

DIGI JZ - Digital Twin Operations System (Concept, provisional)

Centennial Jingzhang AI Innovation Belt

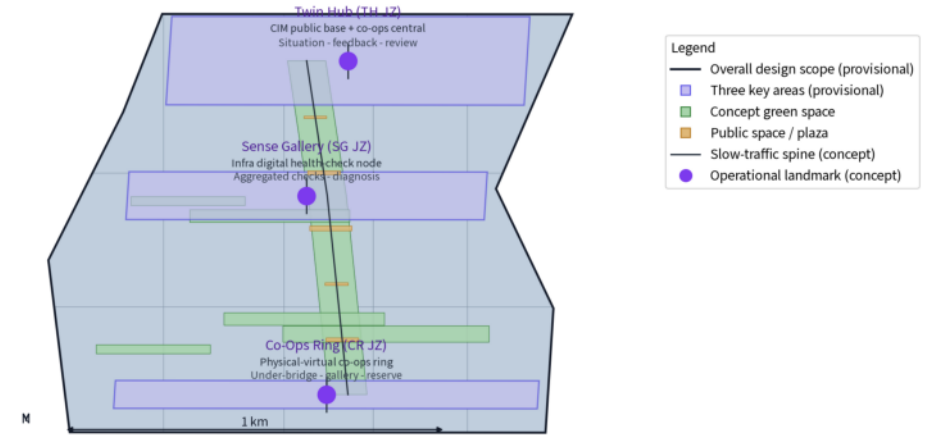

Concept proposal - provisional boundary - recompute after official data

DIGI JZ - Digital Twin Operations System (Concept, provisional) | A3 Booklet 1/2

Overall Design Overview: DIGI JZ One Belt Three Nodes (Concept) PROVISIONAL boundary • not an official redline • recalculate after official data
Overall design scope ~11.4 km² - greenbelt spine - one hub one gallery one ring (provisional)

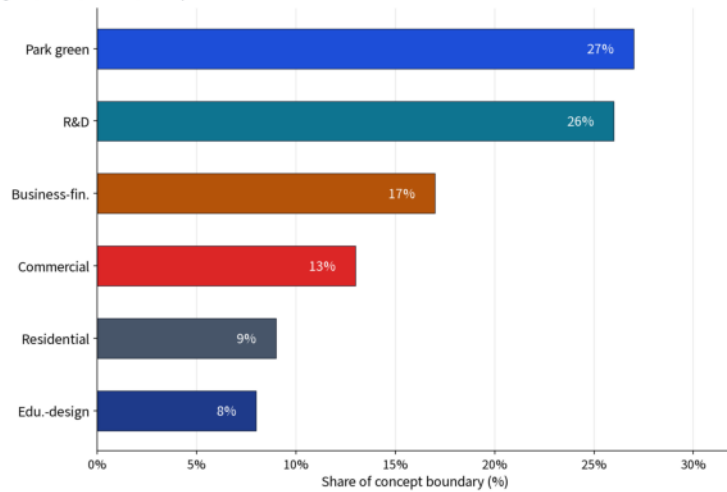

Three Nodes Index & Design Tasks (Concept Locations) PROVISIONAL boundary • not an official redline • recalculate after official data
Twin Hub - Sense Gallery - Co-Ops Ring - one hub one gallery one ring - slow-traffic linkage

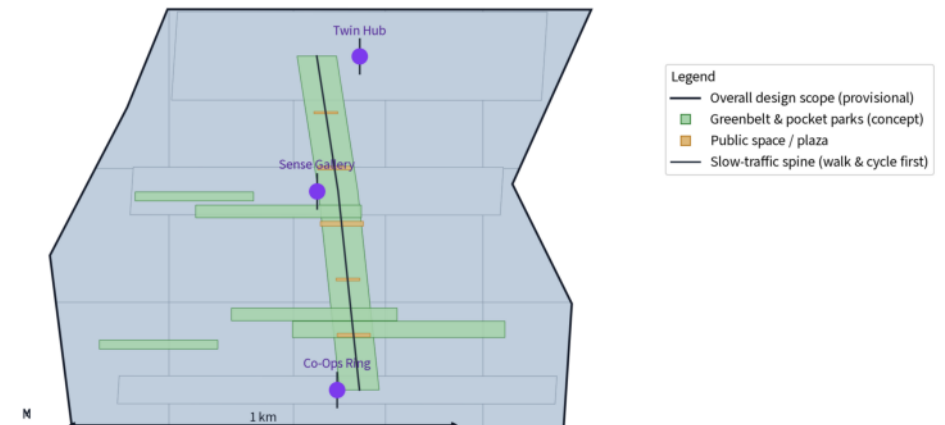

Three nodes differentiated by Zhongzhiyuan, Beijing AI Origin Community, and Dazhongsi key areas; concept sites; final locations follow the organizer's official boundaries.

Conceptual Land-Use Structure (Single Caliber) PROVISIONAL boundary • not an official redline • recalculate after official data
Computed from land_use.geojson under EPSG:4548; six classes rounded to 100% on a single caliber; same formula across figures, HTML, and PDF; recompute after official data.

Class names follow the national Land-Use & Sea Classification Guide; rounded share to integer; recompute after official data.

Slow-Traffic Spine & Blue-Green Space (Concept) PROVISIONAL boundary • not an official redline • recalculate after official data
Continuous slow-traffic axis across three nodes - greenbelt spine - reversible low-impact facilities

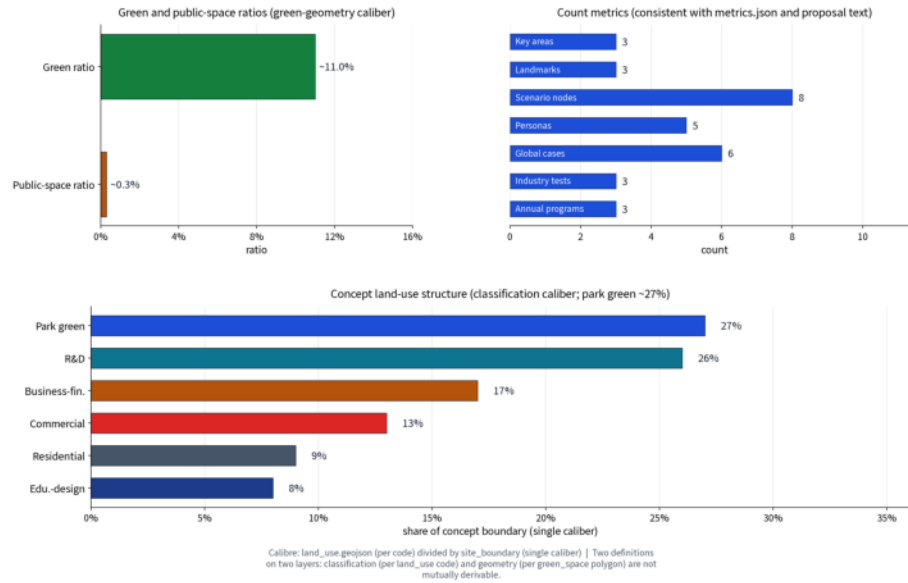

Slow-traffic axis links three concept nodes; blue-green pockets distributed along the JZ Railway Heritage Park greenbelt; facilities reversible, demountable, reusable.

DIGI JZ - Digital Twin Operations System (Concept, provisional) | A3 Booklet 2/2

Core Metric Evidence (ratios on green-geometry + land-use shares + counts)

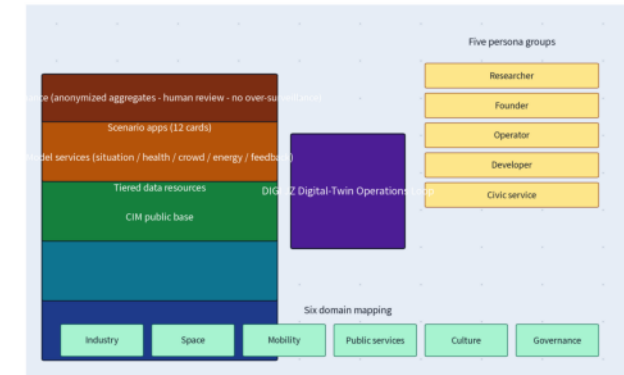

Ratios and counts on separate axes; concept values; recompute after official data.

PROVISIONAL boundary • not an official redline • recalculate after official data

AI Innovation Ecosystem Atlas (Base - Data - Model - Scenario - Gover...

PROVISIONAL boundary • not an official redline • recalculate after official data

Belt structure: one belt - three nodes

Centennial JZ AI Innovation Belt x DIGI JZ

PROVISIONAL boundary • not an official redline • recalculate after official data

Brand Identity Concept: DIGI JZ (internal working codename)

Logo is conceptual (ring + spine + station board); no trademark search completed; treat name as an internal working codename.

PROVISIONAL boundary • not an official redline • recalculate after official data
