

01 / CIVIC SPINE

One heritage corridor, three innovation anchors, two service-station types

The map shows a light blue polygon representing the area. A vertical green double line runs through the center. Three circular markers are placed along this line: a teal circle at the top labeled 'Zhongzhiyuan', an orange circle in the middle labeled 'AI Origin', and a dark blue circle at the bottom labeled 'Dazhongsi'.

PUBLIC-VALUE LOOP

● Need

● Match

● Trial

● Human review

● Public evaluation

● Revise / exit

Provisional geometry · official GIS pending

Jing-Zhang AI Civic Commons | Conceptual design using provisional constraints | 2026-08-09

Public value

AI innovation supports industry while remaining safe and accessible to all ages.

Spatial structure

One spine, three anchors, two station types, ten co-tested scenarios and a blue-green loop.

Governance loop

Need - trial - human review - public evaluation - revision or exit.

Data boundary

Current geometry is provisional; recalculate after official GIS and controls are cleared.
