

Site Evidence Overview

GeoJSON-derived boundary, land use, green/public space, buildings, roads and key areas

PROVISIONAL · NOT OFFICIAL REDLINE

Legend

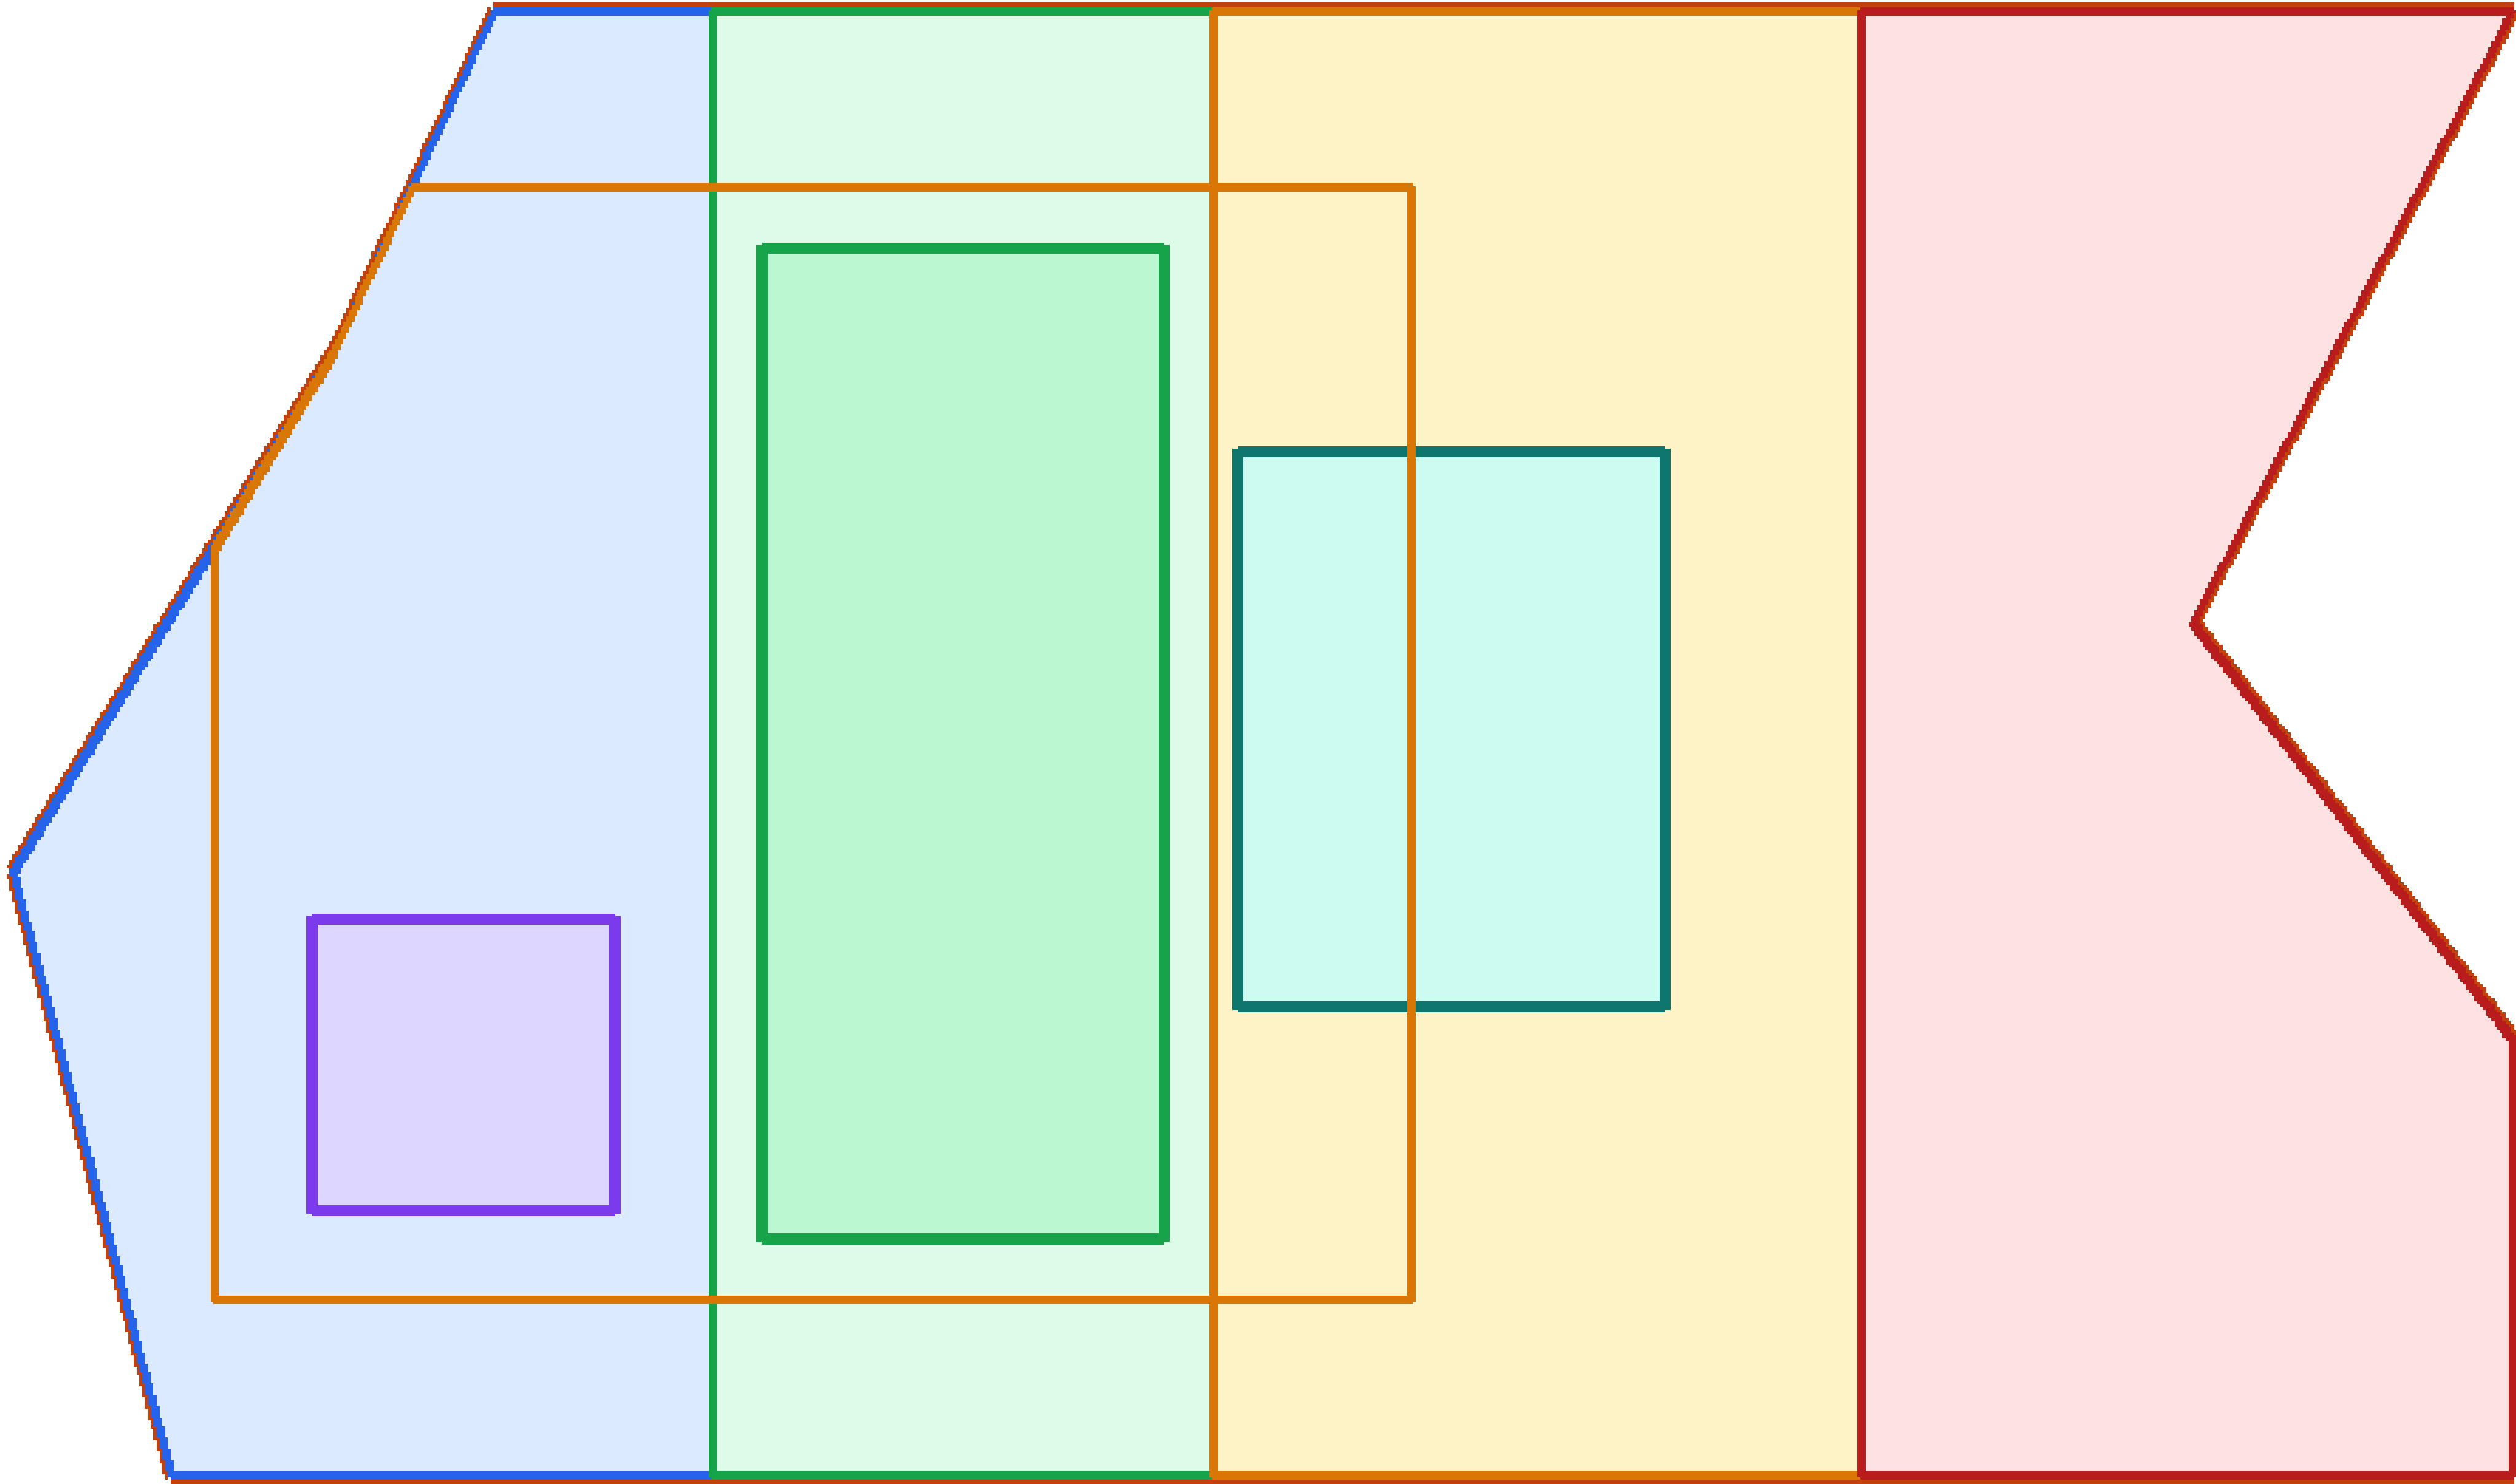

- Boundary
- Land use
- Green space
- Public space
- Building
- Road / path
- Key area
- Phase 1

Note: all geometry is provisional or participant-generated unless source evidence says otherwise.

Land-use Structure and Three Scopes

Four land-use zones, phase-one area and the three-level task structure

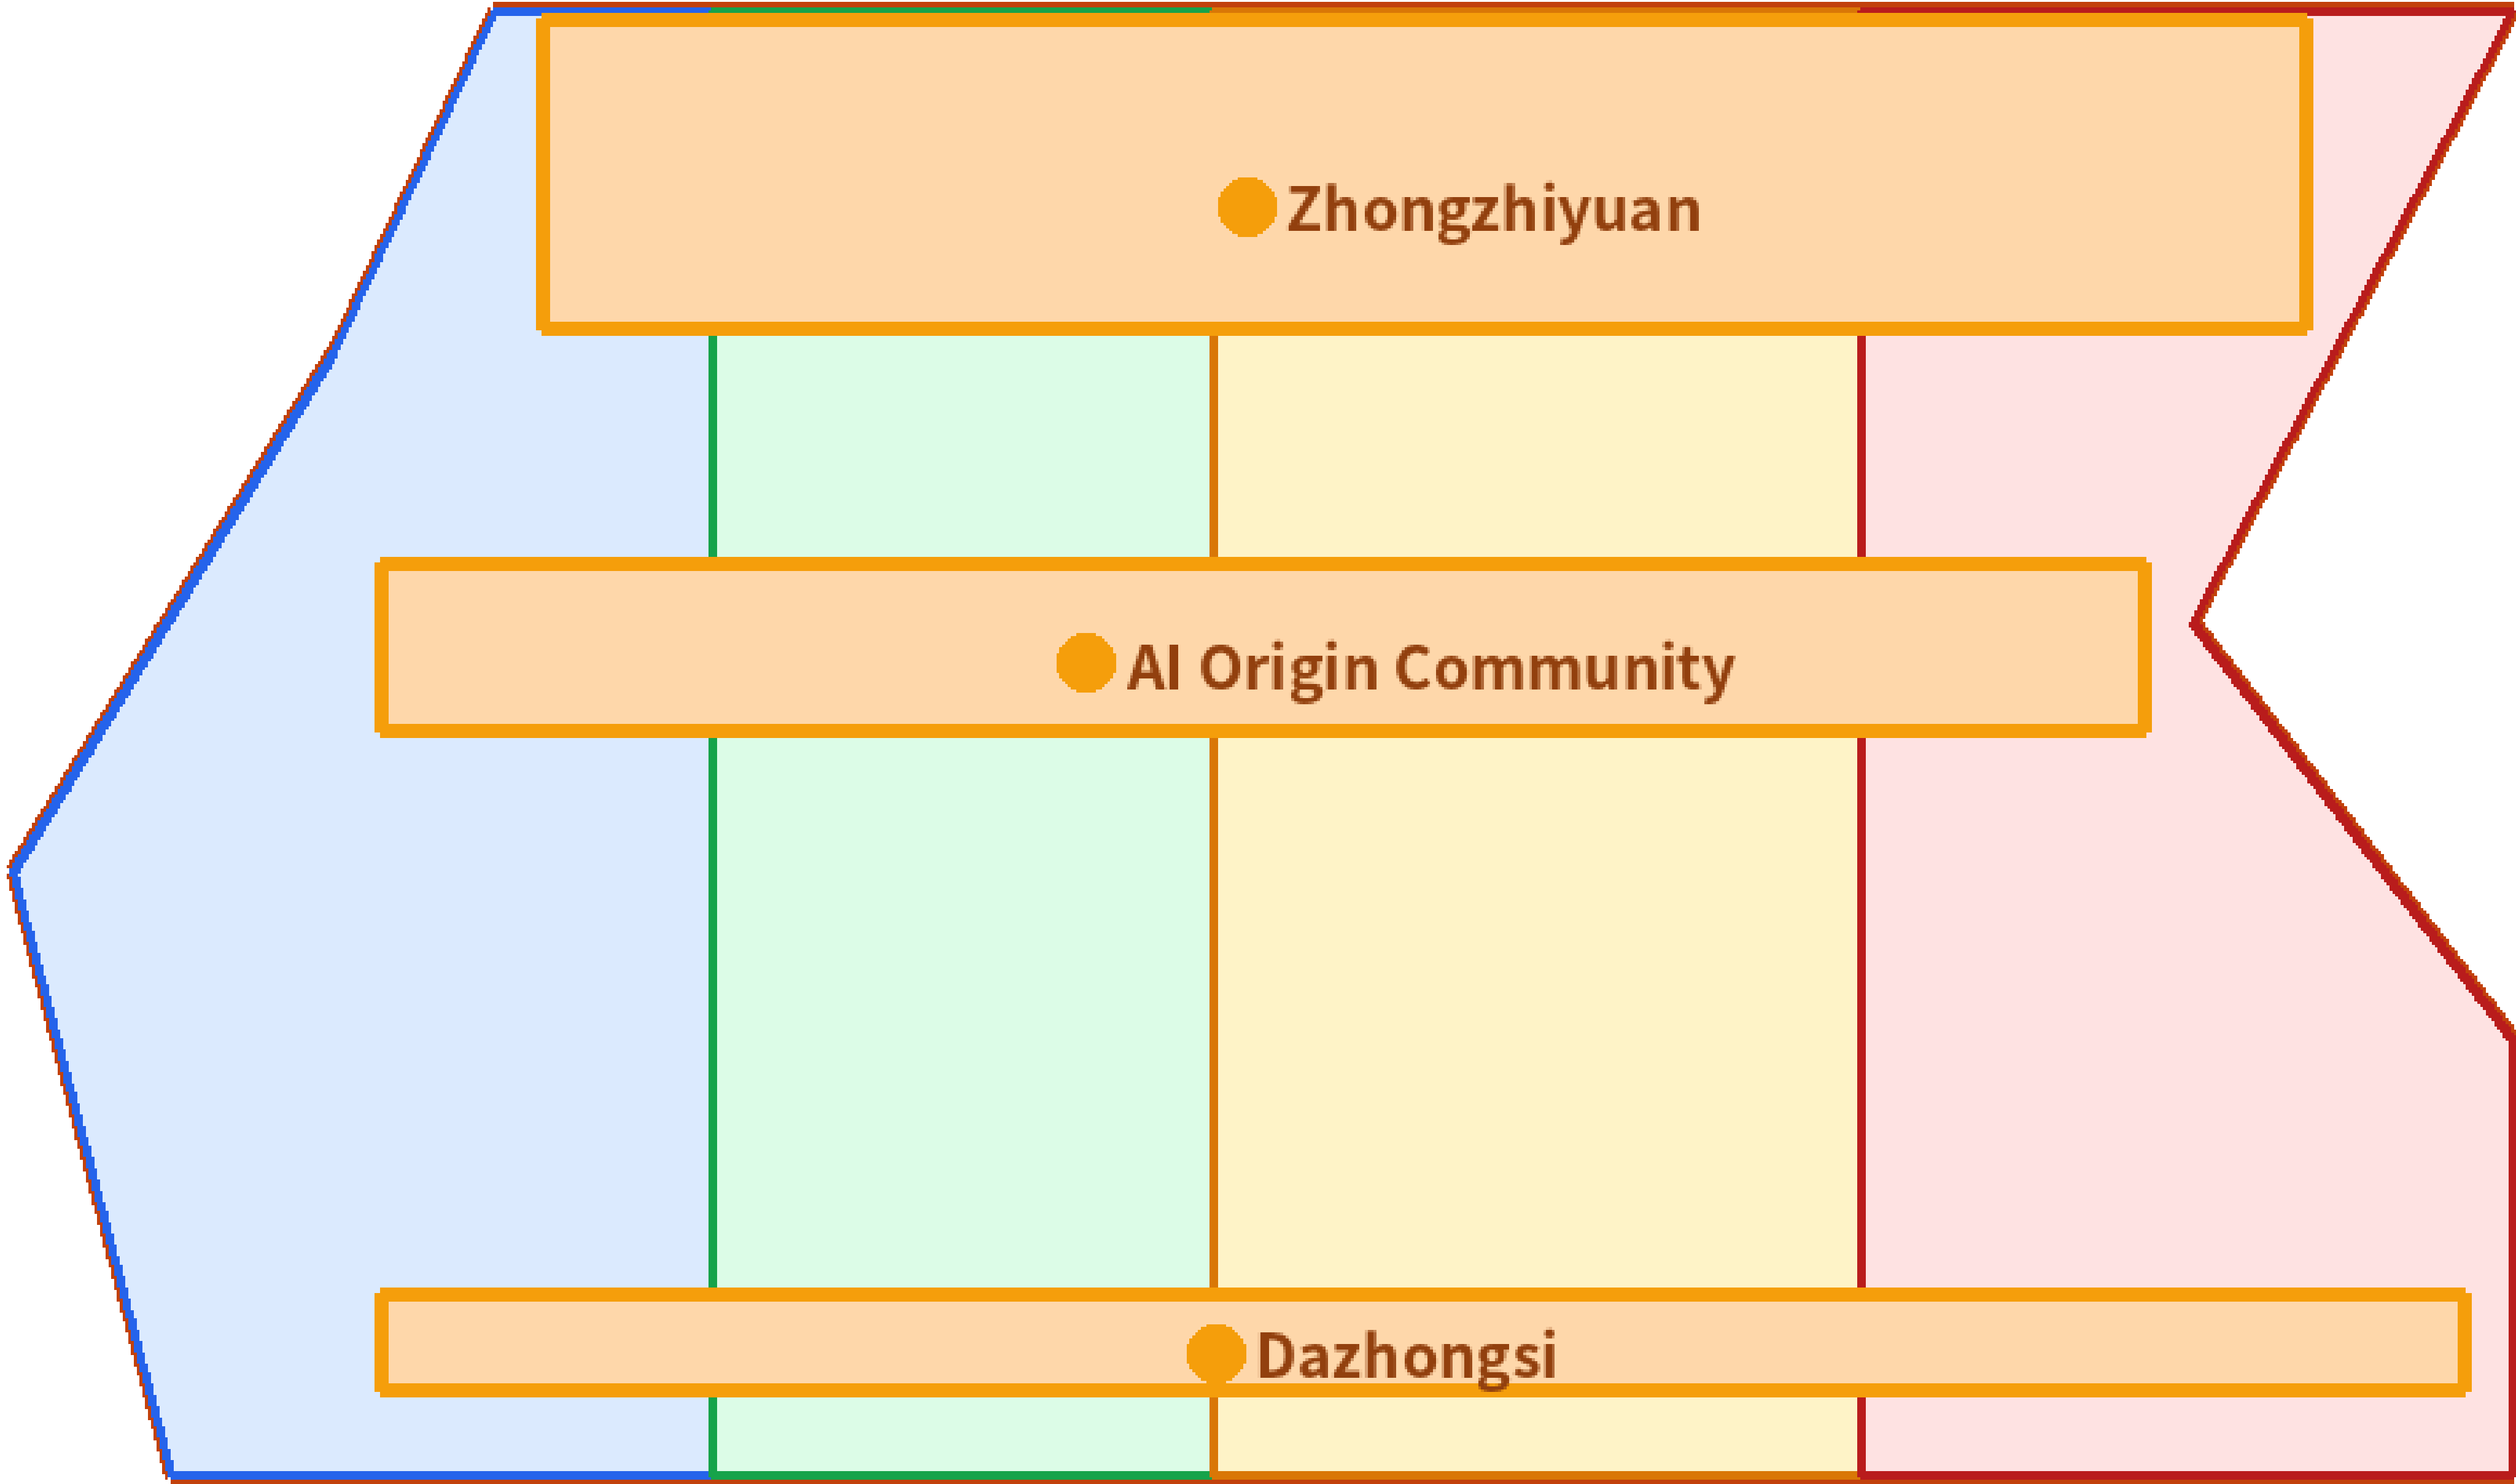

PROVISIONAL · NOT OFFICIAL REDLINE

Note: all geometry is provisional or participant-generated unless source evidence says otherwise.

Three Key Areas and Two Wings

Three anchors plus two-wing collaboration interfaces; ranges remain provisional

Legend

- Boundary
- Land use
- Green space
- Public space
- Building
- Road / path
- Key area
- Phase 1

Northwest Wing

Future Science / Huairou / Jing-Jin-Ji

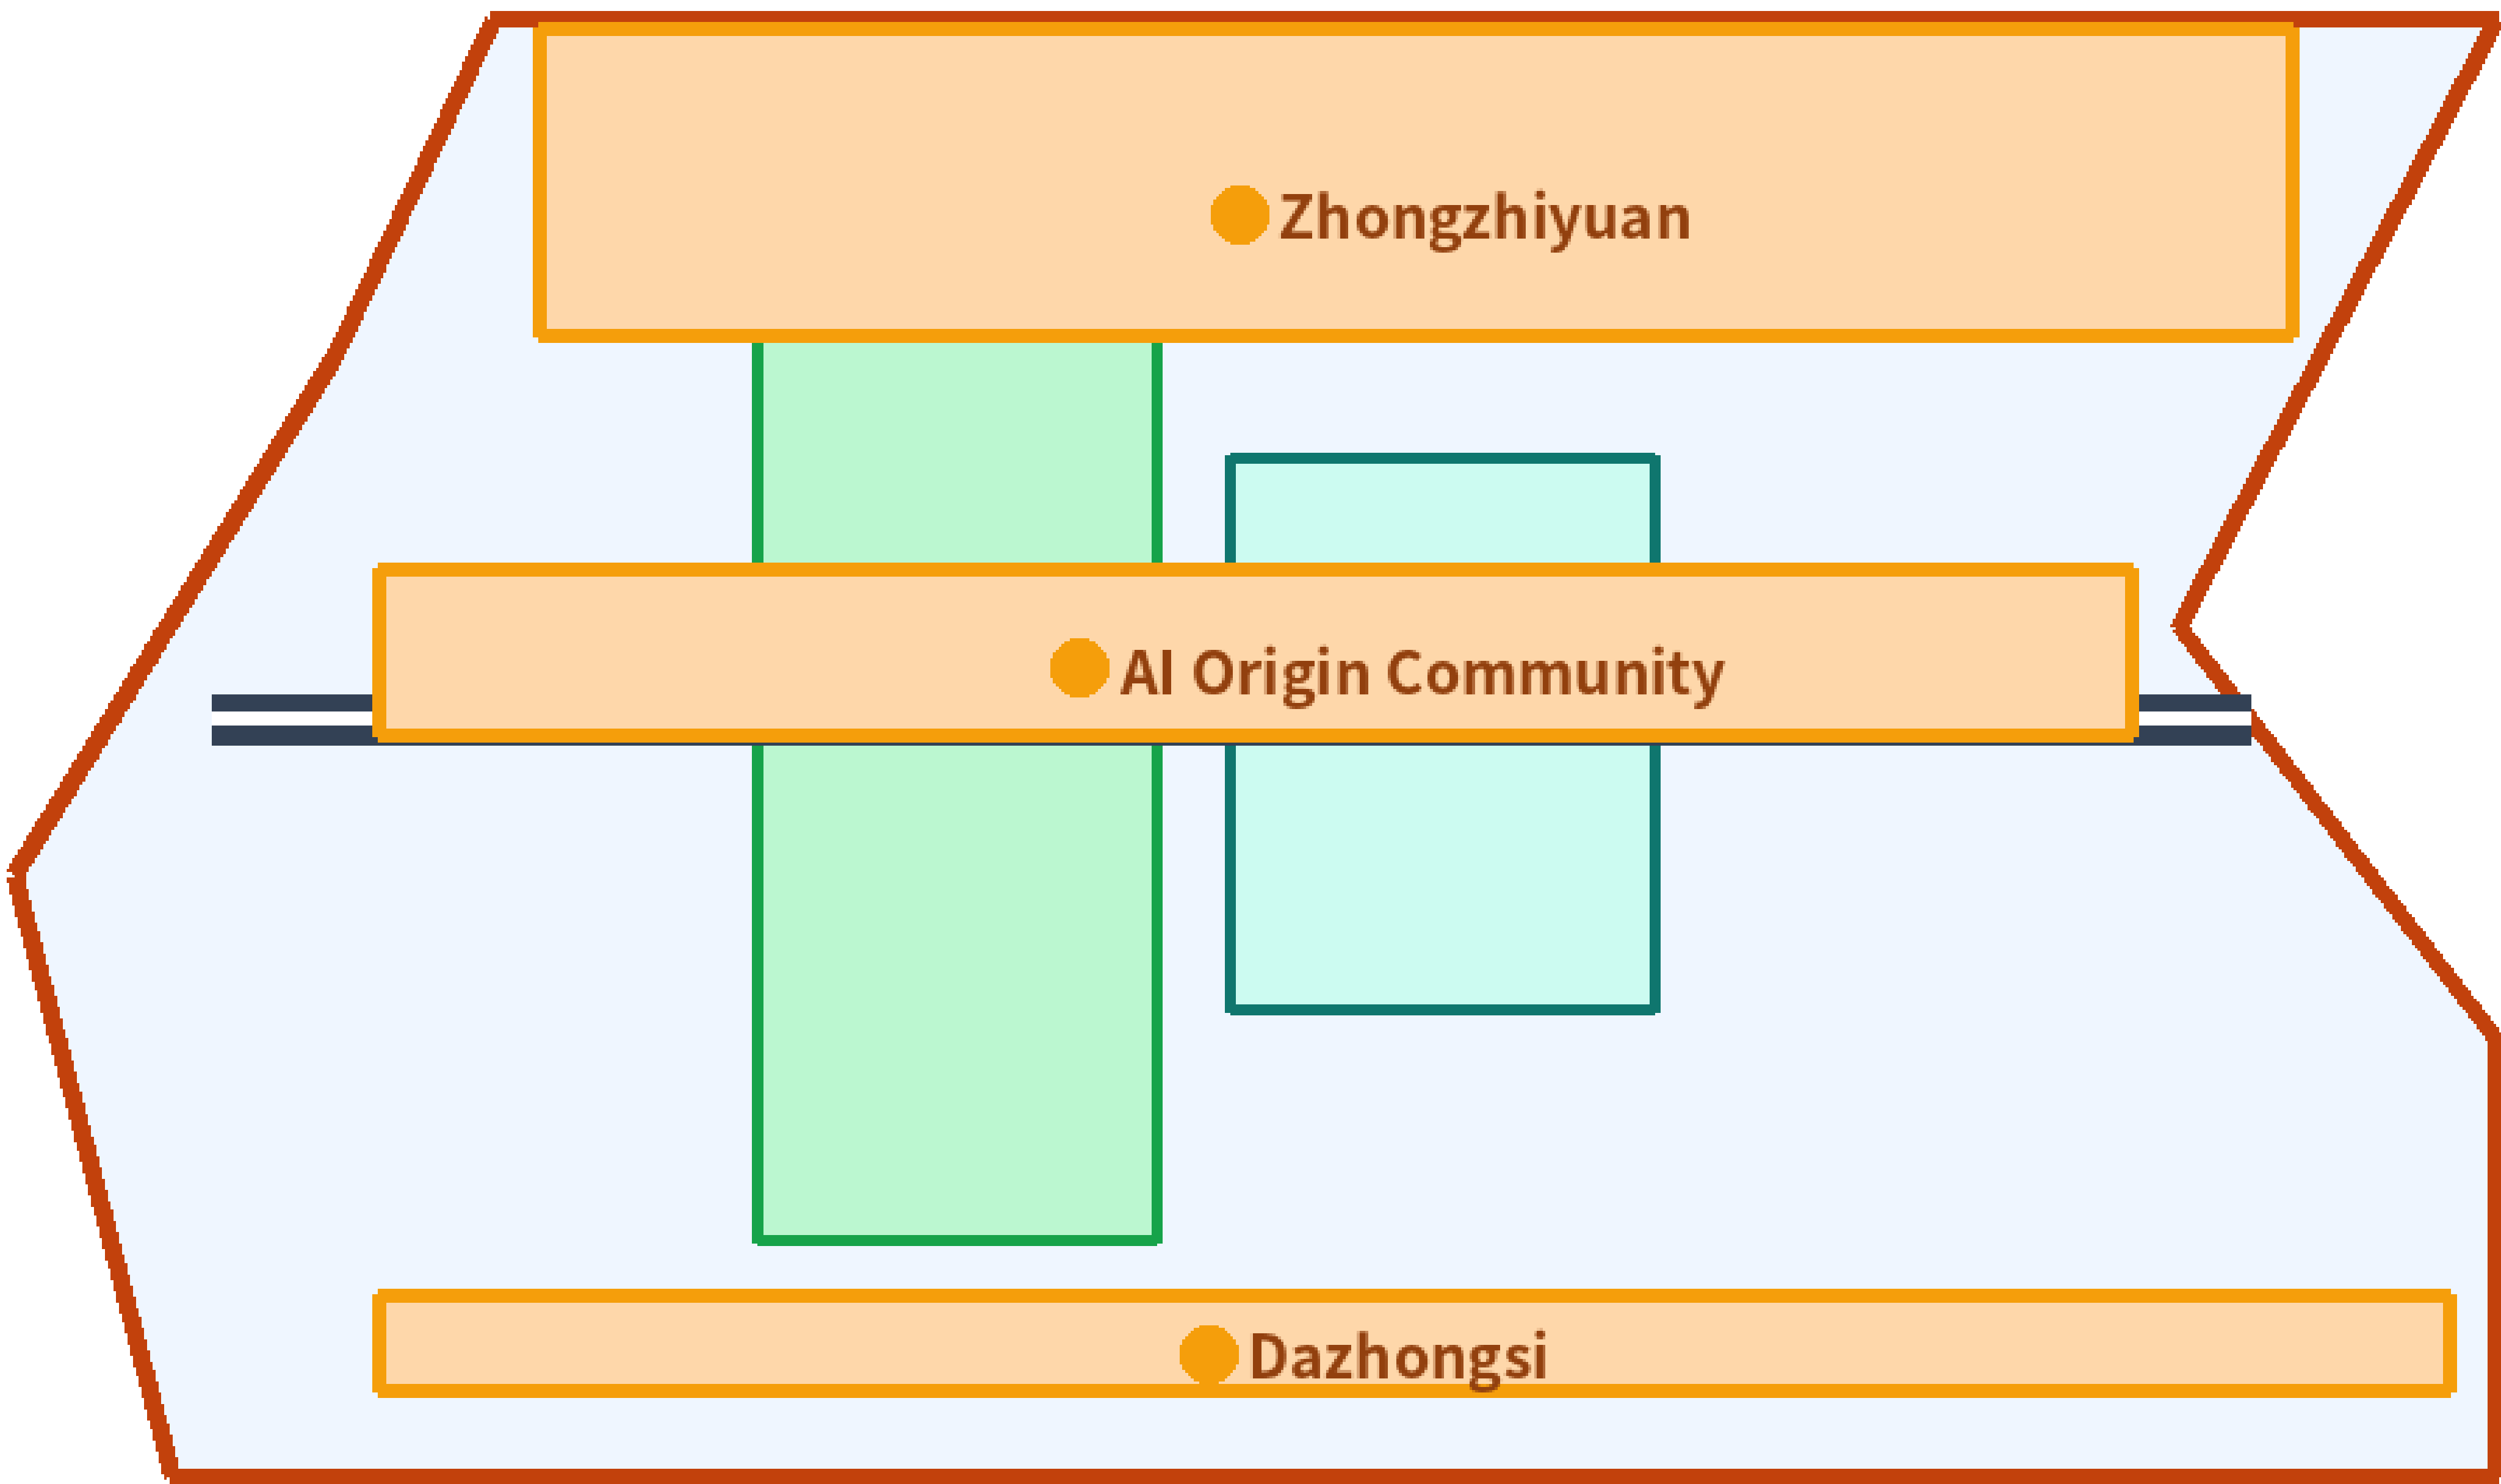

Southeast Wing

Jingkai / regional AI industry

Note: all geometry is provisional or participant-generated unless source evidence says otherwise.

Mobility, Blue-Green and Public Space

Road/path corridor links green space, public space and three key areas

Legend

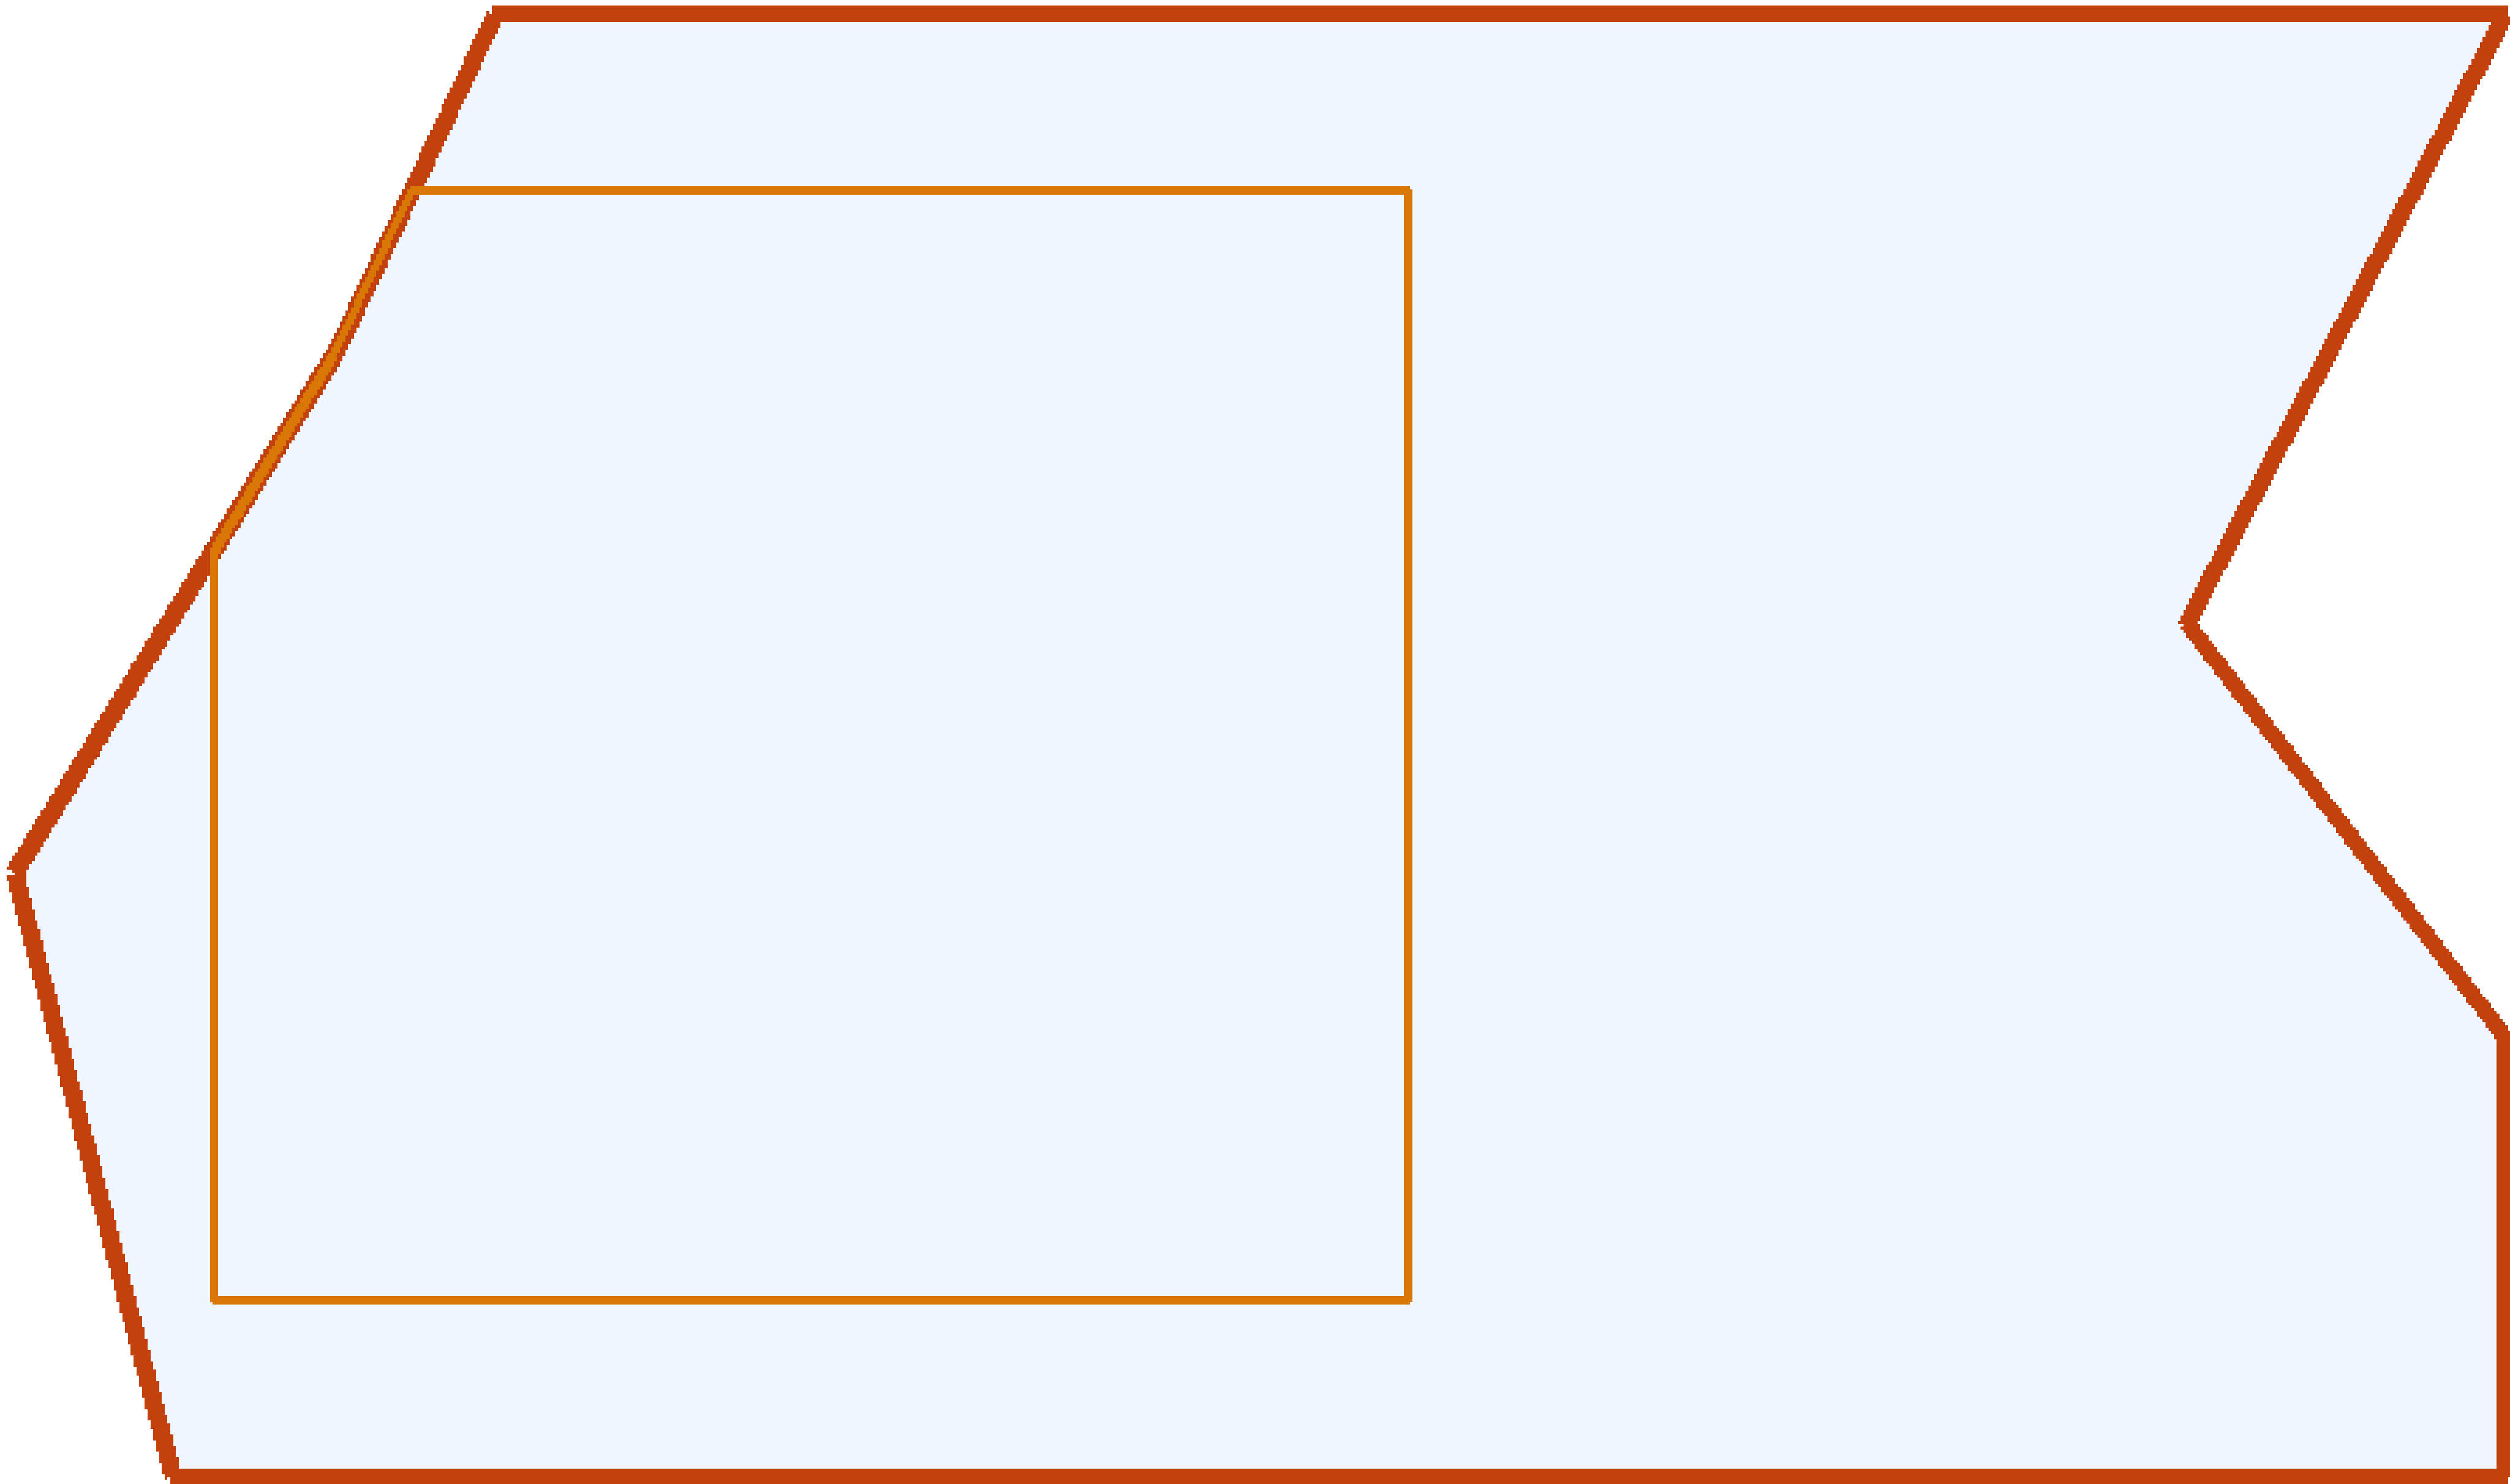

- Boundary
- Land use
- Green space
- Public space
- Building
- Road / path
- Key area
- Phase 1

Manual fallback + accessible route need field ve

Note: all geometry is provisional or participant-generated unless source evidence says otherwise.

Metrics Recalculation and Evidence Chain

Areas and ratios are derived from submitted GeoJSON for intake review only

PROVISIONAL · NOT OFFICIAL REDLINE

Legend

- Boundary
- Land use
- Green space
- Public space
- Building
- Road / path
- Key area
- Phase 1

Site area	
11.4 km ²	low
Green ratio	
12.34%	medium
Public-space ratio	
7.33%	medium
Key areas	
3	low

Note: all geometry is provisional or participant-generated unless source evidence says otherwise.
