Barrier-Free and Age-Friendly Environment System (Concept)

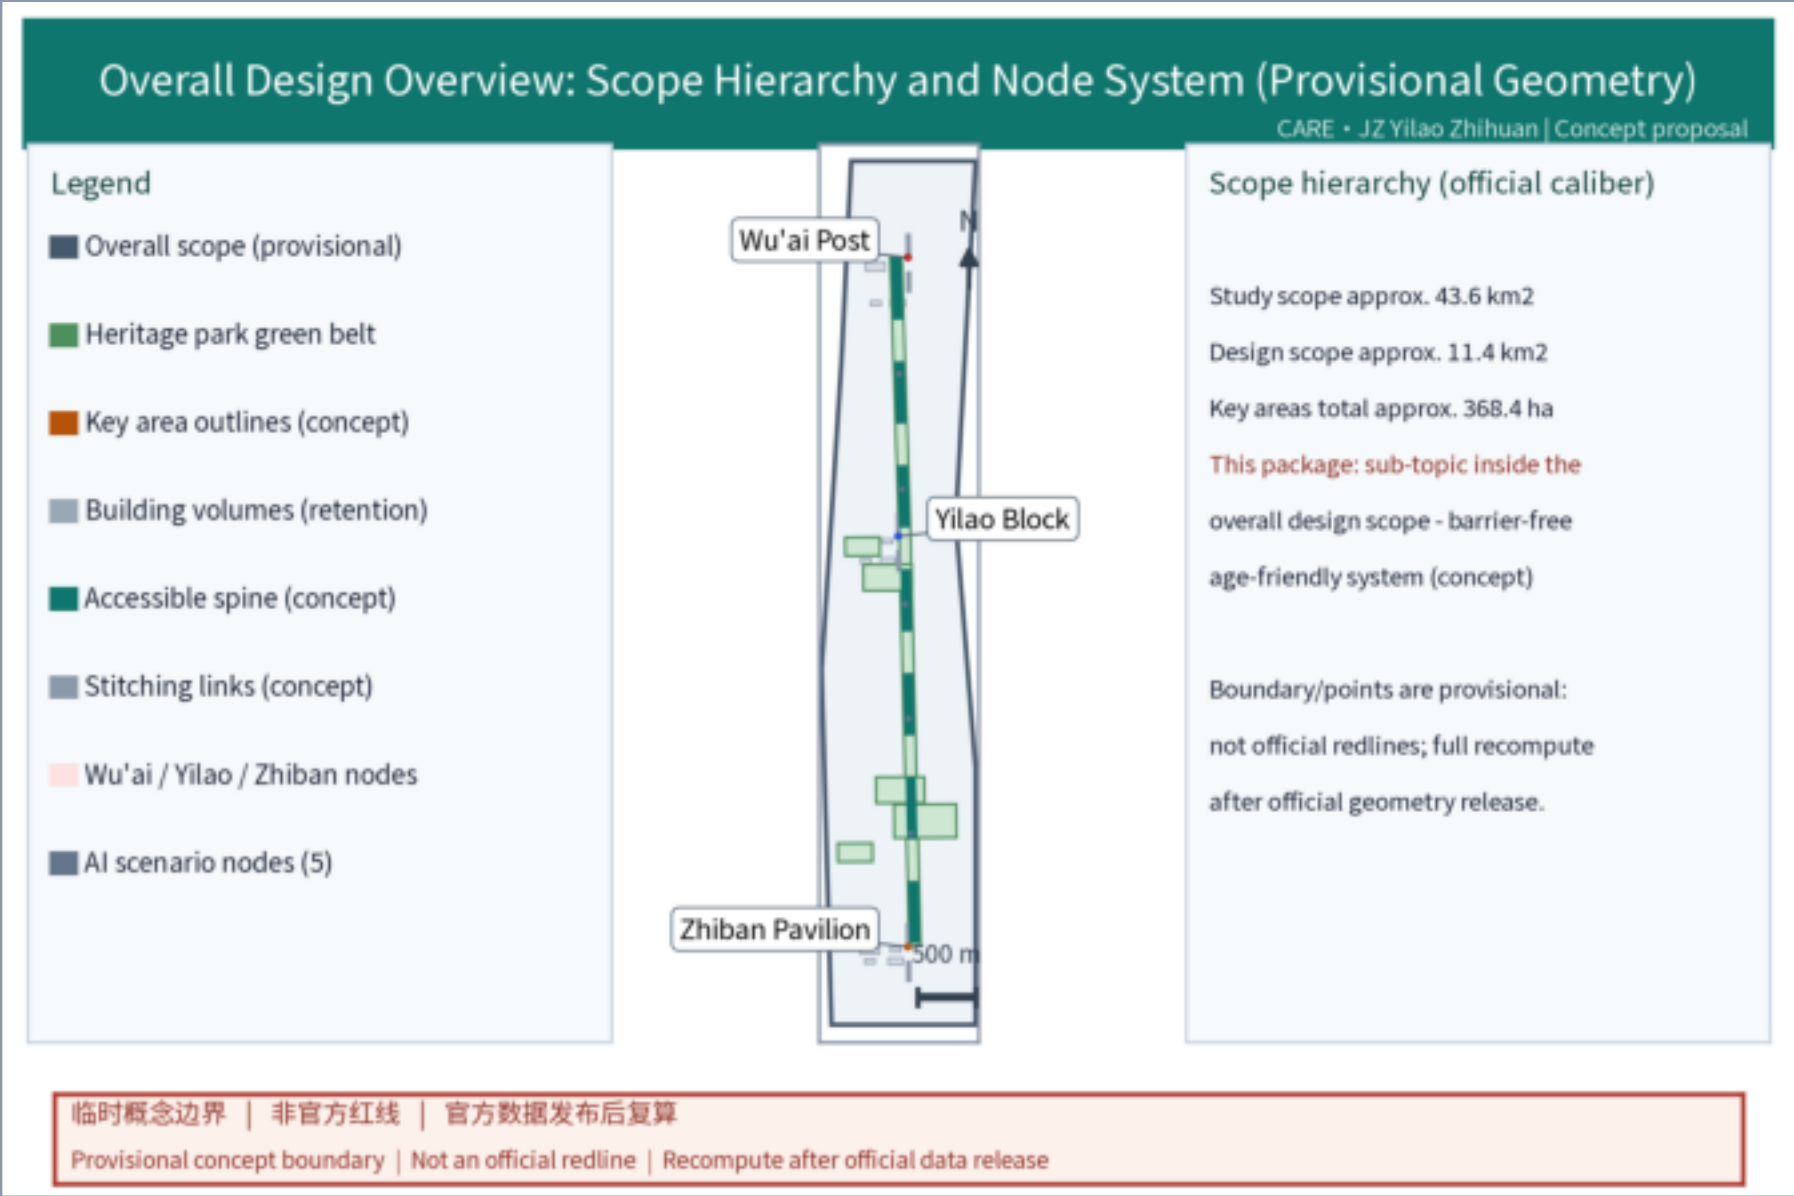

Jingzhang AI Belt, Haidian - concept

Contents

1	Three-level scope framework	2
2	Overall design overview (provisional geometry)	3
3	Key-area index: three-node design task map	4
4	Land-use structure and mobility/blue-green	5
5	Core metrics, AI ecosystem and brand	6

All concept suggestions; provisional boundaries, not official redlines; recompute after official data release.

Overall Design Overview (Provisional Geometry)

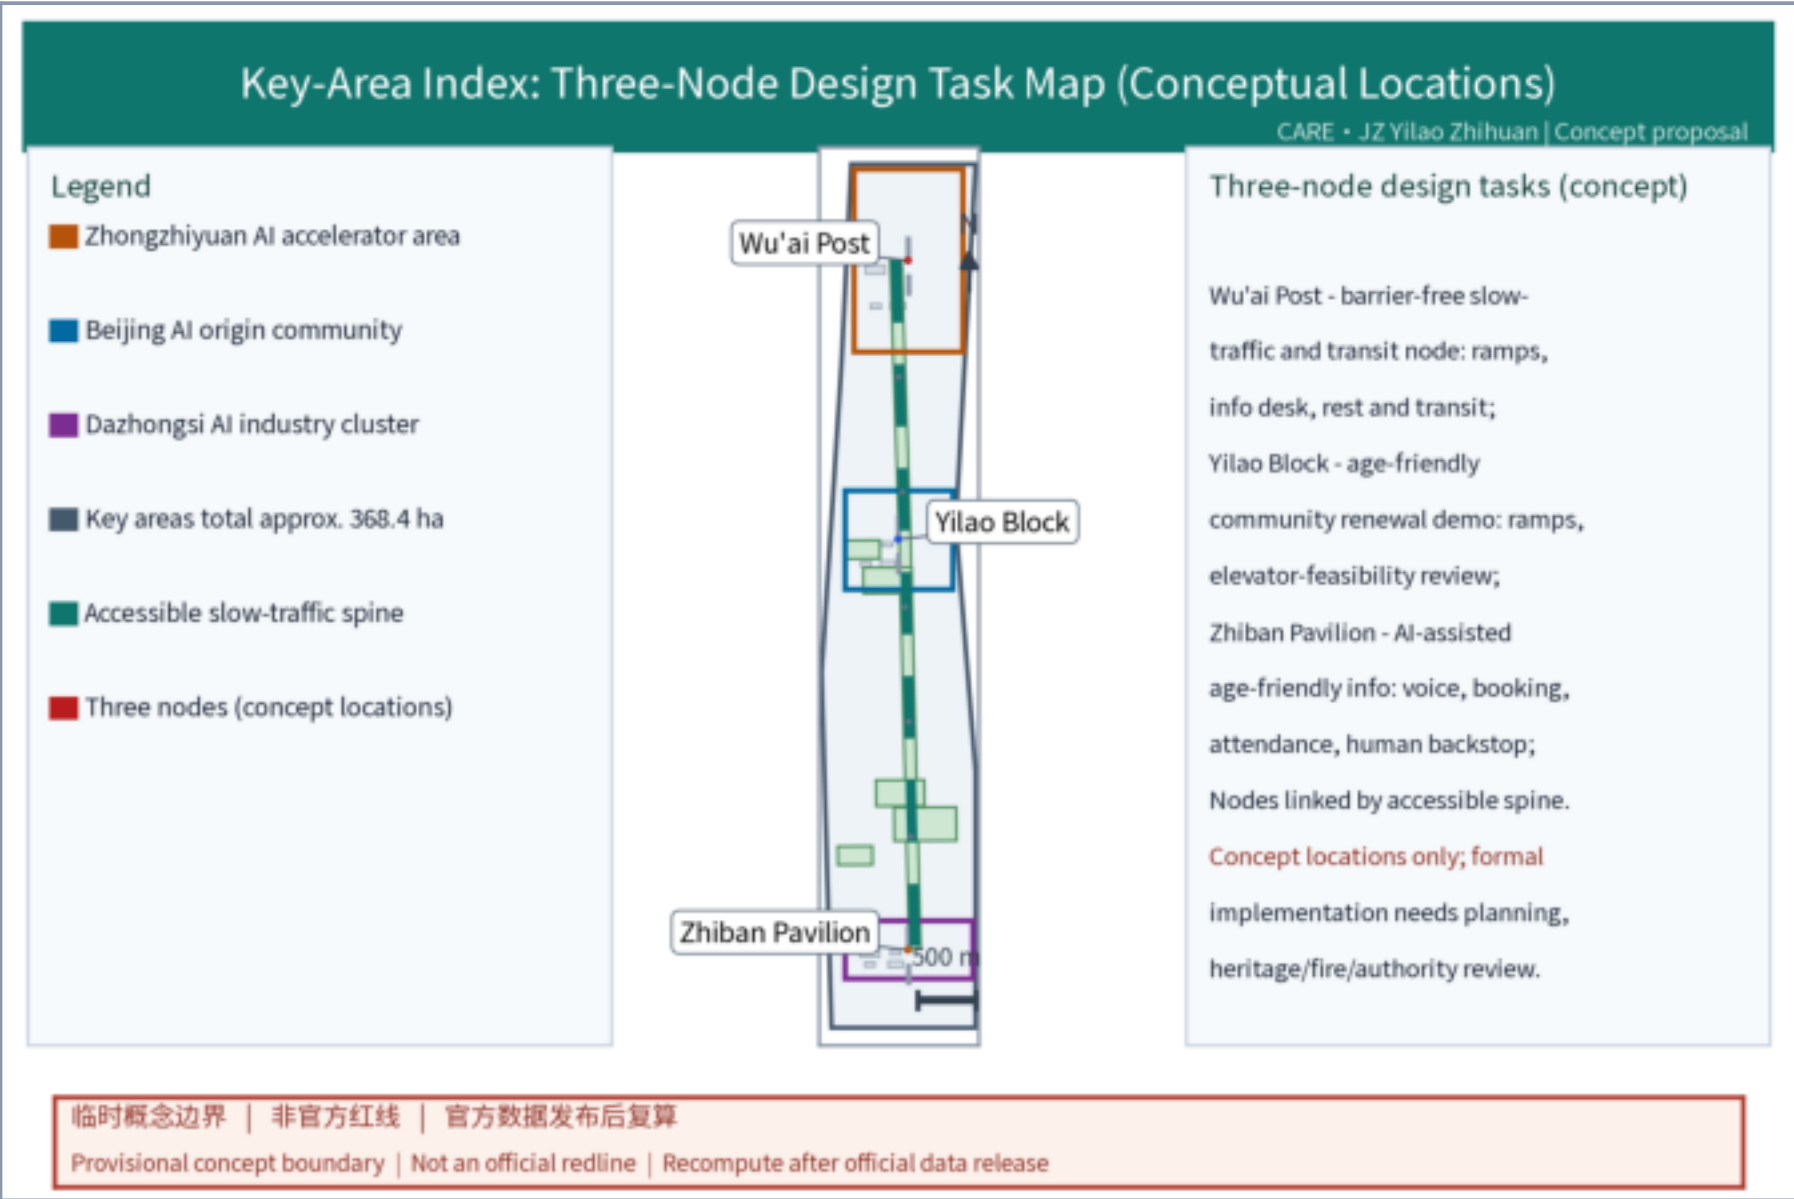

Scope Hierarchy and Node System (Concept)

临时概念边界 | 非官方红线 | 官方数据发布后复算

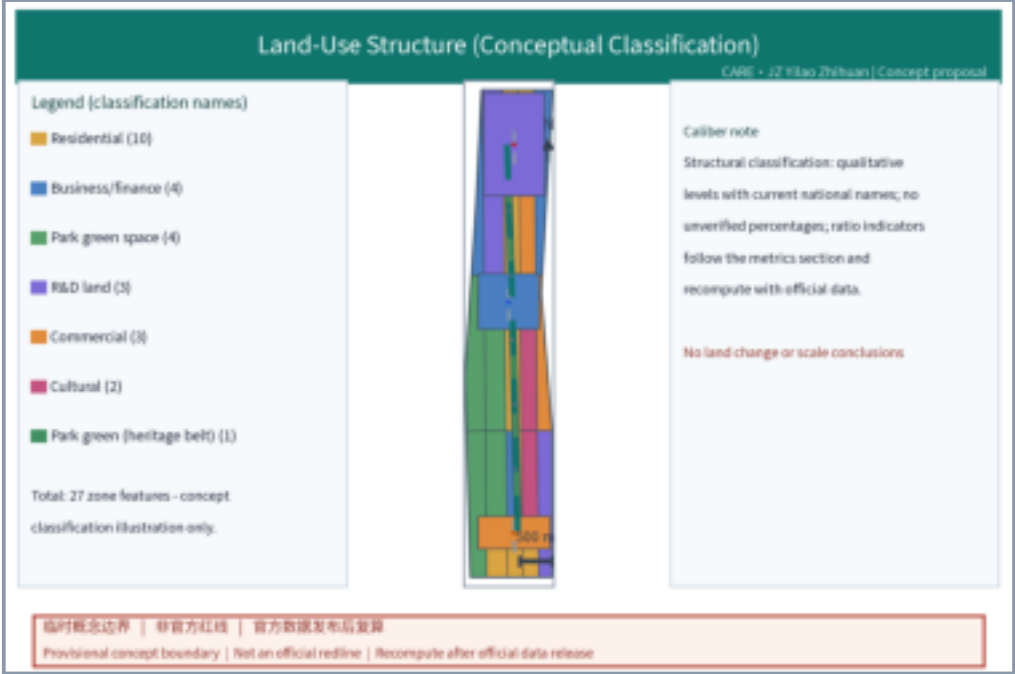

Provisional concept boundary | Not an official redline | Recompute after official data release

Key-Area Index: Three-Node Design Task Map (Conceptual Locations)

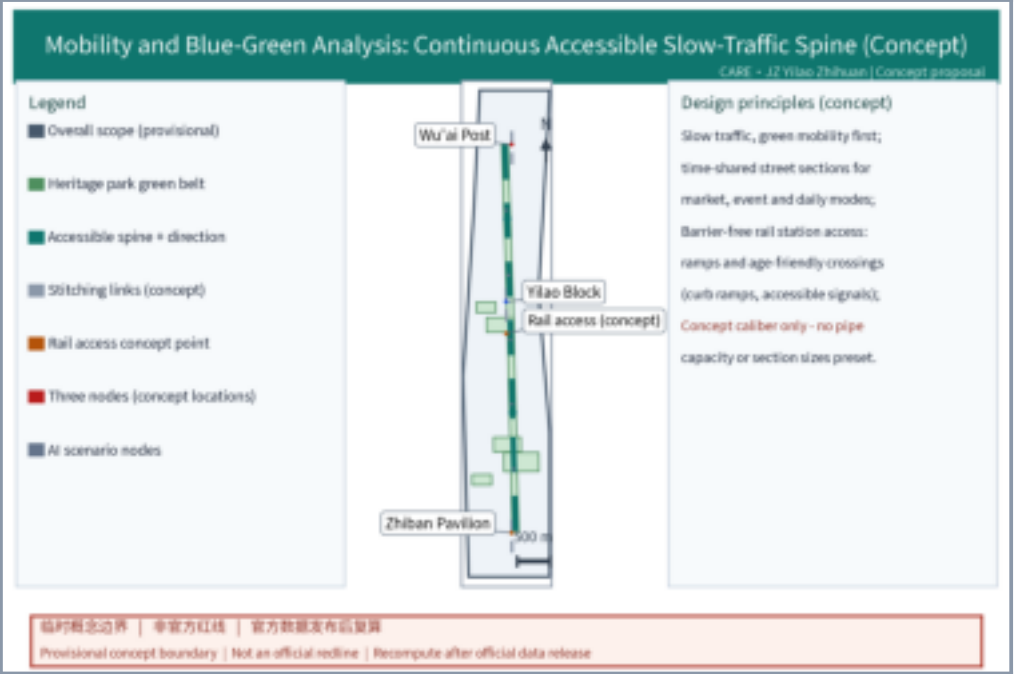

Wu'ai Post - Yilao Block - Zhiban Pavilion (Concept)

Land-Use Structure and Mobility/Blue-Green (Concept)

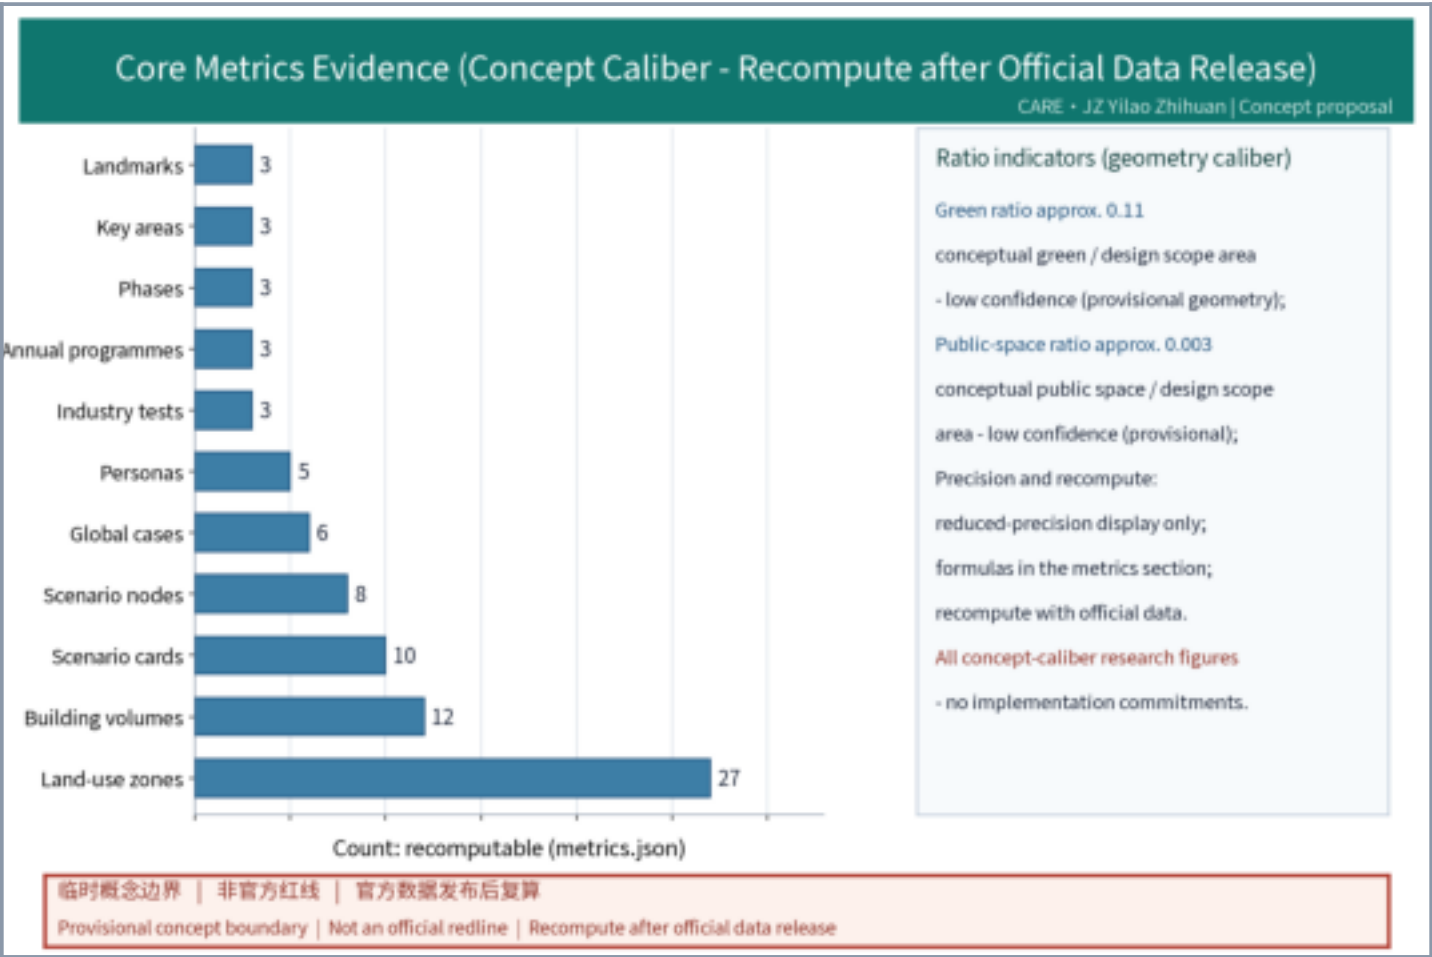

Land-Use Structure (Conceptual Classification)

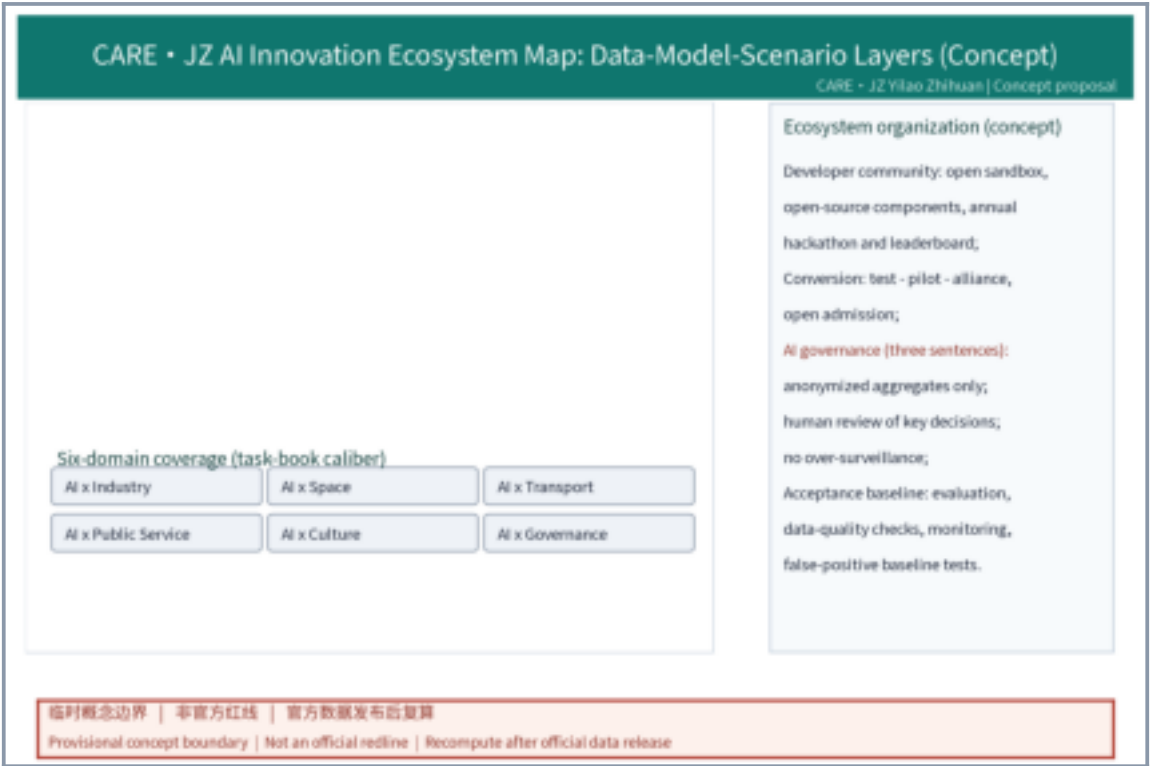

Continuous Accessible Slow-Traffic Spine (Concept)

Core Metrics, AI Ecosystem and Brand (Concept)

Core Metrics Evidence (Concept Caliber)

AI Innovation Ecosystem Map (Concept)

Brand Direction and Identity System (Original Concept)

临时概念边界 | 非官方红线 | 官方数据发布后复算

Provisional concept boundary | Not an official redline | Recompute after official data release
