

Jing-Zhang Co-Creation Loop

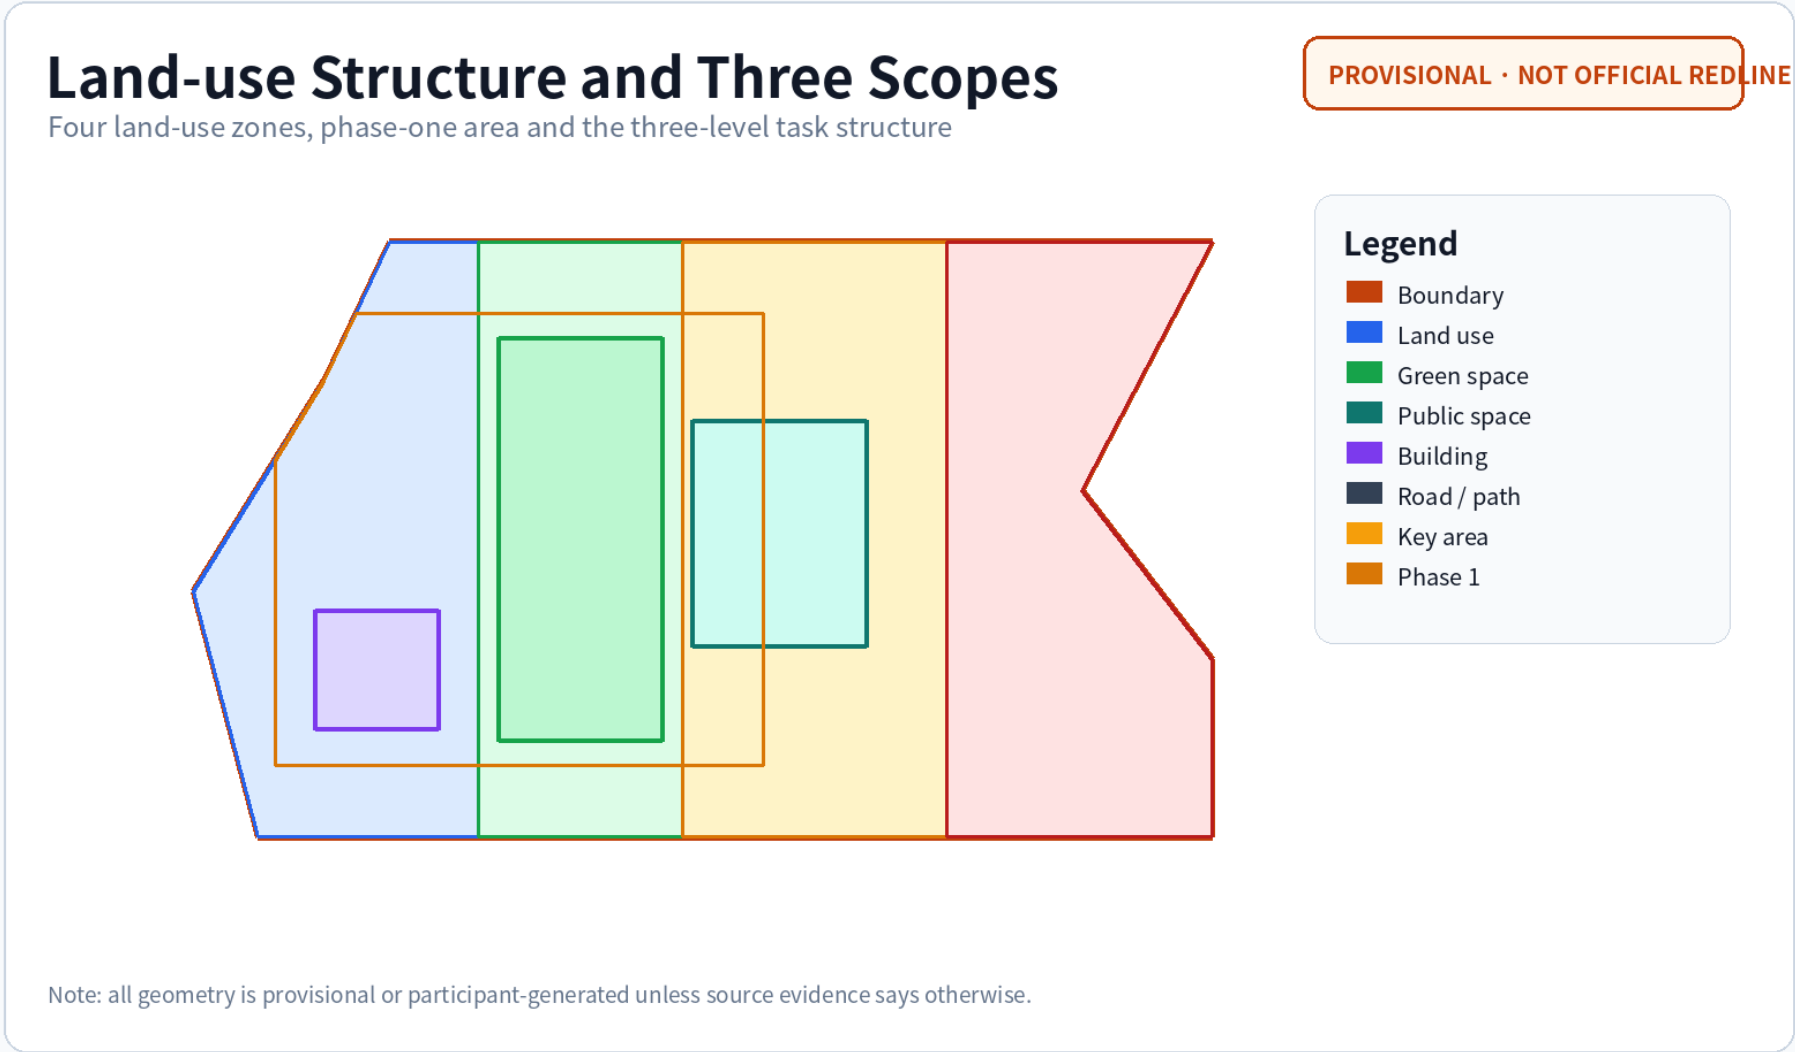

PROVISIONAL · NOT OFFICIAL REDLINE

This booklet summarizes the proposal, scenario responsibilities, public-interest KPIs and evidence maps. It does not claim official approval.

Site Evidence Overview

Land-use Structure and Three Scopes

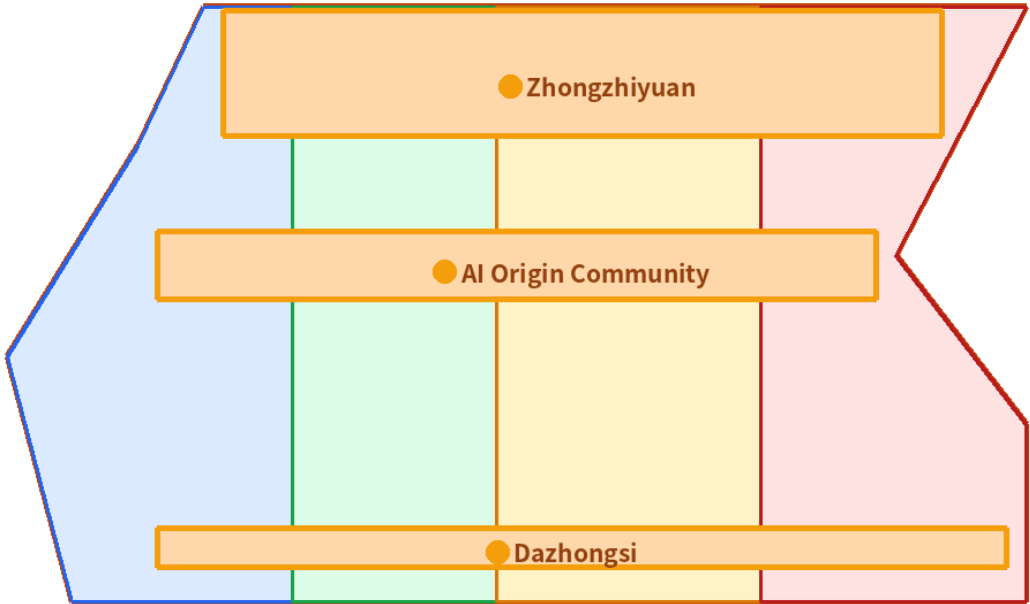

Three Key Areas and Two Wings

Three Key Areas and Two Wings

Three anchors plus two-wing collaboration interfaces; ranges remain provisional

PROVISIONAL · NOT OFFICIAL REDLINE

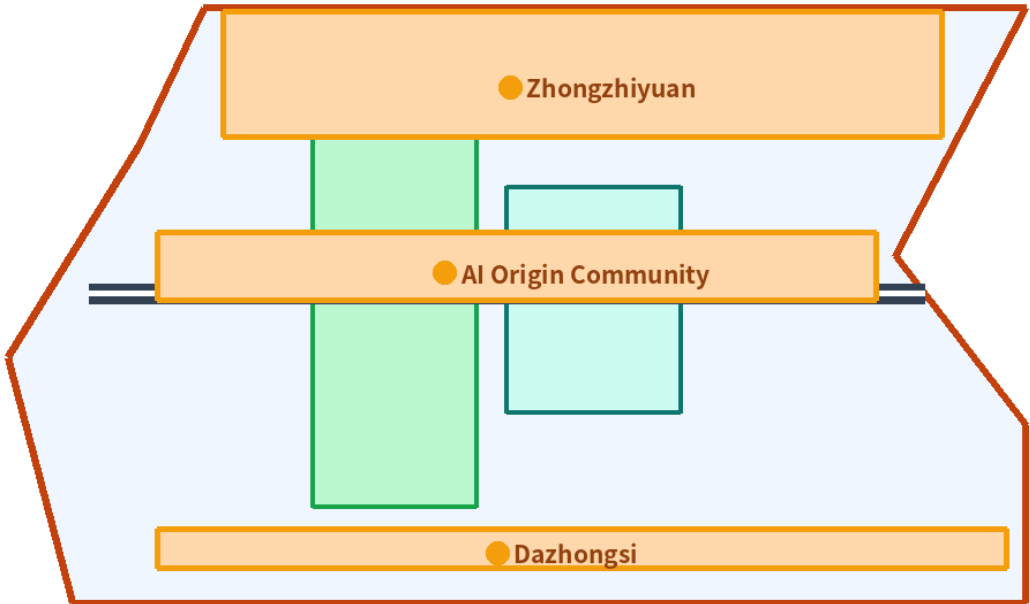

Note: all geometry is provisional or participant-generated unless source evidence says otherwise.

Mobility, Blue-Green and Public Space

Mobility, Blue-Green and Public Space

Road/path corridor links green space, public space and three key areas

PROVISIONAL · NOT OFFICIAL REDLINE

Note: all geometry is provisional or participant-generated unless source evidence says otherwise.

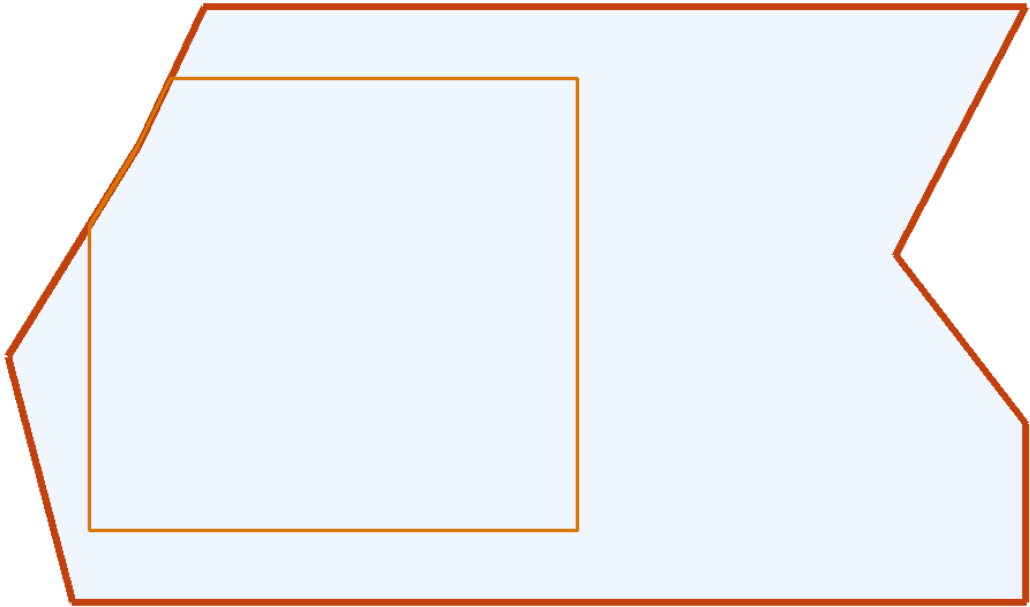

Manual fallback + accessible route need field verification

Metrics Recalculation and Evidence Chain

Metrics Recalculation and Evidence Chain

Areas and ratios are derived from submitted GeoJSON for intake review only

PROVISIONAL • NOT OFFICIAL REDLINE

Legend

- Boundary
- Land use
- Green space
- Public space
- Building
- Road / path
- Key area
- Phase 1

Site area	
11.4 km ²	low
Green ratio	
12.34%	medium
Public-space ratio	
7.33%	medium
Key areas	
3	low

Note: all geometry is provisional or participant-generated unless source evidence says otherwise.

Scenario responsibility cards

Open-source hall | Place: Zhongzhiyuan | Data: agenda/evaluation | Review: human confirmation | KPI: events/participation

Safety-governance sandbox | Place: Zhongzhiyuan | Data: authorized test data | Review: safety expert | KPI: closure rate

Edge-compute stop | Place: AI Origin Community | Data: energy/device status | Review: operator | KPI: uptime

AI walking navigation | Place: Jing-Zhang path | Data: public road + field check | Review: on-site check | KPI: fewer accessibility gaps

Dazhongsi roadshow lounge | Place: Dazhongsi | Data: bookings | Review: operator | KPI: leads

Qinghe low-carbon corridor | Place: green/public space | Data: aggregated environment/flow | Review: community rep | KPI: satisfaction

Near-campus transfer street | Place: AI Origin Community | Data: university-enterprise needs | Review: partners | KPI: matches

Data-governance salon | Place: Dazhongsi | Data: authorized catalogue | Review: data steward | KPI: compliant datasets

AI daily-service street | Place: community service zone | Data: service requests | Review: service window | KPI: fallback response

Global AI activity route | Place: three anchors | Data: permits/safety plan | Review: event owner | KPI: zero safety incident
