FROM COMMUTERS TO A TALENT COMMUNITY

AI-GENERATED CONCEPT VIEW • NOT EVIDENCE

CORE JUDGMENT

Haidian has innovation sources. The missing layer is an urban interface that turns talent relations into projects and projects into firms.

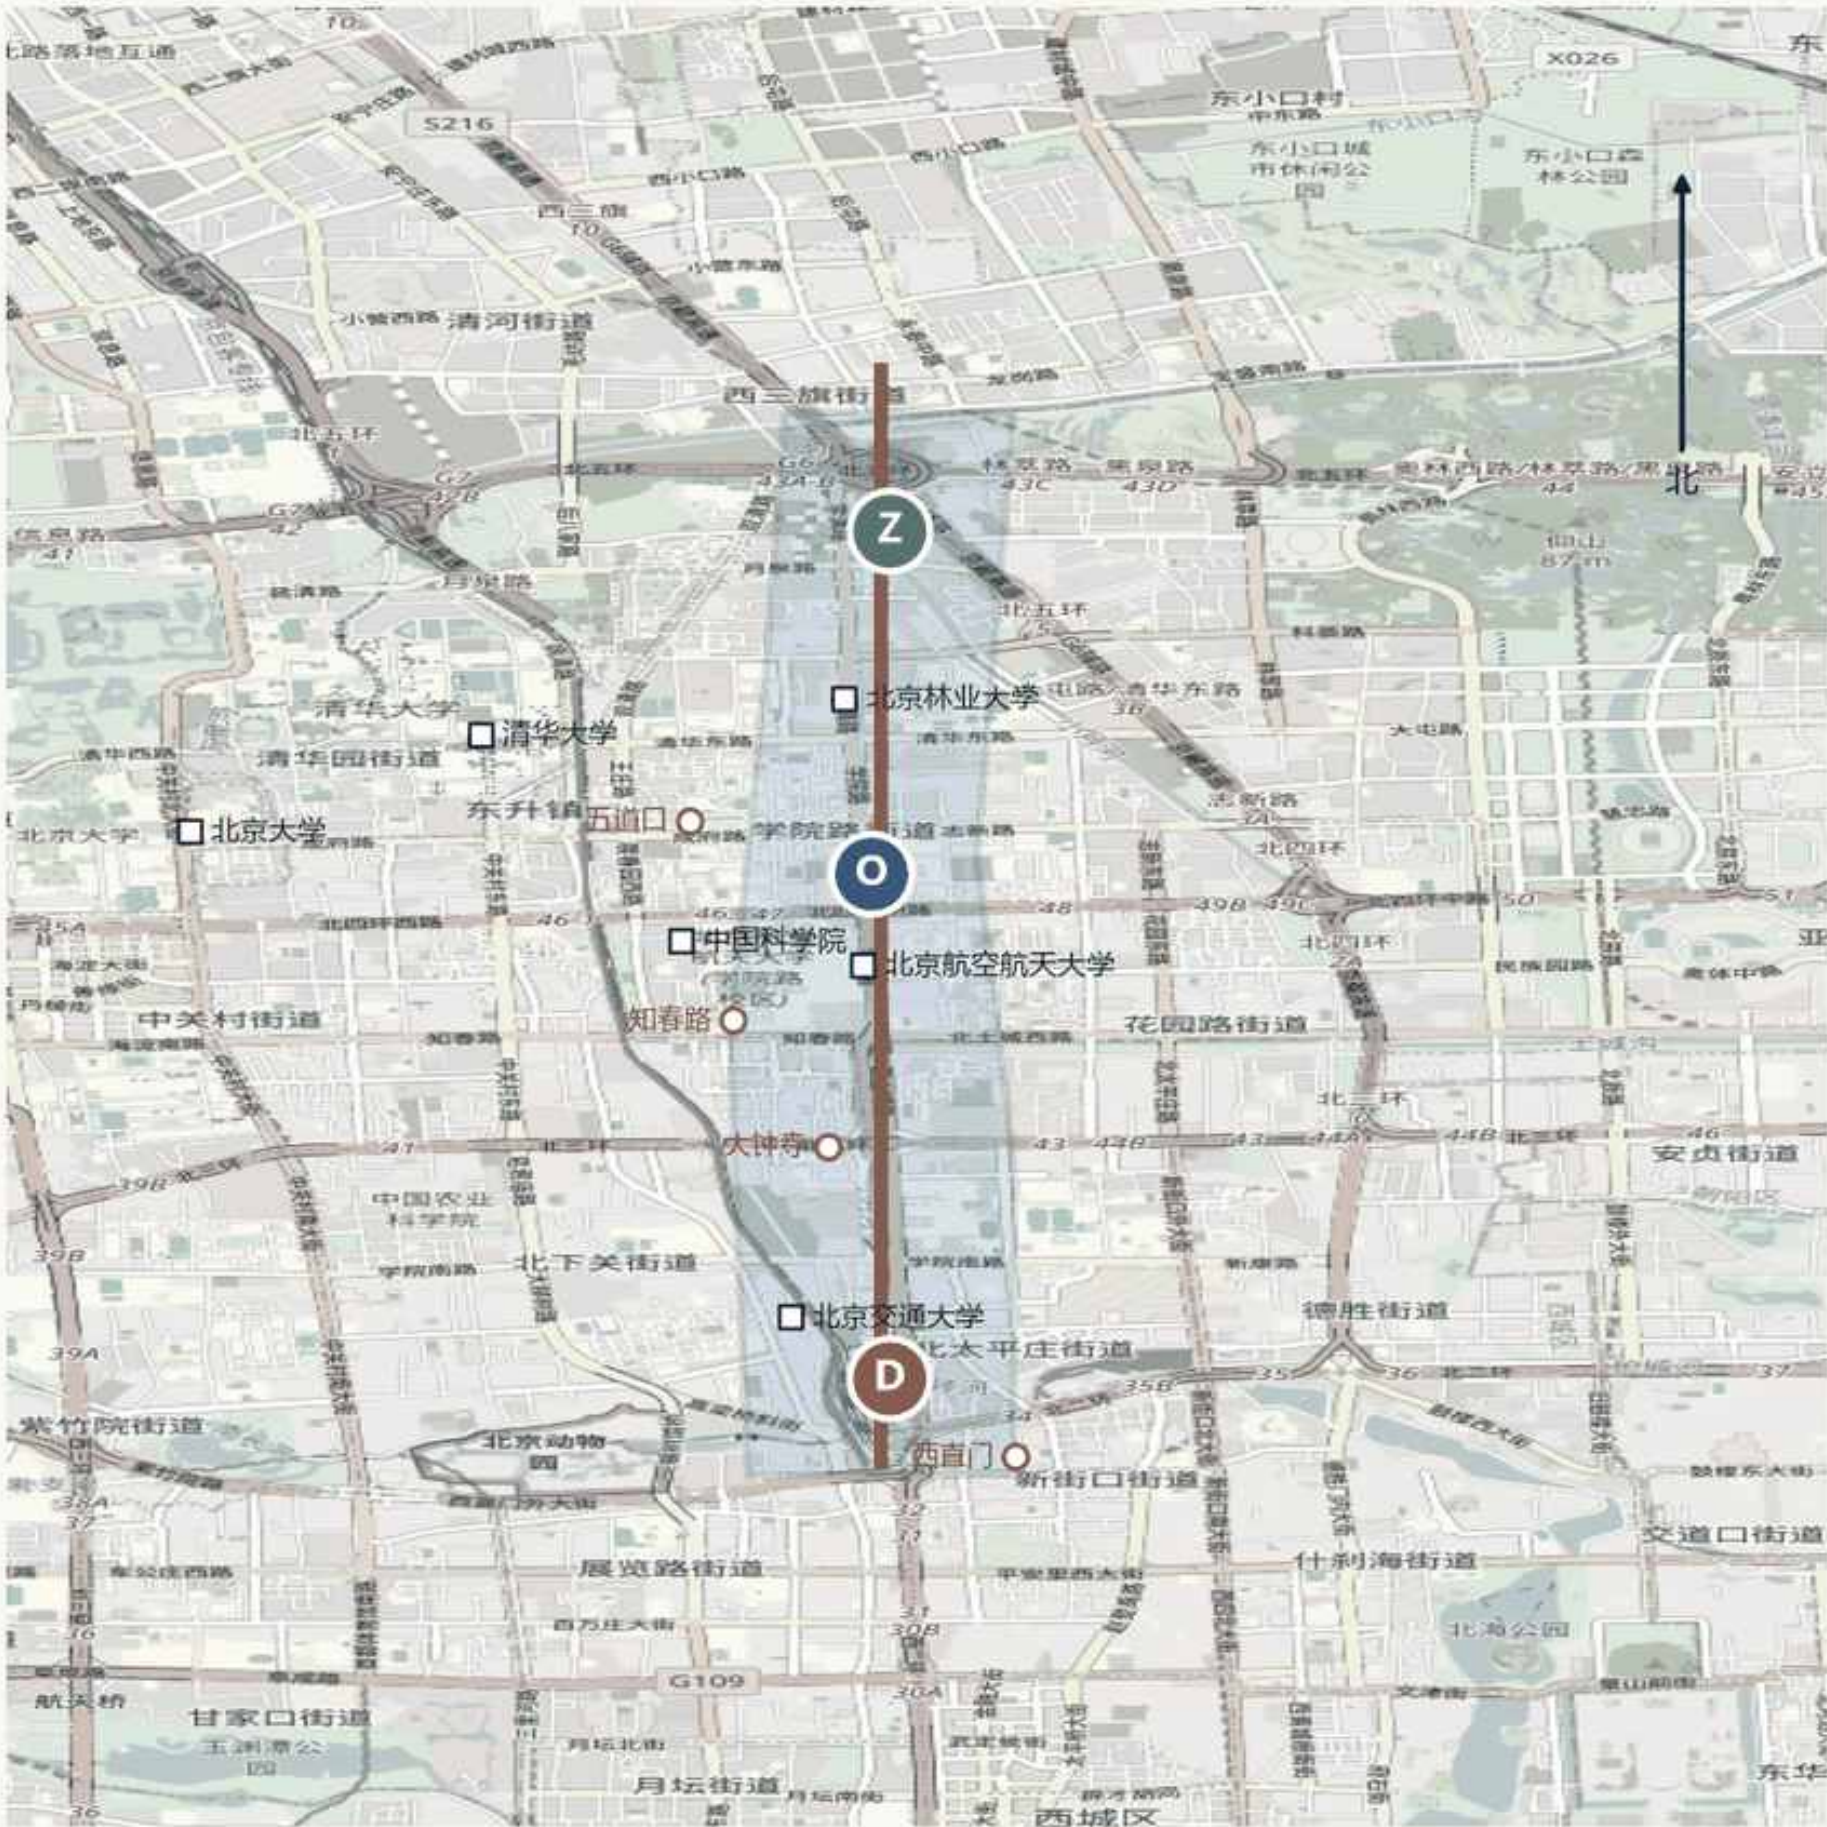

ANCHOR MECHANISM

HQ anchor → transit and talent life → incubation and creator community → enterprise growth. External benchmark only; no corporate participation or resource commitment.

REGIONAL POSITION

MAP-A1 REGIONAL POSITION AND INNOVATION ANCHORS

A continuous innovation belt linking universities, institutes, transit and three differentiated cores.

Base map © OpenStreetMap contributors, OObL, anchors checked against official public sources; provisional constraint.

Official scope facts

Approx. 37 km² coordination area; about 9 km heritage corridor, 1–2 km urban interface.

Innovation density

Public sources identify 2,000+ AI enterprises and a dense university–research–enterprise talent network.

Public-realm base

Underground high-speed rail releases ground space for a north–south green and heritage corridor.

Planning response

Z: verification; O: incubation; D: first orders; west service wing and east testbed wing.

PROBLEM EVIDENCE

MAP-A2 URBAN HEALTH CHECK: PROBLEMS REQUIRE EVIDENCE

Official text, public imagery and provisional geometry are graded separately; unknowns remain field tasks.

Evidence: Beijing planning authority (2021); Haidian public sources; geometry"/>

P1 Complex horizontal and vertical movement

Official evidence, Line 13, cross streets, bottlenecks and breaks.

Action: surveyed node sections before dimensions.

P2 Multiple rights and delivery actors

Railway, universities, institutes, districts and communities.

Action: bind coordination, delivery, operation and acceptance.

P3 One solution cannot fit all segments

Official material confirms varied functions and demands.

Action: verification / incubation / conversion by segment.

P4 No continuous three-core service chain

Derived from separated provisional cores and distinct public functions.

Action: shared catalogue, first-order receipts and links.

P5 Dense talent needs everyday support

Public figures: 1,000+ scientists, 13k+ developers, 100k+ students, 400+ firms.

Action: affordable space, right community, family support.

P6 Interface quality and actual demand

No site photos, counts, accessibility audit or interviews yet.

Action: 24-hour observation, audit and stakeholder interviews.

OPERATIONS & CONTRACTS

OPS-A1 OPERATIONS AND PROJECT CONTRACTS

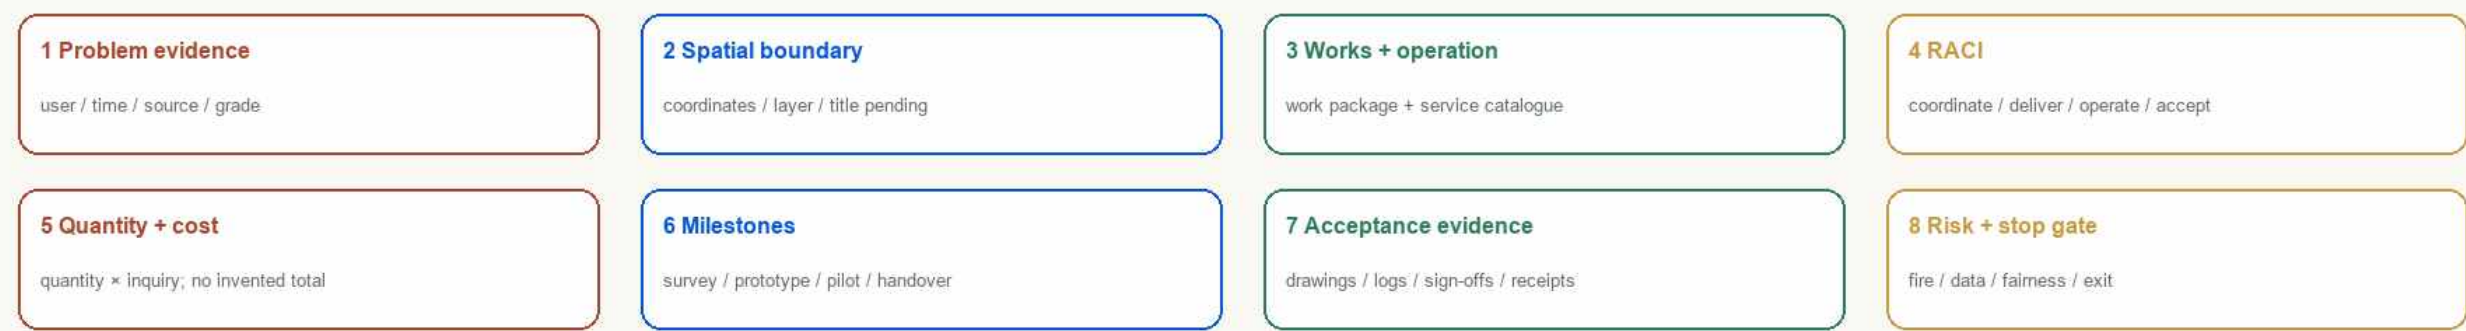

Space is governed by who provides what, who pays, what counts as completion and when a service stops.

A | ANNUAL SERVICE CATALOGUE AND SEPARATE ACCOUNTS

SERVICE	PUBLIC DUTY	OPERATING INCOME	COST ACCOUNT	MINIMUM EVIDENCE / STOP GATE
Shared verification lab	inclusive hours / safety	equipment + test service	equipment sign-off / insurance	structure and fire sign-off; suspend until incident closes
Open-source lounge / night school	non-purchase seats / community time	membership + course + F&B share	curator / tutor / noise	repeat projects and sessions; reduce hours after nuisance
First-order enterprise service	problem catalogue / transparent fee	professional + event service	compliance / match / venue	deal-signed demand; detail undisclosed conflicts

B | MINIMUM PROJECT CONTRACT FIELDS — APPLIES TO ALL 15 PROJECTS

Operating account = space + equipment + professional services + events - staff - energy - maintenance - insurance - public-service flow.

Non-binding operating model; legal entities, accounts, vet, investment and procurement require formal authority and market inquiry.
