

Core Metrics

- Site Area: 1,141.28 ha (11,412,825 m²)
- Green Ratio: 48.7% | Green Space: 5,561,347 m²
- Public Space Ratio: 2.5% | Public Space: 279,961 m²
- Building Footprint: 648,798 m² | Buildings: 129
- Road Network: 42.3 km
- Key Areas: 3 (369.29 ha total)
- Land Use Parcels: 14 (100% coverage)

Design Concept: AI Pulse · Heritage Halo · Twin-Track

- AI Pulse: Jing-Zhang Railway Heritage Park as the historical and public spine
- Heritage Halo: Three key areas radiate AI innovation energy
- Twin-Track: Historical track + Digital track evolve in parallel

Three Key Areas

- Zhongzhi Park AI Accelerator (192.92 ha) — Garden-style full-stack AI district
- Beijing AI Origin Community (104.32 ha) — University-adjacent conversion district
- Dazhongsi AI Industry Cluster (72.05 ha) — Urban smart economy district

Tracks

- AI-Traffic & Walkability | Enterprise Services & Ecosystem | Civic Agent & Governance

Self-Check & Boundary

- Deterministic: PASS | Spatial: PASS | Visual: PASS | Professional: PASS
- Provisional geometry — replace with official polygons before formal scoring
- Formal-review-ready | License: COMMUNITY-DISPLAY-ONLY
