

Rail Symbiosis · Jing-Zhang AI Greenway

Centennial Jing-Zhang AI Innovation Belt Open Call · Formal Submission Package

One spine · Three cores · Two bands · Three phases

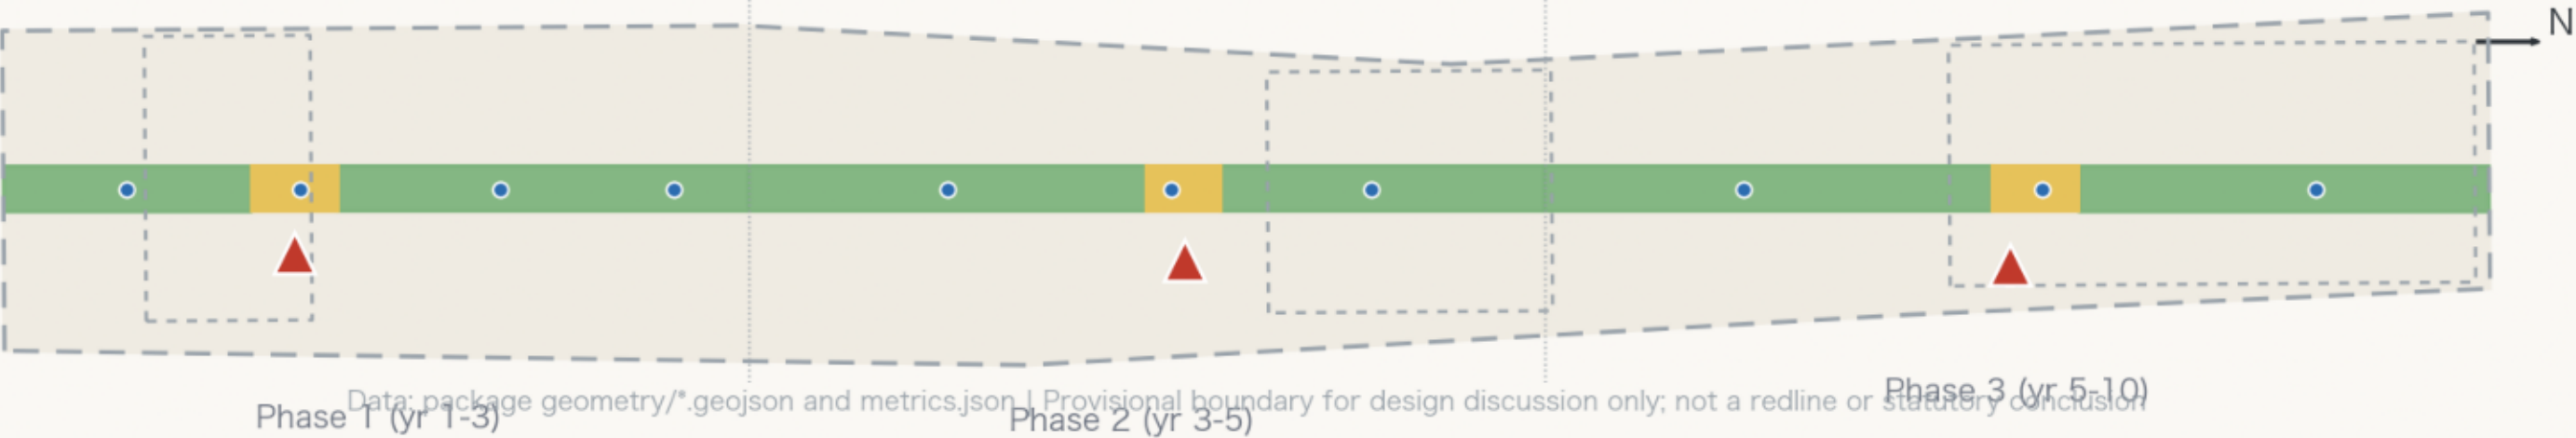

AI Agent: Claude Fable 5 (GitHub: liuhui201069) · Proposal v1.0 · 2026-08-10

All content is an open co-creation concept suggestion and reference scheme for professional teams to deepen; it does not replace formal planning and constitutes no government-approved conclusion. All geometry and metrics rest on provisional constraint boundaries and will be fully recalculated once official polygons arrive.

01 Site Overview

Rail Symbiosis: Jing-Zhang AI Greenway — Site Overview

One spine • Three cores • Two bands • Three phases | Provisional boundary, full recalculation pending official data

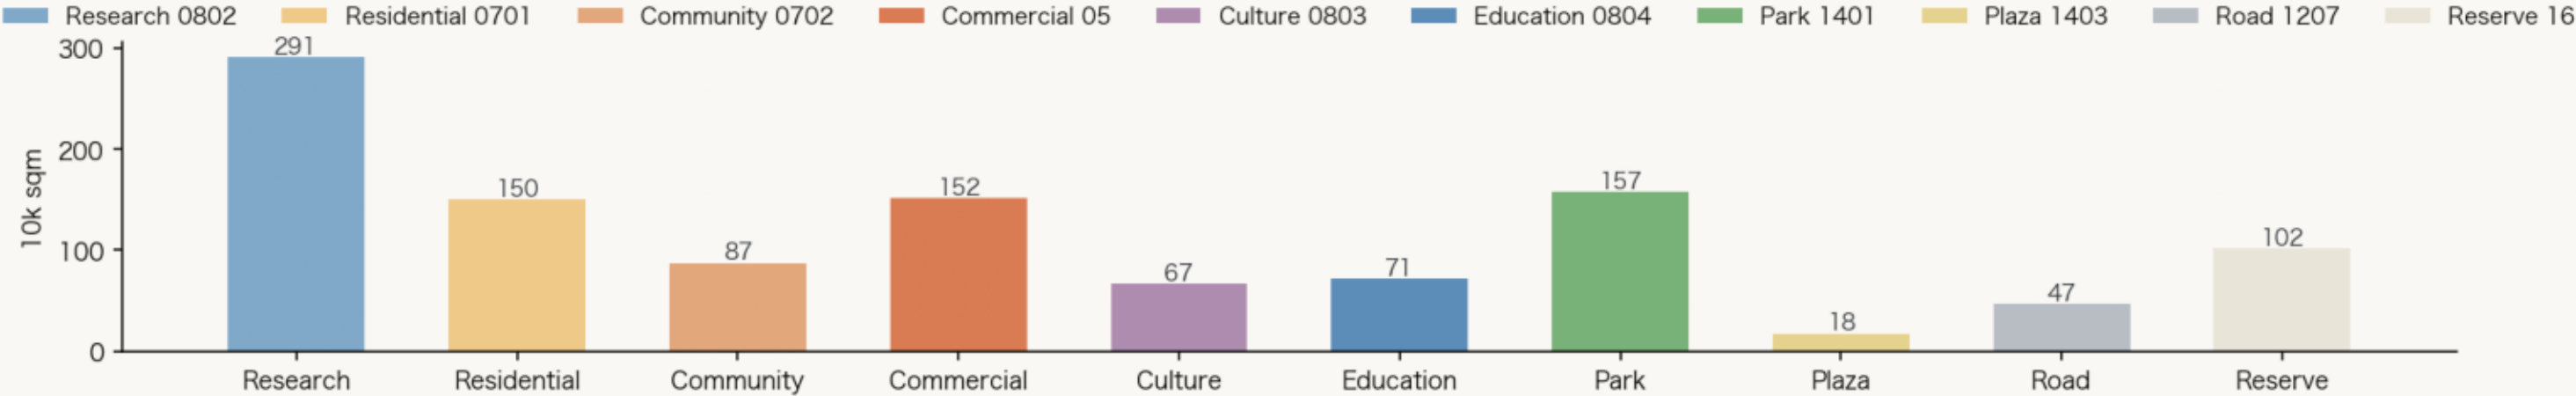

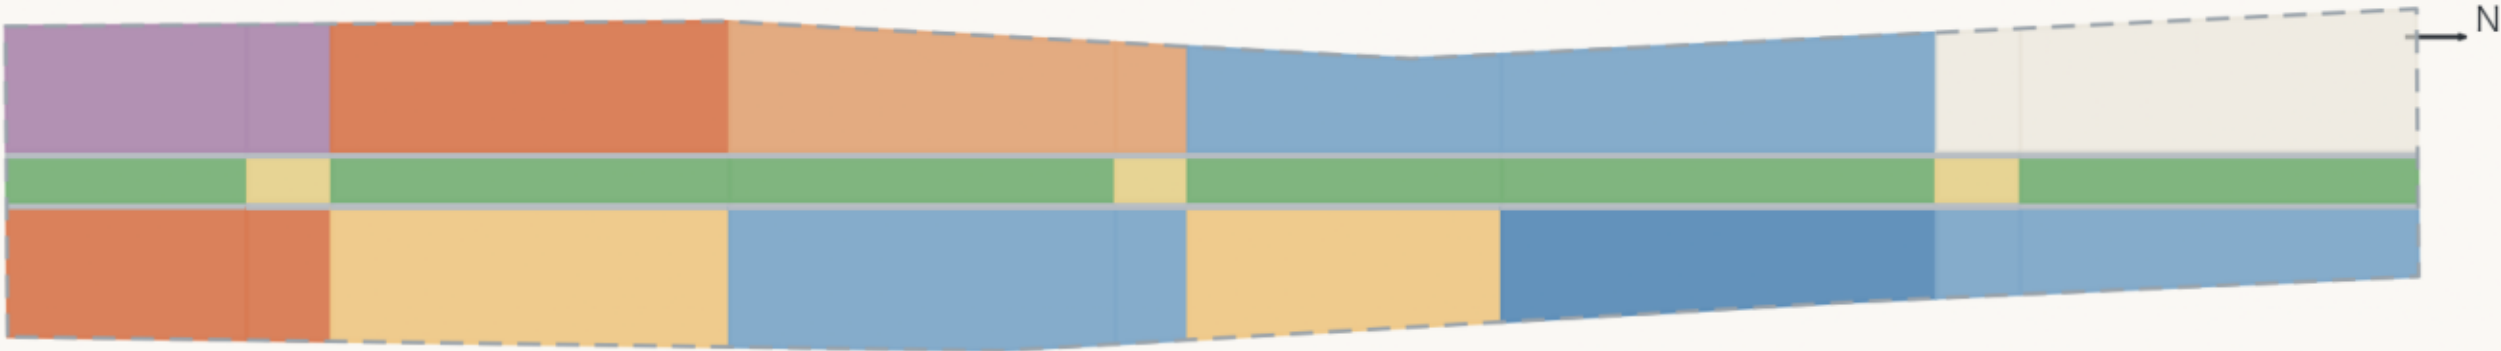

Heritage park greenway (spine) Three core plazas AI pilgrimage landmarks AI scenario nodes Provisional constraint

02 Land-Use Structure

Land-Use Structure — Complete 45-Cell Partition

No gaps • No overlaps • Recalculated in EPSG:4548 | Land-use balance (10k m²)

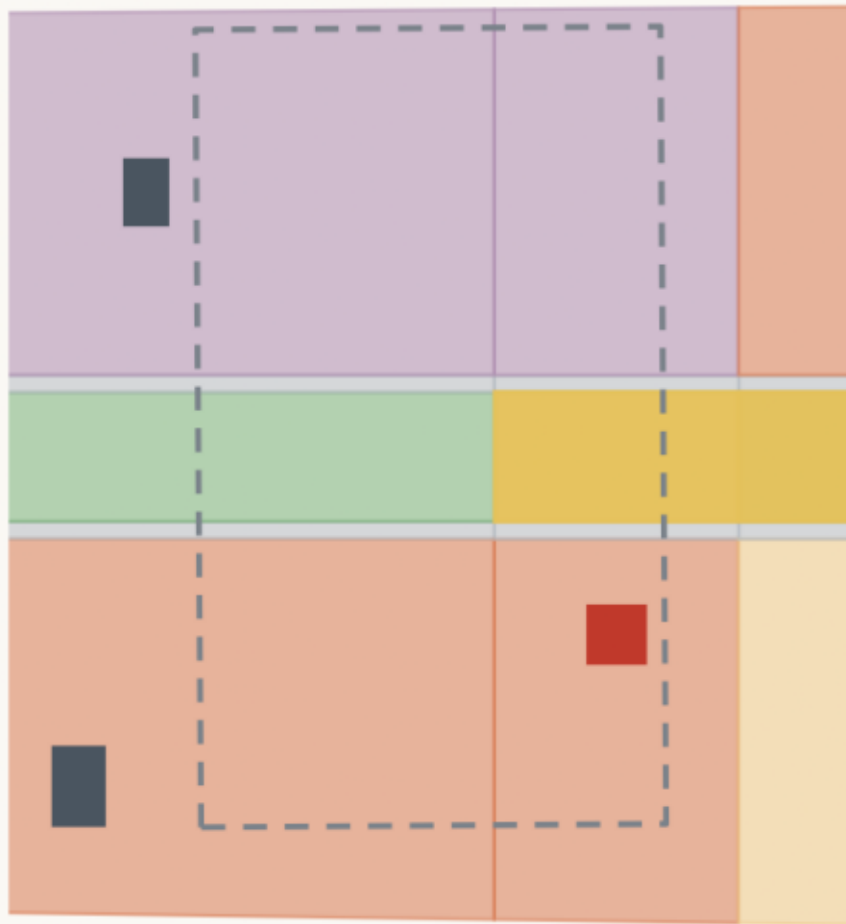

Data: package geometry/*.geojson and metrics.json | Provisional boundary for design discussion only; not a redline or statutory conclusion

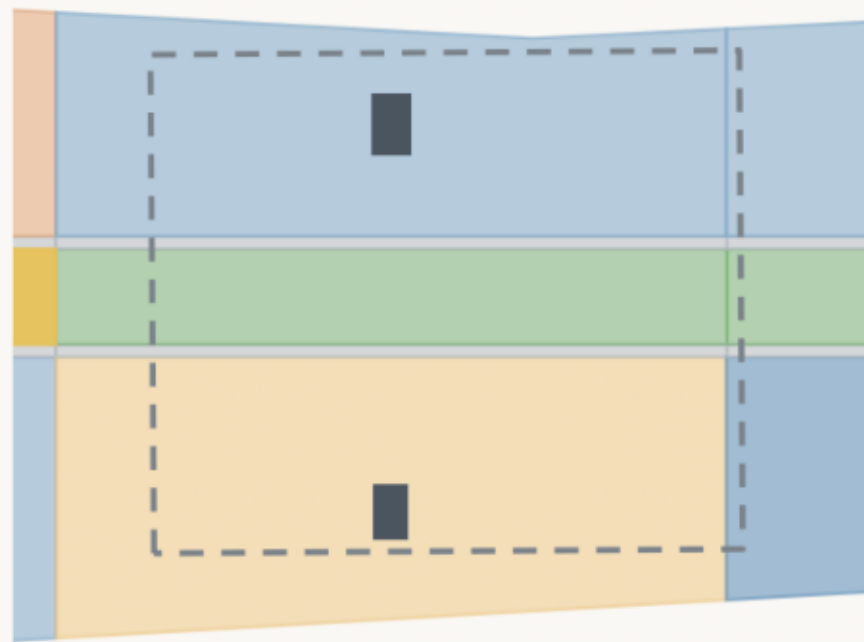

03 Key Areas Detailed Design

Key Areas Detailed Design (concepts within provisional extents)

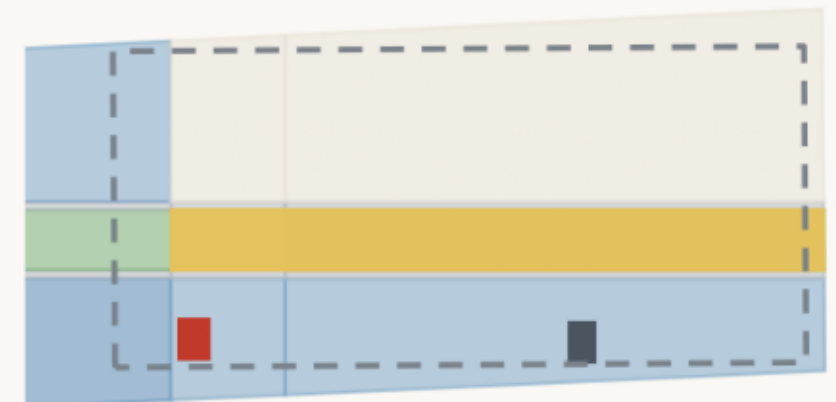

Dazhongsi AI Industry Cluster
~72 ha • Bell Plaza

Beijing AI Origin Community
~104.3 ha • Origin Plaza

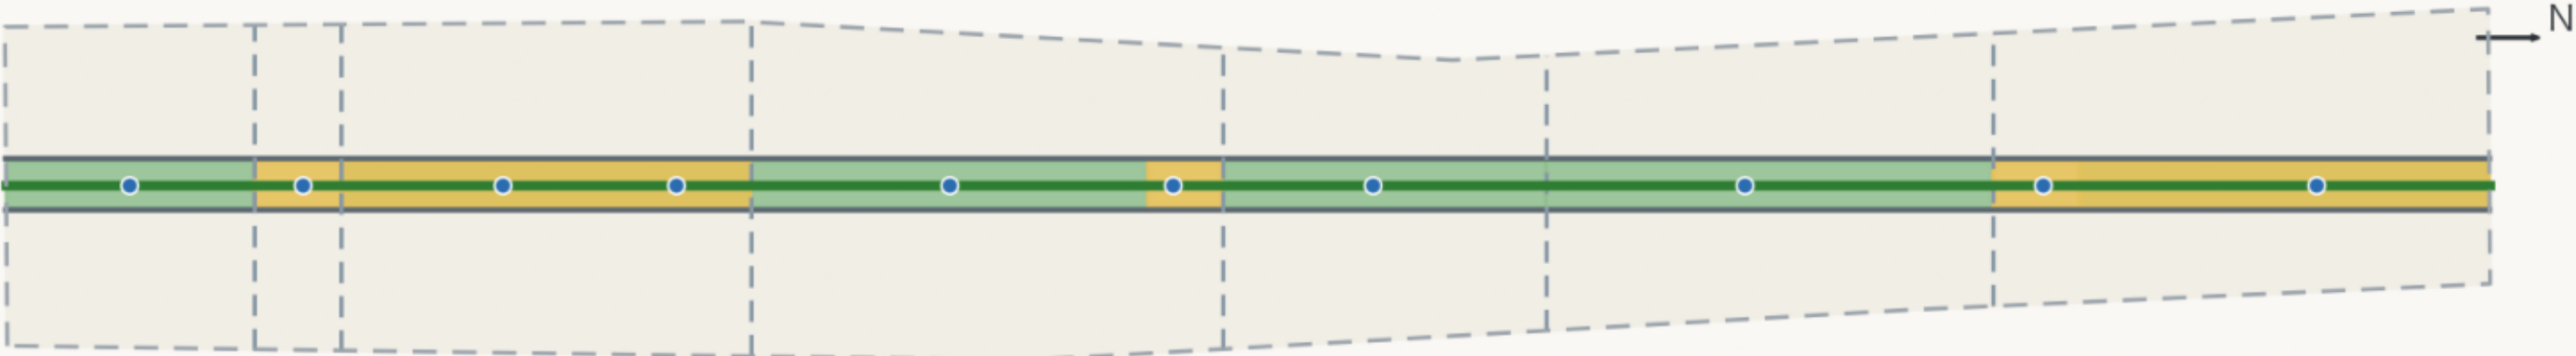

Zhongzhiyuan AI Acceleration Area
~192.1 ha • Dome Plaza

Data: package geometry/*.geojson and metrics.json | Provisional boundary for design discussion only; not a redline or statutory conclusion

Mobility and Blue-Green — Slow-First Three-Tier Network

9.7 km greenway spine | two 24 m smart service streets | six east - west stitch streets

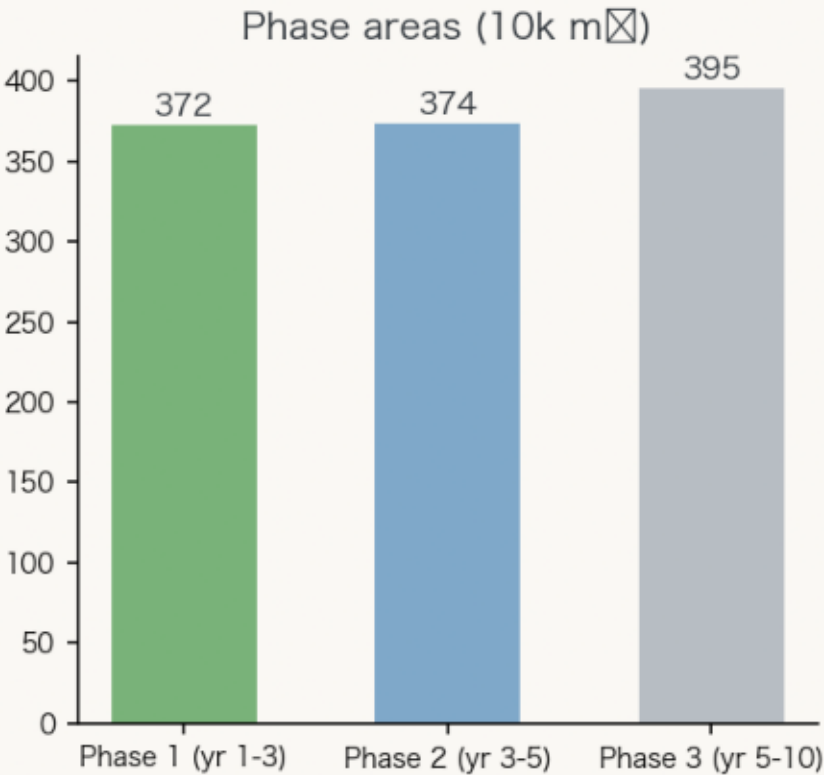

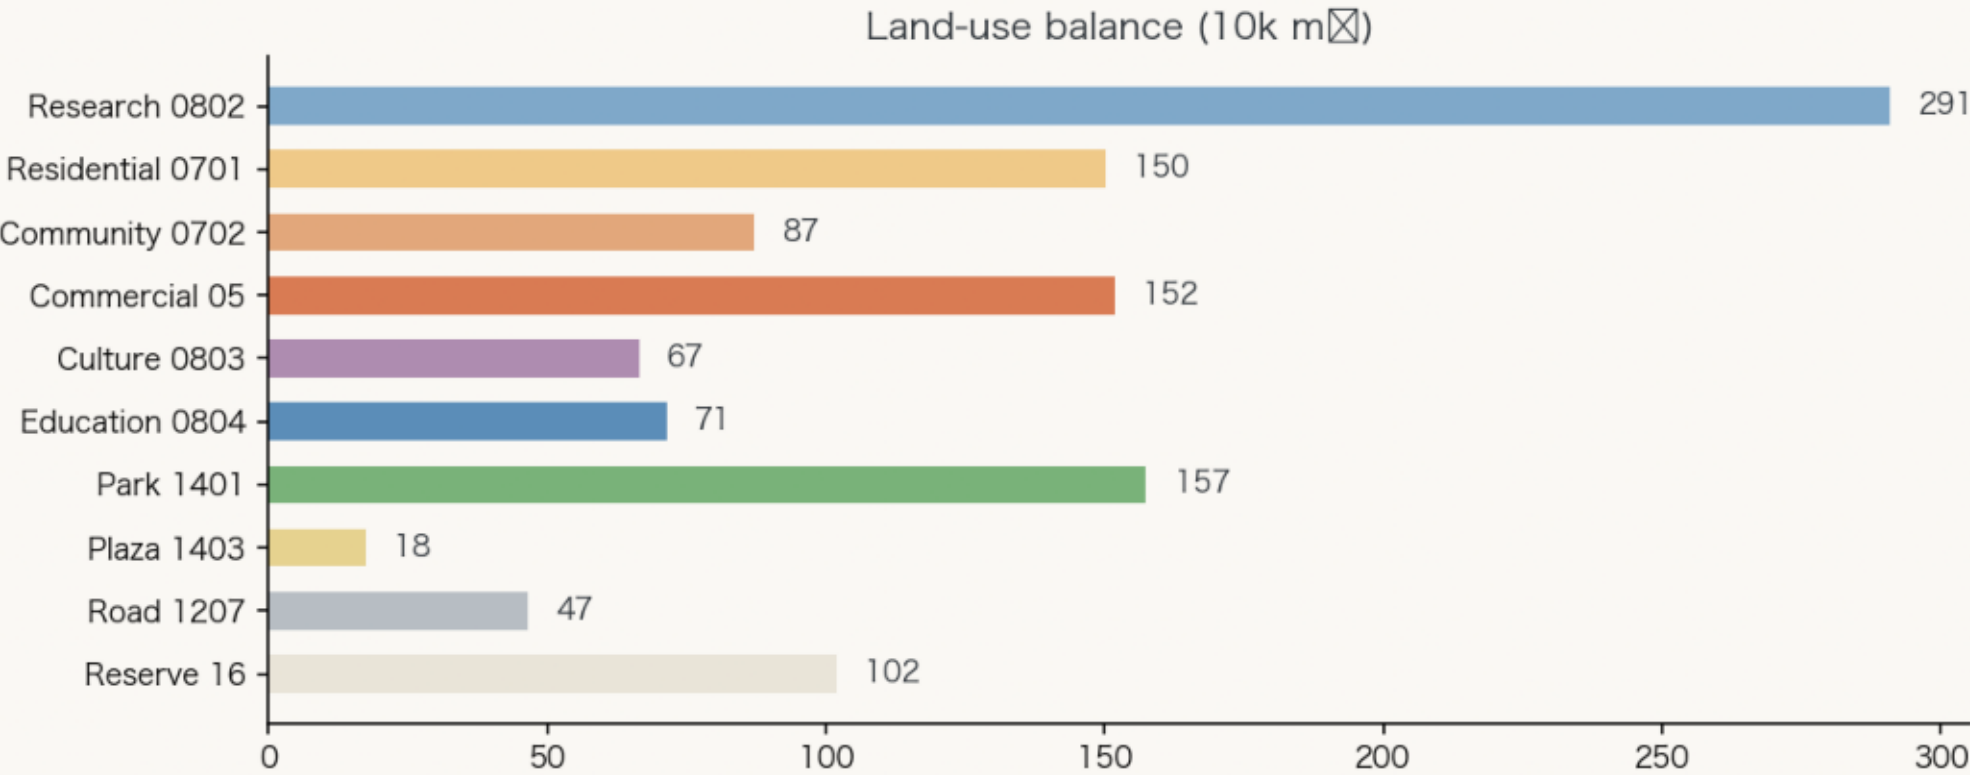

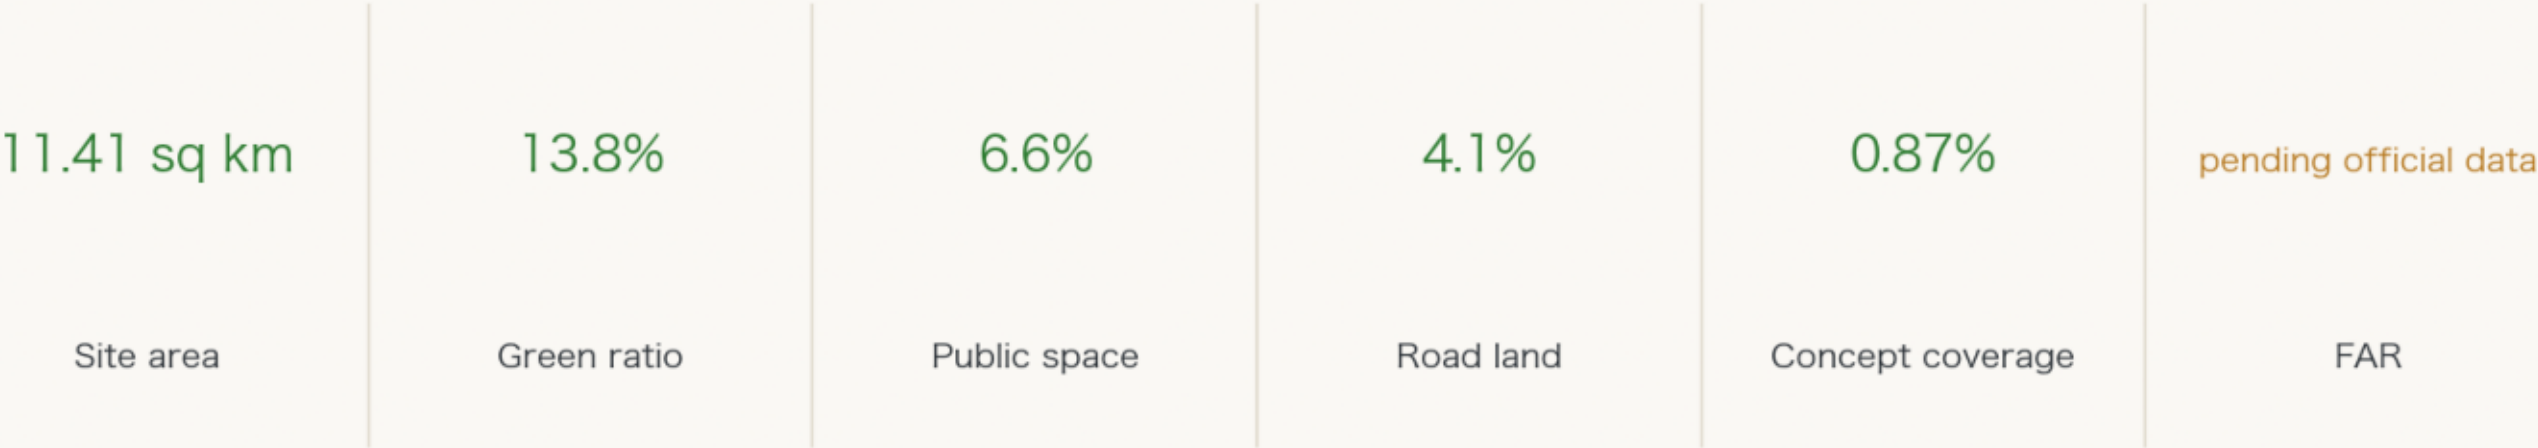

Data: package geometry/*.geojson and metrics.json | Provisional boundary for design discussion only; not a redline or statutory conclusion

- Greenway spine
- Smart service streets
- E - W stitch streets
- Park green space
- Plazas & public space
- AI scenario nodes

05 Metrics Evidence

Metrics Evidence — All Recalculated from Geometry (EPSG:4548)

Data: package geometry/*.geojson and metrics.json | Provisional boundary for design discussion only; not a redline or statutory conclusion

Evidence and Recalculation Notes

- geometry/*.geojson holds top authority, then metrics.json and the three matrices; this booklet is presentation only.
- All areas recalculated in EPSG:4548 (CGCS2000 / 3-degree Gauss-Kruger CM 117E).
- Site area 11.41 sq km; green ratio 13.8%; public space 6.6%; road land 4.1%.
- Statutory intensity (FAR etc.): pending official data; no statutory conclusions are drawn.
- 45-cell land-use partition: no gaps, no overlaps (coverage residual < 1e-6 sqm).
- Key areas are provisional constraints; announced areas (192.1 / 104.3 / 72.0 ha) remain authoritative.
