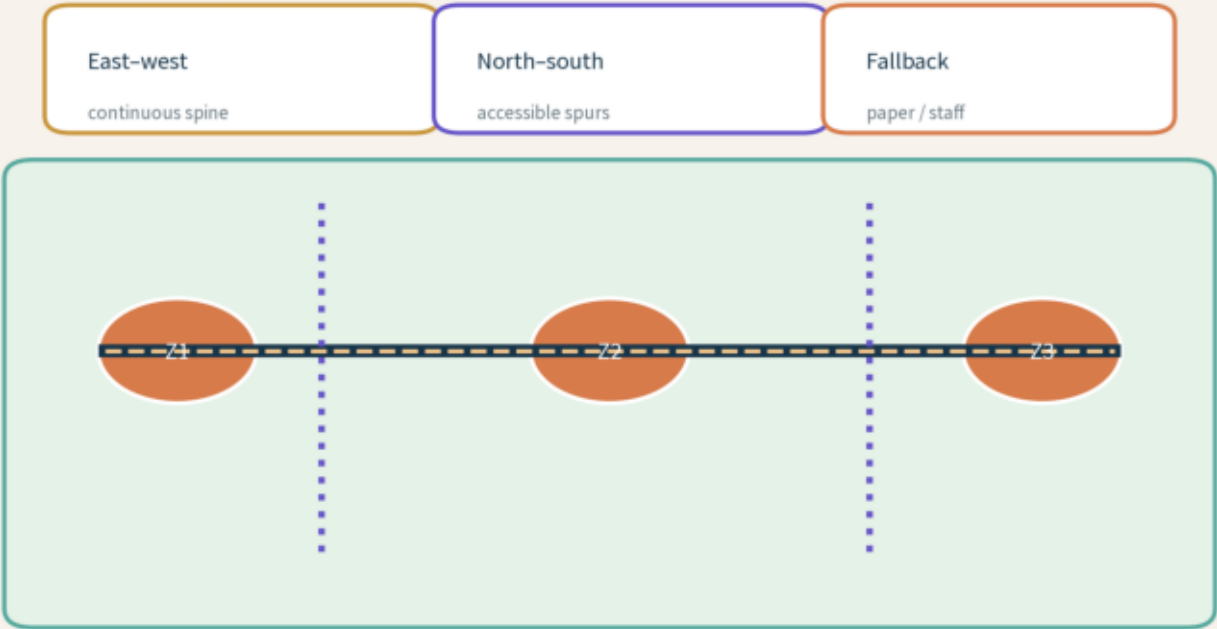

Participant model; not an official redline; recompute after official data.

PROTO • JZ

Slow route and test corridor

east-west continuity • north-south access • staffed fallback

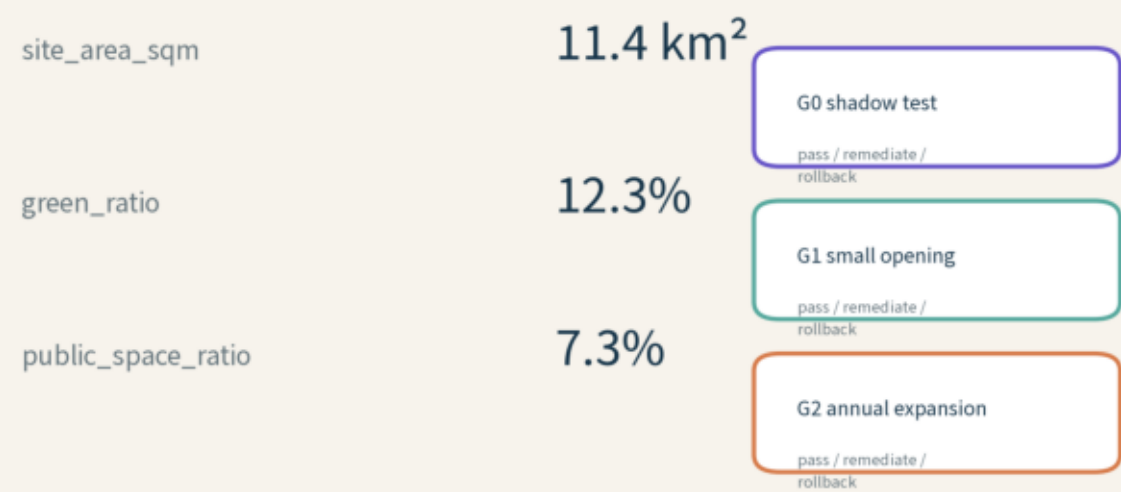

CONCEPT / PROVISIONAL

No road, rail, bridge, tunnel, underground or municipal-capacity conclusion.

Metrics and phase gates
geometry-derived provisional values

CONCEPT / PROVISIONAL

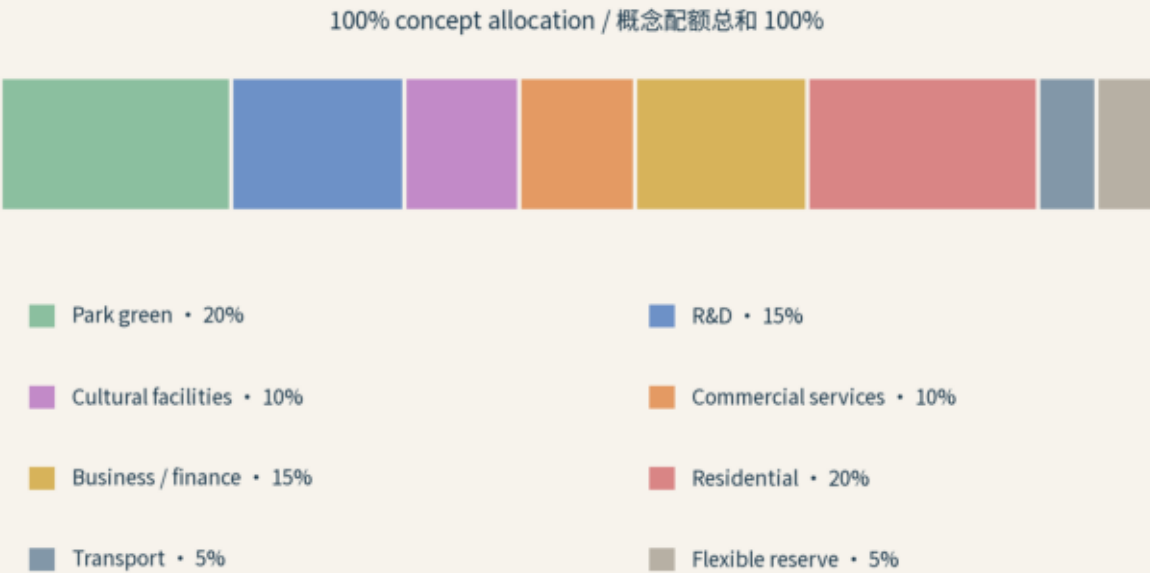

Temporary bands; recompute after official boundary and operating baseline.

Concept land-use interfaces (not official classification)

Eight reversible test allocations • for concept communication only

CONCEPT / PROVISIONAL

Percentages are participant test allocations, not statutory land use, survey findings or approval conclusions.

PROTO • JZ Public Prototyping Commons

PROTOTYPE IN PUBLIC

CONCEPT / PROVISIONAL

open square + sleeper rhythm

Participant model; not an official redline; recompute after official data.

PROTO • JZ
