

算得更近，城市更稳 / Compute Closer, Keep the City Steady

Current geometry is the repository's provisional rough extent, not an official redline. Areas support concept comparison only.

JUST ENOUGH JING-ZHANG: AN AI BELT THAT CAN SAY NO

EVIDENCE LEVELS · THREE SCALES · SIX ADOPTION GATES · OFFLINE PUBLIC SERVICE

01 / 05

N

LM-01

LM-02

LM-04

LM-03

PROVISIONAL OVERALL AREA / THREE PROVISIONAL KEY AREAS

THREE EVIDENCE LEVELS: INFERENCE NEVER IMPERSONATES FACT

OFFICIAL PUBLIC

Tasks, scope names, approximate announced areas

PROVISIONAL CONSTRAINT

Concept location and recalculation only

DESIGN PROPOSAL

Reversible, replaceable, pending professional development

SIX ADOPTION GATES

1

NECESSITY

2

MINIMUM DATA

3

MODEL + RESOURCE

4

OFFLINE EQUIVALENT

5

ACCESS + SAFETY

6

HUMAN OWNER + EXIT

COMPUTE CLOSER, KEEP THE CITY STEADY.

AI is adopted only when it proves better than the no-AI baseline.

CONCEPTUAL VISUALIZATION · PROVISIONAL ROUGH BOUNDARY (NOT AN OFFICIAL REDLINE) · AREAS RECALCULATED IN EPSG:4548 · 2026-08-12

- PRI-01 · Minimum Sufficient Model

Could the task be done equally well without AI?
- PRI-02 · Near-Edge First

Can the data remain where it is produced?
- PRI-03 · Offline Usability

After disconnection, can the public continue without technical assistance?
- PRI-04 · Graceful Degradation

Is the degradation path continuous, visible, and rehearsable?
- PRI-05 · Visible Resources

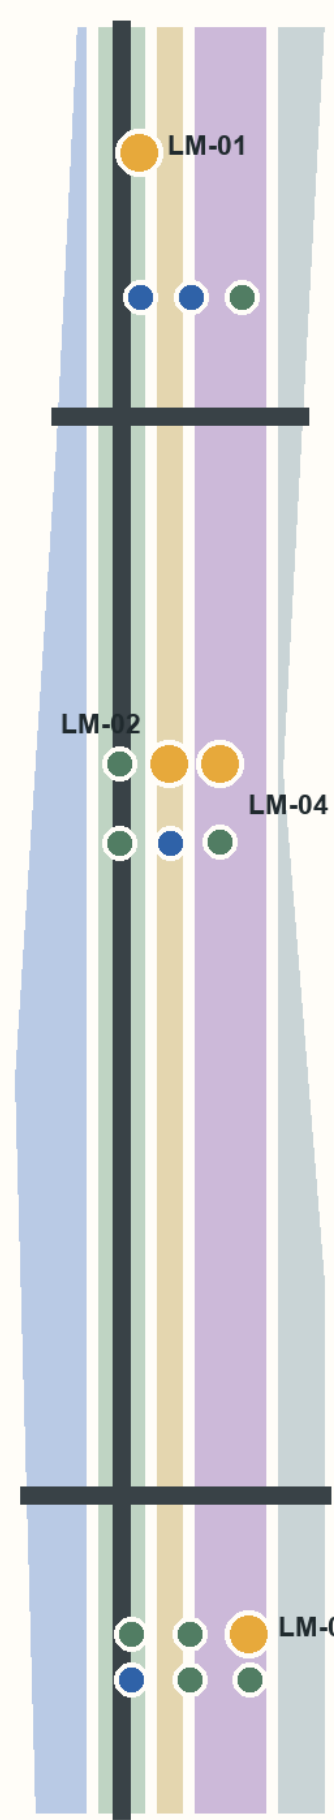

Can the public see what the system consumes and who is responsible?
- PRI-06 · Human Final Judgment

Who can overrule the model, and where can the public appeal?

ONE SPINE · THREE FIELDS · TWO WINGS · TWELVE NODES

A COMPLETE TOPOLOGICAL PARTITION, NOT DECORATIVE CONCEPT BANDS

02 / 05

TOPOLOGY: UNION(LAND USE) = SITE / OVERLAP < 1 m²

CONCEPT LAND USE

- 0802 **SMALL-MODEL R&D + VALIDATION**
2,415,629 m²
- 1401 **NEAR-INTELLIGENCE GREEN SPINE**
2,330,406 m²
- 0803 **CULTURE + PUBLIC LEARNING**
1,553,603 m²
- 05 **INDUSTRY + CIVIC SERVICE**
3,366,137 m²
- 0702 **COMMUNITY + EVERYDAY SERVICE**
1,747,059 m²

LANDMARK = AMBER
TEST = COBALT
PUBLIC SERVICE = GREEN

ALL LINES AND POLYGONS ARE CONCEPT PROPOSALS;
THEY ARE NOT STATUTORY LAND, ROAD, OR BUILDING CONTROLS.

CONCEPTUAL VISUALIZATION · PROVISIONAL ROUGH BOUNDARY (NOT AN OFFICIAL REDLINE) · AREAS RECALCULATED IN EPSG:4548 · 2026-08-12

THREE FIELDS: PROVE, CO-CREATE, ADOPT

EVERY LANDMARK IS A PUBLIC PROCEDURE THAT CAN STOP, DEGRADE, AND ACCEPT APPEAL

03 / 05

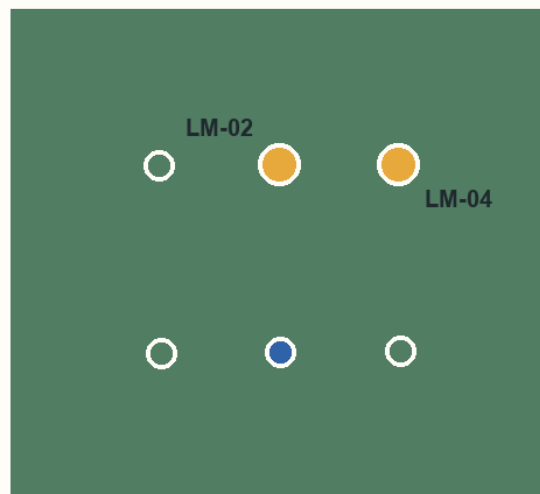

ZHONGZHIYUAN · SMALL-MODEL PROVING FIELD

Compare baselines before models; a failed trial is still public knowledge.

- SCN-07 On-Device Model-Scale Experiment
- SCN-09 Low-Speed Robot Yielding Trial
- SCN-11 Small-Model Update and Repair Station
- ▲ LM-01 Just Enough Zero Station

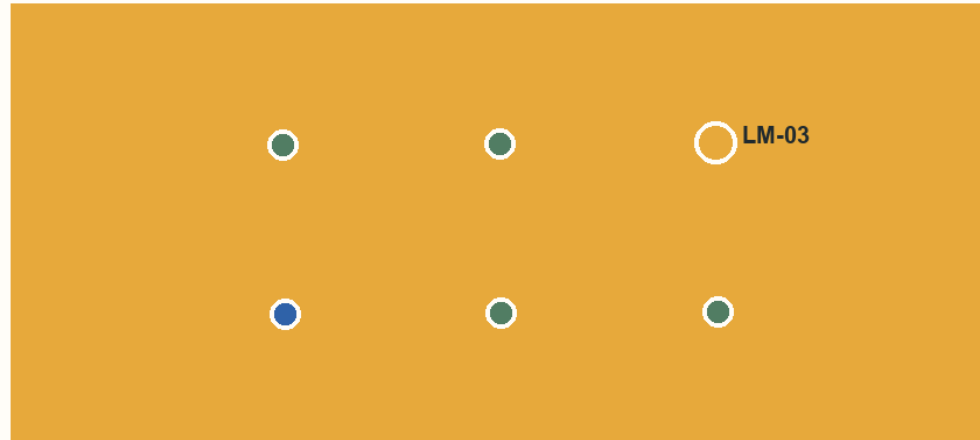

BEIJING AI ORIGIN · OFFLINE CO-CREATION FIELD

No account, bilingual, accessible; users receive the power to correct the model.

- SCN-01 Offline Multilingual Guide
- SCN-02 Accessible Near-Edge Navigation Trial
- SCN-06 Jing-Zhang Cultural Story Small Model
- SCN-12 Public-Comment Summarizer
- ▲ LM-02 Offline Co-Creation Court
- ▲ LM-04 Compute Milestones

DAZHONGSI · NEAR-INTELLIGENCE ADOPTION FIELD

Adopt only services with a human owner, offline equivalent, and funded exit.

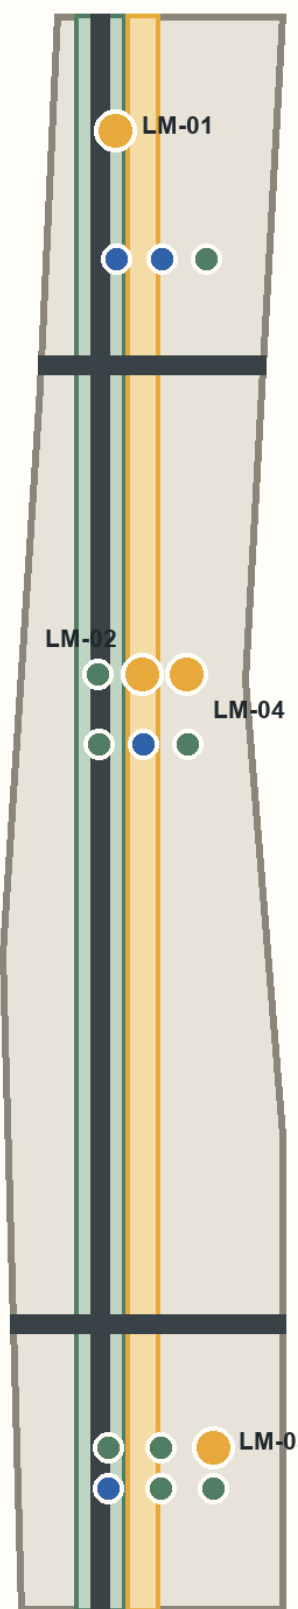

- SCN-03 Lightweight Public-Service Q&A Trial
- SCN-04 Microclimate Stay Advice
- SCN-05 Facility Repair Assistant
- SCN-08 Offline Emergency Information Board
- SCN-10 No-Account Event Reservation
- ▲ LM-03 Near-Intelligence Market

CONCEPTUAL VISUALIZATION · PROVISIONAL ROUGH BOUNDARY (NOT AN OFFICIAL REDLINE) · AREAS RECALCULATED IN EPSG:4548 · 2026-08-12

SPACE FIRST, AI ENHANCES, FAILURE DOES NOT END PUBLIC SERVICE

NEAR-EDGE WAYFINDING · GREEN SPINE · THREE-LEVEL DEGRADATION · STAFFED ACCESS

04 / 05

THREE LEVELS FOR EVERY SERVICE

01 CONNECTED ENHANCEMENT

Updated content; raw data do not travel by default

02 LOCAL MODE

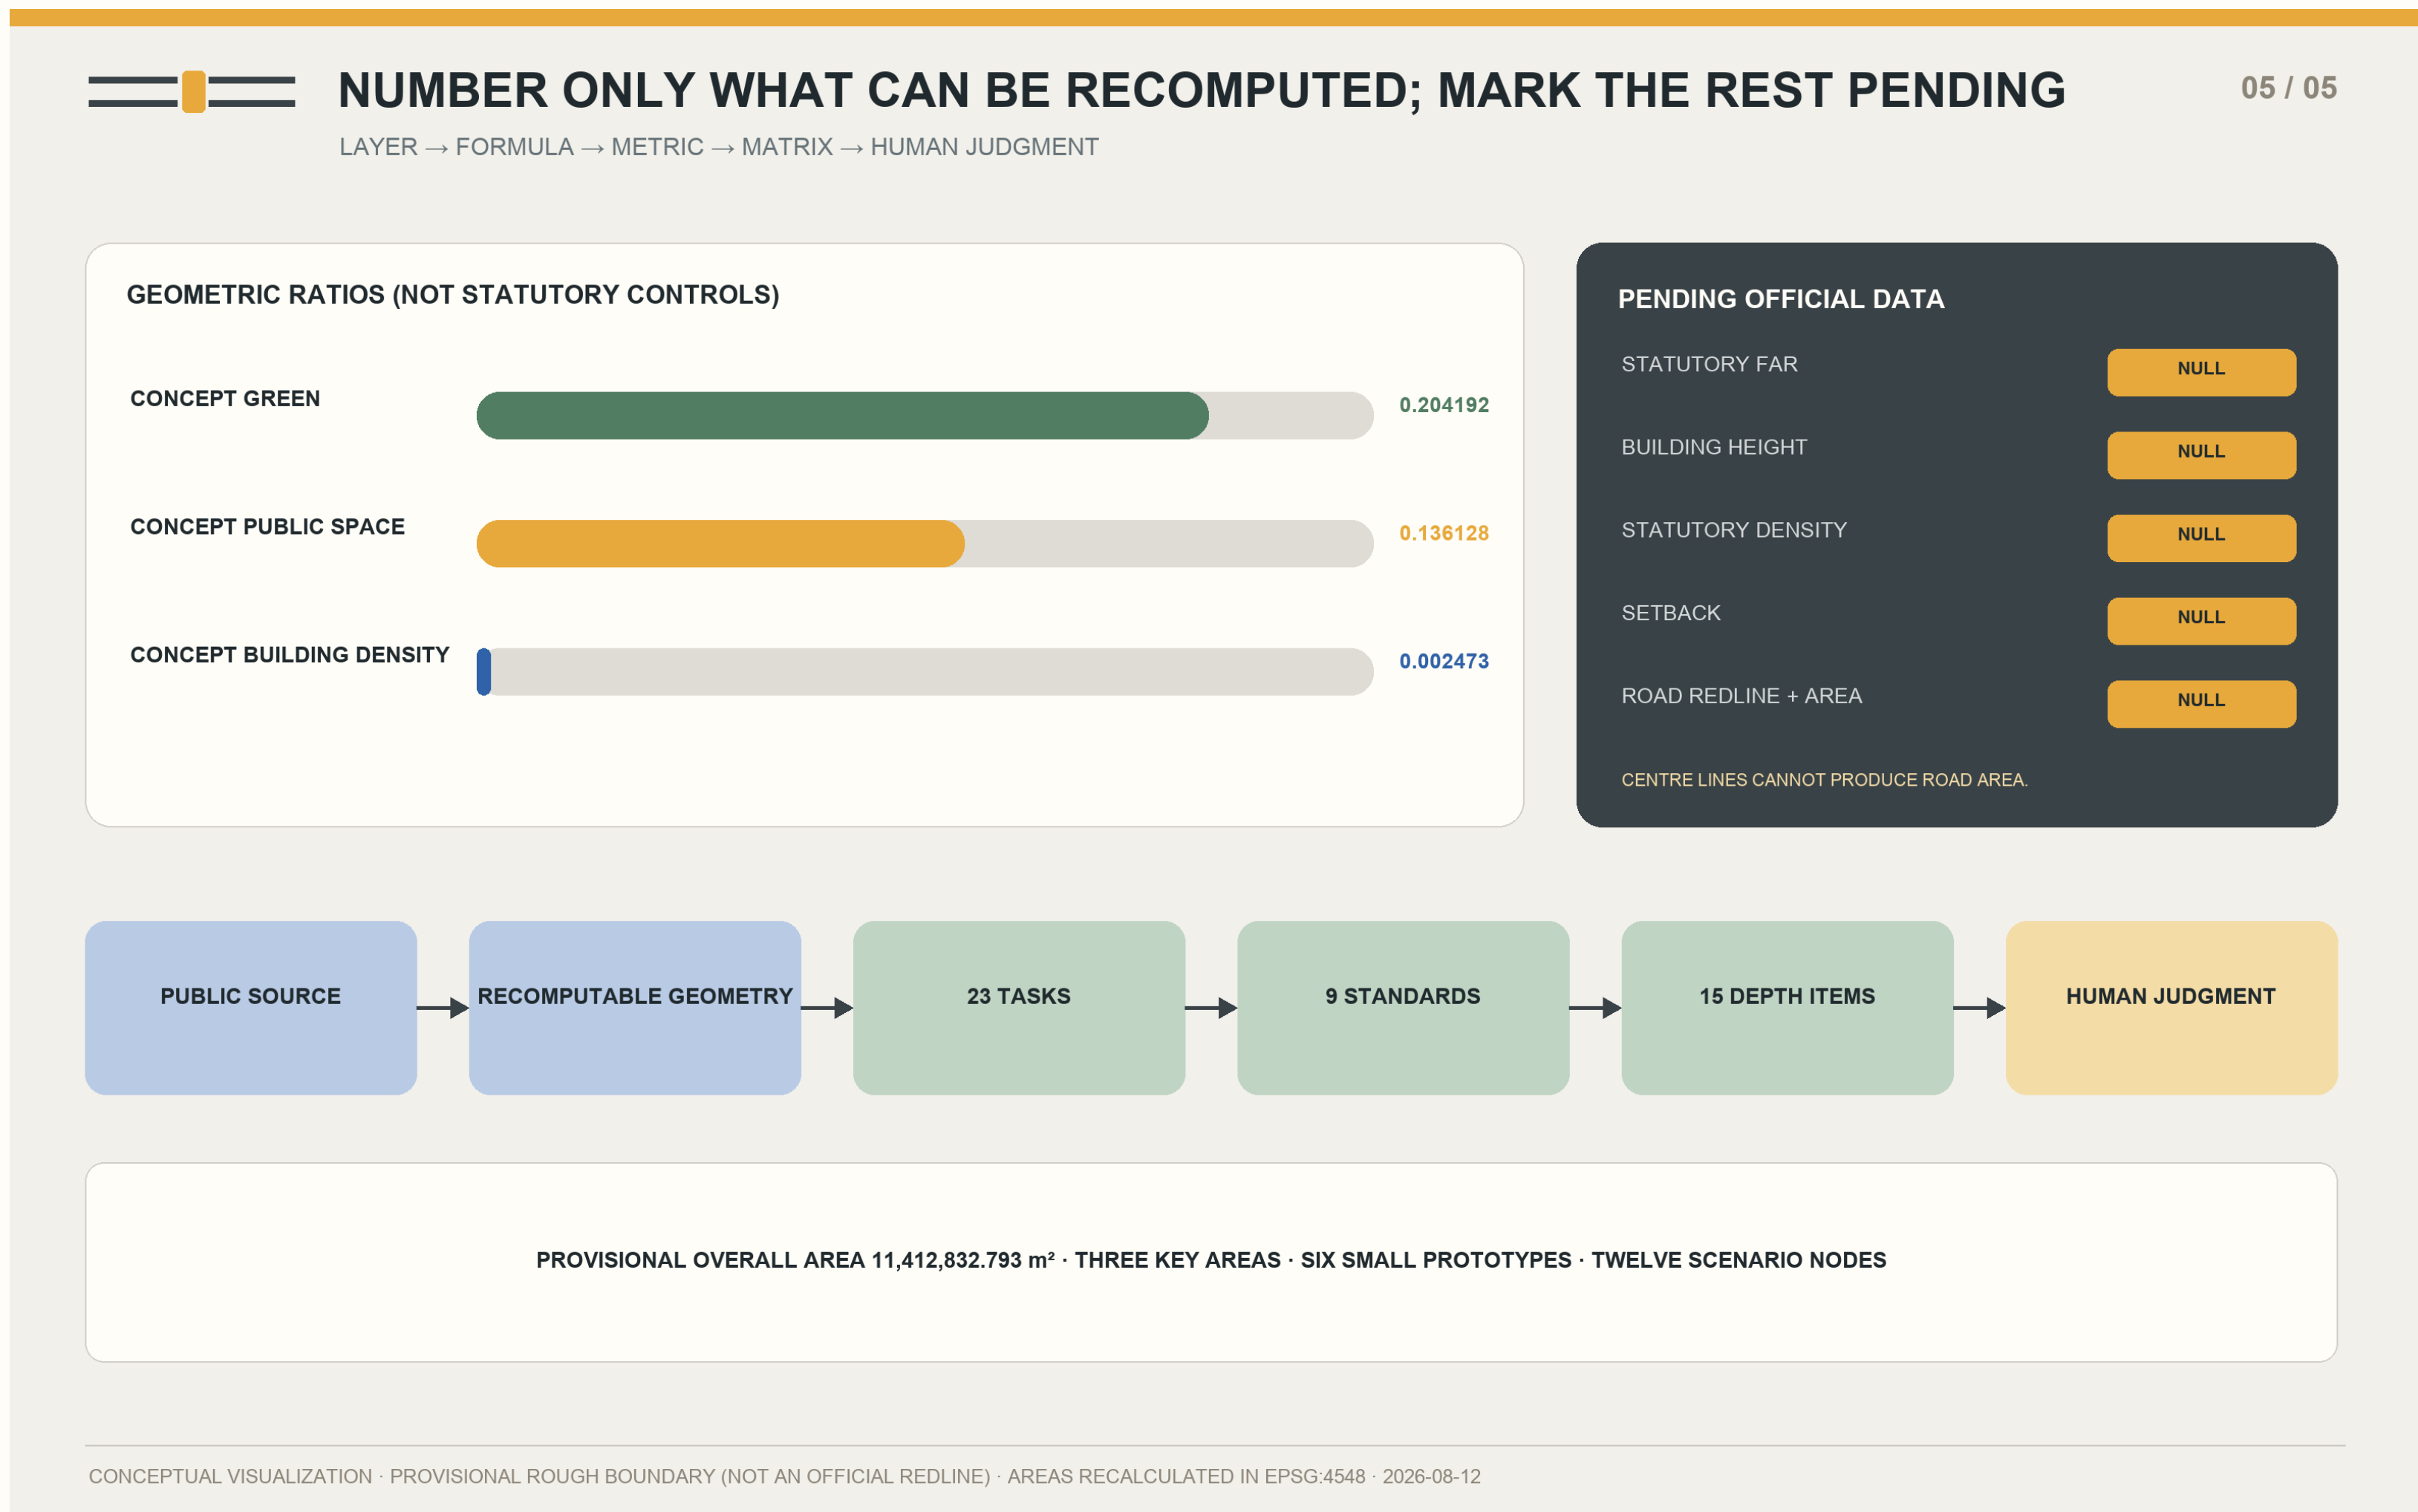

Signed content pack, local inference, no account

03 HUMAN / CONVENTIONAL

Paper map, mechanical sign, telephone, and staff

SPATIAL BASE: RAMP / TACTILE / CONTRAST / REST / WATER
OPERATING BASE: OWNER / UPDATE / DRILL / APPEAL / EXIT

CONCEPTUAL VISUALIZATION · PROVISIONAL ROUGH BOUNDARY (NOT AN OFFICIAL REDLINE) · AREAS RECALCULATED IN EPSG:4548 · 2026-08-12

SCN-01 · Offline Multilingual Guide

Paper bilingual maps, place numbers, and offline audio packs remain available.

SCN-02 · Accessible Near-Edge Navigation Trial

Tactile paving, high-contrast signs, and human-verified accessible routes form the base system.

SCN-03 · Lightweight Public-Service Q&A Trial

A searchable static FAQ, telephone list, and in-person service directory remain available.

SCN-04 · Microclimate Stay Advice

Shade maps, water points, rest points, and heat-warning signs remain visible.

SCN-05 · Facility Repair Assistant

Assets retain QR labels, paper quick guides, and duty phone numbers.

SCN-06 · Jing-Zhang Cultural Story Small Model

Paper story cards, a timeline, and archive numbers work independently.

SCN-07 · On-Device Model-Scale Experiment

Static baselines, paper scoring, and a model-free rule system serve as controls.

SCN-08 · Offline Emergency Information Board

Mechanical flip panels, photoluminescent maps, broadcasts, and human marshals remain in place.

SCN-09 · Low-Speed Robot Yielding Trial

The loop has physical separation, human observers, mechanical stops, and robot-free time windows.

SCN-10 · No-Account Event Reservation

On-site ticketing, telephone registration, and a staffed standby list remain open.

SCN-11 · Small-Model Update and Repair Station

Every device retains the last verified version and a complete non-AI mode.

SCN-12 · Public-Comment Summarizer

A full comment index, human topic tags, and a paper comment wall remain open.

4 PILGRIMAGE LANDMARKS

LM-01 · Just Enough Zero Station

A civic-task station that publicly compares no AI, a small model, and a remote model. Model-scale trials, rollback repair, and the six adoption gates

LM-02 · Offline Co-Creation Court

A public living room for design, storytelling, and deliberation without accounts or persistent connectivity. Bilingual stories, accessible navigation, and traceable public comment

LM-03 · Near-Intelligence Market

A visible civic-adoption front desk combining lightweight public services, daily repair, and no-account events. Public-service Q&A, microclimate rest, and emergency degradation

LM-04 · Compute Milestones

Small public-information nodes along the heritage park that make compute location, resource targets, updates, and ownership legible. Resource displays, offline maps, human help, and non-AI equivalents

OWNER · UPDATE · DRILL · APPEAL · EXIT

Current geometry is the repository's provisional rough extent, not an official redline. Areas support concept comparison only.
