

Fast technology, lasting life

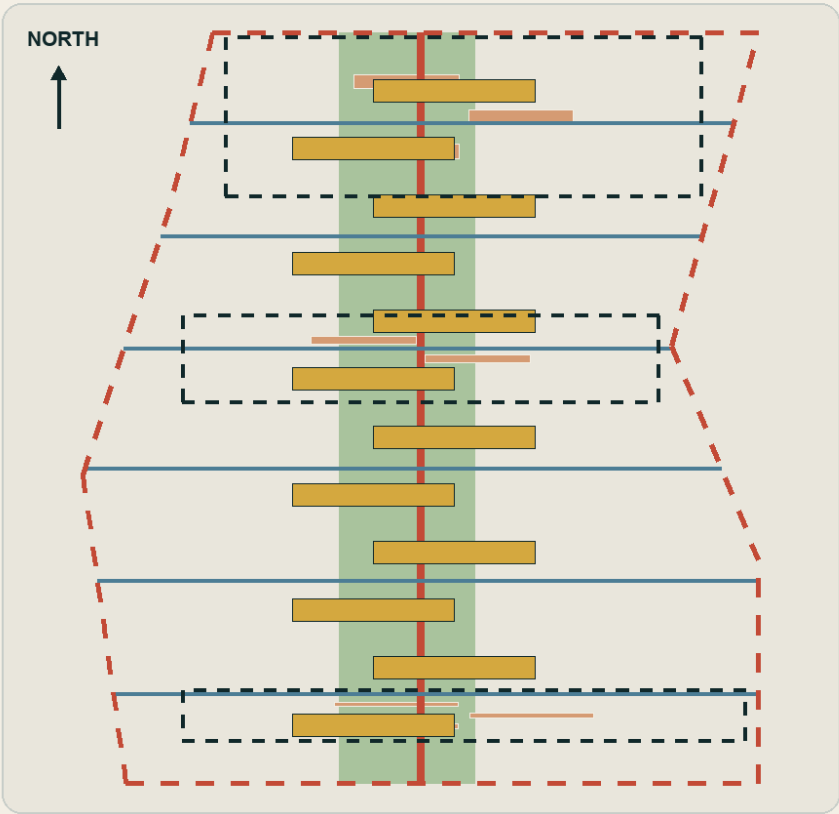

Models may change weekly; a city cannot be rebuilt weekly. Slow layers protect heritage, ecology, walking, public rights and lasting life. Fast layers hold technology that is replaceable, take-over ready and retireable.

No one must use AI to receive a public service.

JING-ZHANG SLOW VARIABLES · SPATIAL AND ACCOUNTABILITY

One Century Baseline / Three Changeover Yards / Two Buffer Wings / Twelve Time Marks / Four Urban Clocks

PROVISIONAL BOUNDARY · CONCEPTUAL · EPSG:4548 RE

1 ZHONGZHIYUAN · DAILY CHANGEOVER
Full-stack durability / human takeover

2 AI ORIGIN · ANNUAL LIVING COMMONS
Near-campus translation / talent and family stay

3 DAZHONGSI · DECENNIAL REUSE YARD
Adoption, maintenance / product take-back

Every AI scenario: owner + review date + human takeover + non-AI route + end-of-life destination

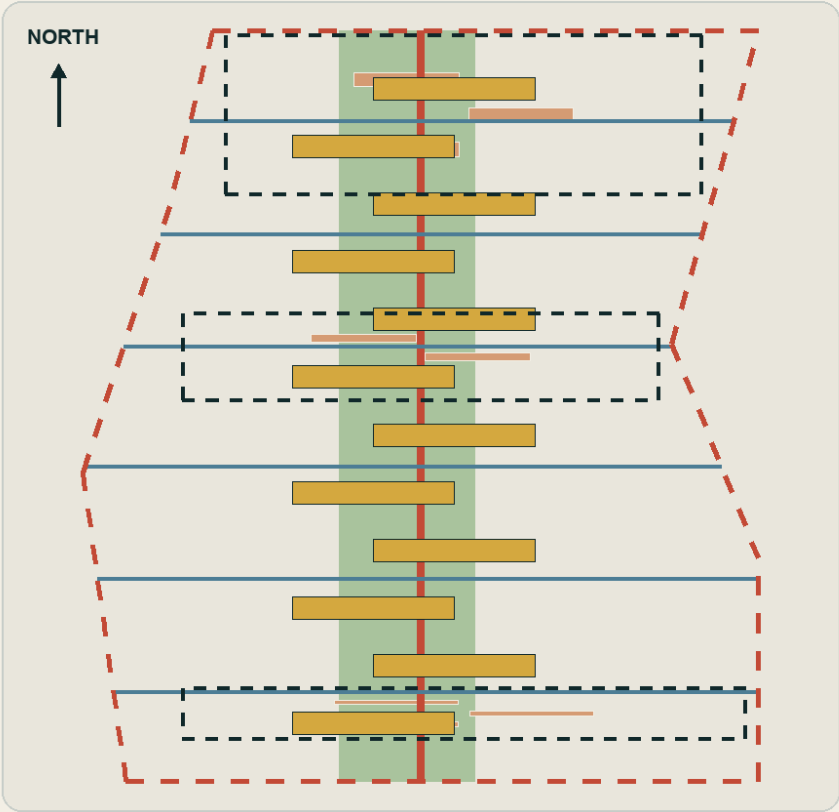

Evidence and three scales

The 43.6 km² research scale, approximately 11.4 km² design scale and 368.4 ha key-area scale carry different responsibilities. Every polygon is provisional and the whole package must be recalculated with official data.

JING-ZHANG SLOW VARIABLES · SPATIAL AND ACCOUNTABILITY

One Century Baseline / Three Changeover Yards / Two Buffer Wings / Twelve Time Marks / Four Urban Clocks

PROVISIONAL BOUNDARY · CONCEPTUAL · EPSG:4548 RE

1 ZHONGZHIYUAN · DAILY CHANGEOVER
Full-stack durability / human takeover

2 AI ORIGIN · ANNUAL LIVING COMMONS
Near-campus translation / talent and family stay

3 DAZHONGSI · DECENNIAL REUSE YARD
Adoption, maintenance / product take-back

Every AI scenario: owner + review date + human takeover + non-AI route + end-of-life destination

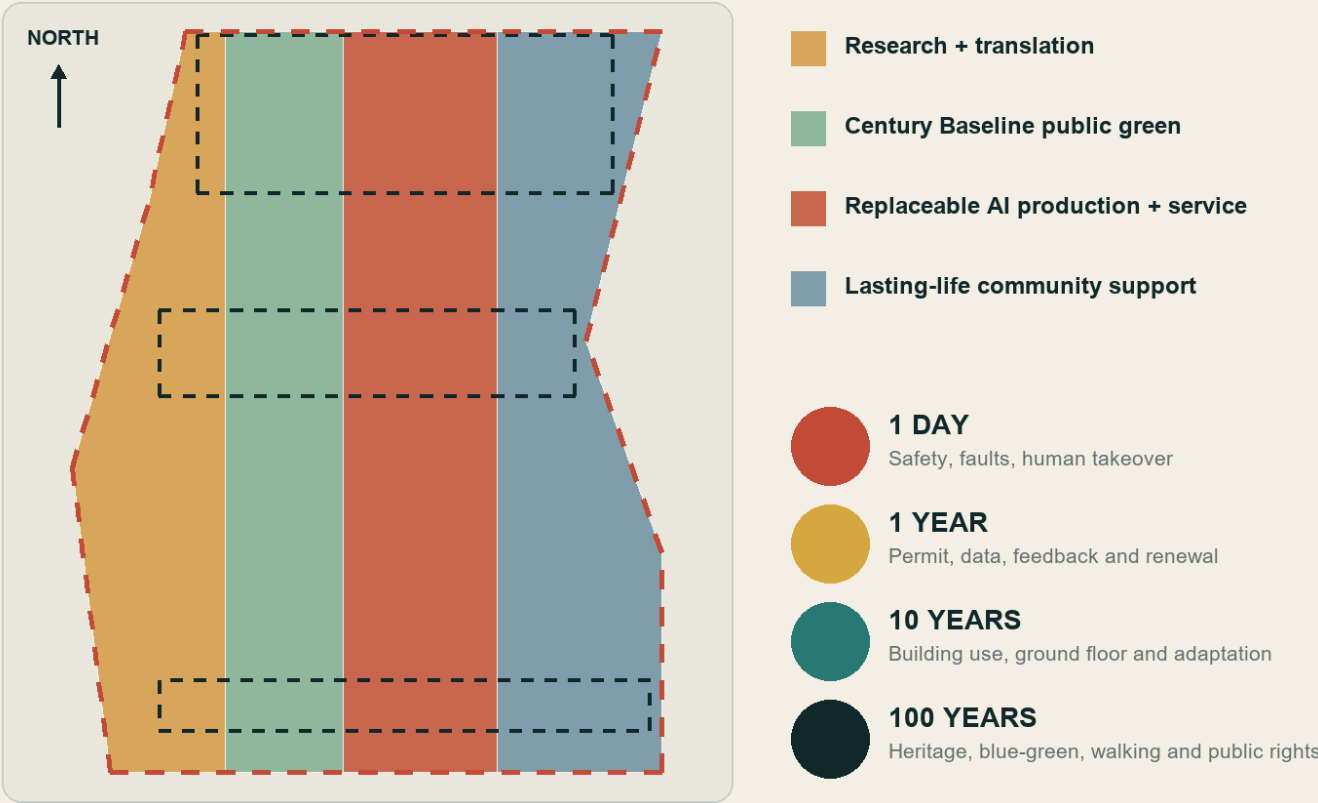

Land use and four clocks

Four conceptual bands retain innovation, public space, replaceable technology and lasting-life support. Daily operation, annual review, decennial adaptation and a century commitment act together.

SLOW-VARIABLE LAND USE AND FOUR CLOCKS

Stable layers protect public commitments; adaptable layers hold life; fast layers host replaceable technology

PROVISIONAL BOUNDARY · CONCEPTUAL · EPSG:4548 RE

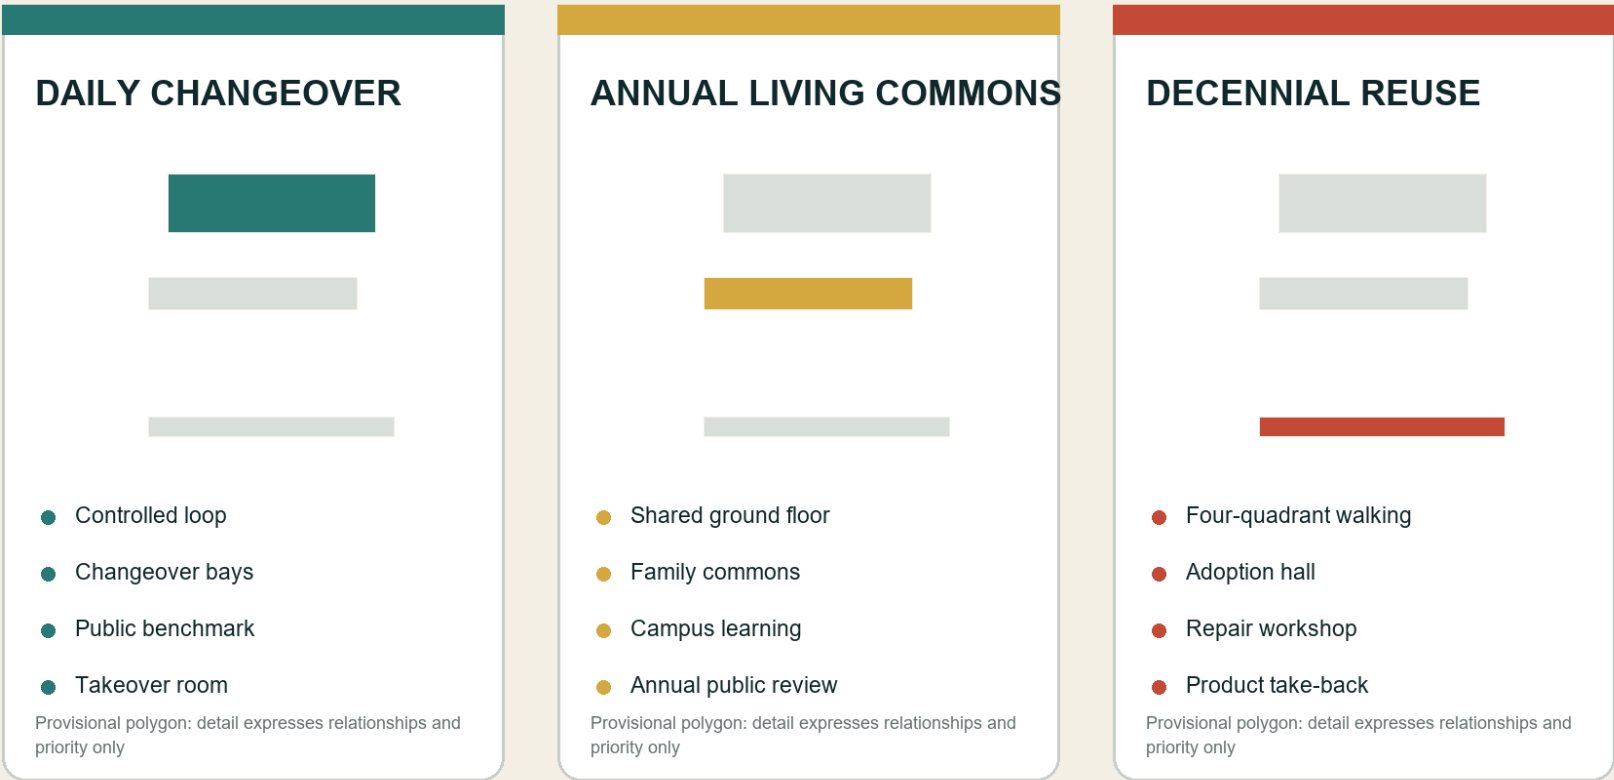

Three Changeover Yards

Zhongzhiyuan tests technical durability, AI Origin tests social fitness and talent staying, and Dazhongsi tests adoption, maintenance and retirement. No gate passes automatically.

THREE AREAS × THREE CHANGEOVER RESPONSIBILITIES

Technical durability → social fitness → adoption and maintenance; no automatic progression

PROVISIONAL BOUNDARY · CONCEPTUAL · EPSG:4548 RE

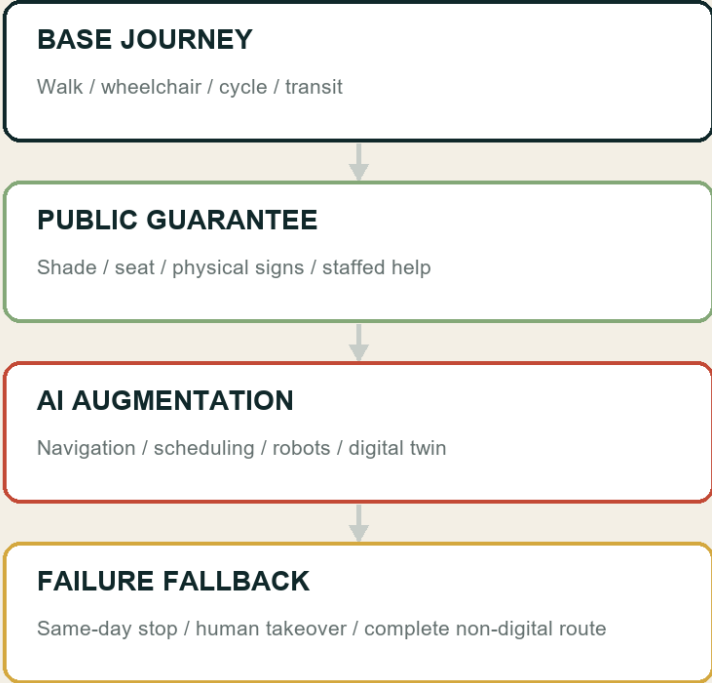

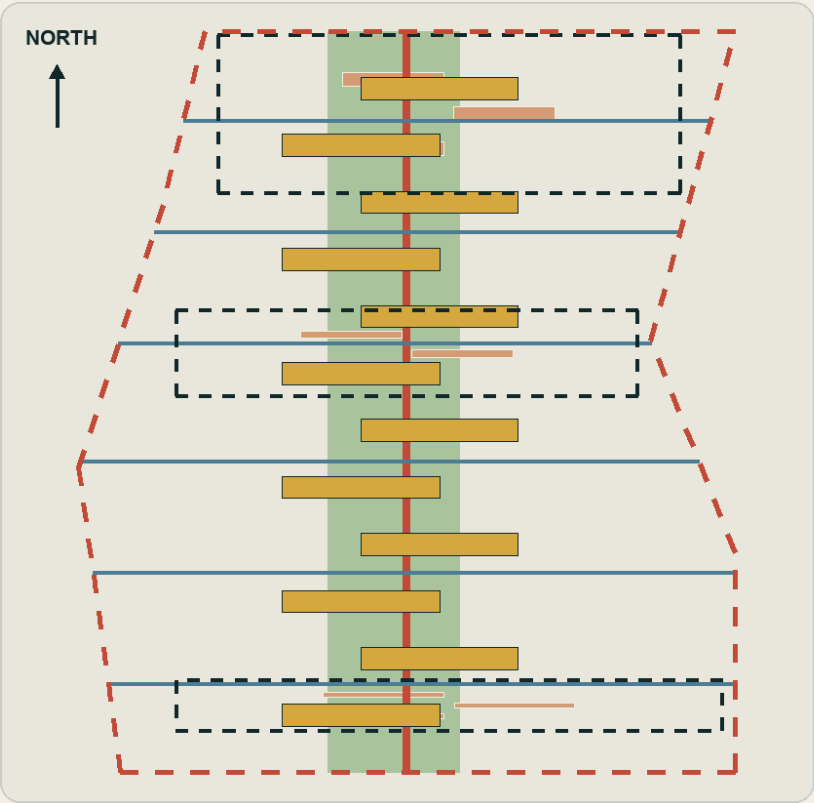

Twelve AI scenario cards

Four test scenarios and eight public-life scenarios all provide minimum data, human review, notice and appeal, expiry, a non-AI alternative and an end-of-life route.

WALKING, BLUE-GREEN AND NON-DIGITAL ALTERNATIVES

A person's journey and public service remain complete when an algorithm exits or power fails

PROVISIONAL BOUNDARY · CONCEPTUAL · EPSG:4548 RE

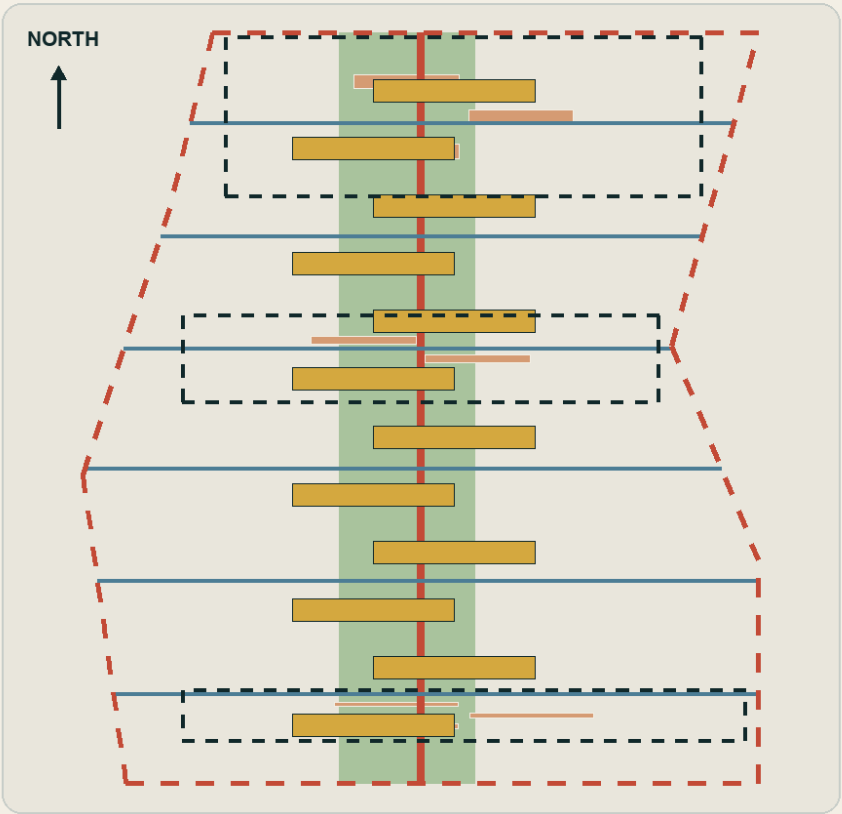

Six personas

Young researchers, startup teams, people with care duties, older and disabled residents, frontline operators, and international developers or visitors decide whether an innovation deserves to stay.

JING-ZHANG SLOW VARIABLES · SPATIAL AND ACCOUNTABILITY

One Century Baseline / Three Changeover Yards / Two Buffer Wings / Twelve Time Marks / Four Urban Clocks

PROVISIONAL BOUNDARY · CONCEPTUAL · EPSG:4548 RE

1 ZHONGZHIYUAN · DAILY CHANGEOVER
Full-stack durability / human takeover

2 AI ORIGIN · ANNUAL LIVING COMMONS
Near-campus translation / talent and family stay

3 DAZHONGSI · DECENNIAL REUSE YARD
Adoption, maintenance / product take-back

Every AI scenario: owner + review date + human takeover + non-AI route + end-of-life destination

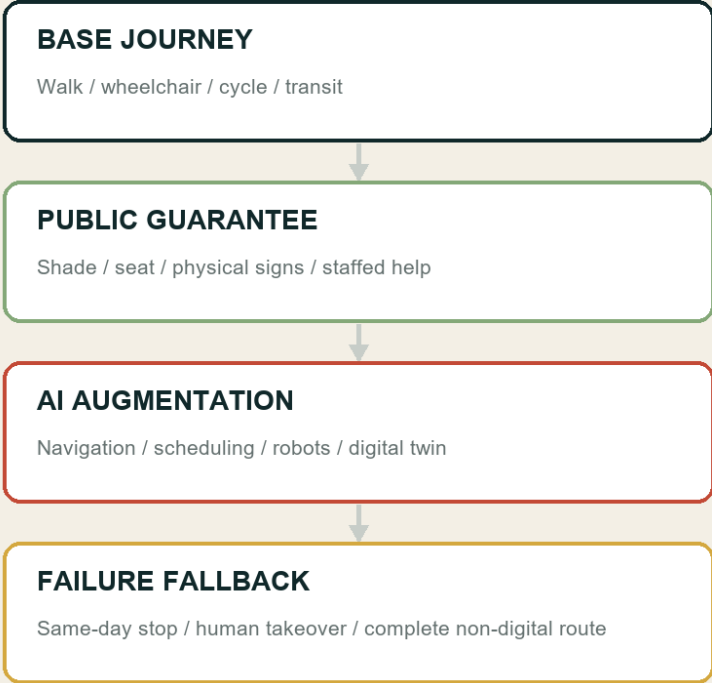

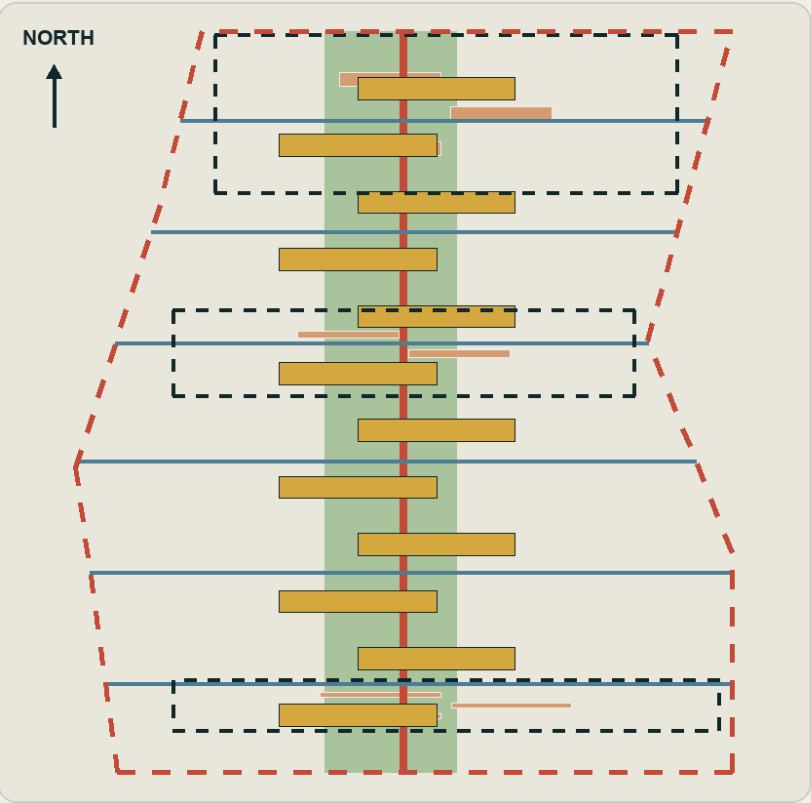

Mobility, utilities and public service

One north-south walking Baseline, six east-west need corridors and complete non-digital service. Water, power, fire and emergency systems remain independently safe when AI fails.

WALKING, BLUE-GREEN AND NON-DIGITAL ALTERNATIVES

A person's journey and public service remain complete when an algorithm exits or power fails

PROVISIONAL BOUNDARY · CONCEPTUAL · EPSG:4548 RE

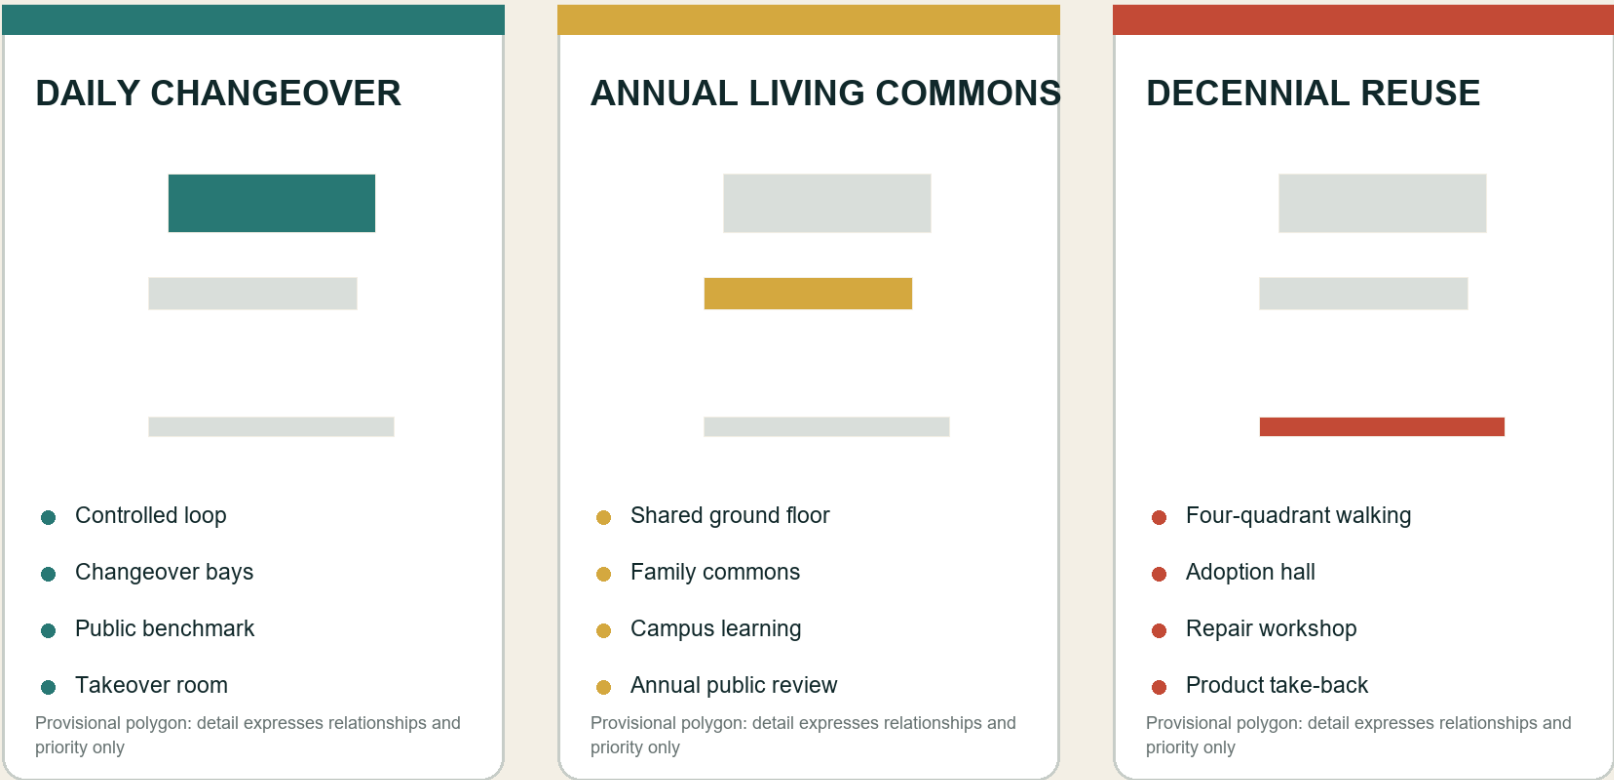

Public space and cultural landmarks

The Century Gauge, Changeover Clock, Offline Commons and distributed archives place memory, accountability, staffed service and maintenance knowledge in everyday space.

THREE AREAS × THREE CHANGEOVER RESPONSIBILITIES

Technical durability → social fitness → adoption and maintenance; no automatic progression

PROVISIONAL BOUNDARY · CONCEPTUAL · EPSG:4548 RE

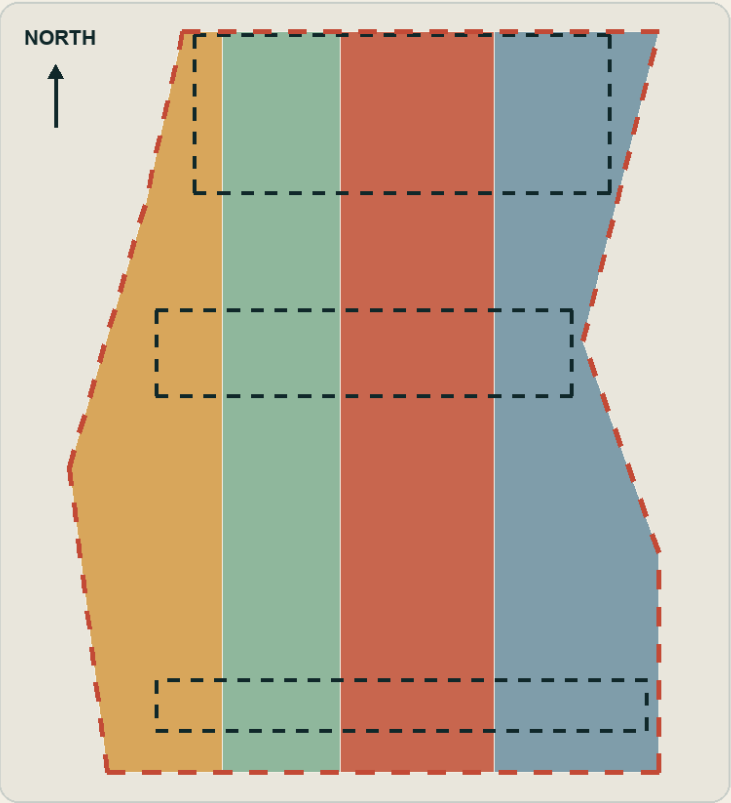

Global cases and ecosystem

Eight cases transfer mechanisms only: mixed renewal, stewardship, linear-park controls, real-world testing, agile pilots, digital foundations, algorithm lifecycle and a neutral research hub.

SLOW-VARIABLE LAND USE AND FOUR CLOCKS

Stable layers protect public commitments; adaptable layers hold life; fast layers host replaceable technology

PROVISIONAL BOUNDARY · CONCEPTUAL · EPSG:4548 RE

- Research + translation
- Century Baseline public green
- Replaceable AI production + service
- Lasting-life community support

- 1 DAY**
Safety, faults, human takeover
- 1 YEAR**
Permit, data, feedback and renewal
- 10 YEARS**
Building use, ground floor and adaptation
- 100 YEARS**
Heritage, blue-green, walking and public rights

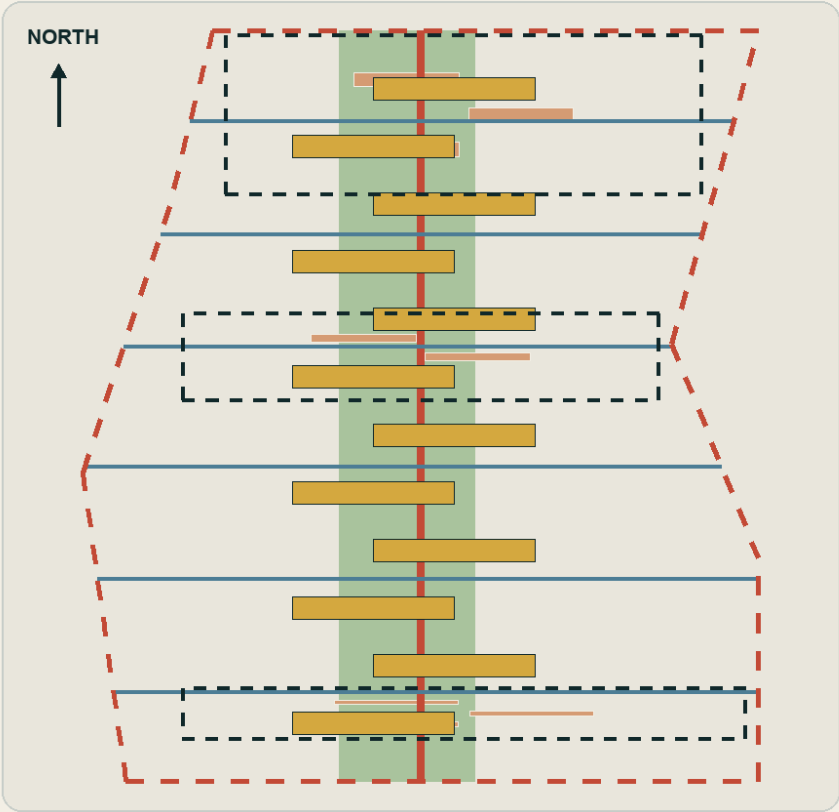

Projects and phasing

Nine packages advance through evidence gates:
low-disruption prototypes first, adaptation only after official
data and professional review, then evaluated expansion,
reconstruction or retirement.

JING-ZHANG SLOW VARIABLES · SPATIAL AND ACCOUNTABILITY

PROVISIONAL BOUNDARY · CONCEPTUAL · EPSG:4548 RE

1 ZHONGZHIYUAN · DAILY CHANGEOVER
Full-stack durability / human takeover

2 AI ORIGIN · ANNUAL LIVING COMMONS
Near-campus translation / talent and family stay

3 DAZHONGSI · DECENNIAL REUSE YARD
Adoption, maintenance / product take-back

Every AI scenario: owner + review date + human takeover +
non-AI route + end-of-life destination

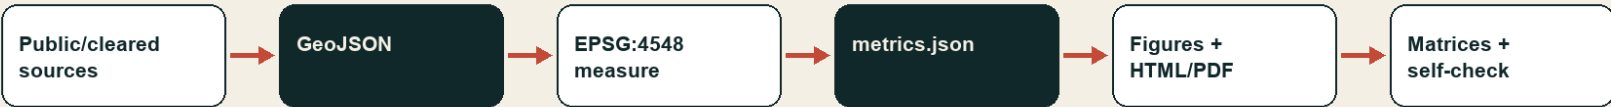

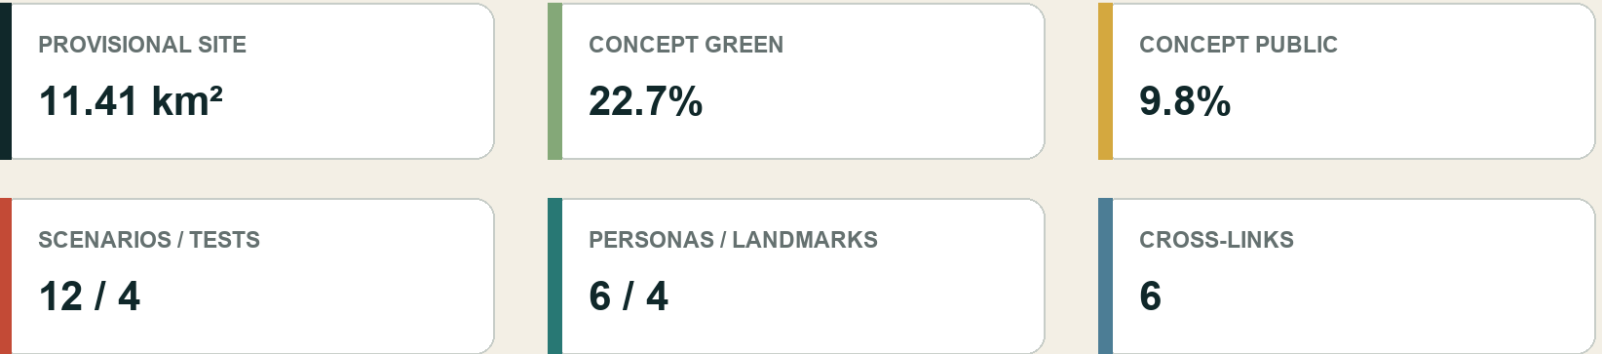

Metrics and recalculation

Provisional area 11.41 km², conceptual green ratio 22.7%, conceptual public-space ratio 9.8%. All are package-internal and recalculable.

CORE METRICS AND EVIDENCE CHAIN

GeoJSON is authoritative; figures, HTML and PDFs are derived explanations; provisional limits follow every output

PROVISIONAL BOUNDARY · CONCEPTUAL · EPSG:4548 RE

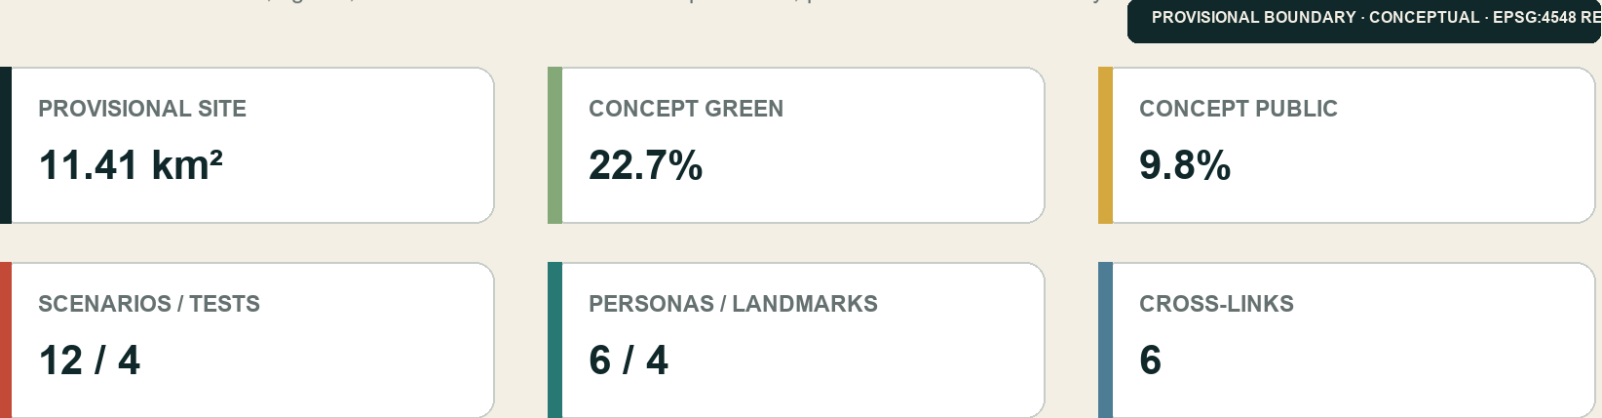

Statutory controls, official boundaries, surveyed buildings, utilities and heritage conditions remain pending; no approval can be inferred.

Risk, copyright and hand-off

No fabricated boundaries, zoning, ownership, building, utility or heritage controls; no external images or brands copied. The package is for open-call review and further qualified professional development.
