

THE OPEN GATE LINE

One line • Three yards • Twelve gates • Two wings

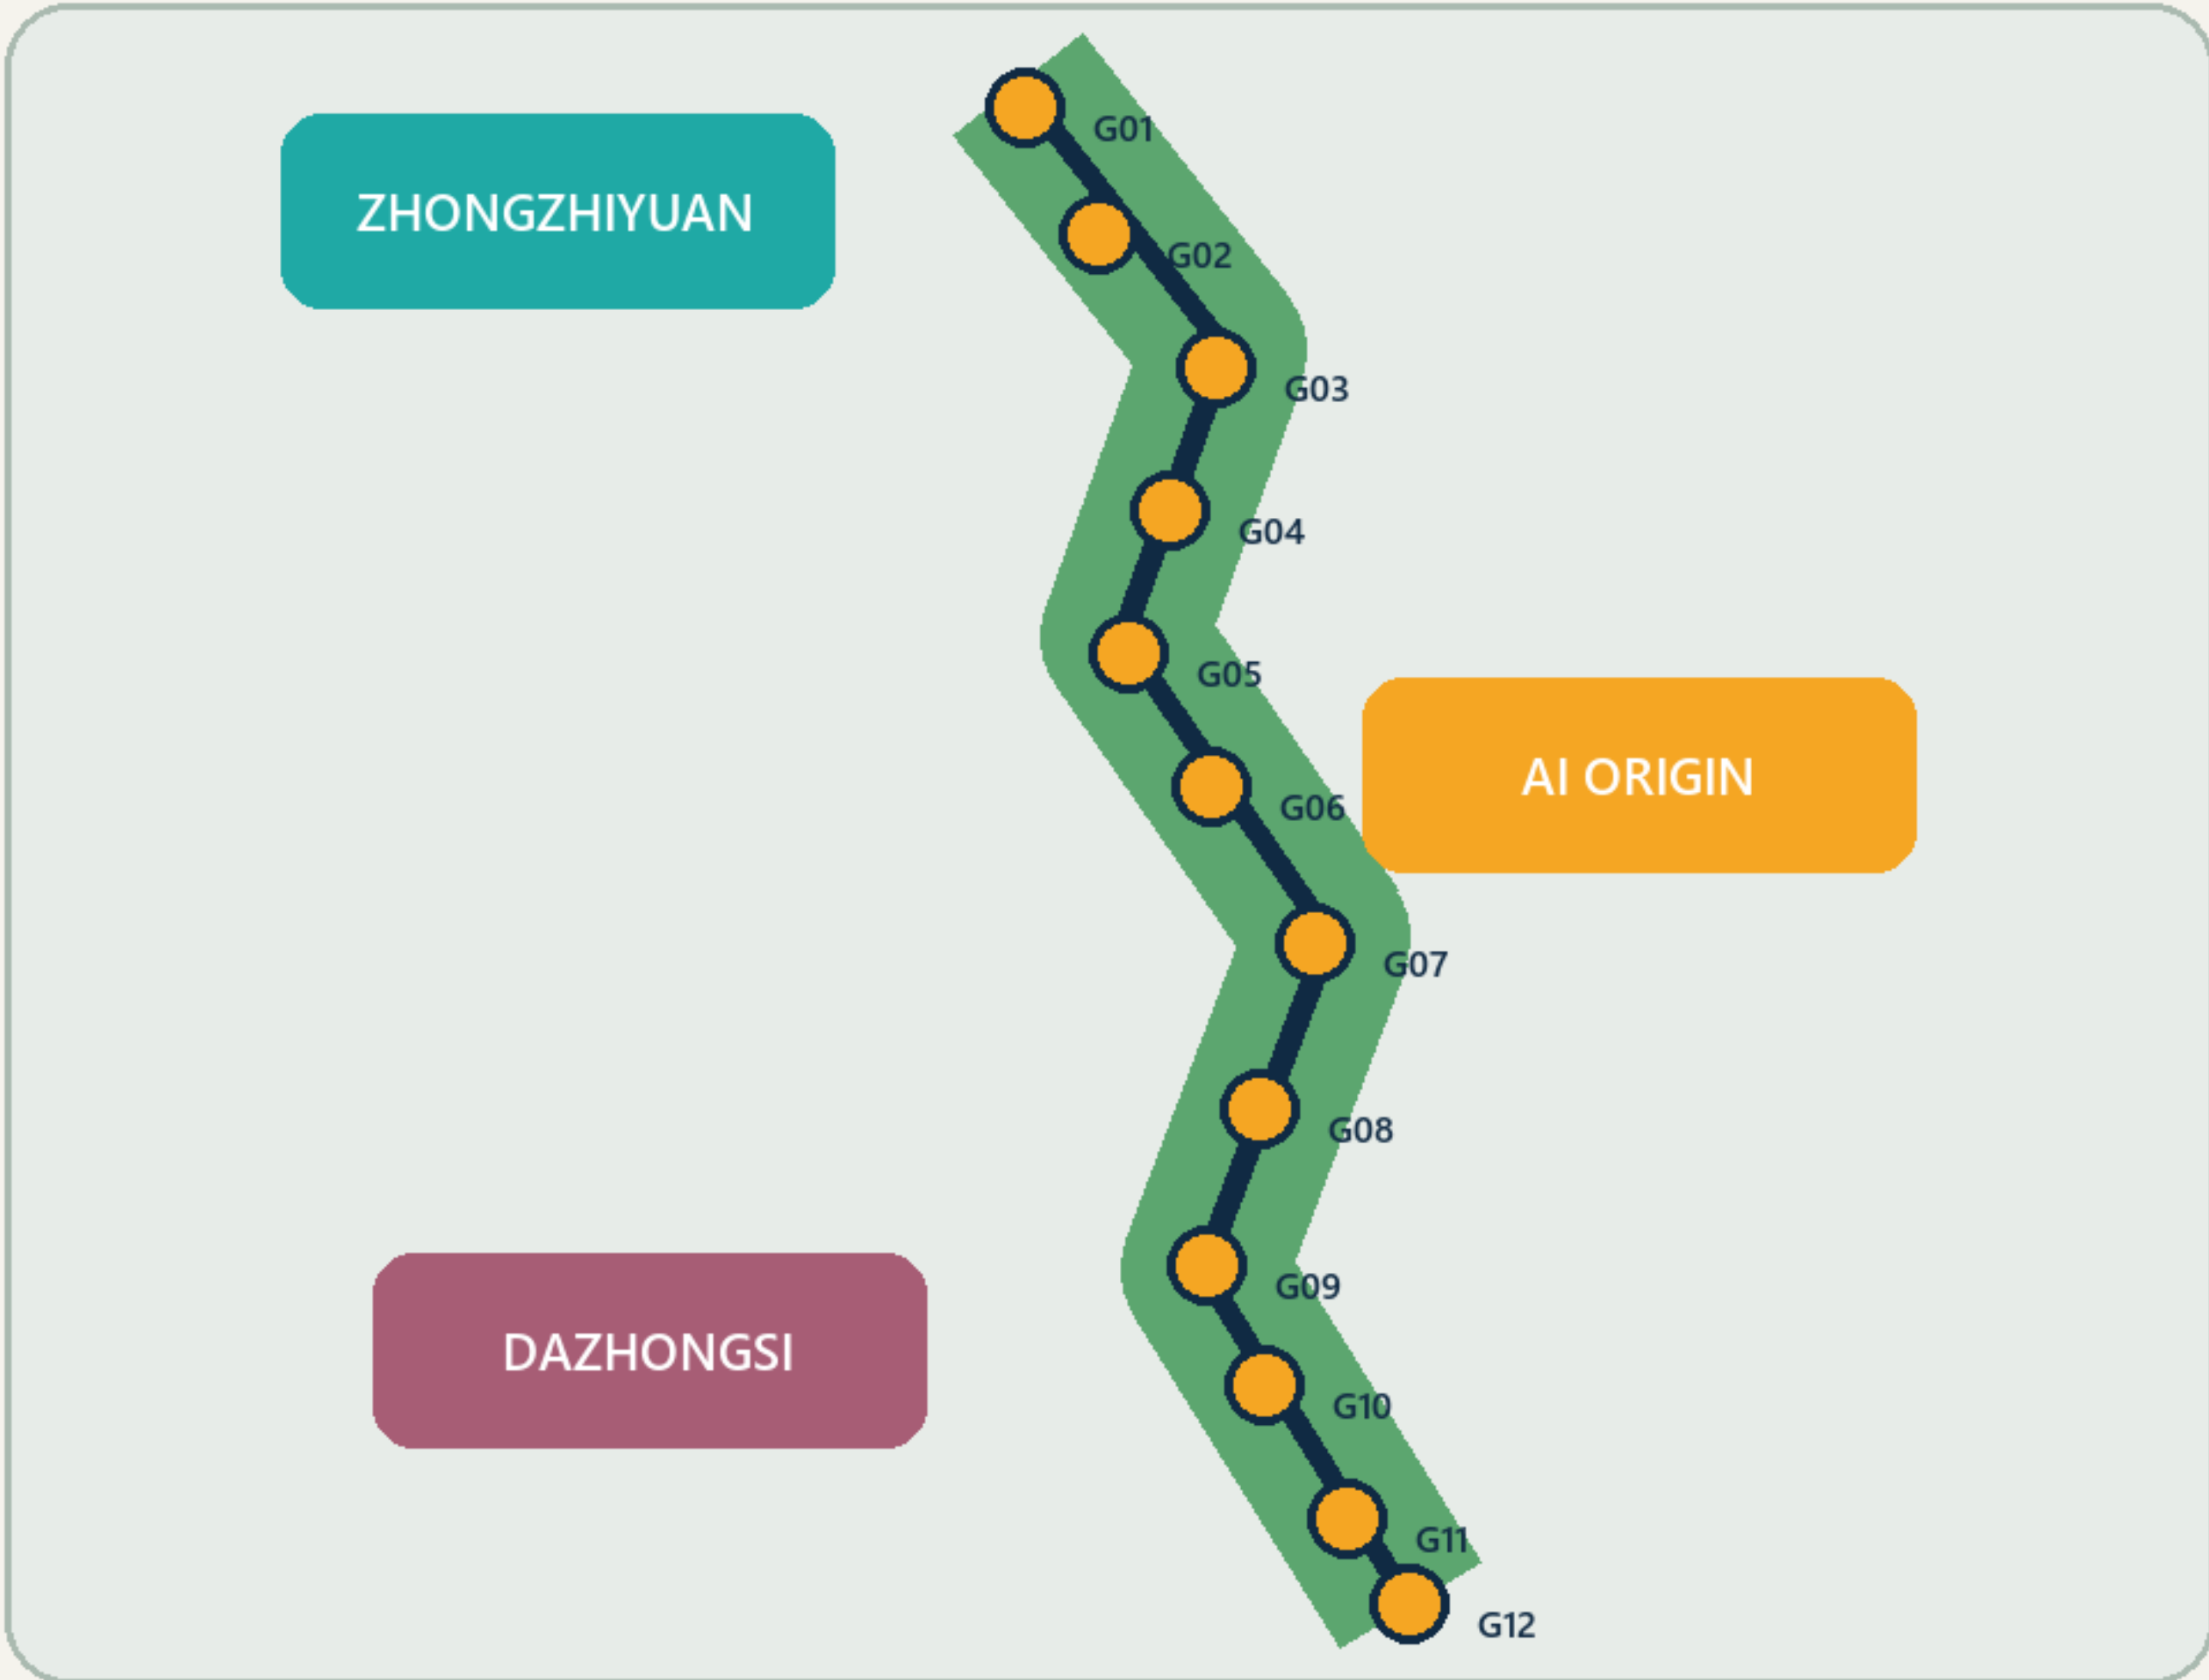

Concept design. Provisional study boundary. Not for statutory or approval use.

Overview and three-level logic

01 OPEN GATE LINE • OVERVIEW

ONE LINE • THREE YARDS • TWELVE GATES • TWO WINGS

12
REVERSIBLE GATES

3
TEST SCENARIOS

5
PERSONAS

3
LANDMARKS

OPEN = PERMISSION +
STEWARD + FALLBACK

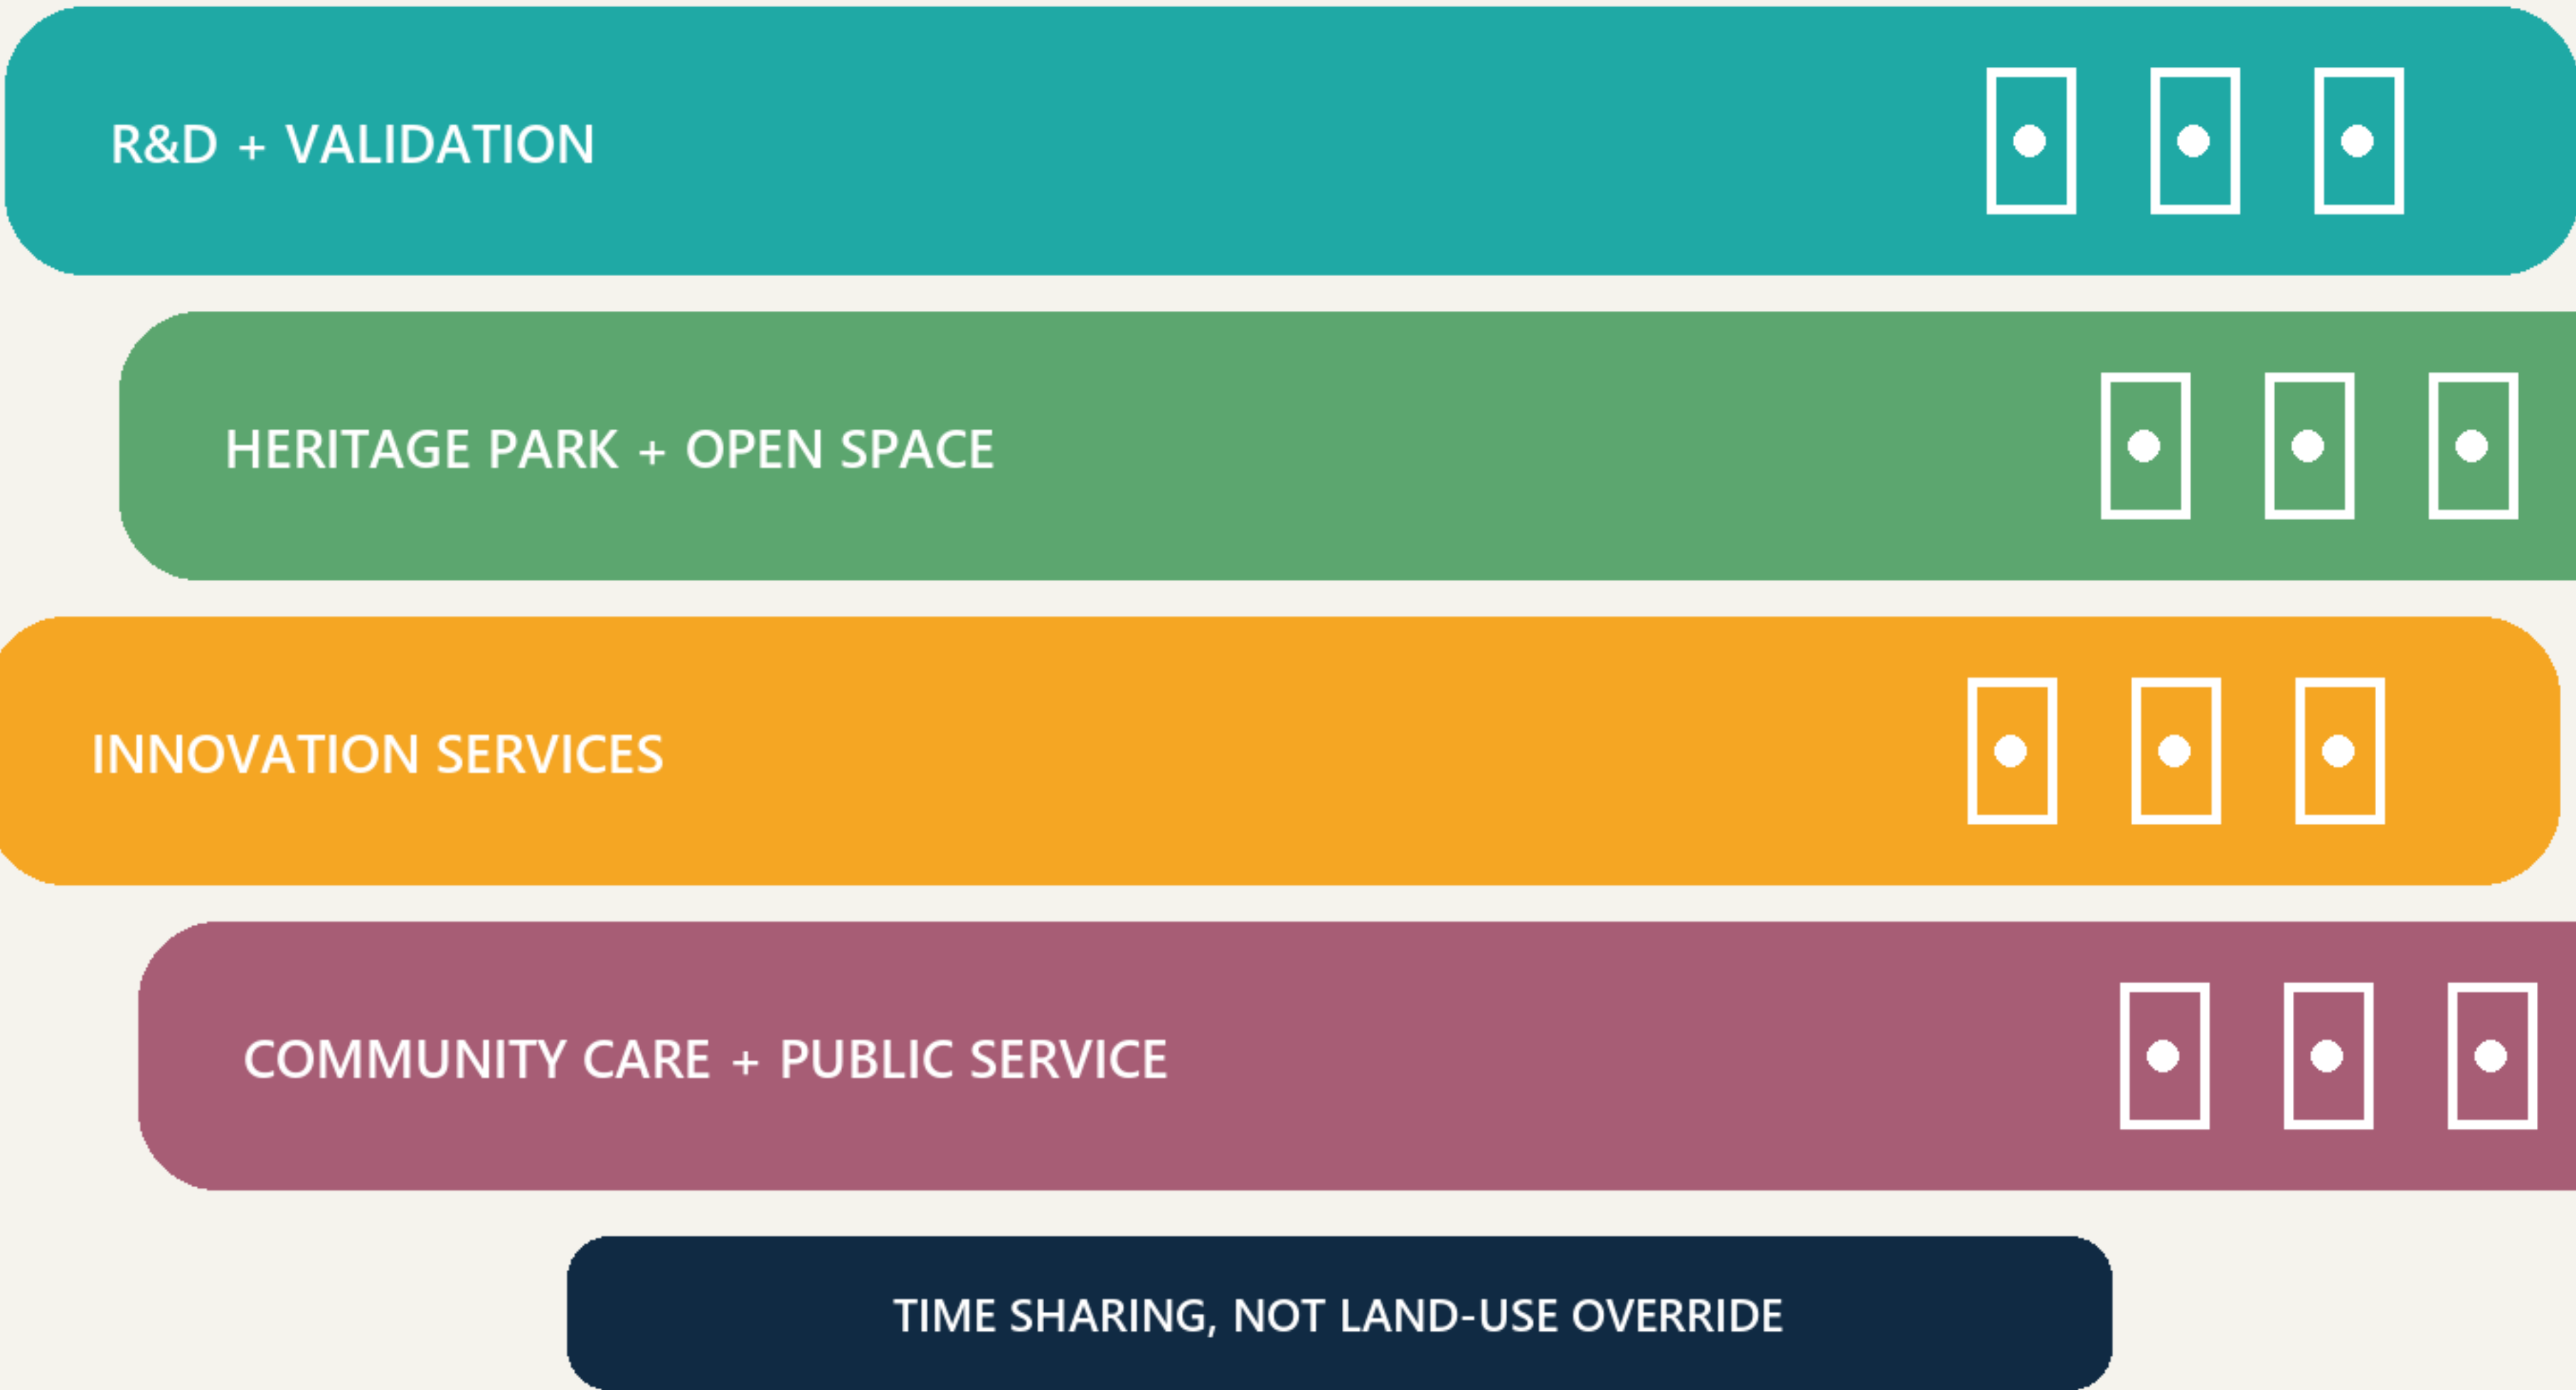

CONCEPT DESIGN • PROVISIONAL STUDY BOUNDARY • NOT FOR STATUTORY USE

Every node is a design candidate. Opening requires an accountable owner, trained steward, safe capacity, accessible route, manual fallback, and restoration budget.

Land use and reversible gate types

02 SHARED-TIME LAND USE

RETAIN • SHARE • LIGHTLY ADAPT • BUILD ONLY WHEN NECESSARY

CONCEPT DESIGN • PROVISIONAL STUDY BOUNDARY • NOT FOR STATUTORY USE

Every node is a design candidate. Opening requires an accountable owner, trained steward, safe capacity, accessible route, manual fallback, and restoration budget.

Four-layer gate

Frame and accessible interface; reservation and capacity; staffed safety and closure; quarterly public review.

OPEN / OBSERVE / CLOSED

Opening rule

Ownership + heritage + fire + accessibility + insurance + steward + manual fallback. Any missing condition means closed.

OPEN / OBSERVE / CLOSED

Identity

Deep navy frame, amber open signal, teal assistance, stone information. Rail, door, and signal—without copying heritage fabric.

OPEN / OBSERVE / CLOSED

Three key-area prototypes

03 THREE GATE YARDS

TEST · TRANSLATE · CARE FOR THE COMMONS

01

TEST GATE YARD

- G01 Reception
- G02 Observation
- G03 Repair
- G04 Classroom

STOP: CROWD / FAILURE / NO STEWARD / BLOCKED EGRESS

02

TRANSLATION GATE YARD

- G05 Gate Zero
- G06 Question Bank
- G07 Venture Clinic
- G08 Accessible Nav

STOP: CROWD / FAILURE / NO STEWARD / BLOCKED EGRESS

03

COMMONS GATE YARD

- G09 Open Gate Clock
- G10 Weekend Market
- G11 Night Shift
- G12 Open Archive

STOP: CROWD / FAILURE / NO STEWARD / BLOCKED EGRESS

CONCEPT DESIGN · PROVISIONAL STUDY BOUNDARY · NOT FOR STATUTORY USE

Every node is a design candidate. Opening requires an accountable owner, trained steward, safe capacity, accessible route, manual fallback, and restoration budget.

Walking and blue-green stitches

04 WALKING + BLUE-GREEN STITCHES

CONTINUOUS SPINE · SHORT CROSSINGS · ACCESSIBLE ARRIVAL

MANUAL FALLBACK

No sensor may lock the public out.

CONCEPT DESIGN · PROVISIONAL STUDY BOUNDARY · NOT FOR STATUTORY USE

Every node is a design candidate. Opening requires an accountable owner, trained steward, safe capacity, accessible route, manual fallback, and restoration budget.

TVS-01 • Capacity

Reservation limit, manual count, queue, egress. Stop on crowding, failed equipment, absent steward, or blocked fire access.

OPEN / OBSERVE / CLOSED

TVS-02 • Access

Older, wheelchair, and blind or low-vision participants test arrival, recognition, help, and exit. No default biometrics.

OPEN / OBSERVE / CLOSED

TVS-03 • Event flow

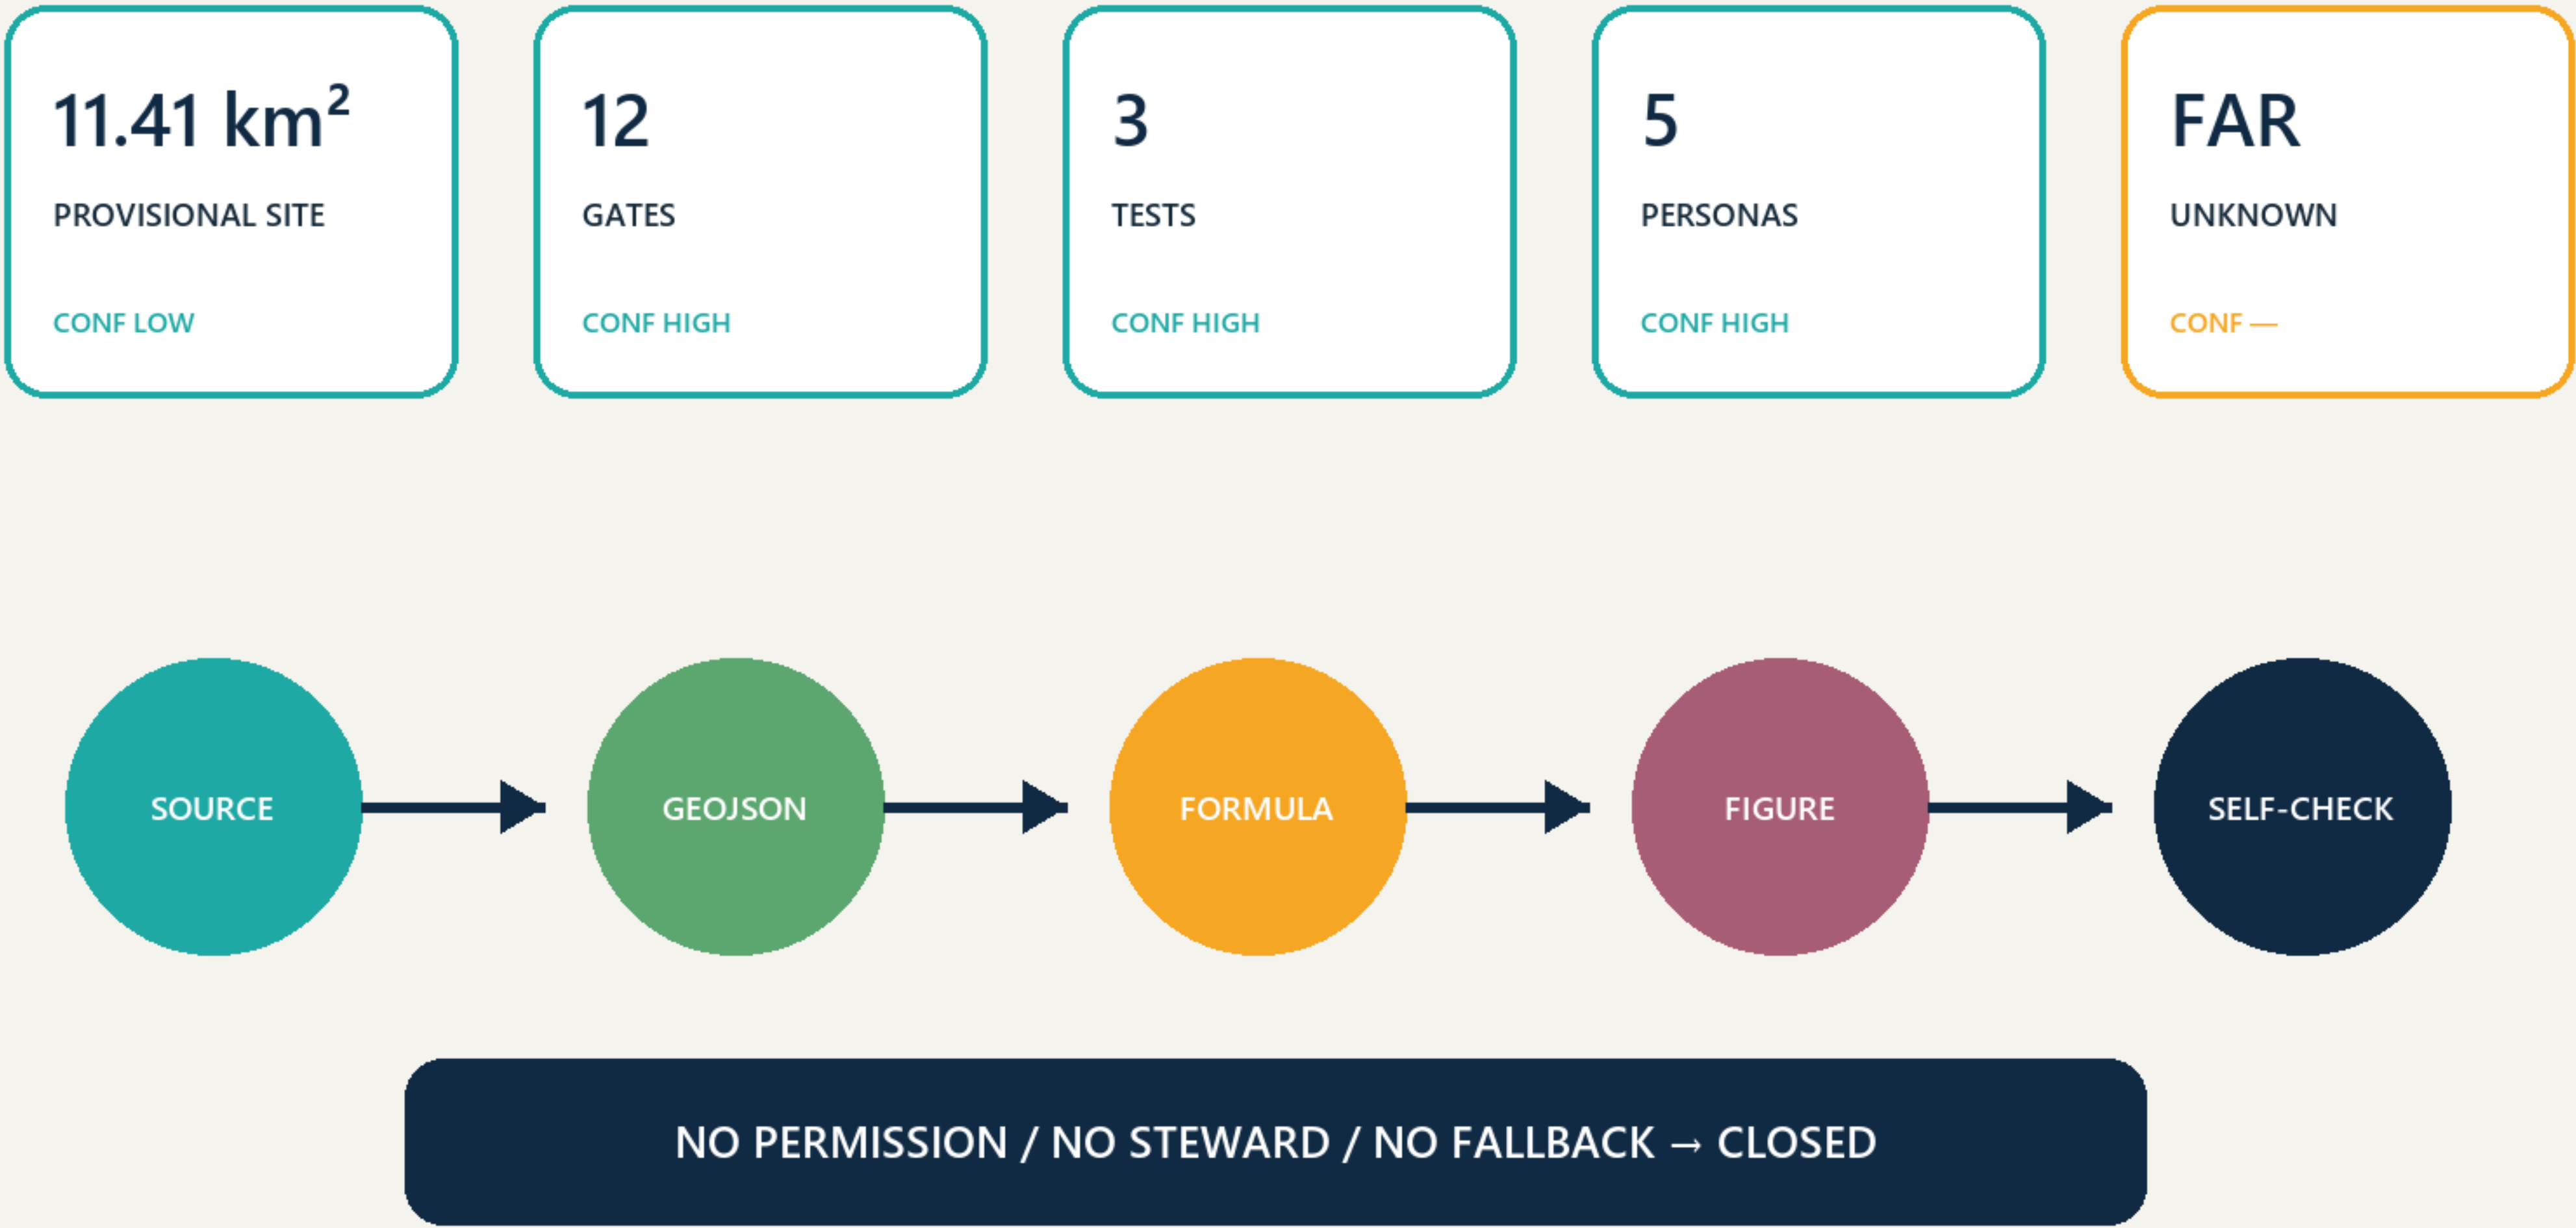

Compare normal, event, and evacuation modes with anonymous segmented counts and a fully manual alternative.

OPEN / OBSERVE / CLOSED

Metrics, evidence, and stop conditions

05 METRICS + EVIDENCE

MEASURE WHAT IS KNOWN · LABEL WHAT IS NOT

CONCEPT DESIGN · PROVISIONAL STUDY BOUNDARY · NOT FOR STATUTORY USE

Every node is a design candidate. Opening requires an accountable owner, trained steward, safe capacity, accessible route, manual fallback, and restoration budget.

Decision dashboard

12 conceptual gates • 3 test scenarios • 5 personas • 3 landmarks

FAR remains unknown. Spatial values derive from provisional study geometry and must be recalculated after official polygons and controls arrive.

No permission / no steward / no fallback → CLOSED

Phase 1 • 0–12 months

Replace provisional boundaries; verify ownership; adopt gate cards; run three closable prototypes and tabletop drills.

OPEN / OBSERVE / CLOSED

Phase 2 • Years 1–3

Expand only after evaluation; complete twelve gates, walking stitches, accessibility, blue-green space, and public services.

OPEN / OBSERVE / CLOSED

Phase 3 • Annual decision

Publicly review opening, cancellations, accessibility, incidents, and neighborhood impact; retain, move, or retire each gate.

OPEN / OBSERVE / CLOSED
